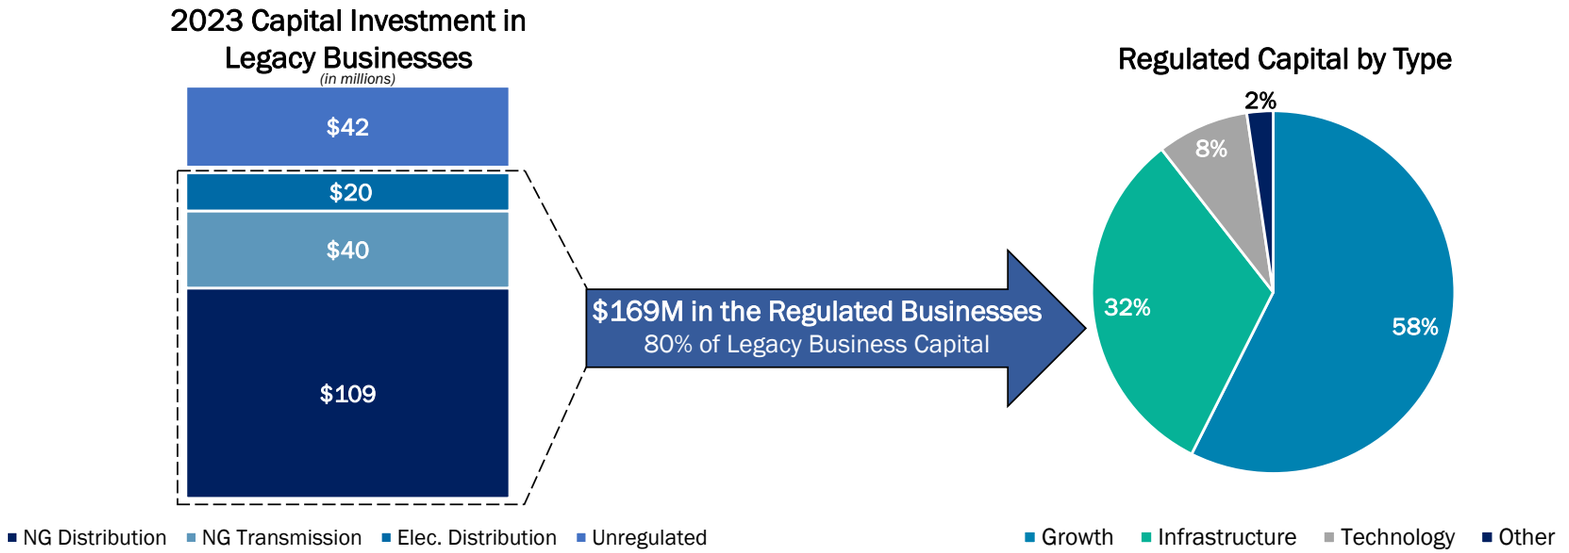
In 2023, we invested $211 million in our legacy businesses, with 80% of that in our regulated operations



Customer growth in our service jurisdictions remains strong and will continue to drive significant capital investment through the 2028 guidance period

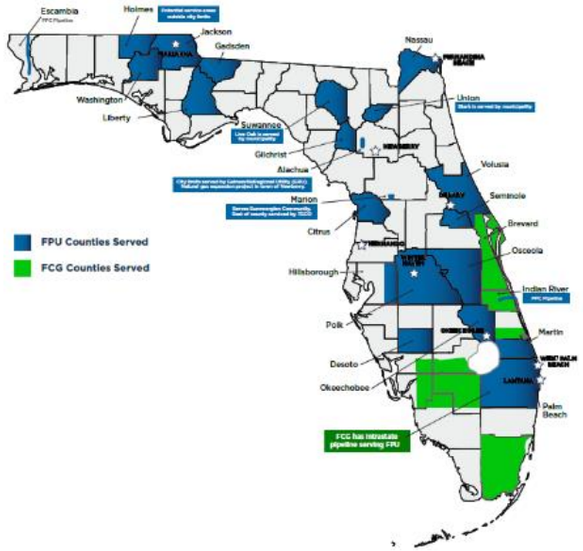
Florida City Gas Acquisition and Integration Progress

178 Florida City Gas employees joined the Chesapeake Utilities Corporation team

Expands Platform in Florida
High growth utility jurisdiction; gas system expansion opportunities

Enhances Scale and Efficiency
CPK has extensive operational and regulatory expertise

Financial Benefits
Builds on CPK's track record of successful M&A



Largest acquisition in CPK history completed on November 30, 2023

- Financed with net proceeds of an equity offering of $366M and $550M of uncollateralized senior notes
- Immediately more than doubled our customer base in Florida

Integration efforts are ongoing and will continue throughout 2024

- Introduced HyperCare team to make "Day One" and near-term onboarding process as smooth as possible
- Anticipate successful integration and moving forward together as one company
- Operating synergies to continue in 2024 with expected additional benefit in future years

Historical Earnings and Dividend Performance

Long history of industry leading earnings and dividend growth

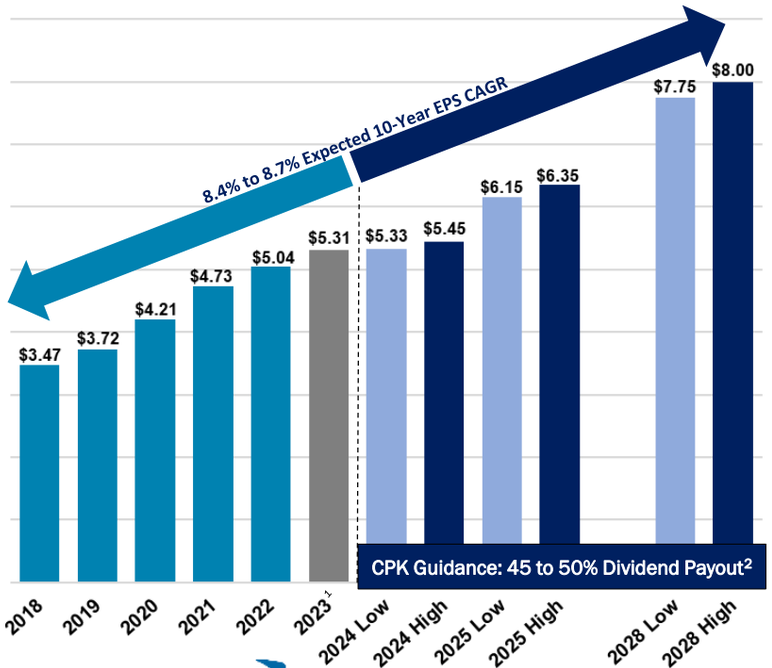
Earnings Outlook Remains Bright

Future earnings expected to drive increased shareholder value

Earnings Per Share - Diluted



Earnings Growth Driven by Capital Investment

- 2023 Earnings Per Share of $5.31[1]
  - ~9% CAGR over last 10 years
  - 17 yrs of consecutive Adjusted EPS growth
- **2024 EPS Guidance of $5.33 to $5.45**
- **2028 EPS Guidance reiterated: $7.75 to $8.00**

Dividend Growth Supported by Earnings

- 20 Consecutive Years of Dividend Increases
- Current Annualized Dividend of $2.36/share
  - ~9% CAGR over last 10 years
- **Targeting Long-term DPO of 45 - 50%[2]**
  - Enables CPK to reinvest more back into growth plan

Best in Class Shareholder Return

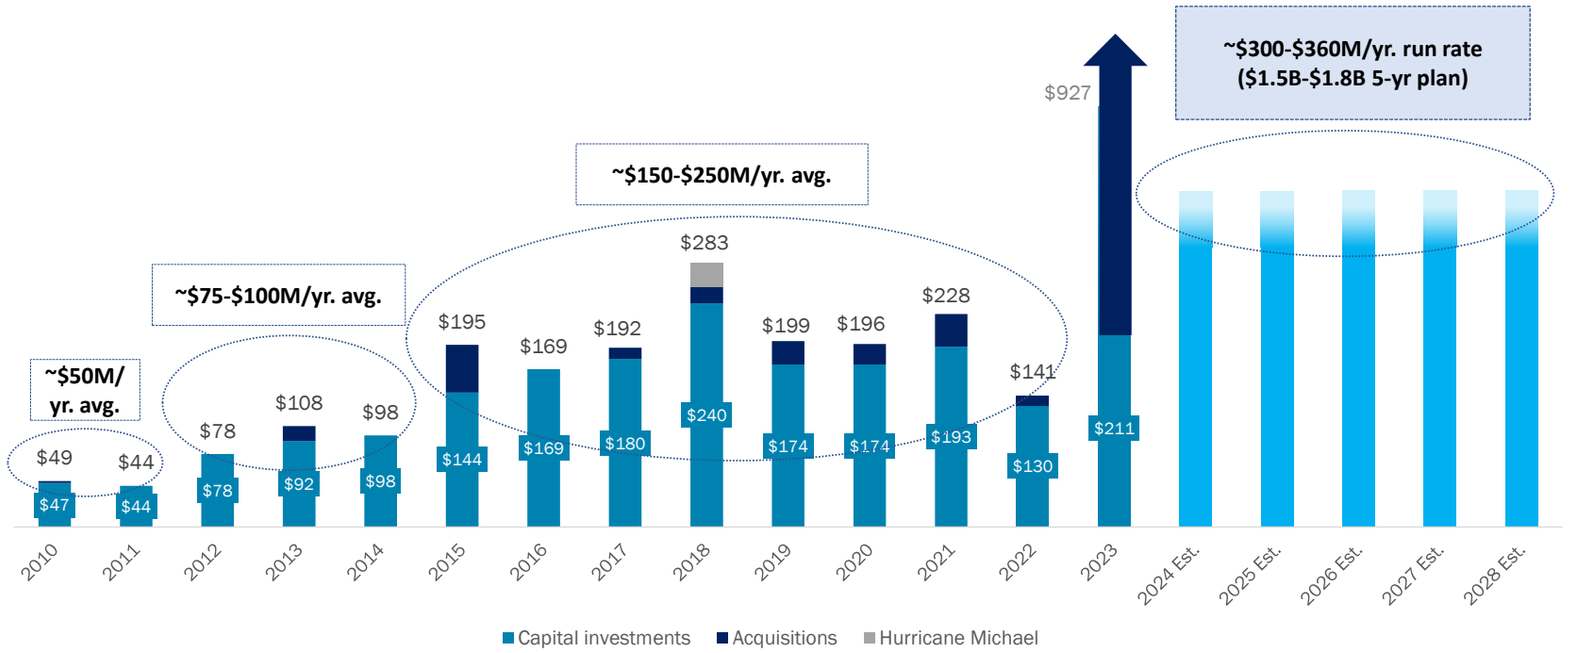
- Annual shareholder return >85th percentile among peer group[3] the past 5, 10, 15 & 20 year periods
- >300% increase in stock price over the past 15 years drives a $2.1B Increase in Market Cap
- Highest P/E[4] ratio in peer group[3] at year end 2023

[1]Adjusted EPS excludes transaction-related expenses incurred attributable to the acquisition of FCG
[2]Future dividends are subject to board approval
[3]Peer Group includes select group of 10 CKP peer companies. Details can be found in the Annual Report on Form 10-K
[4]Price-to-Earnings ratio based on analyst consensus next twelve months EPS

CHESAPEAKE UTILITIES CORPORATION

Long Track Record of Capital Investment Expected to Continue

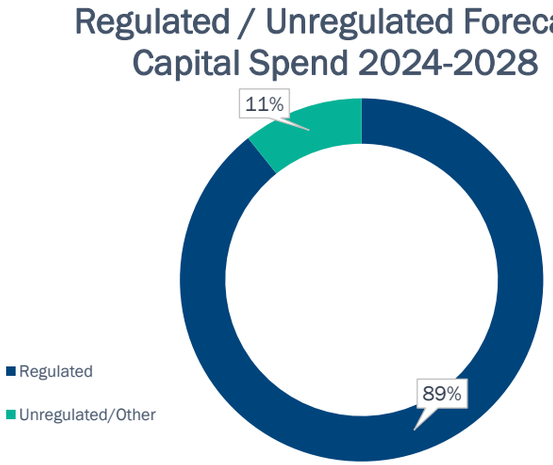
Our capital investment plan guidance is $1.5B-$1.8B for 2024-2028.



Amounts in chart reflected in millions

5-year Projected Capital Expenditures Breakdown

89% of our 5-year capital expenditure plan is projected to be invested into our regulated businesses.



Key Drivers of Investment Plan

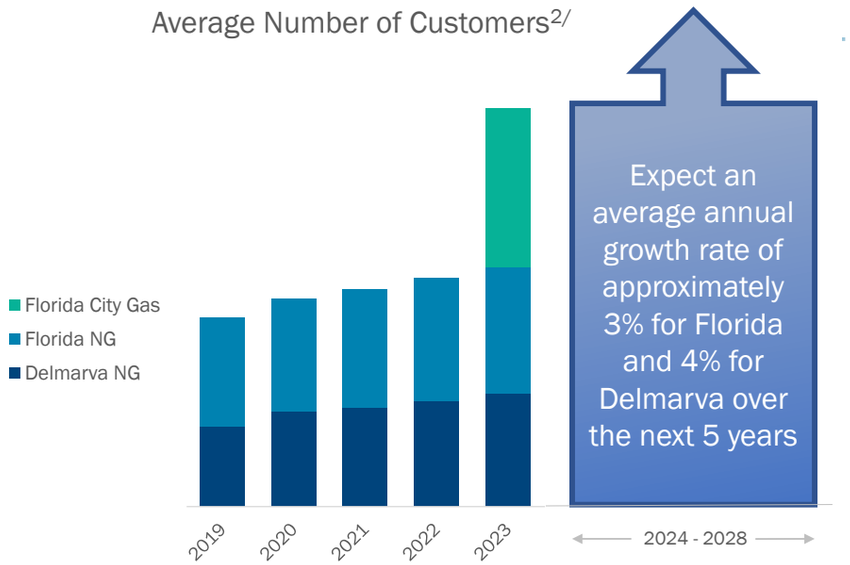
- Investment in natural gas distribution systems to serve growing customer base and ensure safety and reliability (both legacy systems and FCG)
- Investment in gas transmission pipelines to support the utility systems, serve large users and uphold safety and reliability, including pipeline opportunities related to the FCG acquisition
- Investments in our unregulated operating business to support continued growth
- Investments in sustainable energy, such as pipelines and interconnects, to create a pathway to market for sustainable fuels
- Investments in technology to support enterprise resource planning and other systems necessary to support growth

Spend Type	5-Year Projected Capital Investment Range (in millions)
Regulated Distribution Growth	$600 - $645
Regulated Transmission Growth	$435 - $590
Regulated Infrastructure	$300 - $340
Unregulated	$140 - $165
Technology	$70 - $90

CHESAPEAKE UTILITIES CORPORATION

Regulated Natural Gas Distribution Customer Growth

Our average annual residential customer growth rate for our legacy natural gas distribution businesses far outpaces the national average annual customer growth rate[1/].



- Above average annual growth rate for residential customers over the period 2021 to 2023
- From April 2020 to July 2023, Florida ranked 2nd in the nation for population growth [3/]
- Our Delaware service territory includes Sussex County, the fastest growing county in the state [3/]
- Growth in the Maryland counties we serve outpaced statewide growth [3/]
- As of the end of 2023, current backlog of 60,000 lots in existing communities

CHESAPEAKE UTILITIES CORPORATION

[1/] Source: EIA. Over the period 2019-2022, the latest year available, the average annual natural gas distribution customer growth rate in the U.S. was approximately 1%.
[2/] FCG customer count reflects number of customers as of December 31, 2023
[3/] U.S. Census Bureau, Population Division

Major Projects and Initiatives Update

Our projects and initiatives underway will continue to drive margin growth while new projects and regulatory initiatives will drive additional margin growth across our guidance period

Project/Initiative *(in thousands)*	Year Ended December 2021	2022	2023	Estimate for Fiscal 2024	2025
Pipeline Expansions:

Year-Over-Year Change				$ 14,882	$ 10,991

New projects in various stages of the regulatory / permitting process

Worcester Resiliency Upgrade Project - $80 million

- LNG storage peaking facility to meet critical service needs on the Delmarva Peninsula

East Coast Reinforcement Projects - $35.8 million

- Two projects (Boynton Beach and New Smyrna Beach) to increase supply capability and enhance reliability for FPU's distribution systems

Central Florida Reinforcement Projects

- Two projects (Plant City, Lake Mattie) to enhance delivery to FPU's distribution systems

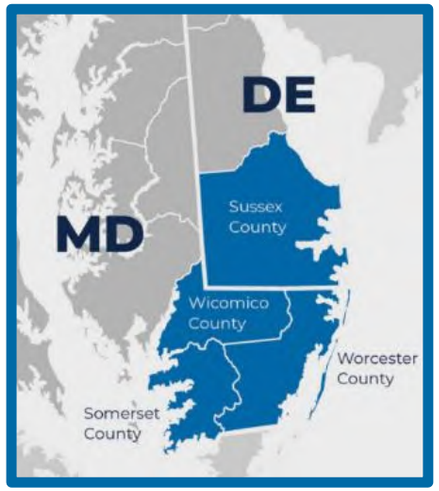
FCG RNG Projects

- Several projects pending to connect locally landfill-produced RNG to FCG's distribution system

[1] *Includes adjusted gross margin generated from interim services through the project in-service date in September 2023.*
[2] *Includes adjusted gross margin during 2023 comprised of both interim rates and permanent base rates which became effective in March 2023.*
[3] *Rate case application filed with the Maryland PSC in January 2024.*

Federal Certificate Proceeding: Worcester Resiliency Upgrade

Eastern Shore Natural Gas project designed to meet critical energy service to customers during the peak winter heating season



- $80 million planned liquefied natural gas storage facility in Bishopville, MD
- Project consists of five low-profile horizontal storage tanks allowing for up to 0.5 million gallons of storage plus pipeline looping and additional upgrades
- Improvements will help protect against weather-related disruptions, keeping energy prices affordable
- 30-year agreements with customers

July 2023

Regulatory Strategy Drives Earnings

Rate Case Initiatives

Florida Public Utilities

- Rates became effective March 1, 2023
- $17.2 million rate increase; allowed ROE of 10.25% and equity percentage of 55%
- Consolidated four natural gas distribution entities

Florida City Gas

- Rates became effective May 1, 2023
- $14.1 million rate increase; allowed ROE of 8.5%-10.5%
- Reserve surplus amortization mechanism authorizes FCG to earn within its approved ROE range

Maryland LDCs

- Rate case filed January 30, 2024
- Propose consolidating our three MD distribution companies
- Separately filed combined depreciation studies

Infrastructure Programs

Florida Public Utilities and Florida City Gas

- GUARD and SAFE programs – combined projected capital investment of $410 million over a 10-year period
- Programs enhance the safety, reliability and accessibility of portions of our Florida natural gas distribution systems

Florida Public Utilities-Electric

- Storm Protection Plan and Storm Protection Plan Cost Recovery mechanisms
- Capital investment of over $8 million for 2023 with continued investment going forward

Eastern Shore Natural Gas

- No specified limit on capital investment or time frame
- Recovery mechanism for capital costs associated with mandated highway and railroad relocate projects and compliance with new PHMSA regulations requiring the replacement of existing ESNG facilities

Other Key Drivers of Future Growth

Propane Distribution

- J.T. Lee & Sons acquisition in 2023
- Strategic acquisitions and expansions within complementary markets
- Investing in community gas systems in areas not served by natural gas
- Integrating Sharp's programs and service offering to recent acquisitions (e.g., pricing programs, AutoGas, etc.)

Marlin Gas Services

- Increased demand for CNG services
- Service offerings to support RNG, LNG and hydrogen transportation
- Interim solution for construction projects providing speed to market

Sustainable Investments

- Construction underway on first RNG facility at Full Circle Dairy and expansion of Planet Found site
- Introducing groundbreaking technology - a fully contained CNG/RNG fueled self-contained farm irrigation and waste pumping unit at Full Circle Dairy
- Member of the Mid-Atlantic Clean Hydrogen Hub (MACH2) team representing the Delaware, Philadelphia and Southern New Jersey region

Chesapeake Utilities' Hydrogen Focus and Near-term Initiatives

Hydrogen has the potential to become a more common fuel source in the lower-carbon energy future

CPK has a two-part strategy to help educate and further hydrogen's potential as a common fuel source:

Near- and Medium-Terms

- *Helping to shape hydrogen's potential to become a common fuel source in the future by fostering safety, awareness, training, education and community involvement and conducting real-world testing*

Long-Term

- *Provide hydrogen to end-users or for industrial processes though service contracts that align with CPK's long-standing strategy to provide energy that supports a more sustainable future*

Developing the foundation for the long-term:

- ✓ Our Marlin Gas Services subsidiary has invested in hydrogen transport trailers
- ✓ Marlin transported hydrogen for blending with natural gas at our Eight Flags CHP facility to demonstrate hydrogen is a viable option for industrial gas users
- ✓ CPK is an active participant in the Mid-Atlantic Clean Hydrogen Hub[1/] – MACH2™. Our role involves:
  - Promoting safety and workforce development through awareness, training and education at our state-of-the-art Safety Town facility in Dover, DE
  - Evaluating hydrogen production and delivery to the transportation sector
- ✓ Partnering with higher level educational institutions in multiple service territories to advance R&D initiatives
- ✓ Utilize Safety Town to test hydrogen on company assets, such as pipes, meters and valves to lead to greater understanding and expansion of hydrogen use

Initiatives will continue to evolve as a greater amount of R&D related to hydrogen is conducted and legislation and regulation continue to evolve.

[1/] MACH2™ is a collaboration between Delaware, southern New Jersey and southeastern Pennsylvania, which was awarded federal funding up to $750 million in October 2023, one-third of which is estimated to be allocated to Delaware

Investment Proposition – Committed to Superior Performance

We continually increase shareholder value through our:

- TRACK RECORD
- ENERGIZED TEAM
- FINANCIAL DISCIPLINE
- PLATFORMS FOR GROWTH

Our foundation for growth remains strong

Over and over, we have proven we get it done; we have a long history of top-tier earnings and dividend growth

- Consistently beating expectations, recording 17 years of consecutive earnings per share growth* and 20 consecutive years of increasing the dividend

We have the expertise to balance project development and execution

- Our team prioritizes our people, our customers, our assets and our communities while striving to deliver growth and value for our stakeholders

We are steadfast in our commitment to top quartile earnings performance & maintaining a strong balance sheet

- Providing EPS guidance for 2024 between $5.33 to $5.45 and reaffirming our targeted 2025 EPS between $6.15 to $6.35, growing to $7.75 to $8.00 by 2028, an 8% CAGR over the period

We identify and execute steady, return-oriented capital investments across our business units

- Building on our most recent five-year expenditures of $1.9 billion, our cap ex guidance of $1.5 billion to $1.8 billion through 2028, driven by our legacy businesses and benefits from Florida City Gas acquisition

CHESAPEAKE UTILITIES CORPORATION

* Earnings per share growth excludes TCJA impact in 2017; 2023 excludes transaction-related costs associated with the FCG acquisition

CHESAPEAKE UTILITIES CORPORATION

Safe Harbor for Forward-Looking Statements

Safe Harbor Statement

Some of the statements in this presentation are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and other applicable law. Such forward–looking statements may be identified by the use of words, such as “project,” “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “continue,” “potential,” “forecast” or other similar words, or future or conditional verbs such as “may,” “will,” “should,” “would” or “could.” These statements represent our intentions, plans, expectations, assumptions and beliefs about our future financial performance, business strategy, projected plans and objectives. These statements are subject to many risks and uncertainties and actual results may materially differ from those expressed in these forward-looking statements. Please refer to Chesapeake Utilities Annual Report on Form 10-K for the year ended December 31, 2023 filed with the SEC and other SEC filings concerning factors that could cause those results to be different than contemplated in this presentation.

Non-GAAP Financial Information

This presentation includes non-GAAP financial measures including Adjusted Gross Margin, Adjusted Net Income and Adjusted Earnings Per Share (“EPS*”). A "non-GAAP financial measure" is generally defined as a numerical measure of a company's historical or future performance that includes or excludes amounts, or that is subject to adjustments, so as to be different from the most directly comparable measure calculated or presented in accordance with GAAP. Our management believes certain non-GAAP financial measures, when considered together with GAAP financial measures, provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionately positive or negative impact on results in any particular period.

The Company calculates Adjusted Gross Margin by deducting the purchased cost of natural gas, propane and electricity and the cost of labor spent on direct revenue-producing activities from operating revenues. The costs included in Adjusted Gross Margin exclude depreciation and amortization and certain costs presented in operations and maintenance expenses in accordance with regulatory requirements. The Company calculates Adjusted Net Income and Adjusted EPS by deducting costs and expenses associated with significant acquisitions that may affect the comparison of period-over-period results. These non-GAAP financial measures are not in accordance with, or an alternative to, GAAP and should be considered in addition to, and not as a substitute for, the comparable GAAP measures. The Company believes that these non-GAAP measures are useful and meaningful to investors as a basis for making investment decisions and provide investors with information that demonstrates the profitability achieved by the Company under allowed rates for regulated energy operations and under the Company's competitive pricing structures for unregulated energy operations. The Company's management uses these non-GAAP financial measures in assessing a business unit and Company performance. Other companies may calculate these non-GAAP financial measures in a different manner.

See Appendix for a reconciliation of Gross Margin, Net Income and EPS, all as defined under GAAP, to our non-GAAP measures of Adjusted Gross Margin, Adjusted Net Income, and Adjusted EPS for each of the periods presented.

*Unless otherwise noted, EPS and Adjusted EPS are presented on a diluted basis.

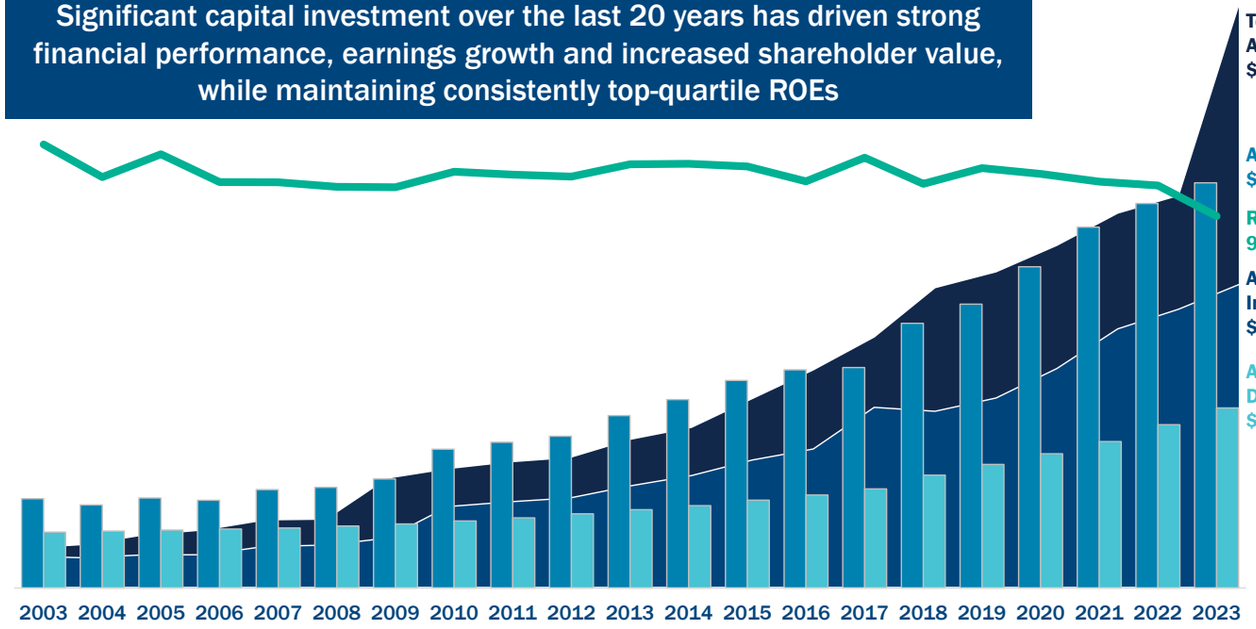
Track Record of Investment Growth Driving Top-Quartile Performance

Significant capital investment over the last 20 years has driven strong financial performance, earnings growth and increased shareholder value, while maintaining consistently top-quartile ROEs



- >10X Total Asset Growth
- 10X Adjusted Net Income Growth
- Adjusted EPS 20-Yr CAGR: 8%
- 20 Years of Consistently Top-Quartile ROEs
- Dividend per Share 20-Yr CAGR: 6%

140+ Years of Operations → ACQUISITION OF FLORIDA PUBLIC UTILITIES → Significant Organic Growth → Bolt-on Acquisitions → Regulatory Success → ACQUISITION OF FLORIDA CITY GAS

CHESAPEAKE UTILITIES CORPORATION

Well-Positioned for Long-Term Success

Strong Customer Demand Growth

- Customer growth of **4.2% in Delmarva** and **3.6% in Florida**
- Customer **demand for CPK energy services** remains high
- **New service additions** within the utility markets continue above industry levels
- Builder and Commercial and Industrial customers **interest remains strong**

Significant Capital Investment Opportunities

- Strong capital investment **growth opportunities across the enterprise**
- Enhanced by FCG, which brings **new markets with high demand** and exposure to the LNG, space and travel industries
- Blend of **infrastructure, technology, and new growth** investments
- **Geographic diversity** of investments to capture opportunities in multiple markets

Proactive Regulatory Approach

- **Regulatory agenda is very active**, driven by CapEx opportunities and economic conditions
- Engaged in **policy making discussions** within all state jurisdictions
- Regulatory environment continues to be **constructive**
- Support for **PPC/ESNG projects** and energy efficiency programs

Entrepreneurial & Innovative Culture

- Continued focus on **innovative customer solutions**
- **Leveraging unregulated businesses** for strategic solutions
- Sustainability investments that align with our other businesses
- **Continuous improvement mindset**

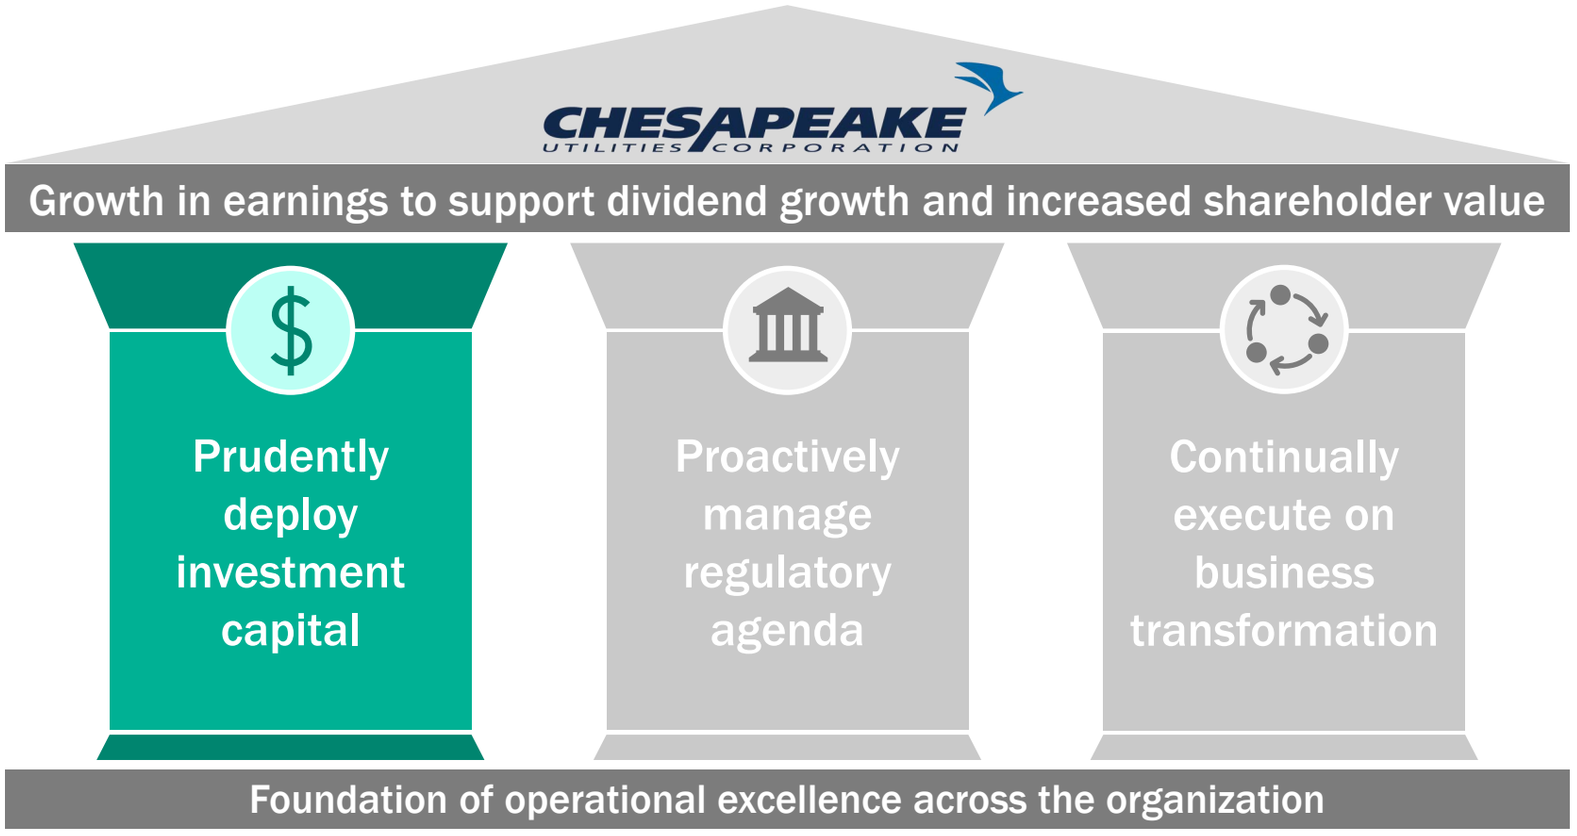
Executing On Our Long-Term Growth Plan: Investment Capital



