Comment: I am writing as a Florida City Gas customer to express my concern with the proposed rate increase. I understand the importance of maintaining safe and reliable infrastructure, but this increase is excessive given today's unstable economic climate. All working families are facing higher costs for insurance, taxes, groceries, and other essentials, while many people are receiving little or no pay increase. Even when pay raises are given to the common working families, they are typically only 3% to 5%, nowhere near the massive increase being requested. I respectfully ask the Florida Public Service Commission to carefully consider a smaller or phased-in approach that better reflects the financial realities facing Florida families.

Thank you for your consideration.

Mike DeSanto
