Customer Comments:

Why should we who are seasonal dwellers 4-6 months per year have to be paying the higher rates?
The water quality over the past years is sub standard... brown water... a strong swampy odour... messages to say boil water...
A lot of us do not drink the tap water or cook with it. We pay water rates then go out and buy bottle water to drink and cook with it.
WE need an upgrade to the water system in Buttonwood Bay but the proposed rate hike is ridiculous for the service we are being provided.

A concerned seasonal (winter) resident.
