WE have lived in Buttonwood Bay In Sebring Fl. for four years We have in those four years experienced water outages ,horrible smells from the water, low water pressure, More times than you can count My medical condition aside a rate increase seems to be un warranted at this time due to all the issues and problems Many people here are on a limited income .

With the way prices have increased it seems very un fair at this time.

In the end it dose not matter what I think the rich guys will get their way and the the little people will get the shaft once more
