Commission Clerk
Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Commission Clerk:

On behalf of JEA, please accept this revision to Question 73 for Staff's Data Request #1. The response has been updated and corrected, as it was initially sourced from outdated forecast data in error. This revised submission reflects the data that supported JEA's 2026 Ten Year Site Plan.

If you have any questions, please contact me by email at brown@jea.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "René Wilson", with a stylized flourish at the end.

René Wilson, E.I.
Electric Systems Engineer
JEA

Fuel Supply & Transportation

73. Please refer to the **Excel Tables File (Fuel Usage & Price)**. Complete the table by providing, on a system-wide basis, the actual annual fuel usage (in GWh) and average fuel price (in nominal \$/MMBTU) for each fuel type utilized by the Utility in the 10-year period prior to the current planning period. Also, provide the forecasted annual fuel usage (in GWh) and forecasted annual average fuel price (in nominal \$/MMBTU) for each fuel type forecasted to be used by the Utility in the current planning period.

[Please see attached revised Excel file.](#)

Notes															
1. 'Coal' GWh and \$/mmbtu consists of coal, petcoke, natural gas, and limestone consumption in JEA Northside Units 1 and 2.															
2. 'Natural Gas' consists of natural gas consumed at JEA units other than Northside Units 1 and 2.															
3. 'Other' consists of biomass consumption
