Is Florida City Gas out of their minds? I just received notice that they want to more than double current usage rates! Have they seen how the economy is? Their rational is they spent a little money on alleged upgrades. I for one have seen none of this. I've lived in my house for over 25 years and have yet to see a Florida City Gas truck much less work being done in the neighborhood. I for one vehemently object to this cash grab! I hope for once the PSC listens to the actual consumers and not the corporations that are lining your pockets! First FPL is ripping us off now Florida City gas wants in? I used to pay around \$30 a month and for the last year it's gone up to \$40-\$45 a month with no "approved" rate increase! When is this going to stop?

Govern yourselves accordingly,