5-Year Capex Guidance is On-Track and Achievable

~$1.3 billion of identified capital projects support our 5-year CapEx guidance of $1.5 - $1.8 billion

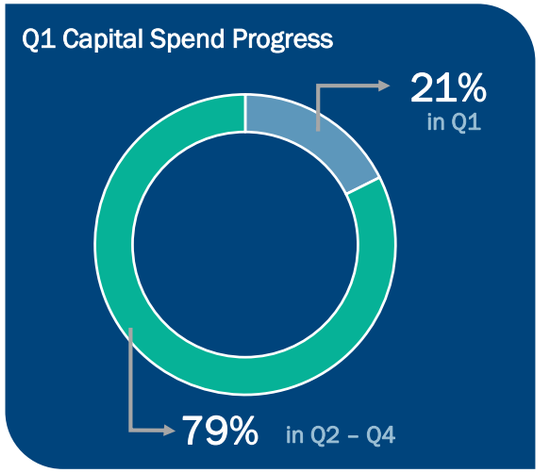
Segment	5-Year Guidance
Regulated Distribution	$600 - $645M
Regulated Transmission	$435 - $590M
Regulated Infrastructure	$300 - $340M
Unregulated Businesses	$140 - $165M
Technology	$70 - $90M
Total	$1.5 - $1.8B

While only five months into our CapEx guidance period, Chesapeake has already made significant progress identifying capital projects, many of which are also already underway

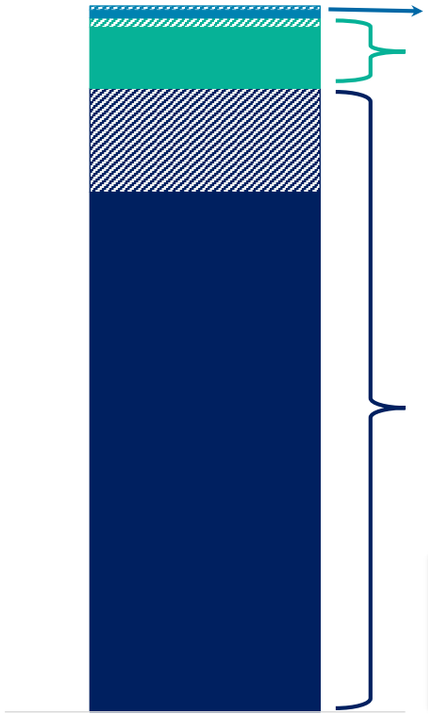
Regulated CapEx – Identified Projects	5-Year Spend
Natural Gas LDC Organic Growth	$625 million
Newberry, Wildlight Phase 2	$28 million
Boynton Beach, New Smyrna	$36 million
Lake Mattie, St. Cloud, Plant City	$42 million
Other Approved Pipeline Projects	$49 million
Worcester Resiliency	$80 million
GUARD / SAFE Programs[1]	$230 million
Eastern Shore Capital Surcharge	$75 million
Florida Electric Storm Protection Plan	$50 million
Technology Transformation	$80 million
Total Identified & Ongoing Capital	~$1.3 billion

[1] *Includes $50 million requested in April 2024 but not yet approved.*

2024 Capital Investment On Track to Drive Margin Growth



Quarter-to-date capital expenditures on track, with $70.6M in spending on strategic growth opportunities and technology transformation



2024E Capital Expenditures

General Corporate CapEx: $4 - $6M

Unregulated Energy CapEx: $31 - $36M

- Propane Distribution: $13 - $15M
- Energy Transmission: $5 - $6M
- Other Unregulated: $13 - $15M

Regulated Energy CapEx: $265 - $318M

- Natural Gas Distribution: $150 - $170M
- Natural Gas Transmission: $90 - $120M
- Electric Distribution: $25 - $28M

We remain on track for 5-Year CapEx Plan of **$1.5 – $1.8B**

Organic Growth Driving Florida Infrastructure Investment

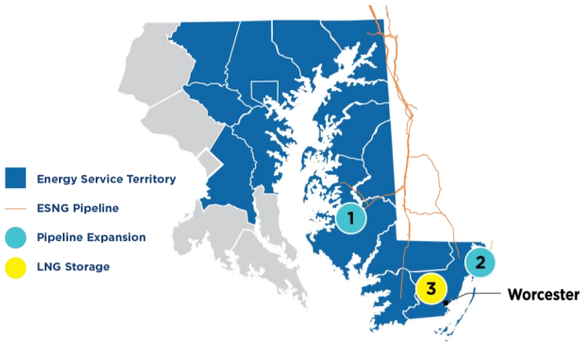
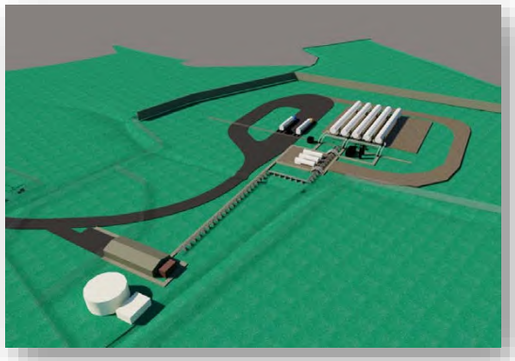
13	Medley RNG[2]	Under Review				
14	Pioneer Supply Header	Under Review	TBA	TBA	TBA	TBA

[1] *Expected in-service in late December 2025 so no 2025 margin expected.*
[2] *Petition filed in February 2024 with the Florida PSC for these RNG transportation projects, which will facilitate additional capacity from landfills through FCG's system.*

Organic Growth Driving Investment in Delmarva Projects



#	Project Name	Regulatory Status	In-Service	Total CapEx	Adj. Gross Margin ($M)	
					2024E	2025E
1	Southern Expansion	Approved	Q4 2023	~$14M	$2.3	$2.3
2	North Ocean City Connector	Approved	Q2 2023[1]	~$6M	--[1]	$0.5
3	Worcester Resiliency Upgrade Project	Under Review	Q3 2025	~$80M	TBA	TBA



A Deeper Dive: Worcester Resiliency Upgrade Project

500k gallons LNG storage and vaporization, 1.5-miles 10" CS, 4 M&R stations

- $80 million planned liquefied natural gas storage facility in Bishopville, MD
- Project consists of five low-profile horizontal storage tanks allowing for up to 500k gallons of storage plus pipeline looping and additional upgrades
- Improvements will help protect against weather-related disruptions, keeping energy prices affordable
- 30-year agreements with customers

CHESAPEAKE UTILITIES CORPORATION

[1] *Regulatory recovery through the Maryland General Rate Case so no margin impact in 2024.*

Active Regulatory Schedule Supporting Growth Projects & Customer Programs

Approved

7 Projects: $106M

Q4 2023	Newberry Expansion, Wildlight Phase 2	CapEx: ~$28M
Q1 2024	Boynton Beach & New Smyrna Beach Pipelines	CapEx: ~$36M
May 2024	Lake Mattie, Plant City, & St. Cloud	CapEx: ~$42M

Three Delaware Energy Efficiency Programs

- Home Energy Counseling and Checkup (HEC), Home Performance with Energy Star (HP) and Assisted Home Performance with Energy Star (AHP)
- Developed to achieve cost-effective energy and demand savings for Delaware natural gas customers
- Collectively, the programs are estimated to save gas consumption equivalent to the annual energy usage of approximately 1,055 households.

Under Review

5 Projects: $126M+

Q3 2023	Worcester Resiliency Upgrade Project	CapEx: ~$80M
Q1 2024	Indian River RNG, Brevard RNG, & Medley RNG	CapEx: ~$46M
Q1 2024	Pioneer Supply Header Pipeline[1]	CapEx: N/A

[1] *Pioneer Supply Header Pipeline total capital expenditures are not yet disclosed.*

Significant Capital Investment from Approved Infrastructure Programs

Gas

Eastern Shore

Capital Cost Surcharge

5-Year CapEx	**$50-100M**
'24E Gross Margin	**$4.0M**
'25E Gross Margin	**$4.4M**

- **February 2018:** Received approval for program that allows recovery of costs for highway or railroad relocation projects related to equipment replacements

Elkton Gas

- **Aldyl-A pipeline replacement** recently completed under PSC-Approved STRIDE filing

Florida City Gas

SAFE Program

10-Year CapEx[1]	**$255M**
2024E Gross Margin	**$2.7M**
2025E Gross Margin	**$5.3M**

- **April 2024:** Filed petition to more closely align SAFE program with FPU's GUARD program to accelerate remediation for problematic, obsolete, and exposed pipe
- Proposal represents an incremental $50 million, leading to total project capital expenditures of **$255 million** over 10 years

Florida Public Utilities

GUARD Program

10-Year CapEx	**$205M**
2024E Gross Margin	**$3.2M**
2025E Gross Margin	**$5.6M**

- **August 2023:** GUARD program approved, to improve safety, reliability and accessibility of portions of the natural gas distribution system, including relocation, replacement, and/or repair of equipment and assets
- Represents **$205 million** of capital expenditures over 10 years

Electric

Storm Protection

5-Year CapEx	**$50-75M**
'24E Gross Margin	**$2.4M**
'25E Gross Margin	**$5.0M**

- **Q4 2022:** Received approval for FPU Electric's Storm Protection Plan and associated Storm Protection Plan Cost Recovery Mechanism

[1] *Includes $50 million requested in April 2024 but not yet approved.*

Drivers of Unregulated Business Growth

Propane Distribution

- Strategic acquisitions and expansions within complementary markets
  - Including J.T. Lee & Sons acquisition in 2023
- Investing in community gas systems in areas not served by natural gas
- Integrating Sharp's programs and service offering to recent acquisitions (e.g., pricing programs, AutoGas, etc.)

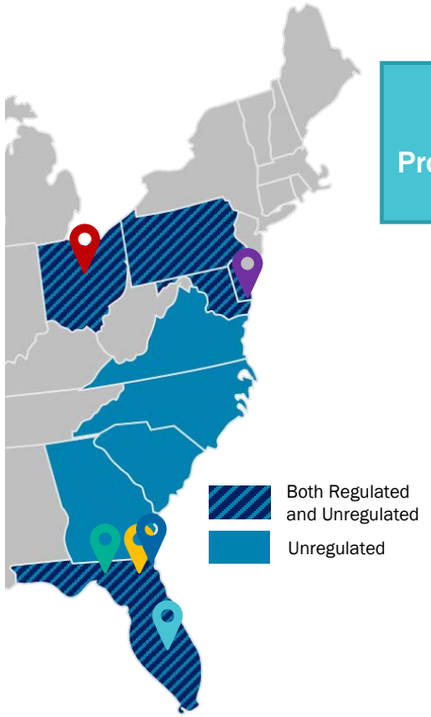
Marlin Gas Services

- Increased demand for CNG services
- Service offerings to support RNG, LNG and hydrogen transportation
- Interim solution for construction projects providing speed to market

Sustainable Investments

- Construction underway on first RNG facility at Full Circle Dairy and expansion of Planet Found site
- Introducing groundbreaking technology - a self-contained CNG/RNG fueled farm irrigation and waste pumping unit at Full Circle Dairy
- Member of the Mid-Atlantic Clean Hydrogen Hub (MACH2) team representing the Delaware, Philadelphia and Southern New Jersey region

Sustainable Investments to Meet Demand for Energy Delivery



In Progress

Full Circle Dairy RNG Processing Facility
- First full-scale RNG processing facility utilizing dairy cow waste as feedstock
- Processing and delivering more than 100K Dts per year of RNG
- First injection of RNG is projected to occur in 1H 2024

Hydrogen Testing at Eight Flags CHP
- Higher blend test planned during summer 2024

Previously Completed

Noble Road Landfill RNG Pipeline
- 33-mile pipeline transporting RNG to Aspire Energy of Ohio's gathering system

Planet Found Biogas Facility
- First poultry waste-to-energy project on the Delmarva Peninsula, currently generating electricity and capable of producing RNG

Clean Energy Expansion
- 2.2-mile pipeline transporting natural gas to support Clean Energy Fuels' CNG fueling station

Radio Road RNG Injection Point
- Our first gate system in Florida to allow alternative fuels to be injected into pipeline delivery system; can accept RNG, CNG or LNG

CHESAPEAKE UTILITIES CORPORATION

Executing On Our Long-Term Growth Plan: Regulatory Strategy

Constructive Regulatory Environments for Rate Cases

Complete

Florida Public Utilities

- Rates became effective March 1, 2023
- $17.2 million rate increase; allowed ROE of 10.25% and equity percentage of 55%
- Consolidated four natural gas distribution entities

Florida City Gas

- Rates became effective May 1, 2023
- $14.1 million rate increase; allowed ROE of 8.5% -10.5%
- Reserve surplus amortization mechanism authorizes FCG to earn within its approved ROE range

In Progress

Maryland LDCs: Chesapeake Utilities, Sandpiper Energy, & Elkton Gas Company

- Rate case filed January 30, 2024
- Proposing a $6.9M rate increase
- Seeking to consolidate our three MD natural gas distribution entities into one legal entity: “Chesapeake Utilities of Maryland, Inc.”
- Proposing certain other tariff changes, including:
  - establishing a new technology cost recovery rider,
  - rolling certain investments into base rates,
  - establishing a regulatory asset for an anticipated energy efficiency filing, and
  - establishing an under-served area (USA) rate and a program for evaluating extensions to multi-family projects
- **Participated in a settlement conference on May 16 to establish a settlement in the depreciation study, representing potential savings of $1.1 million per year**

Under Consideration

Delaware LDCs

- Submitted an “Intent to File” with Delaware PSC on May 1, 2024 to provide CPK the opportunity to file a full rate case on or after July 1, 2024

Other

- Continuing to monitor the need for filings in two jurisdictions without recent rate cases: Eastern Shore & Florida Electric

Taking a Proactive Approach to Governmental Affairs

Understand Our Political Environments	• Engage in **all election cycles** at all levels • Monitor changes in state and federal legislation, political parties, and constituent sentiment
Build Relationships	• Identify and **cultivate connections** with key decision makers at the local, state and federal level • Leverage CPK leadership time and resources to strengthen relationships • **Facilitate site visits and operational tours** for elected officials and community members
Start, Lead, & Engage in Conversations	• Ensure **a seat at every table** to engage in energy policy discussions • Present at key community events, legislatures, and business development meetings • Develop **educational materials** on industry topics, including LNG, RNG and Hydrogen
Focus on Strategic Natural Gas Advocacy	• Promote the **benefits of natural gas** to meet the growing demand of our communities • Introduce and support legislation to advance energy choice • Produce **informational booklets and fact sheets** to advance education on CPK • Participate in trade associations, within the natural gas industry as well as adjacent fields

Examples of Recent Work

MD

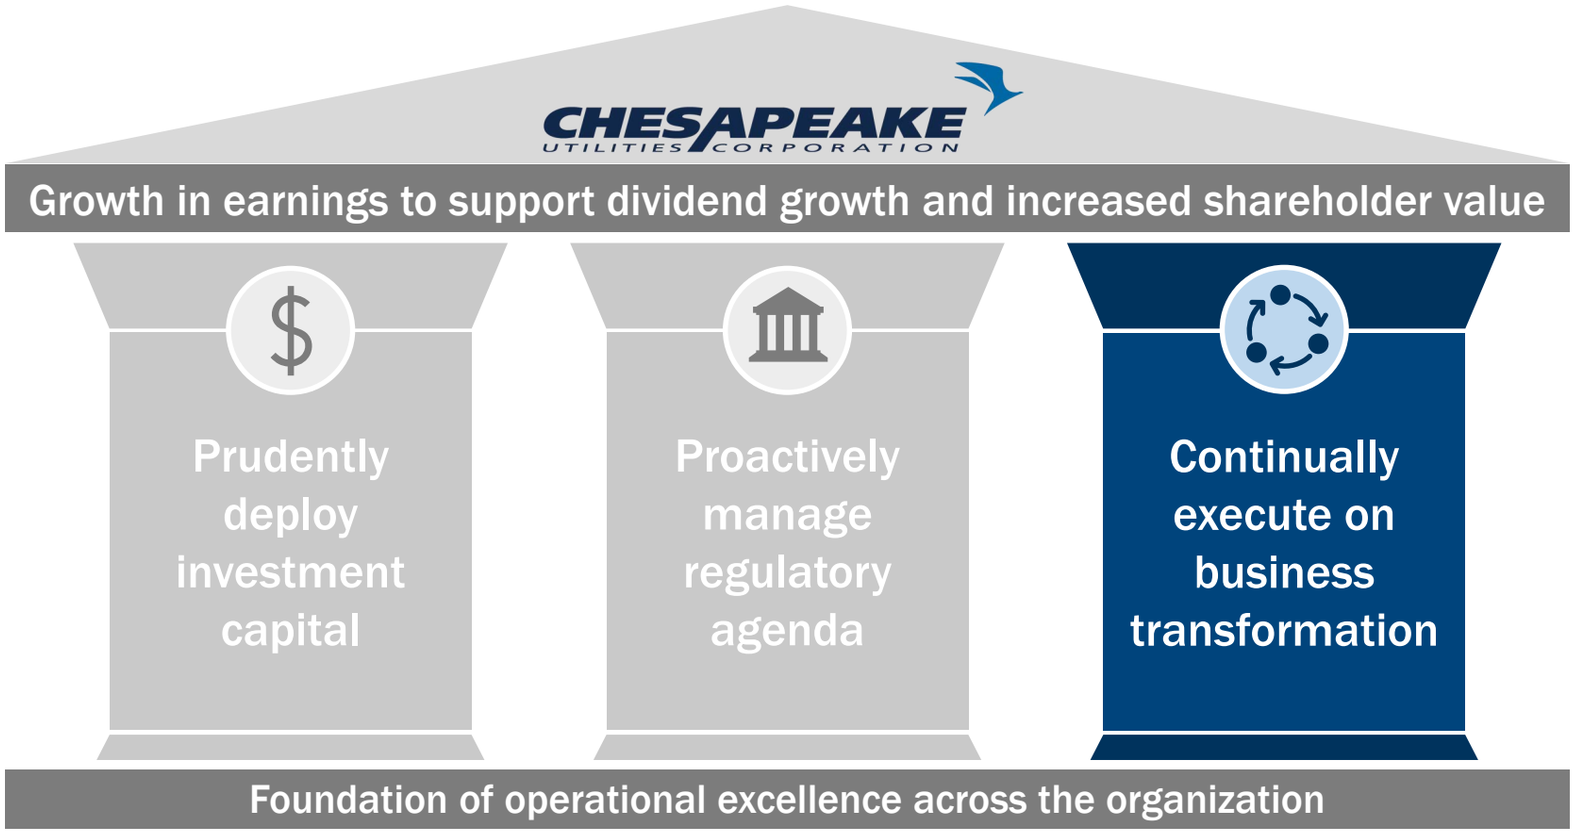
- In conjunction with Delmarva Power, spearheaded the extension of **the public utility surcharge recovery program DSIC: Distribution System Improvement Charge**
- This bill cleared the DE Senate in early May 2024 and is targeting a DE House vote by the end of May 2024

FL

- Helped the Speaker of the House compile a **comprehensive energy package,** including key natural gas provisions critical for CPK such as tax benefits for natural gas and RNG and support for LNG development
- **FL Gov. Ron DeSantis signed this set of bills into law on May 15, 2024**

CHESAPEAKE UTILITIES CORPORATION

Executing On Our Long-Term Growth Plan: Business Transformation



FCG Integration Fully On-Track

- Reviewing operational efficiencies
- Consolidating processes and resources
- Analyzing technology enhancements

- "Best of Both" approach to customer care, project management and operations
- Sharing resources and insight between legacy and FCG businesses

- Identifying capital projects to drive growth as one combined company
- Leveraging regulatory expertise to accelerate project reviews and approvals

Technology-Driven Business Transformation Drives Efficiency

Our business is continuing to evolve as demand for our services grows. We are investing in technology to better serve our growing customer base. **Our goal is to provide our employees with the tools and capabilities needed to deliver the experience our customers demand and deserve.**

CUC Safe

- Safety Data Management System implemented in 2023
- Streamlines **recording, tracking and analysis** of safety incidents, including observations and near misses
- Offers **expanded data and reporting capabilities** for continuous improvement and safety training across the enterprise

1CX

SIMPLIFY • ENGAGE • TRANSFORM

1CX is Chesapeake's **enterprise-wide technology transformation project**, geared toward enhancing Chesapeake Utilities' service platforms for regulated utility customers and employees to streamline processes and improve efficiency.

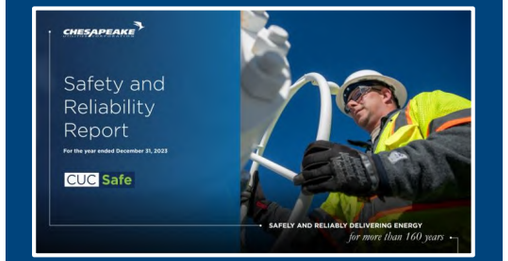
Through implementation of an **SAP customer information system**, 1CX will improve processes and create new ways of working across 4 key business workstream areas:

- Billing & Invoicing
- Customer Service
- Device and Work Management / FSM
- Finance and Contracting (FICA)

- Replacement of legacy financial system and supporting applications with a **consolidated suite of integrated systems**
- **Consistency** in applications, data, and technologies leveraged by the business
- **Standardized processes, enhanced reporting and analytics, and increased automation**

Working Together to Make Life Better for the Communities We Serve

Environmental Stewardship



Safety and Reliability Report published April 2024

Our Employee Resource Groups supported Earth Day initiatives, including a free tree program for employees across the Company

Donating Time & Resources

Supported the Food Bank of Delaware with a $50,000 donation and volunteer time

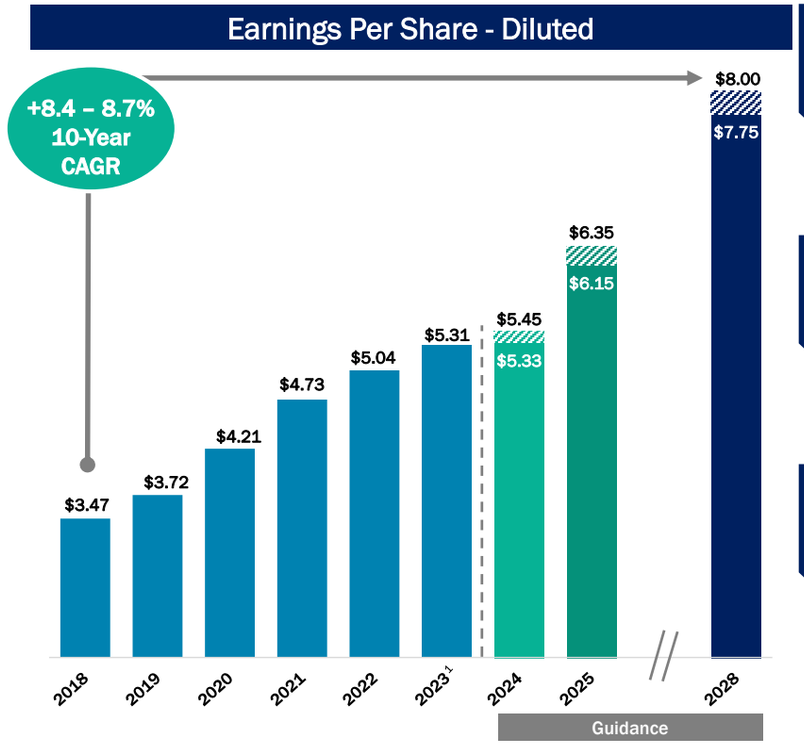
Turning recycled pipe into useful and beautiful benches for local communities, parks, and trails

Safety Town

In January 2024, we broke ground on our second Safety Town, located in DeBary, Florida

Executing On Our Long-Term Growth Plan: Shareholder Return

Driving Increased Shareholder Value; Reaffirming Earnings Guidance



Earnings Growth Driven by Capital Investment

- **1Q 2024 Adjusted Earnings Per Share of $2.10[1]**
- 2024 Adj. EPS Guidance of $5.33 to $5.45
- 2025 EPS Guidance of $6.15 to $6.35
- 2028 EPS Guidance reiterated: $7.75 to $8.00

Dividend Growth Supported by Earnings

- 21 Consecutive Years of Dividend Increases
- **Current Annualized Dividend of $2.56/share**
  - 9% CAGR over last 10 years
- **Targeting Long-term DPO of 45 - 50%[2]**
  - Enables CPK to reinvest in growth plan

Best in Class Shareholder Return

- Annual shareholder return >95th percentile among peer group[3] the past 5, 10, 15 & 20 year periods
- >300% increase in stock price over the past 15 years drives a $2.1B Increase in Market Cap

[1] Adjusted EPS excludes transaction and transition-related expenses incurred attributable to the acquisition of FCG. [2] Future dividends are subject to board approval.
[3] Peer Group includes select group of 10 CKP peer companies. Details can be found in the Annual Report on Form 10-K.

Three Decades of Dividend Growth Drive Shareholder Return

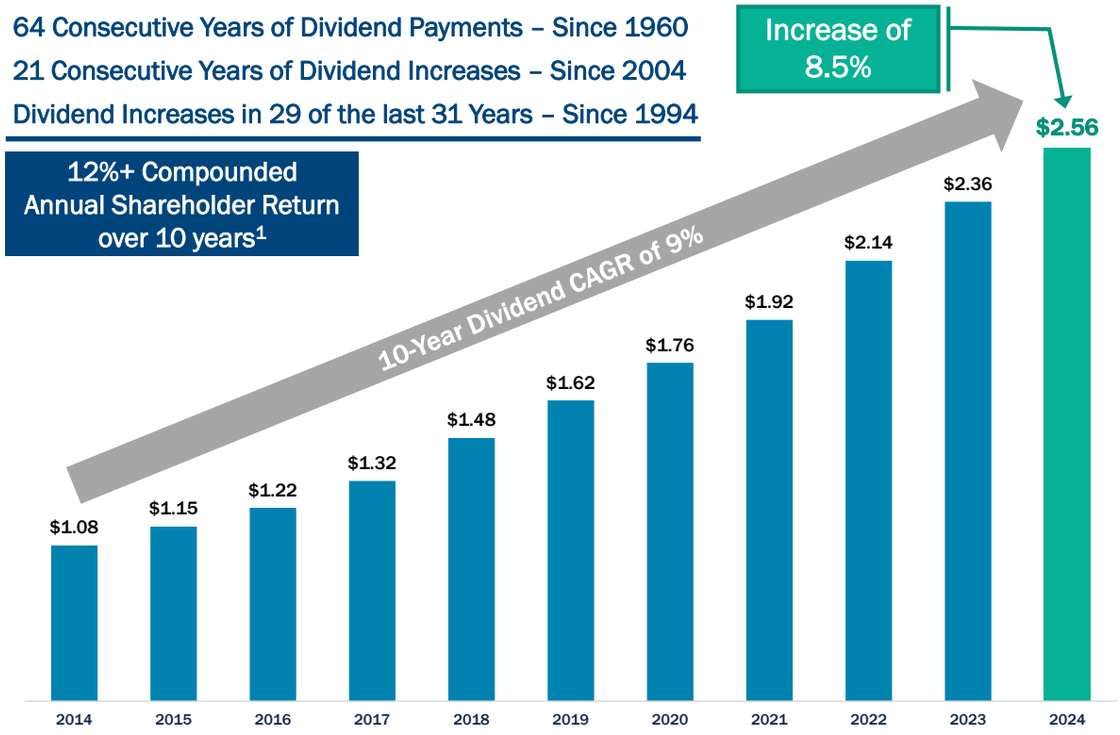
Annualized Dividend per Share

64 Consecutive Years of Dividend Payments – Since 1960

21 Consecutive Years of Dividend Increases – Since 2004

Dividend Increases in 29 of the last 31 Years – Since 1994

12%+ Compounded Annual Shareholder Return over 10 years[1]



Quarterly Dividend History

	Ex-Dividend Date	Amount per Share
2Q 2024	6/14/2024	$0.6400
1Q 2024	3/14/2024	$0.5900
4Q 2023	12/14/2023	$0.5900
3Q 2023	9/14/2023	$0.5900
2Q 2023	6/14/2023	$0.5900
1Q 2023	3/14/2023	$0.5350
4Q 2022	12/14/2022	$0.5350
3Q 2022	9/14/2022	$0.5350
2Q 2022	6/14/2022	$0.5350
1Q 2022	3/14/2022	$0.4800
4Q 2021	12/14/2021	$0.4800
3Q 2021	9/14/2021	$0.4800
2Q 2021	6/14/2021	$0.4800
1Q 2021	3/12/2021	$0.4400
4Q 2020	12/14/2020	$0.4400
3Q 2020	9/14/2020	$0.4400
2Q 2020	6/14/2020	$0.4400
1Q 2020	3/12/2020	$0.4050
4Q 2019	12/15/2019	$0.4050
3Q 2019	9/12/2019	$0.4050
2Q 2019	6/13/2019	$0.4050
1Q 2019	3/14/2019	$0.3700

CHESAPEAKE UTILITIES CORPORATION

[1] *Calculated through 12/31/2023.*

Why Chesapeake?

