Subject: Please Help With FPL Complaint

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello, I reside at 8345 Antwerp Circle, Port Charlotte, FL 33981 and have been having Ongoing Power supply issues with FPL, for many years now as have all my neighbors. Today alone I lost power 4 times hence with all my neighbors in South Gulf Cove over 5K customers and the Bizarre part FPL took off my home a recording meter because of the constant outages/ brownouts ! I have had Zero luck with FPL fixing this issue and I am asking for your help before FPL's parent company NEXTERA needs to address this ASAP ! I just filed a formal complaint with the Florida Attorney General's office because FPL knowingly knows about the ongoing problems and refuses to fix them properly ! Really sick of the Excuses from FPL , example (Lighting, Weather) Today not a cloud in the sky or just continuous excuses from FPL ! I have also filed complaints with the Florida Public Service Commission and also Zero Help ! Our power company is supposed to supply Safe Reliable Energy at a Reasonable cost ! Iran (a third world country) has more reliable Power than FPL.

This has been an ongoing issue for over 20 years and I have the documents to prove ! I am asking very politely to Please do a forensic Audit of FPL / NEXTERA and see what they are really doing with customers money because clearly they are not serving its customers fairly or reliably ! Any questions please reach out.

Best regards,

Anthony Pacelli
