Subject: Buttonwood Bay water Docket 20250122

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

We are residents of Buttonwood Bay in Sebring Florida and we are opposed to their application to increase the water rates. There has many years of neglect as the water quality is less than adequate. We often get boil water advisory and yellow water. The smell of the water is horrible and does not make anyone want to drink it.

A large increase is not warranted as it was years in the making.

Yours truly