Chesapeake's unique combination of operational expertise, growth potential, and focus on long-term shareholder return connects our strong historical track record with the future success we'll achieve

Growth since 2003:
- 10x Asset Growth
- 10x Adj. Net Income Growth
- 5x Customers Served

Expertise

Nimble, yet powerful, organization with an experienced management team that gets things done

→ Innovative & diligent team focused on operational execution & delivering results

Delmarva: Growing demand for natural gas distribution

Florida: Strong residential growth and favorable environment

Growth

Attractive & diversified geographical exposure, with multiple sources of organic & acquisitive growth

→ Expected to spend $1.5 - $1.8 billion in Capital Expenditures from 2024 - 2028

- EPS 10-Year CAGR of **8+%**
- Dividend 10-Year CAGR of **9%**
- **>95th** Percentile for Peer TSR

Return

Focused on best-in-class shareholder return, balancing earnings growth and dividend growth

→ 45-50% Long-Term Dividend Payout Ratio supports growth and return on capital

CHESAPEAKE
UTILITIES
CORPORATION

Appendix

Q1 2024 Highlights: Continuing to Build Momentum

Operational Accomplishments

- Increasing margin contributions from **continued transmission expansions**
- Regulated natural gas distribution **customer growth of 2x** national average
- Realized **meaningful contribution from non-regulated businesses**
- Weather was colder than last year, but **warmer than normal**
- Prudently **managing expenses** amid impact of FCG financings and challenging economic environment

Florida City Gas (FCG) Integration

- Delivered **incremental margin contributions from FCG**
- Executing **capital investment plan consistent with acquisition expectations**
- Realized **efficiencies by leveraging enterprise-wide processes** including management of SAFE & GUARD programs
- Filed **three new RNG projects with the Florida Public Service Commission (PSC)** and one supply header project to support demand for natural gas service
- Filed for a **$50 million increase** in the SAFE program with the Florida PSC

Strategic Capital Investments

- Reaffirmed **2024 capital investment guidance of $300M to $360M**
- Multiple **regulatory initiatives approved** supporting natural gas demand
- Multiple **expansions of transmission systems under construction** to support strong customer growth
- Continuing our **business transformation initiatives to support our larger footprint** and achieve operational efficiencies

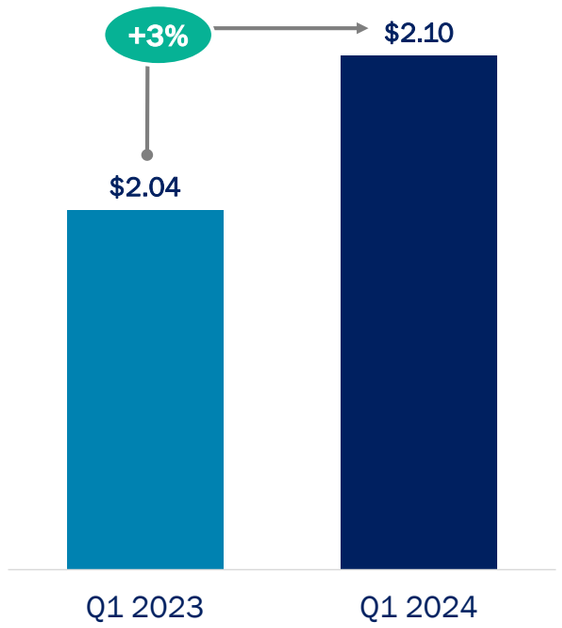
Remain on track to achieve 2024 Adjusted EPS guidance of $5.33-$5.45[1] and longer-term 2025 and 2028 outlook

CHESAPEAKE UTILITIES CORPORATION

[1] *See appendix for GAAP to non-GAAP reconciliation for adjusted diluted earnings per share.*

Q1 2024 Strong Financial Performance

Adjusted Diluted Earnings Per Share[1]



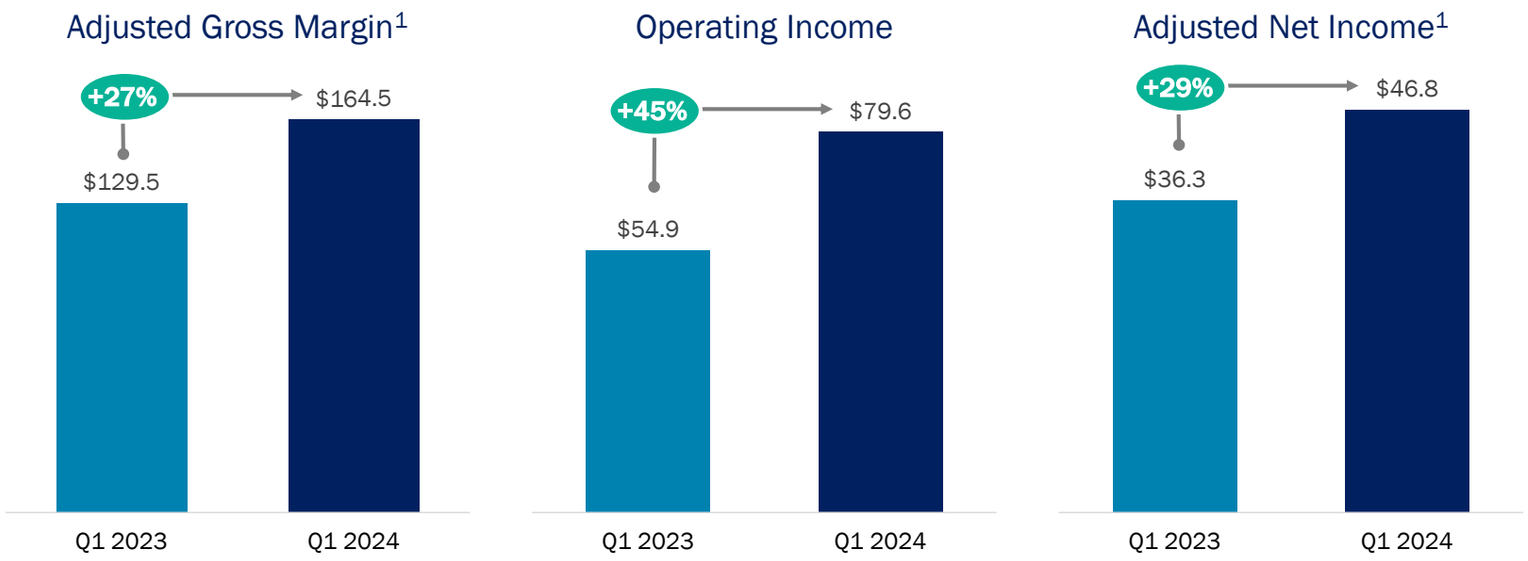
Key Adjusted Gross Margin Drivers

$25.4M Contribution from FCG and other acquisitions	**$3.5M** Pipeline Expansions and Natural Gas Organic Growth	**$2.8M** Regulated Infrastructure Programs and Recovery Mechanisms
$1.9M Changes in Customer Consumption	**$1.0M** Increased Gathering Fees for Aspire Energy	**$0.6M** Higher Propane Margins per Gallon and Fees

[1] *Diluted Earnings Per Share Growth from Continuing Operations; 2024 excludes transaction and transition-related costs associated with the FCG acquisition.*

Increasing Gross Margin Driving Bottom-Line Income Growth

Gross margin growth drove higher bottom-line net income: both approaching 30% growth



Excluding transaction and transition-related expenses[2], operating income increased $25.6 million, or 47%

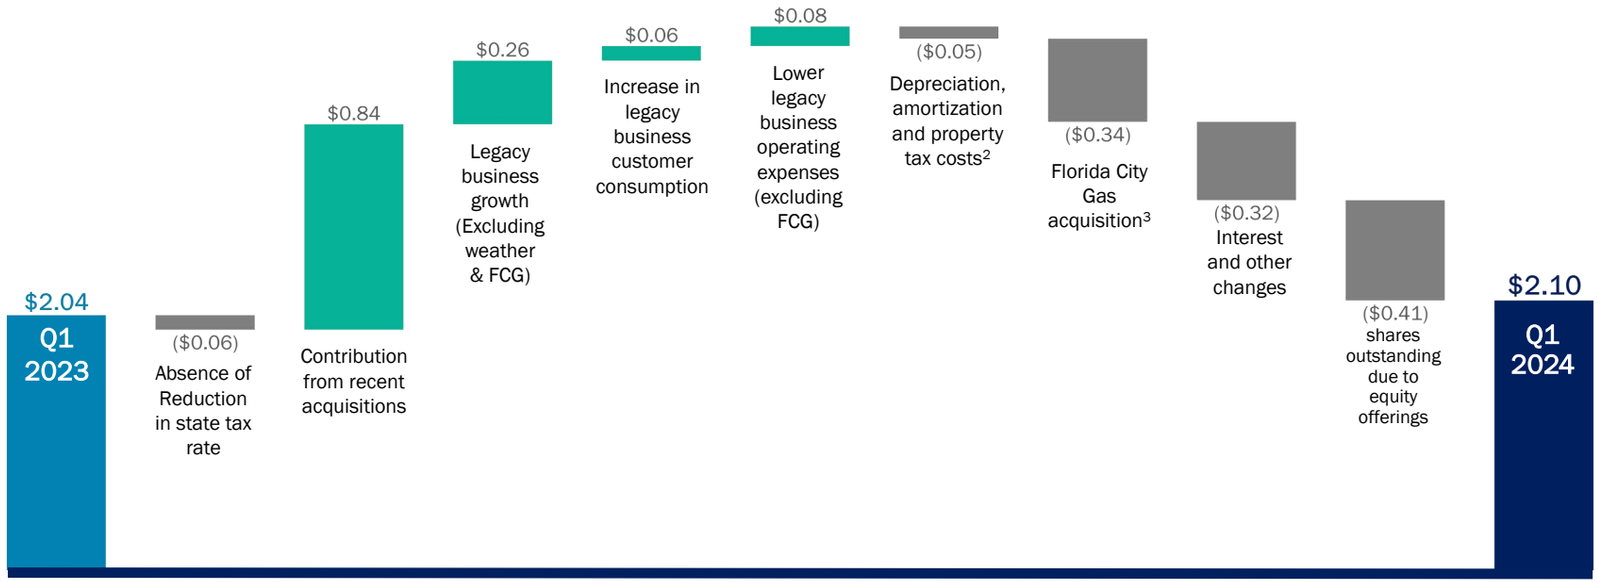
CHESAPEAKE UTILITIES CORPORATION

[1] See appendix for a reconciliation of non-GAAP metrics. [2] Transaction and transition-related expenses represent costs incurred attributable to the acquisition and integration of FCG including, but not limited to transition services, consulting, system integration, rebranding and legal fees.

Key Drivers of Performance – Three Months Ended March 31, 2024

Our core business performance, strong customer demand and recent acquisition of Florida City Gas drove increased earnings per share, only partially offset by financing costs related to the FCG acquisition.

Adjusted Diluted Earnings Per Share[1]



[1] *See appendix for GAAP to non-GAAP reconciliation for adjusted diluted earnings per share.*
[2] *Includes a benefit from RSAM of $3.4 million, pre-tax, or $0.11 per share.*
[3] *Does not include RSAM benefit, which is included in depreciation expense.*

Pathway to 2024 EPS[1] Guidance

Our 2024 target is based on continued growth from our legacy businesses, a full year of contribution from FCG, and additional opportunities we have identified[2]

Adjusted Diluted Earnings Per Share[1]

[1] Diluted Earnings Per Share Growth from Continuing Operations; 2023 excludes transaction-related costs associated with the FCG acquisition.
[2] The actual contributions of each category, as well as others not defined above, may vary.

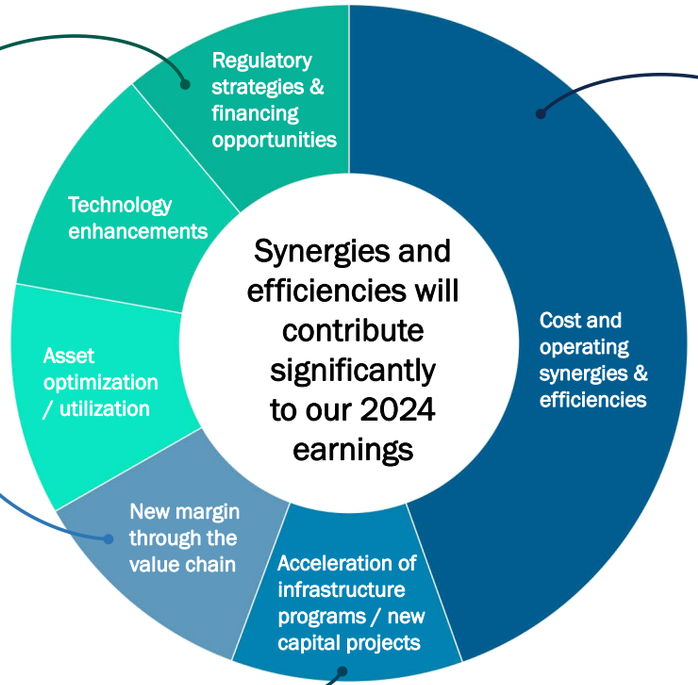
Executing on the Identified 2024 Pathway

Our team has begun to execute on additional opportunities to propel earnings growth in 2024

- Expansion of SAFE Program
- Alignment on Pipeline Infrastructure Programs

- New Marlin Reservation Agreements
- New Pipeline Projects

- Timing of investment in SAFE Program
- Three New RNG Projects



- Combining natural gas leadership
- Optimizing support services
- Reducing reliance on Transition Service Agreements
- Integrating cyber security platforms
- Transitioning to digital platform
- Continuing cost management
- Updating depreciation studies

Major Projects and Initiatives Driving Adj. Gross Margin Growth

Our projects and initiatives underway will continue to drive adjusted gross margin growth while new projects and regulatory initiatives will increase earnings across our guidance period

Project/Initiative *(in thousands)*	Three Months ended March 31, 2024	Three Months ended March 31, 2023	Year Ended December 2023	Estimate for Fiscal 2024	Estimate for Fiscal 2025

Capex: $35.8 million
2025 Gross Margin: $5.1 million
Full-Year Annualized Margin: $6.3 million

- Boynton Beach and New Smyrna Beach to increase supply capability and enhance reliability for FPU's distribution systems

[1] *Includes adjusted gross margin during 2023 comprised of both interim rates and permanent base rates which became effective in March 2023.*
[2] *Rate case application and depreciation study filed with the Maryland PSC in January 2024.*

Capital Structure Overview – Strong Balance Sheet to Support Growth

(in thousands)	3/31/2024	12/31/2023
Stockholders' equity	$ 1,280,903	$ 1,246,104
Long-term debt, net of current maturities	1,185,166	1,187,075
Total permanent capitalization	$ 2,466,069	$ 2,433,179
Current portion of long-term debt	18,511	18,505
Short-term debt	170,355	179,853
Total capitalization and short-term financing	$ 2,654,935	$ 2,631,537
Equity to Permanent Capital	51.9%	51.2%
Equity to Total Capitalization	48.2%	47.4%
New Long-Term Debt Issuance	$ -	$ 630,000
Net New Equity Issuances	$ 821	$ 371,508

Stockholders' Equity increased $35M since the end of 2023 primarily driven by:

- Strong Net Income performance of ~$46M
- Dividend Reinvestment and Stock Compensation Plans increases of ~$1M
- Reduced by Continued Dividend payments of ~$13M

Recent Highlights

- March 2023: $80M New Long-Term Debt
- Nov 2023: FCG Acquisition Financing
  - $550M of New Long-term Debt
  - 4.4M New CPK Shares
- 53% Equity to Capitalization prior to FCG Financing

Long-Term Debt

- ~$1.2B with an Average Interest Rate <5%

Short-Term Debt

- $375M Facility with ~$170M outstanding
  - 1 year tranche: $175M, SOFR +0.80%
  - 5 year tranche: $200M, SOFR + 1.00%
- Maintaining a $50M interest rate swap at 3.98% through September 2025

Regulated Energy Segment Generates Strong Margin and Operating Income Growth

Strong gross margin, coupled with expense management, drove $20M in higher operating income

(in thousands)	First Quarter 2024	First Quarter 2023	Change $	Change %
Adjusted Gross Margin[1]	**$ 118,508**	$ 86,982	$ 31,526	36.2%
Depreciation, amort. & property taxes	**20,955**	18,670	2,285	12.2%
Transaction and transition-related expenses[2]	**921**	-	921	N/A
Other operating expenses	**38,523**	30,687	7,836	25.5%
Operating income	**$ 58,109**	$ 37,625	$ 20,484	54.4%

Q1 2024 Highlights

Operating income up **57%** (excluding FCG transaction and transition-related expenses) driven by:

- Contribution of earnings attributable to Florida City Gas
- Organic growth in natural gas distribution operations, including propane CGS conversions
- Pipeline expansions underway by our natural gas transmission entities
- Permanent rate changes associated with Florida natural gas base rate proceeding
- Incremental margins from regulated infrastructure programs

CHESAPEAKE UTILITIES CORPORATION

[1]See appendix for GAAP to non-GAAP reconciliation of adjusted gross margin. [2]Transaction and transition-related expenses represent costs incurred attributable to the acquisition and integration of FCG including, but not limited to transition services, consulting, system integration, rebranding and legal fees.

Unregulated Energy Segment Drives 24%+ Operating Income Growth

Higher propane margins and fees as well as increased margins for the other unregulated energy businesses drove increased earnings for the quarter.

(in thousands)	First Quarter 2024	First Quarter 2023	Change $	Change %
Adjusted Gross Margin[1]	**$ 46,049**	$ 42,594	$ 3,455	8.1%
Depreciation, amort. & property taxes	**5,155**	4,822	333	6.9%
Other operating expenses	**19,465**	20,527	(1,062)	-5.2%
Operating income	**$ 21,429**	$ 17,245	$ 4,184	24.3%

Q1 2024 Highlights

Cooler weather over prior year impacted operating income

- Increased propane consumption, which was primarily due to colder weather
- Increased propane margins and service fees
- Acquisition of J.T. Lee and Son's, which was completed in December 2023, also contributed to higher propane margins
- Increase in rates, gathering margins and consumption for Aspire Energy

[1] *See appendix for GAAP to non-GAAP reconciliation of adjusted gross margin.*

GAAP to Non-GAAP Reconciliations

Consolidated Results

Adjusted Gross Margin (non-GAAP)	**$ 46,049**	$ 42,594	$ 3,455	8.1%

[1] Operations & maintenance expenses within the Consolidated Statements of Income are presented in accordance with regulatory requirements and to provide comparability within the industry. Operations & maintenance expenses which are deemed to be directly attributable to revenue producing activities have been separately presented above in order to calculate Gross Margin as defined under US GAAP. See Chesapeake Utilities' Annual Report on Form 10-K for the year ended December 31, 2023 for additional details. self-contained.

[2] Transaction and transition-related expenses represent costs incurred attributable to the acquisition and integration of FCG including, but not limited to, transition services, consulting, system integration, rebranding and legal fees. [3] Weighted average shares for the quarter ended March 31, 2024 reflect the impact of 4.4 million common shares issued in November 2023 in connection with the acquisition of FCG.

Weather Impacted Customer Consumption in the First Quarter

Moderately Colder Weather Across All Service Areas

- Increased customer consumption in the quarter driven primarily by weather resulted in a $1.9M increase in adjusted gross margin.
- The 13% increase in HDDs compared to the prior-year period was concentrated largely in Delmarva and Ohio given the heat load in our northern service areas
- While temperatures were colder than the prior-year period, still approximately 10-12% warmer compared to normal temperatures in our Delmarva and Ohio service territories.

Delmarva		Three Months Ended March 31,		Variance Year-over-Year

Mission, Vision and Values

OUR Mission

We deliver energy that makes life better for the people and communities we serve.

OUR Vision

We will be a leader in delivering energy that contributes to a sustainable future.

OUR Values

Care

We put people first.
Keep them safe. Build trusting relationships. Foster a culture of equity, diversity and inclusion. Make a meaningful difference everywhere we live and work.

Integrity

We tell the truth.
Ensure moral and ethical principles drive our decision-making. Do the right thing even when no one is watching.

Excellence

We achieve great things together.
Hold each other accountable to do the work that makes us better, every day. Never give up.

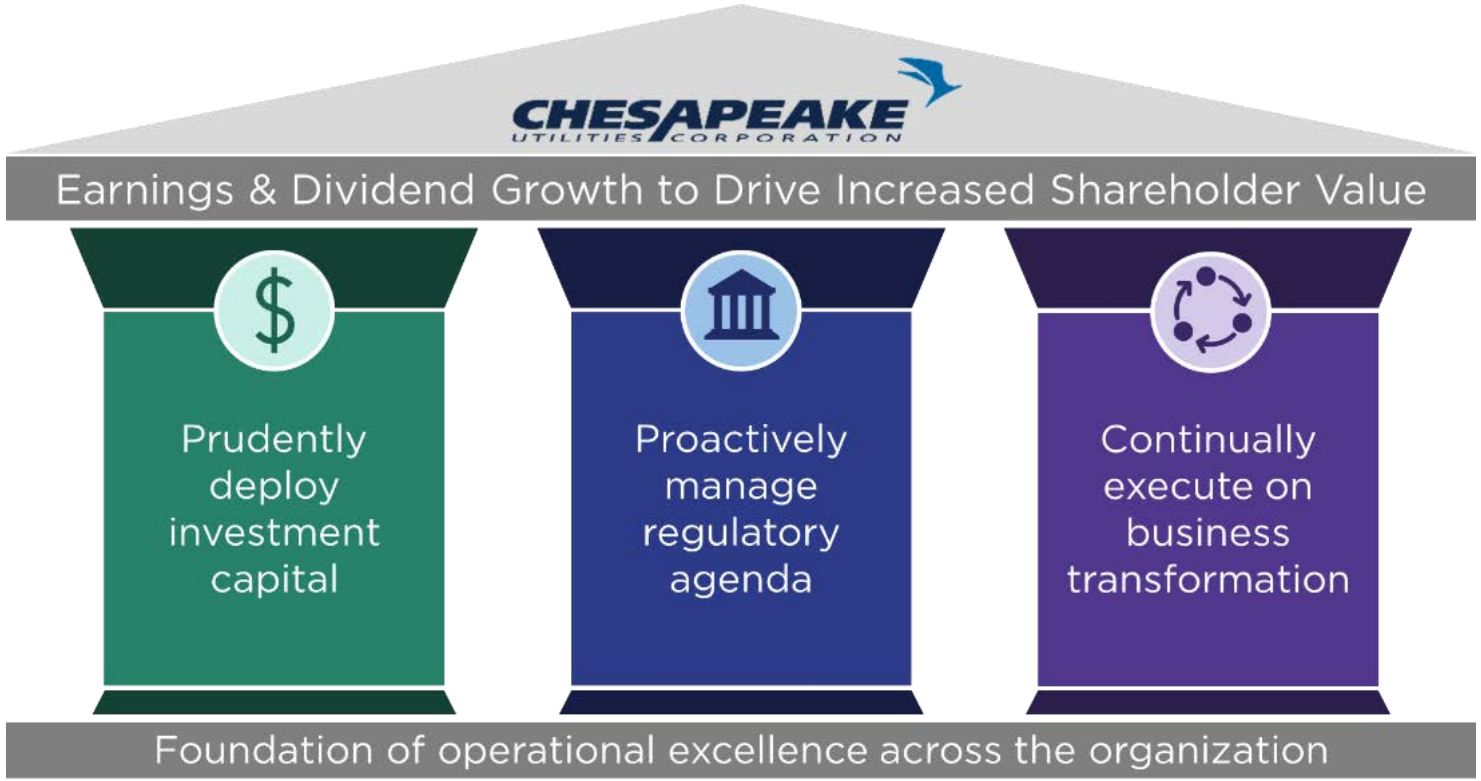
We have a clear path to get to where we are going over the next few years.
Both of our core service areas are seeing exceptional growth.

Our Fundamental Growth Strategy



CHESAPEAKE UTILITIES CORPORATION
2025 INVESTOR DAY
5
Strategic Growth Plan: 2025 – 2028
Delivering on the three pillars of our growth strategy
Ensuring the team is highly-engaged in "reaching new heights"
Financing strategy to support growth and stability
Targeting continued top-quartile performance
Investing in attractive service areas with unparalleled growth

CPK: Strategic Growth Plan for 2025 – 2028
Delivering on the three pillars of our growth strategy

Prudently deploy investment capital

- 2024 – 2028 CapEx Guidance: 1.5B - $1.8B and 2025-2028 EPS CAGR of 8%
- 2025 CapEx & EPS Guidance: $325M - $375M and $6.15-$6.35/share
- 12 transmission and storage projects under construction
- Reliability infrastructure projects driving incremental margin of ~$10M - $12M / year
- Robust pipeline of additional potential opportunities

Proactively manage regulatory agenda

- Taking a strategic and innovative approach to manage our regulatory initiatives
- Maintaining strong relationships with regulators and federal, state and local governments
- Recent rate cases for all businesses bringing rate recovery up-to-date (3 currently underway)
- Shifting into a more regular cadence for rate cases going forward
- Filed FCG depreciation study to address recovery of excess depreciation expense

Continually execute on business transformation

- Transformational growth requires transformational capabilities
- Operating as “One Company” across all businesses, from Orrville, Ohio to Miami, Florida
- Significant technology upgrades underway to level up operations: 1CX, 1CX for FCG, ERP, etc.
- Focused on teammate engagement, retention, leadership development, succession planning
- Ongoing efforts to ensure operational excellence as a $3B or $4B+ company

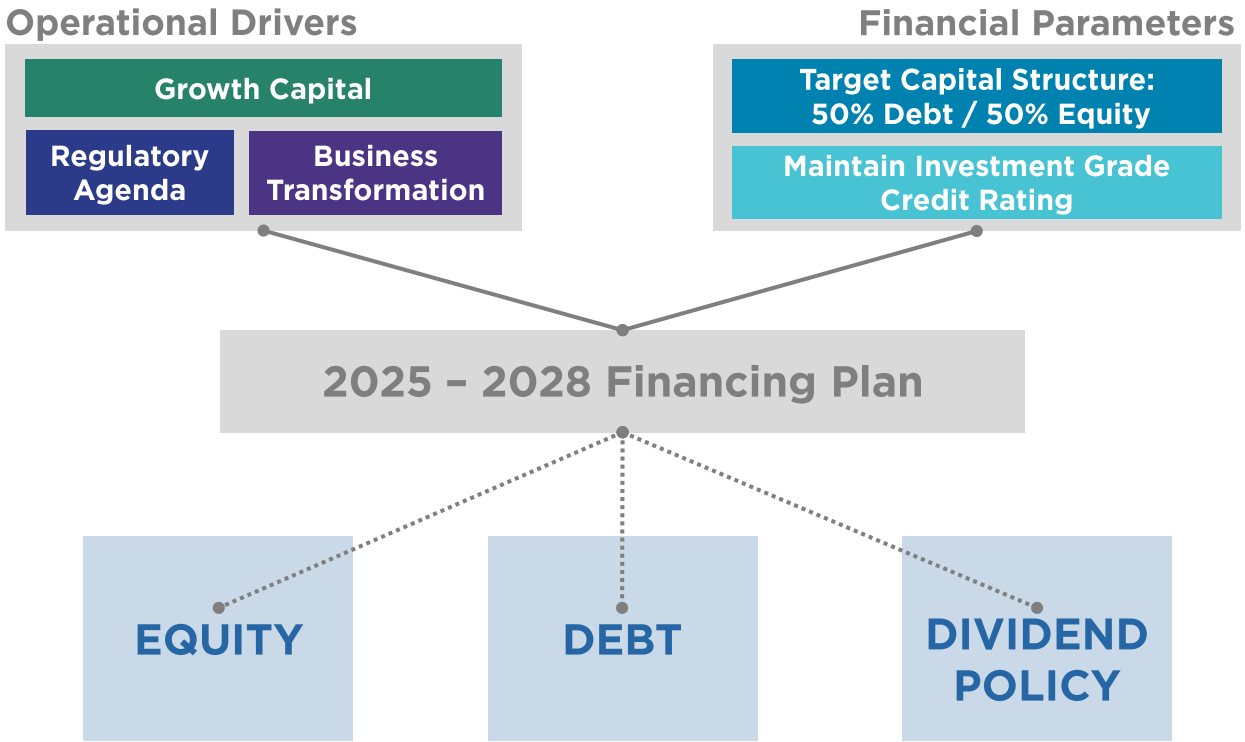
CPK: Strategic Growth Plan for 2025 – 2028

Ensuring the team is highly-engaged in "reaching new heights"

- **30 leaders in the room today, including 6 recently promoted Assistant Vice Presidents on panels**
- **Significant industry and company-specific experience and subject-matter expertise**
- **Culture of financial and operational discipline**
- **Focus on leadership training & succession planning**
- **Preparing workforce for significant transformation**

Our financial partners in the room and around the globe have been critical in our success thus far and moving forward – we are grateful for your continued support

CPK: Strategic Growth Plan for 2025 – 2028
Financing strategy supports growth and stability



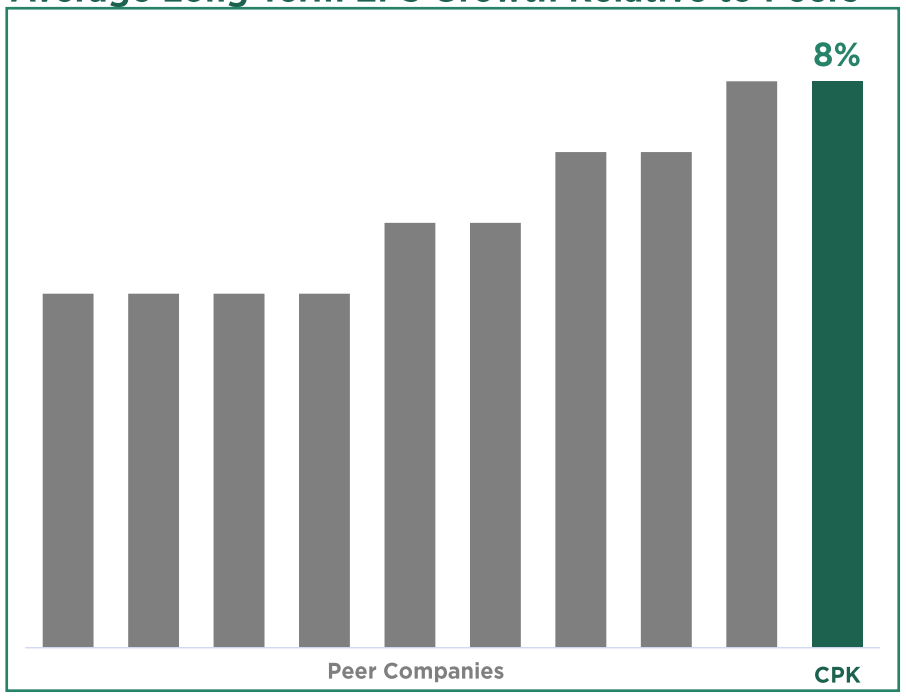
CPK: Strategic Growth Plan for 2025 – 2028
Targeting continued top-quartile performance

- 2025 CapEx: $325M – $375M
- 5-Yr CapEx: $1.5B – $1.8B
- Robust project pipeline

2025 EPS GUIDANCE
$6.15 - $6.35

2028 EPS GUIDANCE
$7.75 - $8.80

Average Long-Term EPS Growth Relative to Peers



CPK: Strategic Growth Plan for 2025 – 2028

Investing in attractive service areas with unparalleled growth

DELMARVA

Top-Quartile Growth[1]
- 4.0% residential growth
- 1.6% commercial growth
- ~4,000 new customers

- Attracting new residents
- Expanded gas service driving commercial and industrial growth

FLORIDA

Top-Quartile Growth[1]
- 3.9% residential growth
- 1.2% commercial growth
- ~6,700 new customers

- #1 for state in-migration[2]
- New communities being developed across the state
- Space & Port present potential growth

OHIO

Variety of growth drivers:
- Residential growth in several key counties
- Technology hub
- Potential to serve generation for data centers

NORTH CAROLINA

Variety of growth drivers:
- Expand propane distribution
- Leverage community gas expertise into this market as well as AutoGas capabilities

FitchRatings

Fitch Assigns Chesapeake Utilities First-Time 'BBB+' IDR; Outlook Stable

Fitch Ratings – Toronto (March 10, 2025):

Fitch Ratings has assigned a first time Long-Term Issuer Default Rating (IDR) of 'BBB+' to Chesapeake Utilities Corporation (CPK) and an 'A-' instrument rating to its senior unsecured debt. The Rating Outlook is Stable.

The ratings reflect the low-risk profile of CPK's regulated gas and electric distribution operations, supportive rate regulation and somewhat higher unregulated business risk. The ratings are supported by regulatory diversification, robust customer growth and stable earnings. Fitch anticipates CPK's FFO leverage to average 4.5x over the forecast period of 2025-2027."

CHESAPEAKE UTILITIES CORPORATION

CHESAPEAKE UTILITIES CORPORATION RECEIVES INAUGURAL INVESTMENT GRADE CREDIT RATING

Chesapeake Utilities Corporation – Dover, Delaware (March 10, 2025):

"The Company has a long track record of delivering top tier returns for investors driven by significant capital investment while at the same time prudently managing its balance sheet and capital structure. The Company's future capital and earnings guidance demonstrate our expectation for strong future growth. Securing a rating was the next logical step in expanding our access to financing. Our mix of strong regulated businesses, continued commitment to a strong balance sheet, and financial discipline supported an investment grade credit rating from Fitch that will enable us to raise capital more efficiently as we execute on our future growth plans," said Beth Cooper, Executive Vice President, Chief Financial Officer Treasurer and Assistant Corporate Secretary.

VIA EMAIL (AMaurey@PSC.STATE.FL.US)

Mr. Andrew Maurey
Director, Division of Accounting and Finance
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399

RE: Florida City Gas 2023 Forecasted Earnings Surveillance Report

Dear Mr. Maurey:

Pursuant to Rule 25-7.135, F.A.C., Florida City Gas ("FCG") herein submits its Forecasted Earnings Surveillance Report ("FESR") for calendar year 2023. On February 7, 2023, FCG was granted an extension of time to its 2023 FESR by no later than May 1, 2023. Consistent with that extension, enclosed is FCG's 2023 FESR.

