Comment: I am objecting to this outrageous increase for my water and sewer. My parents ere founding residents in this park, and the water quality has been questionable as far back as I can remember. I moved here in 2001 to live with my mother after my father passed away I experienced the water outages, low pressure, boil water notices, and absolutely undrinkable, terrible water. We are required to water our lawns, when everyone is watering the pressure is so low you can not shower or wash dishes.

I live on a fixed income, only on my social security This increase will create a financial hardship and should not be granted because the water is still unfit to drink. I am opposed to this increase and ask that you reconsider and DENY the utility this increase.