Please note that the forecast results contained in the FESR reflect the Company's 2023 planning assumptions and the base rate adjustments and revenue requirements approved by the Florida Public Service Commission at the March 28, 2023 Special Agenda Conference in Docket No. 20220069-GU. There are no confidential materials, information, or data included in the enclosed 2023 FESR.

Thank you for your attention to this matter, and please contact me at (561) 691-7167 should you have any questions concerning this report.

With best regards,

Mark Campbell

INDEPENDENT AUDITOR'S REPORT

Pivotal Utility Holdings, Inc.
700 Universe Blvd.
Juno Beach, FL

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas" or the "Company"), a wholly-owned subsidiary of Florida Power & Light Company, which comprise the balance sheet – regulatory basis as of December 31, 2021, and the related statements of income – regulatory basis, retained earnings – regulatory basis, and cash flows – regulatory basis, for the year then ended, included on pages 10 through 18 of the Company's Annual Report of Natural Gas Utilities, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2021, and the results of its operations for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the members and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Keith Ferguson	Title: Controller	
Address: 700 Universe Blvd	City: Juno Beach	State: FL
Telephone No.: (561) 694-3428		PSC/AFD 020-G (12/03)

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ^{2}) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS;
that i have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above-named respondent in respect to each and every matter set forth therein during the period from January 1, 2021 to December 31, 2021, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2021

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept, and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

Keith Ferguson, Controller
700 Universe Boulevard
Juno Beach, Florida 33408

2. Provide the name of the State under the laws of which respondent is incorporated, and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

New Jersey - January 29, 1969

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee, (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

Not Applicable

4. State the type of utility and nonutility services furnished by respondent during the year in each State in which the respondent operated.

Pivotal Utility Holdings, Inc. (Pivotal Utility) d/b/a Florida City Gas (the Company) engages in the sale and distribution of natural gas to approximately 116 thousand customers in Florida's Miami-Dade, Brevard, St. Lucie and Indian River counties.

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) YES ...Enter the date when such independent accountant was initially engaged:

(2) **X** NO

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2021

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee (s), state name of trustee (s), name of beneficiary or beneficiaries for whom trust was maintained, and purpose of the trust.
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

Florida Power & Light Company, is the sole holder of the common stock of the respondent. Florida Power & Light Company is a wholly-owned subsidiary of NextEra Energy Inc.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2021

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Pivotal Utility Holdings, Inc. does not control, directly or indirectly, any corporation, business trust, or similar organization.			

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2021

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is $50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.
3. Utilities which are required to file the same data with the Securities and Exchange Commission, may substitute a copy of item 4 of Regulation S - K (identified as this page). The substituted page(s) should be the same size as this page.

(**) All actions are taken by written consent of the sole Director.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2021

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent: if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to the end year, and state the purpose of such closing:	2. State the total number of votes cast at the latest general meeting prior to the end of year for the election of directors of the respondents and number of such votes cast by proxy. Total: By Proxy:	3. Give the date and place of such meeting.

		VOTING SECURITIES Number of votes as of (date):

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.

2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.

3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.

4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.

5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.

6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.

7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.

8. State the estimated annual effect and nature of any important wage scale changes during the year.

9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.

10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on page 8, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.

11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.

12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

1. None

2. None

3. None

4. None

5. None

6. None

7. None

8. None

9. Florida City Gas is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of such pending or potential pending litigation cannot be predicted at this time; however, management does not anticipate that the ultimate liabilities, if any, arising from such claims and legal actions would have a material effect on the Florida City Gas' financial statements.

10. None

11. N/A - the only rate changes relate to the annual clause rate adjustments.

12. N/A

PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2021

STATEMENT OF INCOME

1. Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 through 24 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
4. Use page 19 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations on page 19 concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations on page 19 concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting

STATEMENT OF INCOME (Continued)

revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

7. If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be attached at page 19.

8. Enter on page 19 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 22, and report the information in the blank space on page 19 or in a supplemental statement.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 19.

Pivotal Utility Holdings, Inc. d/b/a Florida City Gas
Notes to Financial Statements
December 31, 2021 and 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Pivotal Utility Holdings, Inc. (Pivotal Utility) d/b/a Florida City Gas (the Company) engages in the sale and distribution of natural gas to approximately 116 thousand customers in Florida's Miami-Dade, Brevard, St. Lucie and Indian River counties. Pivotal Utility is a wholly owned subsidiary of Florida Power & Light Company (FPL) and FPL is a wholly owned subsidiary of NextEra Energy, Inc. (NextEra Energy).

The financial statements included herein are prescribed by the requirements of the Florida Public Service Commission (FPSC) and are prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published releases. This is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The significant differences consist of the following:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term.
- The presentation of deferred income tax assets and liabilities on a gross basis rather than as a net amount.
- The presentation of accumulated removal costs as a component of accumulated depreciation rather than as a regulatory liability.
- The presentation of debt issuance costs as a deferred debit instead of a liability that offsets the related debt balances.
- The classification of the provision for income taxes in net utility operating income.
- The omission of the statement of retained earnings for prior year for a comparative presentation.
- The presentation of operating lease assets and liabilities on the balance sheets.

The preparation of financial statements requires the use of estimates and the actual results may differ from those estimates.

Regulatory Assets and Liabilities

The Company is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets at December 31, relate to:

	2021	2020
	(in thousands)	
Regulatory Assets:		
Regulatory infrastructure programs	$ 2,151	$ 9,366
Natural gas costs	2,890	286
Deferred customer conversion costs	3,101	3,578
Rate case expenses	127	444
Recoverable pension and retiree welfare benefit costs	139	257
Deferred piping	243	211
Energy conservation program	1,292	1,283
Competitive rate adjustment	691	767
Deferred income tax adjustment	213	427
Underrecovered SAFE/Franchise Costs	466	—
Total Regulatory Assets	$ 11,313	$ 16,619
Regulatory Liabilities:		
Deferred income tax credits(*)	$ 19,943	$ 20,960
Overrecovered SAFE/Franchise Costs	—	89
Deferred gain on sale of property	—	114
Unbilled Revenue	2,343	1,607
Total Regulatory Liabilities	$ 22,286	$ 22,770

(*) Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation). See Note 3 - Regulatory Matters and Note 4 for additional details.

In the event that the Company's operations are no longer subject to applicable accounting rules for rate regulation, the Company would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, the Company would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 3 - Regulatory Matters for additional information.

Revenues

The Company records revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. The Company has a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue

The Company has a diversified base of customers. No single customer or industry comprises 10% or more of revenues. For all periods presented, uncollectible accounts averaged less than 1% of revenues.

Cost of Natural Gas

The Company charges its customers for natural gas consumed using a natural gas cost recovery mechanism set by the FPSC, under which all prudently incurred natural gas costs are passed through to customers without markup, subject to regulatory review. The Company defers or accrues the difference between the actual cost of natural gas and the amount of commodity revenue earned in a given period such that no operating income is recognized related to these costs. The deferred or accrued amount is either billed or refunded to customers prospectively through adjustments to the commodity rate. Deferred and accrued natural gas costs are included in the balance sheets as regulatory assets and regulatory liabilities, respectively.

Income and Other Taxes

The Company uses the liability method of accounting for deferred income taxes and provides deferred income taxes for all income tax temporary differences. Federal investment tax credits (ITCs) utilized are deferred and amortized to income over the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

The Company recognizes tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 4 - Unrecognized Tax Benefits for additional information.

Property, Plant, and Equipment

Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes, pensions, and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation

Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.9% for 2021 and 2020. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

Acquisition Adjustment

Until July 2018, the Company was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring the Company and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

		(in thousands)
December 31, 2019	$	10,949
2020 amortization expense		722
December 31, 2020		11,671
2021 amortization expense		722
December 31, 2021	$	12,393

Measurement of Credit Losses on Financial Instruments

Effective January 1, 2020, the Company adopted an ASU that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. The Company books the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2021 and 2020, the Company has a provision for uncollectible customer accounts of approximately $0.8 million and $0.9 million, respectively.

Receivables and Provision for Uncollectible Accounts

The Company's receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if the Company is aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount the Company reasonably expects to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies

Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale

The Company's natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments

The carrying amount of financial instruments, including receivables, accounts payable, due to affiliates, other current assets and liabilities and accrued interest, approximates fair value due to the short maturity of these instruments.

Intangibles - Goodwill and Other - Internal-Use Software

The Company capitalizes qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2021 and 2020, the Company has recognized approximately $5.5 million and $5.6 million, respectively, of implementation costs as capital and these costs are included in total utility plant. The costs are included in depreciation and amortization over the 20-year term of the arrangement. As of December 31, 2021 and 2020, the Company has approximately $10.7 million and $11.1 million, respectively, of prepayments relating to perpetual licensing fees which is being amortized to operation expenses over the 20 year life of the agreement.

2. RETIREMENT BENEFITS

The Company's employees participate in NextEra Energy's qualified noncontributory defined benefit pension plan. NextEra Energy uses multiemployer accounting and allocates net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation includes several components of cost, offset by the expected return on plan assets. For the year ended December 31, 2021 and 2020, NextEra Energy allocated approximately $0.9 million and $0.8 million, respectively, of net pension benefit income to the Company.

3. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

The Company is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of these matters and such pending or potential litigation against the Company cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Regulatory Infrastructure Programs

The majority of the Company's regulatory assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a

dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

In 2015, the FPSC approved the Company's Safety, Access, and Facility Enhancement (SAFE) program, under which costs incurred for replacing aging pipes are recovered through a rate rider with annual adjustments and true-ups. Under the program, the Company is authorized to spend $105 million over a 10-year period on infrastructure relocation and enhancement projects.

In 2012, the Company developed a project that makes use of the Area Extension Program (AEP) provided for in its tariff. Under the AEP, the Company is authorized to recover the costs to extend service to a single point or multiple points in a geographical area when the cost of the facilities exceeds the maximum allowable investment under its tariff and the margin from the investment. The AEP charge is initially set at a rate sufficient to recover the investment in ten years from the date the project is placed in service. The Company reassesses the amount of additional revenue required to recover the unamortized excess cost of the facilities and re-calculated the AEP charge multiple times during the ten-year recovery period. In 2021, the Company obtained approval from the FPSC to extend the recovery period from ten years to fifteen years with additional reassessments of the AEP charge.

Base Rates

In March 2018, the FPSC issued an order approving a stipulation and settlement between the Company and several intervenors in the Company's base rate proceeding that, after including the impact of the tax reform legislation, provides for an $11.5 million increase in annual base rate revenues, effective June 1, 2018. The stipulation and settlement also provided that the Company is permitted to recovery the construction costs related to a liquefied natural gas storage facility through an increase in rates to become effective when the facility is placed in service. The storage facility will improve reliability and capacity at the southern section of the Company's system. Under the terms of the settlement, the Company's allowed regulatory ROE is 10.19%, with a range of 9.19% to 11.19%. However, if the the Company's earned regulatory ROE falls below 9.19%, the Company may seek retail rate relief. If the earned regulatory ROE rises above 11.19%, any party with standing, other than the Company, may seek a review of the Company's retail base rates. The Company agreed not to file a new base rate case with an effective date prior to June 1, 2022.

On March 29, 2022 the Company filed notice with the FPSC that it intends to file general base rate increase on or after May 31, 2022, based on a projected test year ending December 31, 2023. The Company is finalizing its 2023 revenue requirements, but currently estimates a proposed net incremental base rate revenue increase of $20 million to $23 million. The proposed new base rates would take effect February 2023, pending approval by the FPSC.

4. INCOME TAXES

NextEra Energy will file a consolidated income tax return and various combined and separate state tax returns on behalf of the Company. Under the tax sharing agreement between NextEra Energy and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflects the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses are recorded at the corporate level. Included in other regulatory assets and other regulatory liabilities on the Company's balance sheet is the revenue equivalent of the difference in deferred income taxes computed under accounting rules, as compared to regulatory accounting rules.

The components of income taxes are as follows:

	2021	2020
	(in thousands)	
Federal —		
Current	$ 3,238	$ 378
Deferred	(78)	784
	3,160	1,162
State —		
Current	$ 366	(206)
Deferred	509	686
	875	480
Total	$ 4,035	$ 1,642

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

	2021	2020
	(in thousands)	
Deferred tax liabilities —		
Property related	$ 37,171	$ 36,155
Regulatory assets associated with employee benefit obligations	695	478
Other	953	1,181
Total	$ 38,819	$ 37,814
Deferred tax assets —		
Tax Reform Legislation	$ 5,054	$ 5,313
Other	717	688
Total	5,771	6,001
Accumulated deferred income taxes, net	$ 33,048	$ 31,813

Deferred federal and state ITCs are amortized over the average life of the related property with such amortization normally applied as a credit to reduce depreciation in the statements of income. There were no credits amortized in this manner for either year ended December 31, 2021 or 2020 because the Company has not generated any ITCs.

Effective Tax Rate

A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	Years Ended December 31,	
	2021	2020
Federal statutory rate	21.0%	21.0%
State income tax, net of federal deduction	3.7	4.6
Amortization of deferred regulatory credit	(3.2)	(6.3)
Other, net	0.2	0.9
Effective income tax rate	21.7%	20.2%

Unrecognized Tax Benefits

The Company has no unrecognized tax benefits for any year presented. The Company classifies interest on tax uncertainties as interest expense; however, the Company had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2018 through 2020 (Federal and State) remain subject to examination by the Company's major tax jurisdictions.

5. FINANCING

Affiliate Loan Agreement with FPL

The Company entered into a loan agreement with FPL for the purpose of funding the Company's ongoing cash and working capital requirements. The loan agreement is available from January 1, 2019 through January 1, 2069, (the Availability Period). The agreement allows for a maximum of $150 million of short-term loans and $300 million of long-term loans to be outstanding at one time through the Availability Period. Each short-term loan will not exceed a 365 day term. Long-terms loans will have a term between 1 year and 50 years, not to exceed the Availability Period. The interest rates for the loans will be variable and equal to FPL's weighted average debt.

At December 31, 2021 and 2020, amounts outstanding were as follows:

	December 31, 2021		December 31, 2020	
	Weighted-average interest rate	Outstanding	Weighted-average interest rate	Outstanding
		(in thousands)		
Long-term loans	3.72%	$ 170,625	4.08%	$ 80,000
Short-term loans	0.45%	24,375	2.63%	90,000
Total		$ 195,000		$ 170,000

6. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

The Company has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Contractual obligations and estimated expenditures at December 31, 2021 were as follows:

	2022	2023	2024	2025	2026	Thereafter	Total
				(in thousands)			
Pipeline charges and storage capacity[(a)]	$ 12,043	$ 11,494	$ 11,485	$ 8,357	$ 7,414	$ 28,322	$ 79,115
Capital expenditures[(b)]	81,830	53,188	50,862	50,595	52,509	—	288,984
Total	$ 93,873	$ 64,682	$ 62,347	$ 58,952	$ 59,923	$ 28,322	$368,099

(a) Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.
(b) Represents projected capital expenditures through 2026 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

7. AFFILIATE TRANSACTIONS

FPL purchases and sells natural gas to meet the Company's gas supply requirements under a Gas Purchase and Sale Agreement. All costs associated with services provided by FPL were direct billed to the Company. All costs associated with natural gas purchase and sale activities are recoverable through the natural gas cost recovery mechanism.

At December 31, 2021 and 2020, the Company had $2.7 million and $2.4 million, respectively, in payables which was primarily due to FPL related to corporate support provided by the affiliated entity and amounts relating to purchases of natural gas as discussed above. At December 31, 2021, the Company also had $3.2 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and $0.4 million in payables due to NEE relating to state income taxes. At December 31, 2020, the Company also had $0.4 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and $0.4 million in receivables due from NEE relating to state income taxes.

8. SUBSEQUENT EVENTS

Management evaluated subsequent events for potential recognition and disclosure through April 11, 2022, the date these financial statements were available to be issued, and determined that no significant events have occurred subsequent to period end outside of those discussed above.

Name of Respondent
PIVOTAL UTILITY HOLDINGS
D/B/A FLORIDA CITY GAS

For the Year Ended
December 31, 2021

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

Description of Overhead	Nature of Work	General Procedure for Determining the Amount Capitalized	Method of Distribution to Construction Jobs	Whether Different Rates are Applied to Different Types of Construction	Basis of Differentiation in Rates for Different Types of Construction	Whether the Overhead is Directly or Indirectly Assigned
	(a)	(b)	(c)	(d)	(e)	(f)
Benefits Capitalized	Employer portion of paid employee benefits includes: Pension, Medical, Dental, Life, Retiree credits and etc.	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Performance Incentives	Employee short term incentives	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Payroll Taxes Expense Capitalized	Employer portion of paid employee Payroll Taxes	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll

Note: All other construction overheads are direct charges for affiliate payroll or outside services.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c) and that reported for gas plant in service, pages 22 - 27, column (d), excluding retirements of non-depreciable property.
3. The provisions of Account 108 in the Uniform System of Account require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

SECURITIES ISSUED OR ASSUMED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. identify as to Commission authorization numbers and dates.
2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or financing transactions with respect to securities previously refunded or retired.
3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the of the principal underwriting firm through which the security transactions were consummated.
4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.
5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as particulars (details) of the transactions whereby the respondent undertook to pay obligations of another company If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

None

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
4. For receiver's certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
5. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledgee and purpose of the pledge.
7. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
9. Give particulars (details) concerning any long-term debt authorized by a regulatory Commission but not yet issued.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

1. Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
2. Show premium amounts by enclosing the figures in parentheses.
3. In column (b) show the principal amount of bonds or other long-term debt originally issued.
4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treament other than as specified by the Uniform System of Accounts.
6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.
2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
3. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
4. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
5. Report gas service revenues and therms sold by rate schedule.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:

800	Natural Gas Well Head Purchases
800.1	Natural Gas Well Head Purchases, Intracompany Transfers
801	Natural Gas Field Line Purchases
802	Natural Gas Gasoline Plant Outlet Purchases
803	Natural Gas Transmission Line Purchases
804	Natural Gas City Gate Purchases
804.1	Liquefied Natural Gas Purchases
805	Other Gas Purchases
805.1	Purchases Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given for the respective income deduction and interest charges accounts. Provide a subheading for each account and total for the account. Additional columns may be added if deemed appropriate with respect to any account.

(a) Miscellaneous Amortization (Account 425) - Describe the nature of items included in this account, the contra account charged, the total of amortization charged for the year, and the period of amortization.

(b) Miscellaneous Income Deductions - Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2 Life Insurance; 426.3 Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities: and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than $25,000 may be grouped by classes within the above accounts.

(c) Interest on Debt to Associated Companies (Account 430) - For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431) - Report particulars (Details) including the amount and interest rate for each other interest charges incurred during the year.

Line No.	Item (a)	Amount (b)

Reconciliation of Gross Operating Revenues
Annual Report versus Regulatory Assessment Fee Return

Company: PIVOTAL UTILITY HOLDINGS D/B/A FLORIDA CITY GAS **For the Year Ended December 31, 2021**

For the current year, reconcile the gross operating revenues as reported on Page 46 of this report with the gross operating revenues as reported on the utility's regulatory assessment fee return. Explain and justify any differences between the reported gross operating revenues in column (f).

	(a)	(b)	(c)	(d)	(e)	(f)
Line No.	Description	Gross Operating Revenues per Page 46	Interstate and Sales for Resale Adjustments	Adjusted Intrastate Gross Operating Revenues	Intrastate Gross Operating Revenues per RAF Return	Difference (d) - (e)
1	Total Sales to Ultimate Customers (480-482, 484)	63,778,184		63,778,184	63,349,139	429,045
2	Sales for Resale (483)			—		—
3	Total Natural Gas Service Revenues	63,778,184	—	63,778,184	63,349,139	429,045
4	Total Other Operating Revenues (485-495)	46,112,249		46,112,249	45,271,021	841,228
5	Total Gas Operating Revenues	109,890,433	—	109,890,433	108,620,160	1,270,273
6	Provision for Rate Refunds (496)			—		—
7	Other (Specify)			—		—
8						
9						
10	**Total Gross Operating Revenues**	109,890,433	—	109,890,433	108,620,160	1,270,273

Notes:

Gas Operating Revenues on page 26 varies from those included in the RAF as follows:

Line 1	Reversal of 2020 Unbilled revenue topside adjustment.	429,045
Line 4	SAFE component of 2021 operating revenues not includable in the RAF	555,632
Line 4	AEP component of 2021 operating revenues not includable in the RAF.	98,569
Line 4	Reversal of Transmission Revenue 2020 & 2019 Customer Refund recorded in 2021.	144,679
Line 4	ECCR revenue 2020 & 2019 Customer Refund recorded in 2021.	15,708
Line 4	Reversal of 2020 Unbilled ECCR topside adjustment.	26,640
		1,270,273

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

COMPANY: **PIVOTAL UTILITY HOLDINGS D/B/A FLORIDA CITY GAS**
For the Year Ended **December 31, 2021**

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase , lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price quantity, amount, and duration of the contracts.

Name of Affiliated Company (a)	Synopsis of Contract (b)
Palms Insurance Company, Limited	Palms Insurance Company, Limited provides various lines of insurance coverage to FCG. Palms provides insurance for FCG employees' workers' compensation liability up to policy limit of $5,000,000 per accident or per employee. Premium for the term December 1, 2021 to November 30, 2022 was $36,929.
Palms Insurance Company, Limited	Palms insures the FCG fleet vehicles for third-party auto liability up to $3,000,000 per occurrence in excess of a $25,000 per accident retention for accidents prior to March 1, 2016 and a $100,000 per accident retention for accidents occurring on or after March 1, 2016 through January 1, 2020. Beginning January 1, 2020, Limit of Liability is $5,000,000 any one Occurrence, inclusive of Defense costs and Insured's self-retention is $250,000 any on Occurrence, inclusive of Defense Costs. Premium for the term December 1, 2021 to November 30, 2022 was $295,252.
Palms Insurance Company, Limited	Palms writes a Property All-Risk coverage, which includes "All risks" of direct physical loss or damage including boiler explosion, mechanical and electrical breakdown, flood, earth movement, wind (named storm) all as more fully defined herein the policy document. The coverage has a liability of $100,000,000 per occurrence in excess of a $25,000,000 deductible. Premium for the term June 1, 2021 to June 1, 2022 is $38,729.
Palms Insurance Company, Limited	Excess Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective December 1, 2020. Palms has a 35% quota share of the $50,000,000 liability per occurrence and $70,000,000 per aggregate excess of the liability layer. Premium for the term December 1, 2021 to December 1, 2022 is $134,274. Palms has a Limit of Liability each Occurrence: $60,000,000 excess of $200,000,000 for FCG. Premium for the term December 1, 2021 to November 30, 2022 is $56,996.
Palms Insurance Company, Limited	Directors and Officers Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective March 31, 2021. Palms has a $100,000,000 per aggregate excess of the $250,000,000 liability layer. Premium for the term March 31, 2021 to March 31, 2022 is $1,530.
Palms Insurance Company, Limited	Palms writes a Crime and Fidelity coverage, which includes loss of assets, loss of client assets, personal identity event expenses, credit card forgery, and loss of employs benefit plan assets, all as more fully defined herein the policy document. The coverage has a liability of $55,000,000 per occurrence in excess of a $1,000,000 deductible. Premium for the term March 31, 2021 to March 31, 2022 is $2,557.
Palms Insurance Company, Limited	Fiduciary Liability Insurance issued by Palms, includes managed care services, voluntary compliance settlements, and covered penalties, all as more fully defined herein the policy document. The coverage has a liability of $60,000,000 per occurrence in excess of a $5,000,000 deductible. Premium for the term March 31, 2021 to March 31, 2022 is $4,959.
FPL Energy Services, LLC	Pivotal Holdings d/b/a Florida City Gas and FPL Energy Services entered into a base contract for the Sale and Purchase of Natural Gas effective December 5, 2019. Seller will invoice buyer for gas delivered and received in the preceding month and for any applicable charges. Unless otherwise specifically agreed, title to gas shall pass from seller to buyer at the delivery point. This contract may be terminated with a 30 day written notice but shall remain in effect until the expiration of the latest delivery point of any transaction.
Florida Power & Light	Florida Power & Light and Florida City Gas entered into a base contract for the Sale and Purchase of Natural Gas effective March 25, 2019. Seller will invoice buyer for gas delivered and received in the preceding month and for any applicable charges. Unless otherwise specifically agreed, title to gas shall pass from seller to buyer at the delivery point. This contract may be terminated with a 30 day written notice but shall remain in effect until the expiration of the latest delivery point of any transaction.

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF $25,000

Company: PIVOTAL UTILITY HOLDINGS D/B/A FLORIDA CITY GAS
For the Year Ended December 31, 2021

Provide information regarding individual affiliated transactions in excess of $25,000. Recurring monthly affiliated transactions which exceed $25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate (a)	Description of Transaction (b)	Dollar Amount (c)
Florida Power & Light	Business Operations Support Provided by Affiliate	$ 329,879

INDEPENDENT AUDITOR'S REPORT

Pivotal Utility Holdings, Inc.
700 Universe Blvd.
Juno Beach, FL

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas" or the "Company"), a wholly-owned subsidiary of Florida Power & Light Company, which comprise the balance sheet – regulatory basis as of December 31, 2022, and the related statements of income – regulatory basis, retained earnings – regulatory basis, and cash flows – regulatory basis, for the year then ended, included on pages 10 through 18 of the Company's Annual Report of Natural Gas Utilities, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2022, and the results of its operations and its cash flows for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the members and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Keith Ferguson	Title: Controller	
Address: 700 Universe Blvd	City: Juno Beach	State: FL
Telephone No.: (561) 694-3428		PSC/AFD 020-G (12/03)

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ^{2}) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS;
that i have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above-named respondent in respect to each and every matter set forth therein during the period from January 1, 2022 to December 31, 2022, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2022

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept, and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

Keith Ferguson, Controller
700 Universe Boulevard
Juno Beach, Florida 33408

2. Provide the name of the State under the laws of which respondent is incorporated, and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

New Jersey - January 29, 1969

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee, (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

Not Applicable

4. State the type of utility and nonutility services furnished by respondent during the year in each State in which the respondent operated.

Pivotal Utility Holdings, Inc. (Pivotal Utility) d/b/a Florida City Gas (the Company) engages in the sale and distribution of natural gas to approximately 118 thousand customers in Florida's Miami-Dade, Brevard, St. Lucie and Indian River counties.

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) YES ...Enter the date when such independent accountant was initially engaged:

(2) **X** NO

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2022

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee (s), state name of trustee (s), name of beneficiary or beneficiaries for whom trust was maintained, and purpose of the trust.
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

Florida Power & Light Company, is the sole holder of the common stock of the respondent. Florida Power & Light Company is a wholly-owned subsidiary of NextEra Energy Inc.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2022

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Pivotal Utility Holdings, Inc. does not control, directly or indirectly, any corporation, business trust, or similar organization.

Manuel B. Miranda (***) President, Pivotal Utility Holdings, Inc.	700 Universe Blvd Juno Beach, FL 33408	N/A(***)	None

(**) All actions are taken by written consent of the sole Director.
(***) Manuel B. Miranda replaced Sam A. Forrest on March 1, 2022.

Name of Respondent
PIVOTAL UTILITY HOLDINGS, INC.
D/B/A FLORIDA CITY GAS

For the Year Ended
December 31, 2022

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent: if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to the end year, and state the purpose of such closing:	2. State the total number of votes cast at the latest general meeting prior to the end of year for the election of directors of the respondents and number of such votes cast by proxy. Total: By Proxy:	3. Give the date and place of such meeting.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.

2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.

3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.

4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.

5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.

6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.

7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.

8. State the estimated annual effect and nature of any important wage scale changes during the year.

9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.

10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on page 8, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.

11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.

12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

1. In 2022, FCG renewed franchise agreements for a 30 year term with the municipalities listed below:

City of Miramar: the franchise fee was reduced from 7% to 6%
City of North Miami Beach: the franchise fee was reduced from 7% to 6%
City of West Miami: the franchise fee was reduced from 10% to 6%
City of North Miami: renewed at the existing rate of 6%

STATEMENT OF INCOME

1. Report amounts for Accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 through 24 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in Account 414, Other Utility Operating Income, in the same manner as Accounts 412 and 413 above.
3. Report data for lines 7,9,10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
4. Use page 19 for important notes regarding the statement of income or any account thereof.
5. Give concise explanations on page 19 concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
6. Give concise explanations on page 19 concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting

STATEMENT OF INCOME (Continued)

revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

7. If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be attached at page 19.

8. Enter on page 19 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 22, and report the information in the blank space on page 19 or in a supplemental statement.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 19.

STATEMENT OF CASH FLOWS

1. If the notes to the cash flow statement in the respondent's annual stockholders report are applicable to this statement, such notes should be attached to page 19. Information about noncash investing and financing activities should be provided on page 19. Provide also on page 19 a reconciliation between "Cash and Cash Equivalents at end of Year" with related amounts on the balance sheet.
2. Under "Other" specify significant amounts and group others.
3. Operating Activities - Other: include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on page 19 the amounts of interest paid (net of amounts capitalized) and income taxes paid.

Pivotal Utility Holdings, Inc. d/b/a Florida City Gas
Notes to Financial Statements
December 31, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Pivotal Utility Holdings, Inc. (Pivotal Utility) d/b/a Florida City Gas (the Company) engages in the sale and distribution of natural gas to approximately 118 thousand customers in Florida's Miami-Dade, Brevard, St. Lucie and Indian River counties. Pivotal Utility is a wholly owned subsidiary of Florida Power & Light Company (FPL) and FPL is a wholly owned subsidiary of NextEra Energy, Inc. (NextEra Energy).

The financial statements included herein are prescribed by the requirements of the Florida Public Service Commission (FPSC) and are prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published releases. This is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The significant differences consist of the following:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term.
- The presentation of deferred income tax assets and liabilities on a gross basis rather than as a net amount.
- The presentation of accumulated removal costs as a component of accumulated depreciation rather than as a regulatory liability.
- The presentation of debt issuance costs as a deferred debit instead of a liability that offsets the related debt balances.
- The classification of the provision for income taxes in net utility operating income.
- The omission of the statement of retained earnings for prior year for a comparative presentation.
- The presentation of operating lease assets and liabilities on the balance sheets.

The preparation of financial statements requires the use of estimates and the actual results may differ from those estimates.

Regulatory Assets and Liabilities

The Company is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets at December 31, relate to:

	2022	2021
	(in thousands)	
Regulatory Assets:		
Regulatory infrastructure programs	$ 1,593	$ 2,151
Natural gas costs	6,521	2,890
Deferred customer conversion costs	2,672	3,101
Rate case expenses	—	127
Recoverable pension and retiree welfare benefit costs	20	139
Deferred piping	272	243
Energy conservation program	158	1,292
Competitive rate adjustment	913	691
Deferred income tax adjustment	—	213
Underrecovered SAFE/Franchise Costs	—	466
Total Regulatory Assets	$ 12,149	$ 11,313
Regulatory Liabilities:		
Deferred income tax credits(*)	$ 18,882	$ 19,943
Overrecovered SAFE/Franchise Costs	146	—
Unbilled Revenue	2,865	2,343
Total Regulatory Liabilities	$ 21,893	$ 22,286

(*) Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation). See Note 3 - Regulatory Matters and Note 4 for additional details.

In the event that the Company's operations are no longer subject to applicable accounting rules for rate regulation, the Company would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, the Company would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 3 - Regulatory Matters for additional information.

Revenues

The Company records revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. The Company has a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue

The Company has a diversified base of customers. No single customer or industry comprises 10% or more of revenues. For all periods presented, uncollectible accounts averaged less than 1% of revenues.

Cost of Natural Gas

The Company charges its customers for natural gas consumed using a natural gas cost recovery mechanism set by the FPSC, under which all prudently incurred natural gas costs are passed through to customers without markup, subject to regulatory review. The Company defers or accrues the difference between the actual cost of natural gas and the amount of commodity revenue earned in a given period such that no operating income is recognized related to these costs. The deferred or accrued amount is either billed or refunded to customers prospectively through adjustments to the commodity rate. Deferred and accrued natural gas costs are included in the balance sheets as regulatory assets and regulatory liabilities, respectively.

Income and Other Taxes

The Company uses the liability method of accounting for deferred income taxes and provides deferred income taxes for all income tax temporary differences. Federal investment tax credits (ITCs) utilized are deferred and amortized to income over the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

The Company recognizes tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 4 - Unrecognized Tax Benefits for additional information.

Property, Plant, and Equipment

Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes, pensions, and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation

Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.9% for 2022 and 2021. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

Acquisition Adjustment

Until July 2018, the Company was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring the Company and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

	(in thousands)
December 31, 2020	$ 11,671
2021 amortization expense	722
December 31, 2021	12,393
2022 amortization expense	722
December 31, 2022	$ 13,115

Measurement of Credit Losses on Financial Instruments

Effective January 1, 2020, the Company adopted an ASU that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. The Company books the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2022 and 2021, the Company has a provision for uncollectible customer accounts of approximately $0.6 million and $0.8 million, respectively.

Receivables and Provision for Uncollectible Accounts

The Company's receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if the Company is aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount the Company reasonably expects to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies

Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale

The Company's natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments

The carrying amount of financial instruments, including receivables, accounts payable, due to affiliates, other current assets and liabilities and accrued interest, approximates fair value due to the short maturity of these instruments.

Intangibles - Internal-Use Software

The Company capitalizes qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2022 and 2021, the Company has recognized approximately $5.5 million and $5.5 million, respectively, of implementation costs as capital and these costs are included in total utility plant. The costs are included in depreciation and amortization over the 20-year term of the arrangement. As of December 31, 2022 and 2021, the Company has approximately $10.5 million and $10.7 million, respectively, of prepayments relating to perpetual licensing fees which is being amortized to operation expenses over the 20 year life of the agreement.

2. RETIREMENT BENEFITS

The Company's employees participate in NextEra Energy's qualified noncontributory defined benefit pension plan. NextEra Energy uses multiemployer accounting and allocates net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation includes several components of cost, offset by the expected return on plan assets. For the year ended December 31, 2022 and 2021, NextEra Energy allocated approximately $1.3 million and $0.9 million, respectively, of net pension benefit income to the Company.

3. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

The Company is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of these matters and such pending or potential litigation against the Company cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Regulatory Infrastructure Programs

The majority of the Company's regulatory assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a

dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

In 2015, the FPSC approved the Company's Safety, Access, and Facility Enhancement (SAFE) program, under which costs incurred for replacing aging pipes are recovered through a rate rider with annual adjustments and true-ups. Under the program, the Company is authorized to spend $105 million over a 10-year period on infrastructure relocation and enhancement projects. As part of its base rate case currently pending before the FPSC, FCG has requested approval to (i) continue the SAFE program beyond 2025 and (ii) expand the SAFE program to include the replacement of approximately 160 miles of early vintage polymer pipelines. If approved, the estimated cost, schedule, and recovery period will be addressed in a subsequent filing(s) with the FPSC.

In 2012, the Company developed a project that makes use of the Area Extension Program (AEP) provided for in its tariff. Under the AEP, the Company is authorized to recover the costs to extend service to a single point or multiple points in a geographical area when the cost of the facilities exceeds the maximum allowable investment under its tariff and the margin from the investment. The AEP charge is initially set at a rate sufficient to recover the investment in ten years from the date the project is placed in service. The Company reassesses the amount of additional revenue required to recover the unamortized excess cost of the facilities and re-calculated the AEP charge multiple times during the ten-year recovery period.

Base Rates

In March 2018, the FPSC issued an order approving a stipulation and settlement between the Company and several intervenors in the Company's base rate proceeding that, after including the impact of the tax reform legislation, provides for an $11.5 million increase in annual base rate revenues, effective June 1, 2018. The stipulation and settlement also provided that the Company is permitted to recover the construction costs related to a liquefied natural gas storage facility through an increase in rates to become effective when the facility is placed in service. The storage facility will improve reliability and capacity at the southern section of the Company's system. Under the terms of the settlement, the Company's allowed regulatory ROE is 10.19%, with a range of 9.19% to 11.19%. However, if the Company's earned regulatory ROE falls below 9.19%, the Company may seek retail rate relief. If the earned regulatory ROE rises above 11.19%, any party with standing, other than the Company, may seek a review of the Company's retail base rates. The Company agreed not to file a new base rate case with an effective date prior to June 1, 2022.

On May 31, 2022, FCG filed a general base rate increase with the FPSC based on a projected 2023 Test Year. FCG proposed a four-year rate plan with a single total base revenue increase of $28.3 million, which included an incremental increase of $18.8 million, the previously approved increase of $3.8 million for a Liquefied Natural Gas (LNG) Facility, and $5.7 million to transfer the SAFE investments from clause to base. If approved, FCG's proposed four-year rate plan would avoid another general base rate increase until at least the end of 2026. In the event the FPSC declined to approve the proposed four-year rate plan, FCG also proposed an alternative one-year rate plan with a total base revenue increase of $31.3 million, which included an incremental increase of $21.5 million, the previously approved increase of $3.8 million for a LNG Facility, and $6.0 million to transfer the SAFE investments from clause to base. On March 28, 2023, the FPSC approved a four-year rate plan with an adjusted single total base revenue increase of approximately $23.3 million, which included an incremental increase of approximately $14.1 million, the previously approved increase of $3.8 million for the LNG Facility, and approximately $5.3 million to transfer the SAFE investments from clause to base. The FPSC will issue a final order on May 15, 2023.

4. INCOME TAXES

NextEra Energy will file a consolidated income tax return and various combined and separate state tax returns on behalf of the Company. Under the tax sharing agreement between NextEra Energy and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflects the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses are recorded at the corporate level. Included in other regulatory assets and other regulatory liabilities on the Company's balance sheet is the revenue equivalent of the difference in deferred income taxes computed under accounting rules, as compared to regulatory accounting rules.

The components of income taxes are as follows:

	2022	2021
	(in thousands)	
Federal —		
Current	$ 2,679	$ 3,238
Deferred	191	(78)
	2,870	3,160
State —		
Current	$ 463	366
Deferred	510	509
	973	875
Total	$ 3,843	$ 4,035

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

	2022	2021
	(in thousands)	
Deferred tax liabilities —		
Property related	$ 37,940	$ 37,171
Regulatory assets associated with employee benefit obligations	955	695
Other	1,186	953
Total	$ 40,081	$ 38,819
Deferred tax assets —		
Tax Reform Legislation	$ 4,786	$ 5,054
Other	700	717
Total	5,486	5,771
Accumulated deferred income taxes, net	$ 34,595	$ 33,048

Effective Tax Rate

A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	Years Ended December 31,	
	2022	2021
Federal statutory rate	21.0%	21.0%
State income tax, net of federal deduction	4.5	3.7
Amortization of deferred regulatory credit	(3.7)	(3.2)
Other, net	0.5	0.2
Effective income tax rate	22.3%	21.7%

Unrecognized Tax Benefits

The Company has no unrecognized tax benefits for any year presented. The Company classifies interest on tax uncertainties as interest expense; however, the Company had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2018 through 2021 (Federal and State) remain subject to examination by the Company's major tax jurisdictions.

5. FINANCING

Affiliate Loan Agreement with FPL

The Company entered into a loan agreement with FPL for the purpose of funding the Company's ongoing cash and working capital requirements. The loan agreement is available from January 1, 2019 through January 1, 2069, (the Availability Period). The agreement allows for a maximum of $150 million of short-term loans and $300 million of long-term loans to be outstanding at one time through the Availability Period. Each short-term loan will not exceed a 365 day term. Long-terms loans will have a term between 1 year and 50 years, not to exceed the Availability Period. The interest rates for the loans will be variable and equal to FPL's weighted average debt.

At December 31, 2022 and 2021, amounts outstanding were as follows:

	December 31, 2022		December 31, 2021	
	Weighted-average interest rate	Outstanding	Weighted-average interest rate	Outstanding
		(in thousands)		
Long-term loans	3.53%	$ 176,150	3.72%	$ 170,625
Short-term loans	1.13%	25,150	0.45%	24,375
Total		$ 201,300		$ 195,000

6. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

The Company has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Contractual obligations and estimated expenditures at December 31, 2022 were as follows:

	2023	2024	2025	2026	2027	Thereafter	Total
				(in thousands)			
Pipeline charges and storage capacity[(a)]	$ 10,382	$ 10,449	$ 9,654	$ 9,289	$ 9,289	$ 23,931	$ 72,994
Capital expenditures[(b)]	52,925	50,597	50,345	52,273	52,312	—	258,452
Total	$ 63,307	$ 61,046	$ 59,999	$ 61,562	$ 61,601	$ 23,931	$331,446

(a) Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.
(b) Represents projected capital expenditures through 2027 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

7. AFFILIATE TRANSACTIONS

FPL purchases and sells natural gas to meet the Company's gas supply requirements under a Gas Purchase and Sale Agreement. All costs associated with services provided by FPL were direct billed to the Company. All costs associated with natural gas purchase and sale activities are recoverable through the natural gas cost recovery mechanism.

At December 31, 2022 and 2021, the Company had $7.2 million and $2.7 million, respectively, in payables which was primarily due to FPL related to corporate support provided by the affiliated entity and amounts relating to purchases of natural gas as discussed above. At December 31, 2022, the Company also had $2.6 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and $0.5 million in payables due to NEE relating to state income taxes. At December 31, 2021, the Company also had $3.2 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and $0.4 million in payables due to NEE relating to state income taxes.

8. SUBSEQUENT EVENTS

Management evaluated subsequent events for potential recognition and disclosure through March 31, 2023, the date these financial statements were available to be issued, and determined that no significant events have occurred subsequent to period end outside of those discussed above.

CONSTRUCTION OVERHEADS-GAS

1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
2. On page 30 furnish information concerning construction overheads.
3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 30 the accounting procedures employed and the amounts of engineering, supervision, and administrative costs, etc. which are directly charged to construction.
3. Enter on this page engineering, supervision, administrative,, and allowance for funds used during construction, etc. which are first assigned to a blanket work order and then prorated to construction jobs.

Line No.	Description of Overhead (a)	Total Amount Charged for the Year (b)	Total Cost of Construction to Which Overheads Were Charged (Exclusive of Overhead Charges) (c)**

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

Description of Overhead	Nature of Work	General Procedure for Determining the Amount Capitalized	Method of Distribution to Construction Jobs	Whether Different Rates are Applied to Different Types of Construction	Basis of Differentiation in Rates for Different Types of Construction	Whether the Overhead is Directly or Indirectly Assigned
	(a)	(b)	(c)	(d)	(e)	(f)
Benefits Capitalized	Employer portion of paid employee benefits includes: Pension, Medical, Dental, Life, Retiree credits and etc.	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Performance Incentives	Employee short term incentives	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Payroll Taxes Expense Capitalized	Employer portion of paid employee Payroll Taxes	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll

Note: All other construction overheads are direct charges for affiliate payroll or outside services.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c) and that reported for gas plant in service, pages 22 - 27, column (d), excluding retirements of non-depreciable property.
3. The provisions of Account 108 in the Uniform System of Account require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

SECURITIES ISSUED OR ASSUMED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.

2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or financing transactions with respect to securities previously refunded or retired.

3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the of the principal underwriting firm through which the security transactions were consummated.

4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as particulars (details) of the transactions whereby the respondent undertook to pay obligations of another company If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

None

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
4. For receiver's certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
5. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledgee and purpose of the pledge.
7. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
9. Give particulars (details) concerning any long-term debt authorized by a regulatory Commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:

800	Natural Gas Well Head Purchases
800.1	Natural Gas Well Head Purchases, Intracompany Transfers
801	Natural Gas Field Line Purchases
802	Natural Gas Gasoline Plant Outlet Purchases
803	Natural Gas Transmission Line Purchases
804	Natural Gas City Gate Purchases
804.1	Liquefied Natural Gas Purchases
805	Other Gas Purchases
805.1	Purchase Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given for the respective income deduction and interest charges accounts. Provide a subheading for each account and total for the account. Additional columns may be added if deemed appropriate with respect to any account.

(a) Miscellaneous Amortization (Account 425) - Describe the nature of items included in this account, the contra account charged, the total of amortization charged for the year, and the period of amortization.

(b) Miscellaneous Income Deductions - Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2 Life Insurance; 426.3 Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities: and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than $25,000 may be grouped by classes within the above accounts.

(c) Interest on Debt to Associated Companies (Account 430) - For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431) - Report particulars (Details) including the amount and interest rate for each other interest charges incurred during the year.

Line No.	Item (a)	Amount (b)
1	MISCELLANEOUS AMORTIZATION (425)	NONE
2		
3	MISCELLANEOUS INCOME DEDUCTIONS (426.1 - 426.5):	
4	Charitable Contributions	(10,000)
5	Political Action Committee Dues - Associated Gas Distributors of Florida	(75,000)
6	Total Miscellaneous Income Deductions	(85,000)

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

COMPANY: PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS
For the Year Ended December 31, 2022

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase, lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price, quantity, amount, and duration of the contracts.

Name of Affiliated Company (a)	Synopsis of Contract (b)
Palms Insurance Company, Limited	Palms Insurance Company, Limited provides insurance for FCG employees' workers' compensation liability up to policy limit of $5,000,000 per accident or per employee. Premium for the term December 1, 2022 to November 15, 2023 was $36,929.
Palms Insurance Company, Limited	Palms Insurance Company, Limited insures the FCG fleet vehicles for third-party auto liability up to $3,000,000 per occurrence in excess of a $25,000 per accident retention for accidents prior to March 1, 2016 and a $100,000 per accident retention for accidents occurring on or after March 1, 2016 through January 1, 2020. Beginning January 1, 2020, limit of liability is $5,000,000 per occurrence, inclusive of defense costs. In 2022, Insured's self-retention is $750,000 per occurrence, inclusive of defense costs. Premium for the term December 1, 2022 to November 15, 2023 was $316,127.
Palms Insurance Company, Limited	Excess Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective December 1, 2020. Palms has a 35% quota share of the $50,000,000 liability per occurrence and $35,000,000 in excess of $225,000,000 layer. Premium for the term December 1, 2022 to November 15, 2023 is $186,246. Palms Insurance Company, Limited also has a limit of liability for each occurrence: $7,500,000 in excess of $370,000,000. Premium for the term December 1, 2022 to November 15, 2023 is $3,249.
Palms Insurance Company, Limited	Directors and Officers Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective March 31, 2022. Palms Insurance Company, Limited has a $100,000,000 per aggregate excess of the $250,000,000 liability layer. Premium for the term March 31, 2022 to March 31, 2023 is $1,903.
Palms Insurance Company, Limited	Crime and Fidelity coverage, which includes loss of assets, loss of client assets, personal identity event expenses, credit card forgery, and loss of employees benefit plan assets, as more fully defined in the policy document. Palms Insurance Company, Limited provides coverage of $35,000,000 per occurrence in excess of $20,000,000. Premium for the term March 31, 2022 to March 31, 2023 is $1,748.
Palms Insurance Company, Limited	Fiduciary Liability Insurance issued by Palms Insurance Company, Limited includes managed care services, voluntary compliance settlements, and covered penalties, as more fully defined in the policy document. Palms Insurance Company, Limited has a 50% quota share of the $25,000,000 liability per occurrence in excess of $35,000,000. Palms Insurance Company, Limited also has a liability for each occurrence: $15,000,000 in excess of $60,000,000. Premium for the term March 31, 2022 to March 31, 2023 is $1,875.

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF $25,000

Company: **PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS**
For the Year Ended **December 31, 2022**

Provide information regarding individual affiliated transactions in excess of $25,000. Recurring monthly affiliated transactions which exceed $25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate (a)	Description of Transaction (b)	Dollar Amount (c)
Florida Power & Light	Business Operations Support Provided by Affiliate	$ 365,752

INDEPENDENT AUDITOR'S REPORT

Pivotal Utility Holdings, Inc.
208 Wildlight Avenue
Yulee, FL

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas" or the "Company"), which comprise the balance sheet – regulatory basis as of December 31, 2023, and the related statements of income – regulatory basis and retained earnings -- regulatory basis, for the year then ended, included on pages 6 through 10 of the Company's Annual Report of Natural Gas Utilities, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2023, and the results of its operations for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the members and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

ANNUAL REPORT OF

NATURAL GAS UTILITIES

PIVOTAL UTILITY HOLDINGS, INC. D/B/A
Florida City Gas
(EXACT NAME OF RESPONDENT)

208 Wildlight Avenue
Yulee, FL 32097
(ADDRESS OF RESPONDENT)

TO THE

FLORIDA PUBLIC SERVICE COMMISSION

FOR THE

YEAR ENDED DECEMBER 31, 2023

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Michael D. Cassel	Title: Vice President, Government and Regulatory Affairs	
Address: 208 Wildlight Ave	City: Yulee	State: FL
Telephone No.: (561) 252-0250		PSC/ECR 020-G (12/03)

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS

that I have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above- named respondent in respect to each and every matter set forth therein during the period from January 1, 2023 to December 31, 2023, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2023

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s).
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

1. On November 30, 2023, Chesapeake Utilities Corporation ("CUC") completed the acquisition of Florida City Gas Company ("FCG"). Upon completion of the acquisition, FCG became a wholly owned subsidiary of CUC.

2. Chesapeake's annual report on Form 10-K was filed with the Securities Exchange Commission on February 21, 2024. This report was for the fiscal year ended December 31, 2023.

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Note: Florida City Gas does not control any other entity. Our parent company, Chesapeake Utilities Corporation, does directly and indirectly control other subsidiaries. These organizations are listed in Chesapeake's Form 10-K.			

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2023

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is $50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.

Title (a)	Name of Officer (b)	Salary for Year (c)
Director, Chairman, President & CEO	Jeffry M. Householder	$ 32,660
Executive Vice President/Secretary/General Counsel/ Corporate Secretary/ Chief Policy and Risk Officer	James F. Moriarty	$ 12,400
Executive Vice President, Chief Financial Officer, Treasurer and Assistant Corporate Secretary	Beth W. Cooper	$ 12,400
Senior Vice President and Chief Development Officer	Kevin J. Webber	$ 9,390
Senior Vice President and Chief Operating Officer	Jeffrey S. Sylvester	$ 14,500
Senior Vice President, Regulatory and External Affairs	Cheryl M. Martin	$ 13,520
Senior Vice President and Chief Accounting Officer	Michael D. Galtman	$ 12,100
Senior Vice President and Chief Information Officer	Vikrant A. Gadgil (1)	$ 12,380
Senior Vice President and Chief Human Resources Officer	William Hughston (2)	$ 23,234

Note: The salaries above represent only that portion allocated to Florida City Gas.
(1) Vikrant A. Gadgil was promoted to Senior Vice President effective January 1, 2024.
(2) William Hughston was promoted to Senior Vice President effective January 1, 2024.

DIRECTORS

1. Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.
2. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	No. of Directors Meetings During Yr. (c)	Fees During Year (d)
Jeffry M. Householder, Director, Chairman	500 Energy Lane, Dover Delaware 19901	7	$ -

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2023

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

	VOTING SECURITIES			
	Number of votes as of (date):			
Name (Title) and Address of Security Holder	Total Votes	Common Stock	Preferred Stock	Other
(a)	(b)	(c)	(d)	(e)
TOTAL votes of all voting securities				
TOTAL number of security holders				
TOTAL votes of security holders listed below				
Effective November 30, 2023, Florida City Gas became a wholly-owned subsidiary of Chesapeake Utilities Corporation.

D/B/A FLORIDA CITY GAS	December 31, 2023

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter “none,” “not applicable” or “NA” where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule which it appears.

1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on the previous page, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

1 In 2023, FCG renewed franchise agreements for a 30 year term with the City of Hialeah at the existing rate of 6%. FCG also renewed its franchise agreement with the City of Miami at the existing rate of 6%, for a term of 20 years with the option to renew for an additional 10 years. FCG also entered into a new franchise agreement with the Town of Indian River Shores at the rate of 0.5% for a 30 year term.

2 On November 30, 2023, Chesapeake Utilities Corporation completed the acquisition of Florida City Gas. The acquisition was approved by the Florida PSC. Chesapeake Utilities Corporation acquired FCG for $923.4 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company. Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities Corporation.

9 Florida City Gas is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of such pending or potential pending litigation cannot be predicted at this time; however, management does not anticipate that the ultimate liabilities, if any, arising from such claims and legal actions would have a material effect on the Florida City Gas' financial statements.
FCG 2022 Base Rate Case (Florida Public Service Commission Docket No. 20220069-GU) is currently pending on appeal before the Florida Supreme Court at Case Nos. SC2023-0988 and SC2023-1433, which could result in a potential refund to customers pending the final outcome and decision on appeal.

10 None

11 New base rates were implemented as of May 1, 2023. The increase in revenues by effective rate and revenue classification, and the impact to customers, are shown in the following table:

12 None

STATEMENT OF INCOME

1. Use page 11 for important notes regarding the statement of income or any account thereof.
2. Give concise explanations on page 11 concerning significant amounts of any refunds made or received during the year.
3. Enter on page 11 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionment from those used in the preceding year. Also give the approximate dollar effect of such changes.
4. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Notes to the Financial Statements attached

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

On November 30, 2023, Chesapeake Utilities Corporation (Chesapeake Utilities) completed the acquisition of Florida City Gas (FCG, we, our, or us) for $923.4 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company (FPL) which is a subsidiary of NextEra Energy Inc. (NEE) As a result of the acquisition, Chesapeake Utilities recognized approximately $461.2 million of goodwill which is residing on our balance sheet at December 31, 2023. Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities.

FCG is a utility engaged in the natural gas distribution and transmission business in Florida. We serve approximately 120,000 residential and commercial natural gas customers across eight counties in Florida, including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River. Our natural gas system includes approximately 3,800 miles of distribution main and approximately 80 miles of transmission pipe. Our rates and services are subject to regulation by the Florida Public Service Commission (FPSC).

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (US GAAP). The accounting requirements of the FERC and the FPSC applied by us in these financial statements are generally consistent with US GAAP, except for:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term;
- The presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- The presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- The classification of the provision for income taxes in net utility operating income;
- The presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis; and
- The omission of the statement of retained earnings for prior year for a comparative presentation

We have assessed and reported on subsequent events through April 26, 2024, the date these financial statements are available to be issued.

Regulatory Assets and Liabilities

FCG is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets relate to:

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

(in thousands)	December 31, 2023 [1]	December 31, 2022

Overrecovered SAFE/Franchise Costs	—	146
Accrued natural gas costs	627	
Unbilled Revenue	1,999	2,865
Total Regulatory Liabilities	$ 21,243	$ 21,893

[1] Certain asset and liability balances recognized as Regulatory Assets and Liabilities have been reclassified and presented to conform with the classification utilized by our other natural gas distribution businesses in Florida

[2] Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation).

In the event that our operations are no longer subject to applicable accounting rules for rate regulation, we would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, we would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 3, *Regulatory Matters*, for additional information.

Revenues

We record revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. We have a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue

We have a diversified base of customers. No single customer or industry comprises 10% or more of revenues. For all periods presented, uncollectible accounts averaged less than 1% of revenues.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

Cost of Natural Gas
We have a fuel cost recovery mechanism. This mechanism provides a method of adjusting the billing rates to reflect changes in the cost of purchased fuel. The difference between the current cost of fuel and the cost of fuel recovered in billed rates is deferred and accounted for as either unrecovered purchased fuel costs or amounts payable to customers on the balance sheet. Generally, these deferred amounts are recovered or refunded within one year.

Income and Other Taxes
We use the liability method of accounting for deferred income taxes and provide deferred income taxes for all income tax temporary differences. Federal investment tax credits (ITCs) utilized are deferred and amortized to income over the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

We recognize tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 4, *Income Taxes - Unrecognized Tax Benefits*, for additional information.

Property, Plant, and Equipment
Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes, pensions, and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation
Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.5% and 2.9% for the years ended December 31, 2023 and 2022, respectively. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. As part of the 2022 base rate case, the FPSC approved new depreciation rates which became effective January 1, 2023. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, as they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

The FPSC approved the Reserve Surplus Amortization Mechanism (RSAM) as part of the 2022 base rate case. The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. We filed a forecast earnings surveillance report for 2023 with the FPSC on May 1, 2023 which contained a regulatory ROE of 10.0% intended to be earned based on the best information FCG had at that time. See Note 3, *Contingencies and Regulatory Matters*, for additional information.

Acquisition Adjustment
Until July 2018, FCG was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring FCG and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

(in thousands)		
December 31, 2021	$	12,393
Amortization expense		722
December 31, 2022	$	13,115
Amortization expense		721
December 31, 2023	$	13,836

Measurement of Credit Losses on Financial Instruments
Effective January 1, 2020, we adopted Accounting Standards Update (ASU) 2016-13 that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. We book the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2023 and December 31, 2022, we had a provision for uncollectible customer accounts of approximately $0.5 million and $0.6 million, respectively.

Receivables and Provision for Uncollectible Accounts
Our receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if we are aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount we reasonably expect to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies
Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale
Our natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments
We have entered into agreements with suppliers to purchase natural gas for resale to our customers. Purchases under these contracts either do not meet the definition of derivatives or are considered “normal purchases” and are accounted for on an accrual basis.

Financial assets with carrying values approximating fair value include accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities.

Internal-Use Software
We capitalize qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2023 and December 31, 2022, we recognized approximately $5.7 million and $5.5 million, respectively, of implementation costs as capital and these costs are included in total utility plant. The costs are included in depreciation and

amortization over the 20-year term of the arrangement. In connection with our internal-use software, we have entered into perpetual licensing arrangements which are amortized to operation expenses over the life of the agreement. Upon acquiring FCG in November 2023, Chesapeake Utilities determined the arrangement will be terminated prior to the contractual expiration date and is estimated to conclude in July 2025. As a result, the prepayment balance was adjusted. As of December 31, 2023 and December 31, 2022, we had approximately $0.4 million and $10.5 million, respectively.

2. RETIREMENT BENEFITS

Prior to the acquisition of FCG by Chesapeake Utilities in November 2023, our employees participated in NEE's qualified noncontributory defined benefit pension plan. NEE used multiemployer accounting and allocated net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation included several components of cost, offset by the expected return on plan assets. For the years ended December 31, 2023 and 2022, NEE allocated approximately $1.4 million and $1.3 million, respectively, of net pension benefit income to FCG, the current year allocation period ran from January 1, 2023 to November 30, 2023. Following the acquisition of FCG in November 2023, we are no longer being allocated a portion of NEE's net pension expense associated with their defined benefit plan.

Our eligible employees participate in various benefit plans sponsored by Chesapeake Utilities. Chesapeake Utilities allocates to us a portion of the benefit costs associated with these plans. Our share of the costs is based on a portion of the benefits related to providing services to us. For the period from the acquisition through December 31, 2023, the recorded benefit costs related to these plans were not material.

Chesapeake Utilities' 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities Retirement Savings Plan up to a maximum of six percent of the eligible compensation. The employer matching contribution is made in cash and is invested based on a participant's investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution is generally made in Chesapeake Utilities common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. New employees, who do not make an election to contribute or do not opt out of the Chesapeake Utilities Retirement Savings Plan, will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment.

3. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

We are subject to certain claims and legal actions arising in the ordinary course of business. One such claim is a personal injury claim alleged to have occurred on July 6, 2016, in Miami-Dade County, Florida. The plaintiff claimed multiple fractures and traumatic brain injury arising from an accident on bicycle path with a gas cap belonging to FCG. However, we were not added as a defendant until October 2020, after other named defendants settled or were dismissed from the case. At the time the claim was filed against us, we did not believe it was probable that any amounts would be paid out in relation to the claim. As a result of our discovery efforts conducted through the third quarter of 2023, including depositions, production of documents, examinations, and expert reviews, we ultimately determined

that a payout on plaintiff's claim was probable and it was in our best interest to settle and resolve the case. The matter was settled in October 2023 for $850,000, prior to the acquisition of FCG by Chesapeake Utilities.

On October 25, 2023, we received a letter from a large industrial customer alleging lost production due to a third-party strike on one of our gas mains, which occurred on September 14, 2023, resulting in the interruption of the customer's gas service. The customer alleged a total financial impact of $860,705 due to the loss of production and requested we investigate the incident. We were in the early stages of investigating the customer's allegations, but anticipated that claims could be made against us in connection with the incident. Although we could not predict the outcome with certainty, based on the investigation conducted prior to the sale of FCG, we estimated that a loss of $250,000 would be incurred based on the alleged damages in connection with the incident. At the time of the acquisition, the liability associated with this claim was retained by FCG and there had been no change in the estimated loss at December 31, 2023.

The ultimate outcome of all other matters and such pending or potential litigation against FCG cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Base Rates

In May 2022, FCG filed a general base rate increase with the FPSC based on a projected 2023 test year. In June 2023, the Florida PSC issued an order approving a single total base revenue increase of $23.3 million (which included an incremental increase of $14.1 million, a previously approved increase of $3.8 million for a liquefied natural gas facility, and $5.3 million to transfer the Safety, Access, and Facility Enhancement (SAFE) investments from a rider clause to base rates), with new rates becoming effective as of May 1, 2023. The Commission also approved FCG's proposed RSAM with a $25.0 million reserve amount, continuation and expansion of the capital SAFE program, implementation of an automated metering infrastructure pilot, and continuation of the storm damage reserve with a target reserve of $0.8 million. On June 23, 2023, the Florida Office of Public Counsel ("Florida OPC") filed a motion for reconsideration of the PSC's approval of RSAM, which was denied on September 12, 2023. On July 7, 2023, the Florida OPC filed a notice of appeal with the Florida Supreme Court, which is pending. The Florida OPC filed their initial brief on January 31, 2024.

The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. In order to earn the targeted regulatory ROE in each reporting period subject to the conditions of the effective rate agreement, RSAM is calculated using a trailing thirteen-month average of rate base and capital structure in conjunction with the trailing twelve months regulatory base net operating income, which primarily includes the base portion of rates and other revenues, net of operations and maintenance expenses, depreciation and amortization, interest and tax expenses. In general, the net impact of these income statement line items is adjusted, in part, by RSAM or its reversal to earn the targeted regulatory ROE. For the year ended December 31, 2023, we recorded decreases to asset removal costs and depreciation expense of $9.5 million as a result of the RSAM adjustment.

Regulatory Infrastructure Programs

The majority of our regulatory infrastructure program assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

In 2015, the FPSC approved the SAFE program, under which costs incurred for replacing aging pipes are recovered through a rate rider with annual adjustments and true-ups. In June 2023, the Florida PSC issued the approval order for the continuation of the SAFE program beyond its 2025 expiration date and inclusion of 150 miles of additional mains and services located in rear property easements. The SAFE program is designed to relocate certain mains and facilities associated with rear lot easements to street front locations to improve FCG's ability to inspect and maintain the facilities and reduce opportunities for damage and theft. In the same order, the Commission approved a replacement of 160 miles of pipe that was used in the 1970s and 1980s and shown through industry research to exhibit premature failure in the form of cracking. The program includes projected capital expenditures of $205 million over a 10-year period.

AFUDC
In September 2023, FCG filed a petition with the FPSC for approval to establish an AFUDC rate of 5.85%. The FPSC approved the rate on December 19, 2023, with the new rate effective as of July 1, 2023. FCG did not record any AFUDC for the year ended December 31, 2023.

4. INCOME TAXES

Prior to the acquisition of FCG by Chesapeake Utilities, NEE filed a consolidated income tax return and various combined and separate state tax returns on our behalf. Under that tax sharing agreement between NEE and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflected the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses were recorded at the corporate level. Included in other regulatory assets and other regulatory liabilities on our balance sheet at December 31, 2023 is the revenue equivalent of the difference in deferred income taxes computed under accounting rules, as compared to regulatory accounting rules. As a result of the acquisition in November 2023, we settled our deferred tax assets and liabilities with FPL as an equity transaction.

Subsequent to the acquisition, FCG is included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other subsidiaries. FCG will file a separate state income tax return in the state of Florida. Income taxes in the accompanying consolidated statements of income have been allocated to us if we were a separate taxpayer.

The components of income taxes are as follows:

(in thousands)	December 31, 2023	December 31, 2022
Federal		
Current	$ (7)	$ 2,679
Deferred	5,604	191
Total Federal	$ 5,597	$ 2,870
State		
Current	$ (231)	$ 463
Deferred	1,854	510
Total State	$ 1,623	$ 973
Total Income Taxes	$ 7,220	$ 3,843

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

(in thousands)	December 31, 2023	December 31, 2022
Deferred Tax Assets		
Tax reform legislation	$ 4,423	$ 4,786
Other	219	700
Total deferred tax assets	$ 4,642	$ 5,486
Deferred Tax Liabilities		
Property related	$ 2,498	$ 37,940
Assets associated with employee benefit obligations	—	955
Other	1,345	1,186
Total deferred tax liabilities	$ 3,843	$ 40,081
Accumulated deferred income taxes, net	$ 799	$ 34,595

Effective Tax Rate
A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	December 31, 2023	December 31, 2022
Federal statutory rate	21.0 %	21.0 %
State income tax, net of federal deduction	4.4 %	4.5 %
Amortization of deferred regulatory credit	(0.8)%	(3.7)%
Other, net	0.3 %	0.5 %
Effective income tax rate	24.9 %	22.3 %

Unrecognized Tax Benefits
FCG has no unrecognized tax benefits for any year presented. We classify interest on tax uncertainties as interest expense; however, we had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2019 through 2022 (Federal and State) remain subject to examination by our major tax jurisdictions.

5. FINANCING

Affiliate Loan Agreement with FPL
Prior to the Chesapeake Utilities acquisition of FCG, we had entered into an intercompany loan agreement with FPL for the purpose of funding our ongoing cash and working capital requirements. The loan agreement was available from January l, 2019 through January 1, 2069, (the Availability Period). The agreement allowed for a maximum of $150 million of short-term loans and $300 million of long-term loans to be outstanding at one time through the Availability Period. Each short-term loan would not exceed a 365 day term. Long-term loans would have a term between 1 year and 50 years. The interest rates for the loans would be variable and equal to FPL's weighted average

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

debt. Prior to the acquisition of FCG by Chesapeake Utilities, we terminated the intercompany loan agreement and settled our obligation with FPL as an equity transaction.

At December 31, 2023 and December 31, 2022, amounts outstanding were as follows:

	December 31, 2023		December 31, 2022	
(in thousands)	Weighted-average interest rate	Outstanding	Weighted-average interest rate	Outstanding
Long-term loans	— %	$ —	3.53 %	$ 176,150
Short-term loans	— %	—	1.13 %	25,150
Total		$ —		$ 201,300

6. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

FCG has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Contractual obligations and estimated expenditures at December 31, 2023 were as follows:

(in thousands)	2024	2025	2026	2027	2028	Thereafter	Total
Pipeline charges and storage capacity [1]	$ 9,609	$ 9,574	$ 9,574	$ 9,574	$ 9,366	$ 13,456	$ 61,153
Capital expenditures [2]	72,831	81,044	64,030	62,143	63,426	—	343,474
Total	$ 82,440	$ 90,618	$ 73,604	$ 71,717	$ 72,792	$ 13,456	$ 404,627

[1] Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.
[2] Represents projected capital expenditures through 2028 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

7. AFFILIATE TRANSACTIONS

Prior to the Chesapeake Utilities acquisition of FCG, FPL purchased and sold natural gas to meet FCG's gas supply requirements under a Gas Purchase and Sale Agreement. All costs associated with services provided by FPL were direct billed to FCG. All costs associated with natural gas purchase and sale activities were recoverable through the natural gas cost recovery mechanism. For the eleven months ended November 30, 2023 and the year ended December 31, 2022, the net sale amounts under the Gas Purchase and Sale Agreement were $10.9 million and $26.6 million, respectively, reflected in operation expenses.

At December 31, 2022, we had $7.2 million in payables which was primarily due to FPL related to corporate support provided by the affiliated entity and amounts relating to purchases of natural gas as discussed above. At December 31, 2022, we also had $2.6 million in payables due to NEE relating to federal income tax payments made on behalf of FCG and $0.5 million in payables due to NEE relating to state income taxes. As a result of the acquisition of FCG by Chesapeake Utilities, FCG settled its affiliate obligations as of November 30, 2023 with FPL and NEE as an equity transaction.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

Financing Arrangements
Subsequent to the acquisition, our excess cash is transferred to Chesapeake Utilities to be invested in overnight income-producing accounts. We utilize Chesapeake Utilities' short-term borrowing facility and Chesapeake Utilities' long-term debt to satisfy our financing needs. For the year ended December 31, 2023, Chesapeake Utilities allocated to us $4.7 million in interest expense, which represents a portion of interest from Chesapeake Utilities' short-term and Chesapeake Utilities' long-term debt, net of a portion of interest income from the overnight income-producing accounts.

Allocated Costs from Affiliates
Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the year ended December 31, 2023, Chesapeake Utilities charged us $1.9 million for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the year ended December 31, 2023, Chesapeake Utilities charged us $0.2 million for these services.

Advances from Affiliates
FCG does not issue debt or equity directly as the funding needs are managed centrally at the parent-level by Chesapeake Utilities. Any funding needs for FCG are recorded via intercompany accounting that does not differentiate between debt and equity proceeds. As of December 31, 2023, we had net advances payable to Chesapeake Utilities and its subsidiaries in the amount of $928.4 million which includes the debt and equity to fund the FCG acquisition of approximately $923 million in November 2023.

As of the date of the financial statements were available to be issued, FCG lacks sufficient cash to repay this payable. Chesapeake Utilities has committed to not calling this payable and to providing sufficient funding to us to enable FCG to meet its cash needs through at least April 27, 2025.

Firm Transportation Service and Natural Gas Purchase/Sale
Peninsula Pipeline Company, Inc. ("Peninsula Pipeline"), a wholly-owned subsidiary of Chesapeake Utilities, provided us with firm transportation service in conjunction with our service in Florida. For the year ended December 31, 2023, we incurred $0.3 million in cost from the date subsequent to the acquisition associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism. Prior to the acquisition these costs were not classified as an affiliate transaction.

8. REVENUE RECOGNITION

Customer Revenue
We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have delivered natural gas to customers. We bill customers for both the delivery of natural gas and the related commodity, as our customers are also required to purchase the commodity from us. We consider the delivery of natural gas and the related commodity sale as one performance obligation because the commodity and its delivery are highly interrelated with two-way dependency on one another. Our performance obligation is satisfied over time as natural gas is delivered and consumed by the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

Typically, our customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances

The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables, and customer advances in our balance sheets. As of December 31, 2023, and 2022, the balance of our trade receivables, net of our allowance for expected credit losses, was $17.0 million and $15.5 million, respectively. As of December 31, 2023, and 2022, there were no contract assets or liabilities recorded on the consolidated balance sheet.

Remaining Performance Obligations

We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2023 are expected to be recognized as follows:

(in thousands)	2024	2025	2026	2027	2028	2029 and thereafter

8	Performance Incentives(**)	$264,080	$48,797,749
9	Payroll Taxes Expense Capitalized(*)(**)	$174,924	$48,797,749
10	Engineering - Outside Services***	$ 1,456,989	
11	Consulting - Outside Services***	$ 6,572	
12	TOTAL	$ 2,177,620	$ 265,078,807

* Includes Florida City Gas and allocated costs from FPL and/or NEER
**Capital Expenditures during FY2023 excluding overhead allocations.
***Direct Charges associated with Construction

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2023

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

A. Summary of Depreciation, Depletion, and Amortization Charges

Description of Overhead	Nature of Work (a)	General Procedure for Determining the Amount Capitalized (b)	Method of Distribution to Construction Jobs (c)	Whether Different Rates are Applied to Different Types of Construction (d)	Basis of Differentiation in Rates for Different Types of Construction (e)	Whether the Overhead is Directly or Indirectly Assigned (f)
Benefits Capitalized	Employer portion of paid employee benefits includes: Pension, Medical, Dental, Life, Retiree credits and etc.	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Performance Incentives	Employee short term incentives	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Payroll Taxes Expense Capitalized	Employer portion of paid employee Payroll Taxes	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll

Note: All other construction overheads are direct charges for affiliate payroll or outside services.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2023

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c) and that reported for gas plant in service, pages 22 - 27, column (d), excluding retirements of non-depreciable property.
3. The provisions of Account 108 in the Uniform System of Account require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2023

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded and gains or losses relating to securities retired or refunded.
3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

Prior to the sale to Chesapeake, FGC had entered into an intercompany loan agreement with FPL for the purpose of funding the Company's ongoing cash and working capital requirements. The loan agreement was available from January 1, 2019 through January 1, 2069, (the Availability Period). As a result of the sale of the Company, the Company settled its obligation with FPL as an equity transaction.

Chesapeake Utilities did not issue, refund, or retire securities after acquisition.

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts.
4. Show loss amounts by enclosing the figures in parentheses.
5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

D/B/A FLORIDA CITY GAS	December 31, 2023

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.
2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
4. Report gas service revenues and therms sold by rate schedule.
5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

NUMBER OF GAS DEPARTMENT EMPLOYEES

1. The data on number of employees should be reported for payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
3. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the gas department from joint functions.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:
800 - Natural Gas Well Head Purchase
800.1- Natural Gas Well Head Purchases Intracompany Transfers
801 - Natural Gas Field Line Purchase
802 - Natural Gas Gasoline Plant Outlet Purchase
803 - Natural Gas Transmission Line Purchase
804 - Natural Gas City Gate Purchase
804.1- Liquefied Natural Gas Purchases
805 - Other Gas Purchase
805.1- Purchases Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)
1	800 - Natural Gas Well Head Purchases			
2	800.1 - Natural Gas Well Head Purchases, Intracompany Transfers

5	803 - Natural Gas Transmission Line Purchases			
6	804 - Natural Gas City Gate Purchases	50,465,786	$ 30,022,022	$ 0.59
7	804.1 - Liquefied Natural Gas Purchases	317,833	$ 603,615	$ 1.90
8	805 - Other Gas Purchases			
9	805.1 - Purchased Gas Cost Adjustments			
10	TOTAL (Total of lines 1 through 9)	50,783,619	$ 30,625,637	$ 0.60

Notes to Gas Purchases

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase, lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price, quantity, amount, and duration of the contracts.

Name of Affiliate	Synopsis of Contract
Peninsula Pipeline Company, Inc.	Pivotal Utility Holdings, Inc. d/b/a Florida City Gas entered into an additional Firm Transportation Agreement dated June 8, 2021 with Peninsula Pipeline Company. This agreement was to extend the pipeline from the first Firm Transportation Agreement to serve additional delivery points in Vero Beach, Florida. For the first five years, the monthly reservation will be $201,141. The quantity of dekatherms is 10,176 per a day. The duration of the contract is 30 years. The pipeline was placed into service April 1, 2023.
Peninsula Pipeline Company, Inc.	When Florida City Gas entered into the second Firm Transportation Agreement above, they amended the first Firm Transportation Agreement, for Indian River County, to extend for the same term as the second.
Palms Insurance Company, Limited	Palms Insurance Company, Limited provides various lines of insurance coverage to FCG. Palms provides insurance for FCG employees' workers' compensation liability up to policy limit of $5,000,000 per accident or per employee. The policy term started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Palms insures the FCG fleet vehicles for third-party auto liability up to $3,000,000 per occurrence in excess of a $25,000 per accident retention for accidents prior to March 1, 2016 and a $100,000 per accident retention for accidents occurring on or after March 1, 2016 through January 1, 2020. Beginning January 1, 2020, Limit of Liability is $5,000,000 any one Occurrence, inclusive of Defense costs. In 2022, Insured's self-retention is $750,000 any on Occurrence, inclusive of Defense Costs. The policy term started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Excess Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective December 1, 2020. Palms has a 35% quota share of the $50,000,000 liability per occurrence and $70,000,000 per aggregate excess of the liability layer. Palms has a liability of $35,000,000 in excess of $225,000,000, Palms has an additional $7.5MM quota share of the $370,000,000 liability per occurrence excess of the liability layer. The policy terms started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Palms writes a Crime and Fidelity coverage, which includes loss of assets, loss of client assets, personal identity event expenses, credit card forgery, and loss of employees benefit plan assets, all as more fully defined herein the policy document. The coverage has a liability of $35,000,000 per occurrence in excess of a $20,000,000. Premium for the term March 31, 2023 through November 30, 2023, the date of divestiture, is $1,993.
Palms Insurance Company, Limited	Fiduciary Liability Insurance issued by Palms, includes managed care services, voluntary compliance settlements, and covered penalties, all as more fully defined herein the policy document. Palms has a liability of $15,000,000 per occurrence in excess of a $60,000,000. Premium for the term March 31, 2023 through November 30, 2023, the date of divestiture, is $1,128.
Brevard Energy, LLC	On September 22, 2023, Pivotal Utility Holdings, Inc. d/b/a Florida City Gas (FCG) and Brevard Energy, LLC entered into a "Renewable Natural Gas Interconnection Service Agreement." The agreement is for Brevard Energy, LLC, a Renewable Natural Gas Producer, to interconnect and deliver renewable natural gas from their facilities into FCG's system. Under the agreement, FCG will commit $5,214,000 in capital costs necessary for the design and construction of the interconnection facilities. Brevard Energy, LLC will pay FCG a monthly service charge over a 23 year period which will recover the cost of the service associated with the interconnect facilities, and a monthly volume charge that shall be equal to the number of therms injected into FCG's system at a rate of $0.015 per therm. The initial term of the agreement is for a period of 25 years after the later of the target completion date or the first flow date, and shall automatically renew on a year to year basis until cancelled by either party.

**Note that the premiums for the 2-week policy period for Worker's Compensation, Auto/Fleet and Excess Liability were paid by NextEra Energy, Inc. and any premium credit for the remainder of the policy terms will be issued to NextEra Energy, Inc.*

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF $25,000

Provide information regarding individual affiliated transactions in excess of $25,000. Recurring monthly affiliated transactions which exceed $25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate	Description of Transaction	Dollar Amount
Peninsula Pipeline Company, Inc.	Firm Transportation Service Agreement (Indian River Company) between FCG and PPC	$70,000

Independent Auditors' Report

Board of Directors and Stockholder
Florida Public Utilities Company

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas, which comprise the balance sheet-regulatory basis as of December 31, 2024, and the related statements of income-regulatory basis for the year then ended, and the statement of retained earnings-regulatory basis for the year then ended, and the related notes to the financial statements included on pages 11.1 through 11.10 of the accompanying Annual Report of Natural Gas Utilities, as filed with the Florida Public Service Commission.

In our opinion, the regulatory basis financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas as of December 31, 2024, and its income and expenses for the year then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Pivotal Utility Holdings, Inc. D/b/a Florida City Gas on the basis of the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Other Matter – Reference to Prior Year Auditor

The financial statements of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas for the year ended December 31, 2023 were audited by another auditor who expressed an unmodified opinion on those statements on April 26, 2024.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pivotal Utility Holdings, Inc. D/b/a Florida City Gas ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Restriction on Use

Our report is intended solely for the information and use of management of Chesapeake Utilities Corporation and Pivotal Utility Holdings, Inc. D/b/a Florida City Gas and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

ANNUAL REPORT OF

NATURAL GAS UTILITIES

PIVOTAL UTILITY HOLDINGS, INC. D/B/A
Florida City Gas
(EXACT NAME OF RESPONDENT)

208 Wildlight Avenue
Yulee, FL 32097
(ADDRESS OF RESPONDENT)

TO THE

FLORIDA PUBLIC SERVICE COMMISSION

FOR THE

YEAR ENDED DECEMBER 31, 2024

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Michael D. Cassel	Title: Vice President, Government and Regulatory Affairs	
Address: 208 Wildlight Ave	City: Yulee	State: FL
Telephone No.: (561) 252-0250		PSC/ECR 020-G (12/03)

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS

that I have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above- named respondent in respect to each and every matter set forth therein during the period from January 1, 2024 to December 31, 2024, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s).
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

1. Effective November 30, 2023, Florida City Gas (FCG) became a wholly-owned subsidiary of Chesapeake Utilities Corporation ("CUC").

2. Chesapeake's annual report on Form 10-K was filed with the Securities Exchange Commission on February 26, 2025. This report was for the fiscal year ended December 31, 2024.

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Note: Florida City Gas does not control any other entity. Our parent company, Chesapeake Utilities Corporation, does directly and indirectly control other subsidiaries. These organizations are listed in Chesapeake's Form 10-K.			

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2024

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is $50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.

Title (a)	Name of Officer (b)	Salary for Year (c)
Director, Chairman, President & CEO	Jeffry M. Householder	$ 234,513
Executive Vice President/Secretary/General Counsel/ Corporate Secretary/ Chief Policy and Risk Officer	James F. Moriarty	$ 121,171
Executive Vice President, Chief Financial Officer, Treasurer and Assistant Corporate Secretary	Beth W. Cooper	$ 124,870
Senior Vice President and Chief Development Officer	Kevin J. Webber	$ 91,780
Senior Vice President and Chief Operating Officer	Jeffrey S. Sylvester	$ 98,646
Senior Vice President, Regulatory and External Affairs	Cheryl M. Martin	$ 78,240
Senior Vice President and Chief Accounting Officer	Michael D. Galtman	$ 84,348
Senior Vice President and Chief Information Officer	Vikrant A. Gadgil (1)	$ 65,488
Senior Vice President and Chief Human Resources Officer	William Hughston	$ 35,269

Note: The salaries above represent only that portion allocated to Florida City Gas division.
(1) Retired December 31, 2024

DIRECTORS

1. Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.
2. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	No. of Directors Meetings During Yr. (c)	Fees During Year (d)

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2024

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

	VOTING SECURITIES			
	Number of votes as of (date):			
Name (Title) and Address of Security Holder (a)	Total Votes (b)	Common Stock (c)	Preferred Stock (d)	Other (e)

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none," "not applicable" or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule which it appears.

1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on the previous page, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

STATEMENT OF INCOME

1. Use page 11 for important notes regarding the statement of income or any account thereof.
2. Give concise explanations on page 11 concerning significant amounts of any refunds made or received during the year.
3. Enter on page 11 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionment from those used in the preceding year. Also give the approximate dollar effect of such changes.
4. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

Line No.	Item (a)	Contra Primary Account Affected (b)	Amount (c)

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Notes to the Financial Statements attached

Notes to Financial Statements
For the Periods Ended December 31, 2024 and December 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

On November 30, 2023, Chesapeake Utilities Corporation ("Chesapeake Utilities" or "Company") completed the acquisition of Florida City Gas ("FCG", "we," "our," or "us") for $922.8 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company ("FPL") which is a subsidiary of NextEra Energy ("NEE"). Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities.

FCG is a utility engaged in the natural gas distribution and transmission business in Florida. We serve approximately 123,000 residential and commercial natural gas customers across eight counties in Florida, including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River. Our natural gas system includes approximately 3,982 miles of distribution main and approximately 80 miles of transmission pipe. Our rates and services are subject to regulation by the Florida Public Service Commission ("FPSC").

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("US GAAP"). The accounting requirements of the FERC and the FPSC applied by us in these financial statements are generally consistent with US GAAP, except for:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term;
- The presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- The presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- The classification of the provision for income taxes in net utility operating income;
- The presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis; and
- The omission of the statement of retained earnings for prior year for a comparative presentation

We have assessed and reported on subsequent events through April 25, 2025, the date these financial statements are available to be issued.

Regulatory Assets and Liabilities

FCG is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2024 and December 31, 2023

Regulatory assets and liabilities reflected in the balance sheets relate to:

(in thousands)	December 31, 2024	December 31, 2023
Regulatory Assets		
Regulatory infrastructure programs	$ 913	$ 983
[redacted]	2,022	2,266
Rate case expenses	1,033	1,472
Deferred piping	312	255
Competitive rate adjustment	1,093	993
[redacted]	903	1,843
Total Regulatory Assets	$ 6,276	$ 7,809
Regulatory Liabilities		
Energy conservation program and other	$ 255	$ 176
Deferred income tax credits [1]	17,120	18,441
Accrued natural gas costs	1,792	627
Unbilled Revenue	2,294	1,999
Total Regulatory Liabilities	$ 21,461	$ 21,243

[1] Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation).

In the event that our operations are no longer subject to applicable accounting rules for rate regulation, we would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, we would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 4, *Regulatory Matters*, for additional information.

Revenues
We record revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. We have a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue
We have a diversified base of customers. No single customer or industry comprises 10 percent or more of revenues. For all periods presented, uncollectible accounts averaged less than 1 percent of revenues.

Cost of Natural Gas
We have a fuel cost recovery mechanism. This mechanism provides a method of adjusting the billing rates to reflect changes in the cost of purchased fuel. The difference between the current cost of fuel and the cost of fuel recovered in billed rates is deferred and accounted for as either unrecovered purchased fuel costs or amounts payable to customers on the balance sheet. Generally, these deferred amounts are recovered or refunded within one year.

Income and Other Taxes
We use the liability method of accounting for deferred income taxes and provide deferred income taxes for all income tax temporary differences. Federal investment tax credits utilized are deferred and amortized to income over

the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

We recognize tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 5, *Income Taxes - Unrecognized Tax Benefits*, for additional information.

Property, Plant, and Equipment
Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation
Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.5 percent and 2.5 percent for the years ended December 31, 2024 and 2023, respectively. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. As part of the 2022 base rate case, the FPSC approved new depreciation rates which became effective January 1, 2023. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, as they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

The FPSC approved the Reserve Surplus Amortization Mechanism (RSAM) as part of the 2022 base rate case. The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. We filed a forecast earnings surveillance report for 2023 with the FPSC in May 2023 which contained a regulatory return on equity ("ROE") of 10.0 percent intended to be earned based on the best information FCG had at that time. Surveillance reports have since been filed quarterly. The December 2024 report, filed in March 2025, contained a regulatory ROE of 9.3 percent which included acquisition costs. See Note 4, *Contingencies and Regulatory Matters*, for additional information. At December 31, 2024 the RSAM reserve had been fully utilized.

In February 2025, we filed a depreciation study with the Florida PSC. The application is requesting approval of revised annual depreciation rates, as well as a reduction related to a reserve imbalance that would be amortized over a two-year period. The outcome of the application is subject to review and approval by the Florida PSC.

Acquisition Adjustment
Until July 2018, FCG was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring FCG and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

(in thousands)	
December 31, 2022	$ 13,115
Amortization expense	721
December 31, 2023	$ 13,836
Amortization expense	722
December 31, 2024	$ 14,558

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2024 and December 31, 2023

Measurement of Credit Losses on Financial Instruments
Effective January 1, 2020, we adopted Accounting Standards Update (ASU) 2016-13 that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. We book the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2024 and December 31, 2023, we had a provision for uncollectible customer accounts of approximately $1.0 million and $0.5 million, respectively.

Receivables and Provision for Uncollectible Accounts
Our receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if we are aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount we reasonably expect to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies
Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale
Our natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments
We have entered into agreements with suppliers to purchase natural gas for resale to our customers. Purchases under these contracts either do not meet the definition of derivatives or are considered “normal purchases” and are accounted for on an accrual basis.

Financial assets with carrying values approximating fair value include accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities.

Internal-Use Software
We capitalize qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2024 and December 31, 2023, we had approximately $5.5 million and $5.7 million, respectively, of implementation costs included as capital in total utility plant. The costs are included in depreciation and amortization over the 20-year term of the arrangement. In connection with our internal-use software, we have entered into perpetual licensing arrangements which are amortized to operation expenses over the life of the agreement. Upon acquiring FCG in November 2023, Chesapeake Utilities determined the arrangement would be terminated prior to the contractual expiration date. As of December 31, 2023, we had approximately $0.4 million remaining of this arrangement which concluded in July 2024 as a result of the prepayment balance adjustment made in 2023.

2. RETIREMENT BENEFITS

Prior to the acquisition of FCG by Chesapeake Utilities in November 2023, our employees participated in NEE's qualified noncontributory defined benefit pension plan. NEE used multiemployer accounting and allocated net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation included several components of cost, offset by the expected return on plan assets. For the year ended December 31, 2023, NEE allocated approximately $1.4 million of net pension benefit income to FCG for the period January 1, 2023 to November 30, 2023. Following the acquisition of FCG in November 2023, we are no longer being allocated a portion of NEE’s net pension expense associated with their defined benefit plan.

Chesapeake Utilities' 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities Retirement Savings Plan up to a maximum of six percent of the eligible compensation. The employer matching contribution is made in cash and is invested based on a participant's investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution is generally made in Chesapeake Utilities common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. New employees, who do not make an election to contribute or do not opt out of the Chesapeake Utilities Retirement Savings Plan, will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment. Our contributions to the Chesapeake Utilities 401(k) Retirement Savings Plan, net of a portion capitalized, were not material for the years ended December 31, 2024 and 2023, respectively.

3. SHARE BASED COMPENSATION

Chesapeake Utilities executives have been granted share-based awards through Chesapeake Utilities' Stock Incentive Compensation Plan ("SICP"). The share-based awards are recorded as compensation costs over the respective service period for which services are received in exchange for an award of equity or equity-based compensation. The compensation cost is based primarily on the fair value of the shares awarded, using the estimated fair value of each share on the date it was granted and the number of shares to be issued at the end of the service period.

These awards are based on multi-year performance plans, which are earned based upon the successful achievement of long-term goals, growth and financial results, which comprised both market-based and performance-based conditions or targets. The fair value of each share of stock tied to a performance-based condition or target is equal to the market price of Chesapeake Utilities common stock on the date of the grant. For the market-based conditions, a Monte Carlo valuation is used to estimate the fair value of each share of market-based award granted. For the year ended December 31, 2024 we were allocated $1.8 million in total compensation expense for the awards granted under the SICP. During 2023 the compensation expense was not material since the acquisition of FCG was not completed until November 2023.

4. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

We are subject to certain claims and legal actions arising in the ordinary course of business. One such claim is a personal injury claim alleged to have occurred on July 6, 2016, in Miami-Dade County, Florida. The plaintiff claimed multiple fractures and traumatic brain injury arising from an accident on bicycle path with a gas cap belonging to FCG. However, we were not added as a defendant until October 2020, after other named defendants settled or were dismissed from the case. At the time the claim was filed against us, we did not believe it was probable that any amounts would be paid out in relation to the claim. As a result of our discovery efforts conducted through the third quarter of 2023, including depositions, production of documents, examinations, and expert reviews, we ultimately determined that a payout on plaintiff's claim was probable and it was in our best interest to settle and resolve the case. The matter was settled in October 2023 for $850,000, prior to the acquisition of FCG by Chesapeake Utilities.

On October 25, 2023, we received a letter from a large industrial customer alleging lost production due to a third-party strike on one of our gas mains, which occurred on September 14, 2023, resulting in the interruption of the customer's gas service. The customer alleged a total financial impact of $860,705 due to the loss of production and requested we investigate the incident. We were in the early stages of investigating the customer's allegations, but anticipated that claims could be made against us in connection with the incident. Although we could not predict the outcome with certainty, based on the investigation conducted prior to the sale of FCG, we estimated that a loss of

$250,000 would be incurred based on the alleged damages in connection with the incident. At the time of the acquisition, the liability associated with this claim was retained by FCG and there had been no change in the estimated loss at December 31, 2024.

The ultimate outcome of all other matters and such pending or potential litigation against FCG cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Base Rates

In May 2022, FCG filed a general base rate increase with the FPSC based on a projected 2023 test year. In June 2023, the FPSC issued an order approving a single total base revenue increase of $23.3 million (which included an incremental increase of $14.1 million, a previously approved increase of $3.8 million for a liquefied natural gas facility, and $5.3 million to transfer the SAFE investments from a rider clause to base rates), with new rates becoming effective as of May 1, 2023. The FPSC also approved FCG's proposed RSAM with a $25.0 million reserve amount, continuation and expansion of the capital SAFE program, implementation of an automated metering infrastructure pilot, and continuation of the storm damage reserve with a target reserve of $0.8 million. In June 2023, the Florida Office of Public Counsel ("Florida OPC") filed a motion for reconsideration of the PSC's approval of RSAM, which was denied in September 2023. In July 2023, the Florida OPC filed a notice of appeal with the Florida Supreme Court, which is pending. The Florida OPC filed their initial brief in January 2024 with answer briefs filed in April 2024. Oral arguments in the case were held in December 2024.

The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. In order to earn the targeted regulatory ROE in each reporting period subject to the conditions of the effective rate agreement, RSAM is calculated using a trailing thirteen-month average of rate base and capital structure in conjunction with the trailing twelve months regulatory base net operating income, which primarily includes the base portion of rates and other revenues, net of operations and maintenance expenses, depreciation and amortization, interest and tax expenses. In general, the net impact of these income statement line items is adjusted, in part, by RSAM or its reversal to earn the targeted regulatory ROE. For the years ended December 31, 2024 and December 31, 2023, we recorded decreases to asset removal costs and depreciation expense of $15.5 million and $9.5 million as a result of the RSAM adjustment. At December 31, 2024, the RSAM reserve had been completely utilized.

In February 2025, FCG filed a depreciation study with the Florida PSC. The application is requesting approval of revised annual depreciation rates, as well as a reduction related to a reserve imbalance that would be amortized over a two-year period. The outcome of the application is subject to review and approval by the Florida PSC.

Regulatory Infrastructure Programs

The majority of our regulatory infrastructure program assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

In June 2023, the Florida PSC issued the approval order for the continuation of the SAFE program beyond its 2025 expiration date and inclusion of 150 miles of additional mains and services located in rear property easements. The SAFE program is designed to relocate certain mains and facilities associated with rear lot easements to street front locations to improve FCG's ability to inspect and maintain the facilities and reduce opportunities for damage and theft. In the same order, the Commission approved a replacement of 160 miles of pipe that was used in the 1970s and 1980s and shown through industry research to exhibit premature failure in the form of cracking. The program includes projected capital expenditures of $205.0 million over a 10-year period.

In April 2024, FCG filed a petition with the Florida PSC to more closely align the SAFE Program with FPU's GUARD program. Specifically, the requested modifications will enable FCG to accelerate remediation related to

problematic pipes and facilities consisting of obsolete and exposed pipes. These efforts will serve to improve the safety and reliability of service to FCG's customers and the modifications will increase the total projected capital expenditures by $50.0 million in capital expenditures associated with the SAFE Program, which would increase the total projected capital expenditures to approximately $255.0 million over a 10-year period. The Florida PSC approved the modifications in September 2024.

5. INCOME TAXES

Prior to the acquisition of FCG by Chesapeake Utilities, NEE filed a consolidated income tax return and various combined and separate state tax returns on our behalf. Under that tax sharing agreement between NEE and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflected the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses were recorded at the corporate level. As a result of the acquisition in November 2023, we settled our deferred tax assets and liabilities with FPL as an equity transaction.

Subsequent to the acquisition, FCG is included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other subsidiaries. FCG files a separate state income tax return in the state of Florida. Income taxes in the accompanying consolidated statements of income have been allocated to us as if we were a separate taxpayer.

The components of income taxes are as follows:

(in thousands)	December 31, 2024	December 31, 2023
Federal		
Current	$ (12,256)	$ (7)
Deferred	15,898	5,604
Total Federal	3,642	5,597
State		
Current	881	(231)
Deferred	(36)	1,854
Total State	845	1,623
Total Income Taxes	$ 4,48	$ 7,220

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2024 and December 31, 2023

(in thousands)	At December 31, 2024	2023
Deferred Tax Assets		
Tax reform legislation	$ 4,339	$ 4,423
State net operating losses	3,287	—
Other	1,661	219
Total deferred tax assets	9,287	4,642
Deferred Tax Liabilities		
Property related	15,212	2,498
Other	9,138	1,345
Total deferred tax liabilities	24,350	3,843
Deferred income tax assets (liabilities), net	$ (15,063)	$ 799

Effective Tax Rate
A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	December 31, 2024	December 31, 2023
Federal statutory rate	21.0 %	21.0 %
State income tax, net of federal deduction	3.1 %	4.4 %
Amortization of deferred regulatory credit	— %	(0.8)%
Other, net	(3.5)%	0.3 %
Effective income tax rate	20.6 %	24.9 %

Unrecognized Tax Benefits
FCG has no unrecognized tax benefits for any year presented. We classify interest on tax uncertainties as interest expense; however, we had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2020 through 2023 (Federal and State) remain subject to examination by our major tax jurisdictions.

6. FINANCING

Affiliate Loan Agreement with FPL
Prior to the Chesapeake Utilities acquisition of FCG, we had entered into an intercompany loan agreement with FPL for the purpose of funding our ongoing cash and working capital requirements. Prior to the acquisition of FCG by Chesapeake Utilities, we terminated the intercompany loan agreement and settled our obligation with FPL as an equity transaction. At December 31, 2024 and December 31, 2023, there were no related amounts outstanding.

7. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

FCG has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Florida City Gas
Notes to Financial Statements
For the Periods Ended December 31, 2024 and December 31, 2023

Contractual obligations and estimated expenditures at December 31, 2024 were as follows:

(in thousands)	2025	2026	2027	2028	2029	Thereafter	Total
Pipeline charges and storage capacity [1]	$ 9,574	$ 9,574	$ 9,574	$ 9,366	$ 9,250	$ 4,206	$ 51,544
Capital expenditures [2]	74,593	56,667	53,670	54,540	55,516	—	294,986
Total	$ 84,167	$ 66,241	$ 63,244	$ 63,906	$ 64,766	$ 4,206	$ 346,530

[1] Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.
[2] Represents projected capital expenditures through 2027 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

8. AFFILIATE TRANSACTIONS

Financing Arrangements
Subsequent to the acquisition, our excess cash is transferred to Chesapeake Utilities to be invested in overnight income-producing accounts. We utilize Chesapeake Utilities' short-term borrowing facility and Chesapeake Utilities' long-term debt to satisfy our financing needs. For the years ended December 31, 2024 and December 31, 2023, Chesapeake Utilities allocated to us $30.2 million and $4.7 million, respectively, in interest expense, which represents a portion of interest from Chesapeake Utilities' short-term and Chesapeake Utilities' long-term debt, net of a portion of interest income from the overnight income-producing accounts.

Allocated Costs from Affiliates
Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the years ended December 31, 2024 and December 31, 2023, Chesapeake Utilities charged us $11.7 million and $1.9 million, respectively, for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the years ended December 31, 2024 and December 31, 2023, Chesapeake Utilities charged us $1.9 million and $0.2 million, respectively, for these services.

Advances from Affiliates
FCG does not issue debt or equity directly as the funding needs are managed centrally at the parent-level by Chesapeake Utilities. Any funding needs for FCG are recorded via intercompany accounting that does not differentiate between debt and equity proceeds. As of December 31, 2024 and December 31, 2023, we had net advances payable to Chesapeake Utilities and its subsidiaries in the amount of $985.9 million and $928.4 million, respectively, which includes the debt and equity utilized to fund the FCG acquisition of approximately $923 million in November 2023.

As of the date of the financial statements were available to be issued, FCG lacks sufficient cash to repay this payable. Chesapeake Utilities has committed to not calling this payable and to providing sufficient funding to us to enable FCG to meet its cash needs through at least April 26, 2026.

Firm Transportation Service and Natural Gas Purchase/Sale
Peninsula Pipeline Company, Inc. ("Peninsula Pipeline"), a wholly-owned subsidiary of Chesapeake Utilities, provided us with firm transportation service in conjunction with our service in Florida. For the years ended December 31, 2024 and December 31, 2023, we incurred $3.3 million and $0.3 million in cost associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism. Prior the acquisition these costs were not classified as an affiliate transaction.

Marlin Gas Services, LLC, a wholly-owned subsidiary of Chesapeake Utilities, provided us natural gas transportation service in conjunction with our service in Florida. For the year ended December 31, 2024, we incurred $1.7 million in cost associated with this transportation service, which was included in the cost of fuel and

our fuel cost recovery mechanism. During 2023 these costs were not material since the acquisition of FCG was not completed until November 2023.

Florida Public Utilities Company ("FPU"), a wholly-owned subsidiary of Chesapeake Utilities, natural gas division is engaged in the distribution of natural gas in south, central and northeast Florida. We provided FPU natural gas services in conjunction with their service in Florida. For the year ended December 31, 2024 and the period from the completion of the acquisition during 2023, these revenues were not material.

9. REVENUE RECOGNITION

Customer Revenue

We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have delivered natural gas to customers. We bill customers for both the delivery of natural gas and the related commodity, as our customers are also required to purchase the commodity from us. We consider the delivery of natural gas and the related commodity sale as one performance obligation because the commodity and its delivery are highly interrelated with two-way dependency on one another. Our performance obligation is satisfied over time as natural gas is delivered and consumed by the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price. Typically, our customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances

The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables, and customer advances in our balance sheets. As of December 31, 2024 and December 31, 2023, the balance of our trade receivables, net of our allowance for expected credit losses, was $20.9 million and $17.0 million, respectively. As of December 31, 2024 and December 31, 2023, there were no contract assets or liabilities recorded on the consolidated balance sheet.

Remaining Performance Obligations

We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2024 are expected to be recognized as follows:

(in thousands)	2025	2026	2027	2028	2029	2030 and thereafter
Natural gas distribution operations	$ 2,401	$ 2,015	$ 568	$ 572	$ 576	$ 5,490

10. OTHER COMMITMENTS AND CONTINGENCIES

We are involved in certain other legal actions and claims arising in the normal course of business. We are also involved in certain legal proceedings and administrative proceedings before various governmental agencies concerning rates. In the opinion of management, the ultimate disposition of these proceedings will not have a material effect on our financial position, results of operations or cash flows.

We have entered into contractual commitments to purchase natural gas from various suppliers. The contracts have various expiration dates. The total purchase obligations for natural gas are as follows:

(in thousands)	2025	2026-2027	2028-2029	Beyond 2029	Total
Purchase Obligations	$ [redacted]9,574[redacted]	$ 19,148	$ 18,616 [redacted]	$ 4,206 [redacted]	$ 51,544

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.

Note: **The grand total balances include Florida City Gas' allocation of common plant from Chesapeake Corporate (see following page 14.1 and 14.2 for additional details.) The is no allocation of Florida Corporate common plant to Florida City Gas.**

***Please see the Company's Notes to the Financial Statements regarding leases as reported in account 101.1.**

****The assets in the reclass column are assets that were included in FERC 376P during acquisition. A reclass was done in 2024 to move the assets to the correct FERC, 3762. A reserve transfer was not completed during the asset transfer process due to the use of the CPR Asset Loader. This method involves a template that removes the assets from the CPR and another template that reloads the assets with the preferred details for how they should appear in the Power Plan. The templates do not include a reserve option. We will transfer the A/D in 2025 to correct change between the two accounts.**

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded and gains or losses relating to securities retired or refunded.
3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

N/A

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts.
4. Show loss amounts by enclosing the figures in parentheses.
5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2024

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

1. Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
2. Show premium amounts by enclosing the figures in parentheses.
3. In column (b) show the principal amount of bonds or other long-term debt originally issued.
4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.
2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
4. Report gas service revenues and therms sold by rate schedule.
5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:
800 - Natural Gas Well Head Purchase
800.1- Natural Gas Well Head Purchases Intracompany Transfers
801 - Natural Gas Field Line Purchase
802 - Natural Gas Gasoline Plant Outlet Purchase
803 - Natural Gas Transmission Line Purchase
804 - Natural Gas City Gate Purchase
804.1- Liquefied Natural Gas Purchases
805 - Other Gas Purchase
805.1- Purchases Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)
1	800 - Natural Gas Well Head Purchases			
2	800.1 - Natural Gas Well Head Purchases, Intracompany Transfers			
3	801 - Natural Gas Field Line Purchases			
4	802 - Natural Gas Gasoline Plant Outlet Purchases			
5	803 - Natural Gas Transmission Line Purchases			
6	804 - Natural Gas City Gate Purchases	45,987,022	$ 22,675,748	$ 0.49
7	804.1 - Liquefied Natural Gas Purchases	93,467	$ 43,975	$ 0.47
8	805 - Other Gas Purchases	351,992	$ 255,834	$ 0.73
9	805.1 - Purchased Gas Cost Adjustments			
10	TOTAL (Total of lines 1 through 9)	46,432,481	$ 22,975,557	$ 0.49

Notes to Gas Purchases

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase, lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price, quantity, amount, and duration of the contracts.

Name of Affiliate	Synopsis of Contract
Marlin Gas Services, LLC	Pivotal Utility Holdings, Inc. d/b/a Florida City Gas (FCG) entered into a turn-key compressed natural gas (CNG) solutions agreement with Marlin Gas Services, LLC on December 1, 2023. The agreement is for 5 years and will automatically renew for one-year. In May of 2024, Marlin began servicing FCG's Silver Vase project. The agreement includes the production and/or procurement and transportation of CNG and the utilization or acquisition of certain equipment.
Marlin Gas Services, LLC	Pivotal Utility Holdings, Inc. d/b/a Florida City Gas (FCG) entered into a turn-key compressed natural gas (CNG) solutions agreement with Marlin Gas Services, LLC on December 1, 2023. The agreement is for 5 years and will automatically renew for one-year. In July of 2024, Marlin began servicing FCG's LNG facility project. The agreement includes the production and/or procurement and transportation of CNG and the utilization or acquisition of certain equipment.
Marlin Gas Services, LLC	Pivotal Utility Holdings, Inc. d/b/a Florida City Gas (FCG) entered into a turn-key compressed natural gas (CNG) solutions agreement with Marlin Gas Services, LLC on December 1, 2023. The agreement is for 5 years and will automatically renew for one-year. In October of 2024, Marlin began servicing FCG's Space X project. The agreement includes the production and/or procurement and transportation of CNG and the utilization or acquisition of certain equipment.

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF $25,000

Provide information regarding individual affiliated transactions in excess of $25,000. Recurring monthly affiliated transactions which exceed $25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate	Description of Transaction	Dollar Amount
Peninsula Pipeline Company, Inc.	Natural Gas Firm Transportation Service Agreement (Indian River Company) between FCG and PPC	$840,000

Independent Auditors' Report

To the Board of Directors and Stockholder of
Florida Public Utilities Company

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas, which comprise the balance sheet-regulatory basis as of December 31, 2025 and 2024, and the related statements of income-regulatory basis for the year then ended, and the statement of retained earnings-regulatory basis for the year then ended, and the related notes to the financial statements included on pages 11.1 through 11.10 of the accompanying Annual Report of Natural Gas Utilities, as filed with the Florida Public Service Commission.

In our opinion, the regulatory basis financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas as of December 31, 2025 and 2024, and its income and expenses for the year then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Pivotal Utility Holdings, Inc. D/b/a Florida City Gas on the basis of the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pivotal Utility Holdings, Inc. D/b/a Florida City Gas internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pivotal Utility Holdings, Inc. D/b/a Florida City Gas ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Restriction on Use

Our report is intended solely for the information and use of management of Chesapeake Utilities Corporation and Pivotal Utility Holdings, Inc. D/b/a Florida City Gas and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

ANNUAL REPORT OF

NATURAL GAS UTILITIES

PIVOTAL UTILITY HOLDINGS, INC. D/B/A
Florida City Gas
(EXACT NAME OF RESPONDENT)

208 Wildlight Avenue
Yulee, FL 32097
(ADDRESS OF RESPONDENT)

TO THE

FLORIDA PUBLIC SERVICE COMMISSION

FOR THE

YEAR ENDED DECEMBER 31, 2025

Officer or other person to whom correspondence should be addressed concerning this report:

Name: Matt Everngam	Title: Assistant Vice President, Regulatory Affairs	
Address: 500 Energy lane	City: Dover	State: DE
Telephone No.: (410) 829-4688		

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS

that I have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above- named respondent in respect to each and every matter set forth therein during the period from January 1, 2025 to December 31, 2025, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2025

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s).
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

1. Effective November 30, 2023, Florida City Gas (FCG) became a wholly-owned subsidiary of Chesapeake Utilities Corporation ("CUC").

2. Chesapeake's annual report on Form 10-K was filed with the Securities Exchange Commission on February 26, 2026. This report was for the fiscal year ended December 31, 2025.

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Note: Florida City Gas does not control any other entity. Our parent company, Chesapeake Utilities Corporation, does directly and indirectly control other subsidiaries. These organizations are listed in Chesapeake's Form 10-K.			

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2025

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is $50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.
2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.

Title (a)	Name of Officer (b)	Salary for Year (c)
Director, Chairman, President & CEO	Jeffry M. Householder	$ 218,994
EVP, General Counsel, Corp. Secretary and Chief Policy and Risk Officer	James F. Moriarty	$ 107,897
EVP, Chief Financial Officer, Treasurer and Assistant Secretary	Beth W. Cooper	$ 121,150
President, Chief Operating Officer	Jeffrey S. Sylvester	$ 78,564
Senior Vice President, Chief Development Officer	Kevin J. Webber	$ 88,398
SVP and Chief Accounting Officer	Michael D. Galtman	$ 63,545
SVP, Regulatory and External Affairs	Cheryl M. Martin	$ 63,471
SVP and Chief Human Resources Officer	William E. Hughston	$ 63,682
SVP, Strategic Development	Michael D. Cassel	$ 47,135
VP and Chief Information Officer	Abhijit Bhatwadekar	$ 22,693

Note: The salaries above represent only that portion allocated to Florida City Gas division.

DIRECTORS

1. Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.
2. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	No. of Directors Meetings During Yr. (c)	Fees During Year (d)
Jeffry M. Householder, Director, Chairman	500 Energy Lane, Dover Delaware 19901	8	$ -
Thomas J. Bresnan, Director	500 Energy Lane, Dover Delaware 19901	8	$ -
Ronald G. Forsythe, Jr., Ph.D., Director	500 Energy Lane, Dover Delaware 19901	8	$ -
Lisa Eden, Director	500 Energy Lane, Dover Delaware 19901	2	$ -
Dennis S. Hudson, III, Director	500 Energy Lane, Dover Delaware 19901	8	$ -
Jay Maddock, Director	500 Energy Lane, Dover Delaware 19901	2	$ -
Lila A. Jaber, Director	500 Energy Lane, Dover Delaware 19901	8	$ -
Lisa G. Bisaccia, Director	500 Energy Lane, Dover Delaware 19901	8	$ -
Stephanie N. Gary , Director	500 Energy Lane, Dover Delaware 19901	3	$ -
Sheree M. Petrone , Director	500 Energy Lane, Dover Delaware 19901	8	$ -

Notes:

PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2025

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

	VOTING SECURITIES			
	Number of votes as of (date):			
Name (Title) and Address of Security Holder (a)	Total Votes (b)	Common Stock (c)	Preferred Stock (d)	Other (e)
TOTAL votes of all voting securities				
TOTAL number of security holders				
TOTAL votes of security holders listed below				
Effective November 30, 2023, Florida City Gas became a wholly-owned subsidiary of Chesapeake Utilities Corporation.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter “none,” “not applicable” or “NA” where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule which it appears.

1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on the previous page, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

STATEMENT OF INCOME

1. Use page 11 for important notes regarding the statement of income or any account thereof.
2. Give concise explanations on page 11 concerning significant amounts of any refunds made or received during the year.
3. Enter on page 11 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionment from those used in the preceding year. Also give the approximate dollar effect of such changes.
4. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

Line No.	Item (a)	Contra Primary Account Affected (b)	Amount (c)

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Notes to the Financial Statements attached

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

On November 30, 2023, Chesapeake Utilities Corporation ("Chesapeake Utilities") completed the acquisition of Florida City Gas ("FCG", the "Company", "we," "our," or "us") for $922.8 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company ("FPL") which is a subsidiary of NextEra Energy ("NEE"). Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities.

FCG is a utility engaged in the natural gas distribution and transmission business in Florida. We serve approximately 125,000 residential and commercial natural gas customers across eight counties in Florida, including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River. Our rates and services are subject to regulation by the Florida Public Service Commission ("FPSC").

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("US GAAP"). The accounting requirements of the FERC and the FPSC applied by us in these financial statements are generally consistent with US GAAP, except for:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term;
- The presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- The presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- The classification of the provision for income taxes in net utility operating income;
- The presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis; and
- The omission of the statement of retained earnings for prior year for a comparative presentation

We have assessed and reported on subsequent events through April 28, 2026, the date these financial statements are available to be issued.

Regulatory Assets and Liabilities

FCG is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets relate to:

(in thousands)	December 31, 2025	December 31, 2024
Regulatory Assets		
Regulatory infrastructure programs	$ 630	$ 913
Deferred customer conversion costs	1,674	2,022
Rate case expenses	1,288	1,033
Deferred piping	333	312
Competitive rate adjustment	669	1,093
Underrecovered SAFE/Franchise Costs	2,172	903
Total Regulatory Assets	$ 6,766	$ 6,276
Regulatory Liabilities		
Energy conservation program and other	$ —	$ 255
Deferred income tax credits [(1)]	15,995	17,120
Accrued natural gas costs	6,361	1,792
Unbilled Revenue	4,795	2,294
Total Regulatory Liabilities	$ 27,151	$ 21,461

[(1)] Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation).

In the event that our operations are no longer subject to applicable accounting rules for rate regulation, we would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, we would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 4, *Regulatory Matters*, for additional information.

Revenues
We record revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. We have a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue
We have a diversified base of customers. No single customer or industry comprises 10 percent or more of revenues. For all periods presented, uncollectible accounts averaged less than 1 percent of revenues.

Cost of Natural Gas
We have a fuel cost recovery mechanism. This mechanism provides a method of adjusting the billing rates to reflect changes in the cost of purchased fuel. The difference between the current cost of fuel and the cost of fuel recovered in billed rates is deferred and accounted for as either unrecovered purchased fuel costs or amounts payable to customers on the balance sheet. Generally, these deferred amounts are recovered or refunded within one year.

Income and Other Taxes
We use the liability method of accounting for deferred income taxes and provide deferred income taxes for all income tax temporary differences. Federal investment tax credits utilized are deferred and amortized to income over

the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

We recognize tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 5, *Income Taxes - Unrecognized Tax Benefits*, for additional information.

Property, Plant, and Equipment
Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation
Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 3.3 percent and 2.5 percent for the years ended December 31, 2025 and 2024, respectively. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. As part of the 2022 base rate case, the FPSC approved new depreciation rates which became effective January 1, 2023. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, as they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

The FPSC also approved the Reserve Surplus Amortization Mechanism (RSAM) as part of the 2022 base rate case. The RSAM was recorded as either an increase or decrease to accrued removal costs which was reflected on our balance sheet along with a corresponding increase or decrease to depreciation and amortization expense. We filed a forecast earnings surveillance report for 2023 with the FPSC in May 2023 which contained a regulatory return on equity (“ROE”) of 10.0 percent intended to be earned based on the best information FCG had at that time. Surveillance reports have since been filed quarterly. The December 2024 report, filed in March 2025, contained a regulatory ROE of 9.3 percent which included acquisition costs. See Note 4, *Contingencies and Regulatory Matters*, for additional information. At December 31, 2024 the RSAM reserve had been fully utilized.

In February 2025, we filed a depreciation study with the Florida PSC. The application requested approval of revised annual depreciation rates, as well as a reduction related to a reserve imbalance that would be amortized over a two-year period. The outcome of the application was subject to review and approval by the Florida PSC. In February 2026, the Florida PSC approved a $6.8 million reserve imbalance to be amortized over the remaining life of the assets, with the revised depreciation rates effective as of January 1, 2025.

Acquisition Adjustment
Until July 2018, FCG was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring FCG and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

(in thousands)		
December 31, 2023	$	13,836
Amortization expense		722
December 31, 2024	$	14,558
Amortization expense		722
December 31, 2025	$	15,280

Measurement of Credit Losses on Financial Instruments
We utilize the current expected credit loss (CECL) model under Accounting Standards Update (ASU) 2016-13 to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. We book the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2025 and December 31, 2024, we had a provision for uncollectible customer accounts of approximately $0.7 million and $1.0 million, respectively.

Receivables and Provision for Uncollectible Accounts
Our receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors consistent with the CECL model described above. For the remaining receivables, if we are aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount we reasonably expect to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies
Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale
Our natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments
We have entered into agreements with suppliers to purchase natural gas for resale to our customers. Purchases under these contracts either do not meet the definition of derivatives or are considered “normal purchases” and are accounted for on an accrual basis.

Financial assets with carrying values approximating fair value include accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities.

Internal-Use Software
We capitalize qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2025 and December 31, 2024, we had approximately $5.5 million of implementation costs included as capital in total utility plant. The costs are included in depreciation and amortization over the 20-year term of the arrangement. In connection with our internal-use software, we have entered into perpetual licensing arrangements which are amortized to operation expenses over the life of the agreement. Upon acquiring FCG in November 2023, Chesapeake Utilities determined the arrangement would be terminated prior to the contractual expiration date. As of July 2024 the prepayment balance was resolved.

Recently Adopted Accounting Standards

Income Taxes (ASC 740) - In December 2023, the FASB issued ASU 2023-09, *Improvements to Income Tax Disclosures,* which modifies required income tax disclosures primarily related to an entity's rate reconciliation and information pertaining to income taxes paid. These enhancements address requests from investors related to transparency and usefulness of income tax disclosures. ASU 2023-09 became effective for our annual financial statements beginning January 1, 2025. ASU 2023-09 only impacts disclosures, and as a result, did not have an impact on our financial position or results of operations.

Recent Accounting Standards Yet to be Adopted

FASB
Income Statement Expense Disaggregation (ASC 220) - In November 2024, the FASB issued ASU 2024-03, *Disaggregation of Income Statement Expenses*, which requires disclosure in the notes to financial statements of specified information about certain costs and expenses. ASU 2024-03 will be effective for our annual financial statements beginning January 1, 2027 and our interim financial statements beginning January 1, 2028. ASU 2024-04 only impacts disclosures, and as a result, will not have an impact on our financial position or results of operations.

Internal-Use Software (ASC 350) - In September 2025, the FASB issued ASU 2025-06, *Targeted Improvements to the Accounting for Internal-Use Software.* This update, among other changes, eliminates the project stages used in the historical guidance and instead, focuses on a principles-based approach that utilizes management's commitment to the project and the probability of project completion. ASU 2025-06 will be effective for our interim and annual financial statements beginning January 1, 2028. We do not expect ASU 2025-06 to have a material impact on our financial position or results of operation.

Federal Statute Updates
In July 2025, H.R. 1 (referred to as the "One Big Beautiful Bill Act") was signed into law. The comprehensive legislative package contains, among other topics, significant tax law changes and regulatory compliance updates, with various effective dates, including provisions related to limitations of interest expense deductions and the reinstatement of bonus depreciation for non-regulated qualified property. These provisions of the One Big Beautiful Bill Act had a positive impact on our income tax provision beginning in the third quarter of 2025, and we continue to evaluate the anticipated impacts to our financial position, results of operations, and/or cash flows on a go-forward basis.

2. RETIREMENT BENEFITS

Chesapeake Utilities' 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities Retirement Savings Plan up to a maximum of six percent of the eligible compensation. The employer matching contribution is made in cash and is invested based on a participant's investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution is generally made in Chesapeake Utilities common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. New employees, who do not make an election to contribute or do not opt out of the Chesapeake Utilities Retirement Savings Plan, will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment. Our contributions to the Chesapeake Utilities 401(k) Retirement Savings Plan, net of a portion capitalized, were not material for the years ended December 31, 2025 and 2024, respectively.

3. SHARE BASED COMPENSATION

Chesapeake Utilities executives have been granted share-based awards through Chesapeake Utilities' Stock Incentive Compensation Plan ("SICP"). The share-based awards are recorded as compensation costs over the respective service period for which services are received in exchange for an award of equity or equity-based compensation. The compensation cost is based primarily on the fair value of the shares awarded, using the estimated fair value of each share on the date it was granted and the number of shares to be issued at the end of the service period.

These awards are based on multi-year performance plans, which are earned based upon the successful achievement of long-term goals, growth and financial results, which comprised both market-based and performance-based conditions or targets. The fair value of each share of stock tied to a performance-based condition or target is equal to the market price of Chesapeake Utilities common stock on the date of the grant. For the market-based conditions, a Monte Carlo valuation is used to estimate the fair value of each share of market-based award granted. For the years ended December 31, 2025 and 2024, we were allocated $2.1 million and $1.8 million, respectively, in total compensation expense for the awards granted under the SICP.

4. REGULATORY MATTERS

Regulatory Matters

Base Rates

In May 2022, FCG filed a general base rate increase with the FPSC based on a projected 2023 test year. In June 2023, the FPSC issued an order approving a single total base revenue increase of $23.3 million (which included an incremental increase of $14.1 million, a previously approved increase of $3.8 million for a liquefied natural gas facility, and $5.3 million to transfer the SAFE investments from a rider clause to base rates), with new rates becoming effective as of May 1, 2023. The FPSC also approved FCG's proposed RSAM with a $25.0 million reserve amount, continuation and expansion of the capital SAFE program, implementation of an automated metering infrastructure pilot, and continuation of the storm damage reserve with a target reserve of $0.8 million. In June 2023, the Florida OPC filed a motion for reconsideration of the PSC’s approval of RSAM, which was denied in September 2023. In July 2023, the Florida OPC filed a notice of appeal with the Florida Supreme Court, which is pending. The Florida OPC filed their initial brief in January 2024 with answer briefs filed in April 2024. Oral arguments in the case were held in December 2024. The Florida Supreme Court has yet to rule on the case.

The RSAM was recorded as either an increase or decrease to accrued removal costs which was reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. In order to earn the targeted regulatory ROE in each reporting period subject to the conditions of the effective rate agreement, RSAM was calculated using a trailing thirteen-month average of rate base and capital structure in conjunction with the trailing twelve months regulatory base net operating income, which primarily included the base portion of rates and other revenues, net of operations and maintenance expenses, depreciation and amortization, interest and tax expenses. In general, the net impact of these income statement line items was adjusted, in part, by RSAM or its reversal to earn the targeted regulatory ROE. For the year ended December 31, 2024 and 2023, we recorded decreases to asset removal costs and depreciation expense of $15.5 million and $5.1 million, respectively, as a result of the RSAM adjustment. At December 31, 2024, the RSAM reserve had been completely utilized.

In April 2026, Florida City Gas filed a petition with the Florida PSC. In connection with the application, we are seeking approval of the following: (i) interim rate relief of approximately 16.2 million, subject to refund, pending the outcome of the rate case proceeding; (ii) general base rate increase of 46.9 million with a ROE of 11.25 percent based on a 2027 projected test year; (iii) reclassification of approximately $16.4 million in the existing SAFE program revenues from surcharge recovery to base rates; (iv) authorization to retain the unamortized portion of the previously approved acquisition adjustment; and (v) further implementation of the advanced metering infrastructure (“AMI”). The outcome of the application will be subject to review and approval by the Florida PSC.

Regulatory Infrastructure Programs

The majority of our regulatory infrastructure program assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through

specific rate riders on a dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

In June 2023, the Florida PSC issued the approval order for the continuation of the SAFE program beyond its 2025 expiration date and inclusion of 150 miles of additional mains and services located in rear property easements. The SAFE program is designed to relocate certain mains and facilities associated with rear lot easements to street front locations to improve FCG's ability to inspect and maintain the facilities and reduce opportunities for damage and theft. In the same order, the Commission approved a replacement of 160 miles of pipe that was used in the 1970s and 1980s and shown through industry research to exhibit premature failure in the form of cracking. The program includes projected capital expenditures of $205.0 million over a 10-year period.

In April 2024, FCG filed a petition with the Florida PSC to more closely align the SAFE Program with FPU's GUARD program. Specifically, the requested modifications will enable FCG to accelerate remediation related to problematic pipes and facilities consisting of obsolete and exposed pipes. These efforts will serve to improve the safety and reliability of service to FCG's customers and the modifications will increase the total projected capital expenditures by $50.0 million in capital expenditures associated with the SAFE Program, which would increase the total projected capital expenditures to approximately $255.0 million over a 10-year period. The Florida PSC approved the modifications in September 2024.

5. INCOME TAXES

Subsequent to the acquisition, FCG is included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other subsidiaries. FCG files a separate state income tax return in the state of Florida. Income taxes in the accompanying consolidated statements of income have been allocated to us as if we were a separate taxpayer.

See Note 1, *Summary of Significant Accounting Policies,* for more information on tax law updates.

The components of income taxes are as follows:

(in thousands)	December 31, 2025	December 31, 2024
Federal		
Current	$ (13,369)	$ (12,256)
Deferred	15,119	15,898
Total Federal	1,750	3,642
State		
Current	3,352	881
Deferred	(2,946)	(36)
Total State	406	845
Total income tax expense	$ 2,156	$ 4,487

The following table reconciles the U.S. federal statutory rate of 21 percent to the Company's effective rate for the year ended December 31, 2025, and as previously disclosed for the year ended December 31, 2024 in accordance with the guidance in ASU No. 2023-09:

(in thousands)	December 31, 2025		December 31, 2024	
Income before income taxes	$ 8,429		$ 21,782	
Effects of Changes in tax laws or rates enacted in current period	—		—	
Federal income tax expense	1,770	21.0 %	4,574	21.0 %
State income tax expense	321	3.8 %	668	3.1 %
Other	65	0.8 %	(755)	(3.5)%
Total income tax expense	$ 2,156	25.6 %	$ 4,487	20.6 %

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

	At December 31,	
(in thousands)	2025	2024
Deferred Tax Assets		
Tax reform legislation	$ 4,054	$ 4,339
State net operating losses	6,061	3,287
Other	5,030	1,661
Total deferred tax assets	15,145	9,287
Deferred Tax Liabilities		
Property related	24,411	15,212
Intangible assets	16,250	8,387
Other	1,721	751
Total deferred tax liabilities	42,382	24,350
Deferred income tax assets (liabilities), net	$ (27,237)	$ (15,063)

Unrecognized Tax Benefits
FCG has no unrecognized tax benefits for any year presented. We classify interest on tax uncertainties as interest expense; however, we had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2022 through 2024 (Federal and State) remain subject to examination by our major tax jurisdictions.

Cash payments of state income taxes, net of refunds, were immaterial at December 31, 2025 and 2024.

6. COMMITMENTS AND CONTINGENCIES

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

Contractual obligations and estimated expenditures at December 31, 2025 were as follows:

(in thousands)	2026	2027	2028	2029	2030	Total
Pipeline charges and storage capacity [(1)]	$ 9,574	$ 9,574	$ 9,366	$ 9,250	$ 4,206	$ 41,970

(1) Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.

We are involved in certain other legal actions and claims arising in the normal course of business. We are also involved in certain legal proceedings and administrative proceedings before various governmental agencies concerning rates. In the opinion of management, the ultimate disposition of these proceedings will not have a material effect on our financial position, results of operations or cash flows.

7. AFFILIATE TRANSACTIONS

Financing Arrangements
Our excess cash is transferred to Chesapeake Utilities to be invested in overnight income-producing accounts. We utilize Chesapeake Utilities' short-term borrowing facility and Chesapeake Utilities' long-term debt to satisfy our financing needs. For the years ended December 31, 2025 and December 31, 2024, Chesapeake Utilities allocated to us $32.0 million and $30.2 million, respectively, in interest expense, which represents a portion of interest from Chesapeake Utilities' short-term and Chesapeake Utilities' long-term debt, net of a portion of interest income from the overnight income-producing accounts.

Allocated Costs from Affiliates
Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the years ended December 31, 2025 and December 31, 2024, Chesapeake Utilities charged us $16.2 million and $11.7 million, respectively, for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the years ended December 31, 2025 and December 31, 2024, Chesapeake Utilities charged us $5.6 million and $1.9 million, respectively, for these services.

Advances from Affiliates
FCG does not issue debt or equity directly as the funding needs are managed centrally at the parent-level by Chesapeake Utilities. Any funding needs for FCG are recorded via intercompany accounting that does not differentiate between debt and equity proceeds. As of December 31, 2025 and December 31, 2024, we had net advances payable to Chesapeake Utilities and its subsidiaries in the amount of $1.0 billion and $985.9 million, respectively, which includes the debt and equity utilized to fund the FCG acquisition of approximately $923 million in November 2023.

As of the date of the financial statements were available to be issued, FCG lacks sufficient cash to repay this payable. Chesapeake Utilities has committed to not calling this payable and to providing sufficient funding to us to enable FCG to meet its cash needs through at least April 29, 2027.

Firm Transportation Service and Natural Gas Purchase/Sale
Peninsula Pipeline Company, Inc. ("Peninsula Pipeline"), a wholly-owned subsidiary of Chesapeake Utilities, provided us with firm transportation service in conjunction with our service in Florida. For the years ended December 31, 2025 and December 31, 2024, we incurred $8.8 million and $3.3 million, respectively, in cost associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism.

Marlin Gas Services, LLC, a wholly-owned subsidiary of Chesapeake Utilities, provided us natural gas transportation service in conjunction with our service in Florida. For the years ended December 31, 2025 and December 31, 2024, we incurred $2.7 million and $1.7 million, respectively, in cost associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism.

Florida Public Utilities Company ("FPU"), a wholly-owned subsidiary of Chesapeake Utilities, natural gas division is engaged in the distribution of natural gas in south, central and northeast Florida. We provided FPU natural gas services in conjunction with their service in Florida. For the years ended December 31, 2025 and December 31, 2024, these revenues were not material.

8. REVENUE RECOGNITION

Customer Revenue
We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have delivered natural gas to customers. We bill customers for both the delivery of natural gas and the related commodity, as our customers are also required to purchase the commodity from us. We consider the delivery of natural gas and the related commodity sale as one performance obligation because the commodity and its delivery are highly interrelated with two-way dependency on one another. Our performance obligation is satisfied over time as natural gas is delivered and consumed by the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price. Typically, our customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances
The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables, and customer advances in our balance sheets. As of December 31, 2025 and December 31, 2024, the balance of our trade receivables, net of our allowance for expected credit losses, was $31.9 million and $20.9 million, respectively. As of December 31, 2025 and December 31, 2024, there were no contract assets or liabilities recorded on the consolidated balance sheet.

Remaining Performance Obligations
We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2025 are expected to be recognized as follows:

(in thousands)	**2026**	**2027**	**2028**	**2029**	**2030**	**2031 and thereafter**
Natural gas distribution operations	$ 3,307	$ 607	$ 611	$ 615	$ 620	$ 5,337

Note: **The grand total balances include Florida City Gas' allocation of common plant from Chesapeake Corporate (see following page 14.1 and 14.2 for additional details.) The is no allocation of Florida Corporate common plant to Florida City Gas.**

***Please see the Company's Notes to the Financial Statements regarding leases as reported in account 101.1.**

****The assets in the reclass column are assets that were included in FERC 376P during acquisition. A reclass was done in 2024 to move the assets to the correct FERC, 3762. A reserve transfer was not completed during the asset transfer process due to the use of the CPR Asset Loader. This method involves a template that removes the assets from the CPR and another template that reloads the assets with the preferred details for how they should appear in the Power Plan. The templates do not include a reserve option. We will transfer the A/D in 2025 to correct change between the two accounts.**

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC.	
D/B/A FLORIDA CITY GAS	December 31, 2025

CONSTRUCTION WORK IN PROGRESS-GAS (Account 107)

1. Report below descriptions and balances at end of year of projects in process of construction (107).
2. Show items relating to "research, development, and demonstration" projects last, under a caption Research, Development, and Demonstration (see Account 107 of the Uniform System of Accounts).
3. Minor projects (less than $500,000) may be grouped.

Line No.	Description of Project (a)	Construction Work in Progress-Gas (Account 107) (b)	Estimated Additional Cost of Project (c)
1	General Plant	$ 243,279	
2	M&R Station	$ 4,217,698	
3	Mains	$ 28,624,840	$ 27,220,725

8			
9	**TOTAL**	$ 68,177,419	

CONSTRUCTION OVERHEADS-GAS

1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
2. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain the accounting procedures employed and the amounts of engineering, supervision, and administrative costs, etc. which are directly charged to construction.
3. Enter on this page engineering, supervision, administrative,, and allowance for funds used during construction, etc. which are first assigned to a blanket work order and then prorated to construction jobs.

Line No.		Total Amount Charged for the Year (b)	Total Cost of Construction to Which Overheads Were Charged (Exclusive of Overhead Charges) (c)

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2025

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded and gains or losses relating to securities retired or refunded.
3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

N/A

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts.
4. Show loss amounts by enclosing the figures in parentheses.
5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

Line No.	Designation of Long-Term Debt (a)	Date Reacquired (b)	Principal of Debt Reacquired (c)	Net Gain or Net Loss (d)	Balance at Beginning of Year (e)	Balance at End of Year (f)*

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2025

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2025

Note: Schedule lists total long term debt for Chesapeake Utilities Corporation. Line number 33 indicates the amount that is allocated to Florida City Gas.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

1. Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
2. Show premium amounts by enclosing the figures in parentheses.
3. In column (b) show the principal amount of bonds or other long-term debt originally issued.
4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.
2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
4. Report gas service revenues and therms sold by rate schedule.
5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:
800 - Natural Gas Well Head Purchase
800.1- Natural Gas Well Head Purchases Intracompany Transfers
801 - Natural Gas Field Line Purchase
802 - Natural Gas Gasoline Plant Outlet Purchase
803 - Natural Gas Transmission Line Purchase
804 - Natural Gas City Gate Purchase
804.1- Liquefied Natural Gas Purchases
805 - Other Gas Purchase
805.1- Purchases Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)

Notes to Gas Purchases

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase, lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price, quantity, amount, and duration of the contracts.

Name of Affiliate	Synopsis of Contract
Peninsula Pipeline Company (PPC)	Firm Transportation Service Agreement between Florida City Gas (FCG) and Peninsula Pipeline Company (PPC) amended July 23rd, 2025. The project for Brevard County was placed into service on April 8, 2025. The agreement is for 25 years and can be extended on a year-to-year basis indefinitely, unless either party terminates within 90 days prior to the current term. The monthly payment is $20,982 for a maximum of 3,200 dts per day.
Peninsula Pipeline Company (PPC)	Firm Transportation Service Agreement between Florida City Gas (FCG) and Peninsula Pipeline Company (PPC) amended February 14th, 2025. The Indian River RNG Project was placed into service on May 1, 2025. The agreement is for 30 years and can be extended on a year-to-year basis indefinitely, unless either party terminates within 90 days prior to the current term. The monthly payment is $222,580 for a maximum of 1,200 dts per day.
Peninsula Pipeline Company (PPC)	Firm Transportation Service Agreement between Florida City Gas (FCG) and Peninsula Pipeline Company (PPC) entered into February 26th, 2024. The Miami Dade Expansion project was placed into service on May 1, 2025. The agreement is for 20 years and can be extended on a year-to-year basis indefinitely, unless either party terminates within 90 days prior to the current term. The monthly payment is $105,687 for a maximum of 6,720 dts per day.
Peninsula Pipeline Company (PPC)	Firm Transportation Service Agreement between Florida City Gas (FCG) and Peninsula Pipeline Company (PPC) entered into September 18th, 2024. The West segment for Miami Loop was placed into service on August 8th, 2025. The North and South segments were placed into service August 26th, 2025. The agreement is for 20 years and can be extended on a year-to-year basis indefinitely, unless either party terminates within 90 days prior to the current term. The monthly payment is $630,513 for a maximum of 124,700 dts per day.
Peninsula Pipeline Company (PPC)	Firm Transportation Service Agreement between Florida City Gas (FCG) and Peninsula Pipeline Company (PPC) amended July 23rd, 2025. The Indian River Expansion project was placed into service on October 31, 2025. The agreement is for 30 years and can be extended on a year-to-year basis indefinitely, unless either party terminates within 90 days prior to the current term. The monthly payment is $44,958 for a maximum of 1,200 dts per day.

INDIVIDUAL AFFILIATED TRANSACTIONS IN EXCESS OF $25,000

Provide information regarding individual affiliated transactions in excess of $25,000. Recurring monthly affiliated transactions which exceed $25,000 per month should be reported annually in the aggregate. However, each land or property sales transaction even though similar sales recur, should be reported as a "non-recurring" item for the period in which it occurs.

Name of Affiliate	Description of Transaction	Dollar Amount
Peninsula Pipeline Company, Inc.	Natural Gas Firm Transportation Service Agreement (Indian River Company) between FCG and PPC	$840,000
Peninsula Pipeline Company, Inc.	Natural Gas Firm Transportation Service Agreement (Vero Beaches) between FCG and PPC	$2,413,692

FPSC - COMMISSION CLERK

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for approval of amortization rate for Starnik customer information system and other software accounting adjustments, by Florida City Gas.	DOCKET NO. 20200191-GU ORDER NO. PSC-2020-0489-PAA-GU ISSUED: December 11, 2020

The following Commissioners participated in the disposition of this matter:

GARY F. CLARK, Chairman
ART GRAHAM
JULIE I. BROWN
DONALD J. POLMANN
ANDREW GILES FAY

NOTICE OF PROPOSED AGENCY ACTION ORDER APPROVING AMORTIZATION RATE FOR STARNIK CUSTOMER INFORMATION SYSTEM AND OTHER SOFTWARE ACCOUNTING ADJUSTMENTS FOR FLORIDA CITY GAS

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.).

Background

On August 6, 2020, Florida City Gas (FCG or Company) filed a request for approval of amortization rate for Starnik customer information system (CIS) and other software accounting adjustments (Petition). The Company's request is in accordance with Section 366.115, Florida Statutes (F.S.), and Rules 25-7.045(2)(a) and 25-7.045(3)(b), Florida Administrative Code (F.A.C.), which require that: (i) "[n]o utility shall change any existing depreciation rate or initiate any new depreciation rate without prior Commission approval," and (ii) "[u]pon establishing a new account or subaccount classification, each utility shall request Commission approval of a depreciation rate for the new plant category."

Pursuant to Rule 25-7.045(3)(a), F.A.C., gas utilities are required to maintain depreciation rates and accumulated depreciation reserves in accounts or subaccounts in accordance with the Uniform System of Accounts for Public Utilities and Licensees, as found in

the Code of Federal Regulations, which is incorporated by reference in Rule 25-7.045(1), F.A.C.[1]

In its Petition, FCG explains that their current billing system, referred to as the Oracle Utilities Customer Care & Billings (CC&B) system, has been in service since April 2006, when FCG was owned by Nicor Gas. FCG further explains that prior to June 2020, the Company was contracting with Southern Company for the use of CC&B, and therefore had no direct control over modifying or improving the system to meet FCG's specific needs. In June 2020, FCG replaced CC&B with Starnik CIS. The net asset value on FCG's books for CC&B is $0.

According to FCG, the new Starnik CIS software will increase customer information system functionalities, including providing an integrated, state-of-the-art billing system and customer platform that will enhance FCG customers' digital experience. FCG further states that the Starnik CIS will tie into FCG's field operations software to offer the Company increased customer support capabilities.

In addition to Starnik CIS, FCG is also requesting approval of other software accounting adjustments. These other adjustments are related to traditional capitalized software and future Software-as-a-Service (SaaS) arrangements.

FCG's current depreciation rates were established when we approved the Stipulation and Settlement (2018 Settlement) entered into between the Company and the Office of Public Counsel to resolve the Company's last rate case and depreciation study.[2]

There are no filed public comments or concerns regarding this matter.

We have jurisdiction in this matter pursuant to Sections 366.04, 366.05, and 366.06, F.S.

[1]Code of Federal Regulations, Title 18, Subchapter C, Part 101, for Major Utilities, as revised April 1, 2013.
[2]Order No. PSC-2018-0190-FOF-GU, issued on April 20, 2018, in Docket No. 20170179-GU, *In re: Petition for rate increase by Florida City Gas.*

Decision

Starnik Customer Information System

FCG states that Starnik CIS is a cloud-based SaaS system that offers an all-in-one, real-time solution for managing the business processes of: (1) receiving gas consumption measurement data; (2) accurately billing; and (3) ensuring consistent collection of revenues for services rendered to customers. According to the Company, the Starnik CIS software enhances FCG's ability to effectively manage and accurately bill all customer segments, including residential, commercial, industrial, and transportation service providers within a single system. The total capital cost associated with Starnik software is $5.2 million as of August 2020.

FCG stated that the Starnik CIS software is currently recorded in subaccount 391.11, Computer Software. This account has an approved amortization period of 12 years. The Company is requesting authorization to establish a new subaccount specifically for the Starnik CIS software within FERC account 303, Miscellaneous Intangible Plant. If we approve this request, the Company will transfer the balance of $5.2 million from account 391.11 to the newly established subaccount 303.20 - Software as a Service. The Company indicates that it is proposing to transfer the recording of these assets from General Plant accounts to Intangible Plant accounts to provide consistency with how its parent company, Florida Power & Light Company (FPL), records its capitalized software for both traditional and SaaS arrangements.

The Company also is requesting an amortization period of 20 years for this Starnik CIS-specific subaccount with an annual depreciation rate of 5 percent. A zero percent net salvage value (NSV) is associated with these assets. The Company makes clear in its petition that the proposed 20-year average service life (ASL) or amortization period is for accounting purposes only and will have no impact on consumer base rates during the current settlement term, approved in Order No. PSC-2018-0190-FOF-GU.[3]

To support the Company's proposed 20-year ASL for Starnik CIS, FCG referenced Docket No. 20120015-EI, in which FPL requested to extend the depreciable life of its newly implemented general ledger accounting system, SAP,[4] from five to 20 years, in order to more closely align with the period in which customers would experience the benefit of the system. We approved a settlement in that docket which, although not precedential, recognized a depreciable life of 20 years for the SAP system.[5] FCG also referenced Docket No. 20200059-EI, in which Gulf Power Company sought to extend the depreciable life of its newly implemented Customer Account Management System, CAMS, from seven to 20 years. We approved Gulf's amortization rate for CAMS in Order No. PSC-2020-0210-PAA-EI, issued June 25, 2020.[6]

---

[3]Order No. PSC-2018-0190-FOF-GU, issued on April 20, 2018, in Docket No. 20170179-GU, *In re: Petition for rate increase by Florida City Gas.*

[4]SAP general ledger accounting system is produced by the enterprise software company of the same name, SAP

[5]Order No. PSC-2013-0023-S-EI, issued January 14, 2013, in Docket No. 20120015-EI, *In re: Petition for increase in rates by Florida Power & Light Company,* p. 21.

[6]Order No. PSC-2020-0210-PAA-EI, issued June 25, 2020, in Docket No. 20200059-EI, *In re: Petition for approval of amortization rate for customer account management system, by Gulf Power Company.*

FCG states that its requested extension of the Starnik CIS amortization period will serve to better align the costs of Starnik CIS to the expected useful life of the software. The Company further explains that extending the amortization period will have the added benefit of decreasing the revenue requirement associated with Starnik CIS when the Company's base rates are next set.

Given the circumstances presented by FCG, we find that a 20-year life is a more accurate reflection of the expected service life of the Starnik CIS system, and will result in a more appropriate depreciation expense. We agree with FCG's proposed zero NSV. With these parameters, a 5 percent depreciation rate appears reasonable. Accordingly, we find FCG's request to establish the subaccount 303.20 – Software as a Service as the subaccount for this asset to be appropriate.

Traditional Software

FCG states that traditional software is software that has been developed or obtained for internal use, whereas SaaS arrangements involve cloud computing arrangements. FCG is currently recording traditional software arrangements in subaccount 391.10 – Software Non-Enterprise and subaccount 391.11 – Computer Software.

Subaccount 391.10 currently has a depreciation rate of 10 percent, while subaccount 391.11 currently has a depreciation rate of 8.3 percent. The Company is requesting to transfer the remaining balances for these traditional software assets to newly established subaccounts 303.01 – Software Non-Enterprise and subaccount 303.02 – Computer Software. The Company is also requesting to use these proposed subaccounts for all similar acquisitions in the future, with no change to depreciation rates. FCG explains that the reason for this proposed transfer is to allow the Company to separately identify traditional capitalized software, which is maintained on the Company's internal servers, and use a depreciation rate based on the anticipated useful life of the software, from SaaS arrangements, which are maintained on a vendor's servers ("Cloud Computing"). We find FCG's proposal as relates to the establishment of the proposed subaccounts for traditional capitalized software at the proposed depreciation rates to be reasonable.

Conclusion

For the reasons set forth above, we approve FCG's proposal to establish new subaccount 303.20 – Software as a Service, for purposes of recording Starnik CIS assets at an annual depreciation rate of 5 percent. We also approve FCG's proposed subaccounts, 303.01 - Software Non-Enterprise and 303.02 – Computer Software, established to allow the in-transfer of the balances of traditional software assets currently recorded in subaccounts 391.10 and 391.11, respectively. These new subaccounts, 303.01 and 303.02, shall feature the same depreciation rates of 10 percent and 8.3 percent as the current subaccounts, respectively. In addition, FCG shall record all going-forward acquisitions of like assets to these new subaccounts.

Effective Date

FCG filed its Petition on August 6, 2020. FCG placed $5.2 million related to Starnik CIS software into Account 391.11 - Computer Software in June 2020. FCG began recording amortization expense related to the Starnik system that same month at the currently approved 12-year rate.

FCG explained that if we approve its request, the Company will transfer $5.2 million related to the Starnik CIS from Account 391.11 to the requested subaccount within Account 303. Additionally, FCG stated that it will true-up, and then transfer, the accumulated amortization associated with the Starnik software from Account 111 – Accumulated provision for amortization of electric plant to Account 404 – Amortization of limited-term electric plant. FCG explained that it would record amortization expense for June and July at the currently approved 12-year rate. The Company further clarified that, with our approval, it would begin using the new 20-year rate in August. This would reduce depreciation expense from $35,600 per month to $21,500. As discussed above, any remaining balances related to traditional software also would be transferred from Accounts 391.10 and 391.11 to Account 303.01 (10-year amortization rate) or Account 303.02 (12-year amortization rate), as appropriate.

We agree with FCG's general approach to the accounting adjustments and FCG's proposal to implement the new rate on August 1, 2020. The amortization expense for the Starnik CIS software shall be recorded using the new 20-year life depreciation rate (5 percent per annum) beginning on August 1, 2020. As such, amortization expense recorded from the in-service date through July 31, 2020, shall be accrued at the existing 12-year amortization rate (8.3 percent per annum), after which the accrual shall be recorded at the requested 20-year rate (5.0 percent per annum).

New sub-accounts within FERC Account 303 – Miscellaneous Intangible Plant for its future SaaS arrangements and appropriate corresponding depreciation rates

The Company requested our approval of the establishment of various 303 subaccounts for future SaaS arrangements to reflect different service lives. The proposed amortization rates for these accounts mirror FCG's Starnik CIS software request by matching the amortization rate to the specific terms of the service contract and the Company's assessment of how long the software will be utilized.

The requested subaccounts and corresponding amortization rates are:

Account 303.10 Software as a Service – 2 years
Account 303.11 Software as a Service – 3 years
Account 303.12 Software as a Service – 4 years
Account 303.13 Software as a Service – 5 years
Account 303.14 Software as a Service – 6 years
Account 303.15 Software as a Service – 7 years
Account 303.16 Software as a Service – 8 years
Account 303.17 Software as a Service – 9 years

Account 303.18 Software as a Service – 10 years
Account 303.19 Software as a Service – 15 years

FCG stated that it currently does not have any plant balances to transfer into these subaccounts. Nor does the Company have any current or pending SaaS arrangements that it plans to capitalize and record to any of these subaccounts. Given the fact that there are no assets in place to evaluate or analyze in order to recommend appropriate amortization rates or net salvage values, we find FCG's request to establish these subaccounts to be premature. The Company's request to establish specific SaaS subaccounts 303.10 through 303.19 is denied at this time.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the proposal by Florida City Gas to establish new subaccount 303.20 – Software as a Service, for purposes of recording Starnik Customer Information System assets at an annual depreciation rate of 5 percent is approved. It is further

ORDERED that the proposal by Florida City Gas to establish subaccounts, 303.01 - Software Non-Enterprise and 303.02 – Computer Software, to allow the in-transfer of the balances of traditional software assets currently recorded in subaccounts 391.10 and 391.11, respectively, is approved. These new subaccounts, 303.01 and 303.02, shall feature the same depreciation rates of 10 percent and 8.3 percent as the current subaccounts, respectively. FCG shall record all going-forward acquisitions of like assets to these new subaccounts.. It is further

ORDERED that Florida City Gas shall transfer $5.2 million related to the Starnik CIS from Account 391.11 to the requested subaccount within Account 303. Additionally, FCG shall true-up, and then transfer, the accumulated amortization associated with the Starnik software from Account 111 – Accumulated provision for amortization of electric plant to Account 404 – Amortization of limited-term electric plant. Any remaining balances related to traditional software shall also be transferred from Accounts 391.10 and 391.11 to Account 303.01 (10-year amortization rate) or Account 303.02 (12-year amortization rate), as appropriate. It is further

ORDERED that Florida City Gas shall record the amortization expense for the Starnik CIS software using the new 20-year life depreciation rate (5 percent per annum) beginning on August 1, 2020. Starnik CIS amortization expense incurred from the in-service date through July 31, 2020, shall be recorded at the existing 12-year amortization rate (8.3 percent per annum). It is further

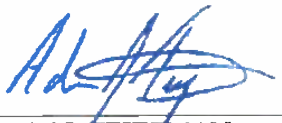
ORDERED that the request by Florida City Gas to establish specific Software as a Service (SaaS) subaccounts 303.10 through 303.19 is denied at this time. It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final and effective upon the issuance of a Consummating Order unless an appropriate petition, in the form provided by Rule 28-106.201, Florida Administrative Code, is received by the Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the

close of business on the date set forth in the "Notice of Further Proceedings" attached hereto. It is further

ORDERED that in the event this Order becomes final, this docket shall be closed.

By ORDER of the Florida Public Service Commission this 11th day of December, 2020.



ADAM J. TEITZMAN

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing that is available under Section 120.57, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

The action proposed herein is preliminary in nature. Any person whose substantial interests are affected by the action proposed by this order may file a petition for a formal proceeding, in the form provided by Rule 28-106.201, Florida Administrative Code. This petition must be received by the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on January 4, 2021.

Any objection or protest filed in this/these docket(s) before the issuance date of this order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

QUESTION:
Please refer to Staff's First Data Request, No. 4b. Does the Company have any updates or edits to its answer to this question?

RESPONSE:
Yes. In addition to the Starnik CIS software, FCG is proposing to transfer any existing capitalized software, including both traditional and SaaS arrangements, from Account 391.10 or 391.11 to Account 303 related subaccounts. Attachment No. 1 to this response includes a list of capitalized software projects and balances recorded in Account 391.10 and 391.11 as of October 31, 2020. All these projects were placed in service during calendar year 2020.

QUESTION:
Please specify what the Company's request is with regard to approval of "Other Accounting Adjustments" as discussed in Paragraphs 15 and 16, on page 5 of the Petition.

RESPONSE:
FCG is requesting the following with regard to approval of "Other Accounting Adjustments":

1. To establish and use FERC Account 303 subaccounts to record all existing and future capitalized software, including both traditional and SaaS arrangements;

2. To transfer any existing capitalized software from FERC accounts 391.10 and 391.11 to Account 303 related subaccounts;

3. For existing and future traditional capitalized software recorded in FERC 303 subaccounts, to continue using the same depreciation rates established in accounts 391.10 and 391.11; and

4. For existing and future SaaS arrangements, to use depreciation rates based on the specific terms of the service contract and the Company's assessment of how long the software will be utilized.

QUESTION:
Does the Company have any pending SaaS arrangements other than the Starnik CIS? If so, please describe in detail those arrangements?

RESPONSE:
Other than Starnik, the Company does not have any SaaS arrangements pending at this time.

Florida City Gas Company
Docket No. 20200191-GU
Staff's Third Data Request
Request No. 4
Page 1 of 1

QUESTION:
Please refer to FCG's Petition, Paragraph 10. Describe the nature of the traditional software developed or obtained for internal use, and how it differs from Starnik CIS software and other cloud computing arrangements.

RESPONSE:
Traditional software is ordinarily sold with a perpetual license agreement and an up-front cost along with an optional ongoing support fee. Traditional software purchase costs are capitalized and the rate of depreciation is based on the anticipated useful life of the software. The optional support fees are typically an O&M cost but periodic updates to the software are often included. SaaS providers, such as Starnik, typically price their applications using a subscription fee, most commonly a monthly or an annual fee structure. The initial set-up fee for SaaS is typically lower than the equivalent enterprise software. SaaS vendors price their applications based on use parameters such as the number of users accessing the application.

Software as a Service, or SaaS, is a nomenclature associated with cloud computing. Users who sign-in to the Starnik CIS software are accessing the program through the internet rather than directly connecting to traditional software that would reside on the company's server network. A benefit of accessing a CIS solution through the cloud network, as opposed to traditional software that resides on the company's network, is in the availability of the program in the event of a major power interruption or other localized emergency which could take traditional systems temporarily offline. The cloud solution eliminates the need for the company to mirror the software and back-up files at an off-site location.

It is also very common for SaaS applications, such as the Starnik CIS software, to be updated more often than traditional software. In most cases, the software is updated on a weekly or monthly basis.

The fact that SaaS computing solutions are continuously updated and maintained tends to extend the useful life expectancy of the product, depending on the specific terms of the contract with the software vendor.

Florida City Gas Company
Docket No. 20200191-GU
Staff's Third Data Request
Request No. 5
Page 1 of 1

QUESTION:
Please refer to FCG's response to Staff's First Data Request, No. 4(a). What is the difference between the nature of assets which would be recorded in subaccount 303.01 - Software Non-Enterprise (currently recorded in subaccount 391.10) and 303.02 - Computer Software (currently recorded in subaccount 391.11)?

RESPONSE:
Subaccounts 391.10 and 391.11 were used by Florida City Gas prior to the company's acquisition by NextEra Energy in July 2018 to record capitalized software. None of the software used by FCG previously was transferred as part of the acquisition. Subsequent to the acquisition, FCG's capitalized software, traditional and SaaS arrangements, have been recorded exclusively to subaccount 391.11 using a 12-year depreciable life (8.3% depreciation rate). Should the Commission approve FCG's petition, FCG will use Account 303.02 for traditional capitalized software. Also upon Commission approval, current and future SaaS arrangements would be recorded to Account 303 subaccounts as specified in FCG's response to Staff's First Data Request, No. 4(c).

Florida City Gas Company

Request No. 6
Page 1 of 1

QUESTION:
If the Commission approves the proposed establishment of subaccounts 303.01 and 303.02, when does FCG intend to make the transfers to these subaccounts from subaccounts 391.10 and 391.11?

RESPONSE:
FCG intends to make the transfers from Accounts 391.10 and 391.11 to Accounts 303.01 and 303.02 within a month of the Commission's approval of FCG's petition.

Florida City Gas Company
Docket No. 20200191-GU
Staff's Third Data Request
Request No. 7
Page 1 of 1

QUESTION:
Please refer to FCG's Petition, Paragraphs 15 and 16.

(a) Why is FCG requesting that assets identified as "General Plant" accounts, currently recorded in subaccounts 391.10 – Software Non-Enterprise and 391.11 – Computer Software, including both traditional and cloud computing software, be transferred to the category of assets identified as "Intangible Plant", to be recorded as various subaccounts within account 303 – Miscellaneous Intangible Plant? Please be specific as to each subaccount.

(b) For each type of transfer discussed in Question 7(a), please explain the regulatory implications, if any, to the Company and its customers of making such transfers/recordings compared to the current recording method.

RESPONSE:
a. FCG's use of Account 303 would be consistent with how Florida Power & Light Company, the parent company of FCG, records its capitalized software, both traditional and SaaS arrangements. Further, FCG considers the Code of Federal Regulations, Title 18 Part 201 account description for Account 303 – Miscellaneous Intangible Plant to more accurately reflect the nature of costs associated with capitalized software. FCG's use of various Account 303 subaccounts would allow FCG to separately identify traditional capitalized software, which is maintained on the Company's internal servers and use a depreciation rate based on the anticipated useful life of the software, from SaaS arrangements, which are maintained on a vendor's servers ("Cloud Computing") and use depreciation rates based on the specific terms of the service contract and the Company's assessment of how long the software will be utilized.

b. The Company's request to transfer/record capitalized software will have no impact on customer base rates during the current settlement term. FCG will reflect these adjustments during its next base rate case.

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 8.01 Other Events

As previously disclosed, on September 26, 2023, Chesapeake Utilities Corporation, a Delaware corporation (the "Company"), entered into a stock purchase agreement (the "Purchase Agreement") with Florida Power & Light Company, a Florida corporation ("FPL"), to acquire all of the outstanding common shares of Pivotal Utility Holdings, Inc., a wholly owned subsidiary of FPL doing business as Florida City Gas ("FCG"), for approximately $923.4 million in cash, subject to customary purchase price adjustments (the "Acquisition"). The Purchase Agreement is subject to the satisfaction of customary closing conditions, including the expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, which occurred on November 6, 2023, and certain regulatory financing approvals in various jurisdictions, which have been received as of the date hereof. Subject to the satisfaction or waiver of the remaining conditions and the other terms and conditions of the Purchase Agreement, the Acquisition is expected to close in the fourth quarter of 2023.

The Company expects to fund the purchase price of the Acquisition with the net proceeds of an equity offering and from the expected issuance of approximately $550 million principal amount of uncollateralized senior notes (the "New Notes") and additional borrowings under its existing unsecured revolving credit facility.

We have locked in an annual weighted interest rate of 6.54% for the following terms for these New Notes: $100 million for each of three, four, five, seven and ten year terms as well as $50 million under a total fifteen year/ten year average term. Although we have not signed a note purchase agreement as of the date of this report, we expect to do so prior to closing the Acquisition. The New Notes are expected to have terms and conditions that are similar to our more recently issued uncollateralized senior notes.

In connection with the Acquisition, the Company is filing this Current Report on Form 8-K to provide certain historical financial statements of FCG and pro forma financial information of the Company including FCG.

Item 9.01 Financial Statements and Exhibits.

(a) *Financial statements of business acquired.*

Audited financial statements of Pivotal Utility Holdings, Inc. (d/b/a Florida City Gas), comprised of the balance sheets as of December 31, 2022 and 2021, the related statements of income, changes in equity and cash flows for each of the years in the two-year period ended December 31, 2022 and the related notes to the financial statements, are attached hereto as Exhibit 99.1.

Unaudited financial statements of Pivotal Utility Holdings, Inc. (d/b/a Florida City Gas), comprised of the balance sheets as of September 30, 2023 and December 31, 2022, the related statements of income and changes in equity for the three and nine months ended September 30, 2023 and 2022, the statement of cash flows for the nine months ended September 30, 2023 and 2022, and the related notes to the financial statements, are attached hereto as Exhibit 99.2.

(b) *Pro forma financial information.*

The unaudited pro forma condensed financial information of Chesapeake Utilities Corporation as of September 30, 2023, for the year ended December 31, 2022 and for the nine months ended September 30, 2023, giving effect to the Acquisition, are attached hereto as Exhibit 99.3.

(d) Exhibits.

Exhibit Numbers	Description
23.1	Consent of Deloitte & Touche LLP, independent auditors for Pivotal Utility Holdings, Inc. (d/b/a Florida City Gas).
99.1	Audited financial statements of Pivotal Utility Holdings, Inc. (d/b/a Florida City Gas) as of December 31, 2022 and 2021 and for the two years ended December 31, 2022.
99.2	Unaudited financial statements of Pivotal Utility Holdings, Inc. (d/b/a Florida City Gas) as of September 30, 2023 and December 31, 2022, and for the three and nine months ended September 30, 2023 and 2022.
99.3	Unaudited pro forma condensed combined financial information of Chesapeake Utilities Corporation as of September 30, 2023, for the year ended December 31, 2022 and for the nine months ended September 30, 2023.

CONSENT OF INDEPENDENT AUDITORS

We consent to the incorporation by reference in Registration Statement Nos. 333-250803, 333-274203, and 333-274284 on Form S-3ASR and Registration Statement Nos. 333-192198 and 333-271610 on Form S-8 of Chesapeake Utilities Corporation of our report dated October 31, 2023, relating to the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas appearing in this Current Report on Form 8-K dated November 9, 2023.

/s/ Deloitte & Touche LLP

Boca Raton, Florida

November 9, 2023

Exhibit 99.3

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The unaudited pro forma condensed combined financial information of Chesapeake Utilities Corporation ("Chesapeake Utilities", or the "Company") consists of a condensed combined balance sheet at September 30, 2023, and condensed combined statements of income for the nine months ended September 30, 2023 and the year ended December 31, 2022, all of which reflect the Company's anticipated acquisition of Pivotal Utility Holdings, Inc. doing business as Florida City Gas ("FCG"). The unaudited pro forma condensed combined financial statements included herein have been derived from the following historical financial statements:

- the audited financial statements of Chesapeake Utilities as of and for the year ended December 31, 2022;
- the unaudited interim financial statements of Chesapeake Utilities as of and for the nine months ended September 30, 2023;
- the audited financial statements of FCG as of and for the year ended December 31, 2022; and
- the unaudited interim financial statements of FCG as of and for the nine months ended September 30, 2023.

The pro forma adjustments have been prepared as if the acquisition of FCG occurred on September 30, 2023 in the case of the unaudited pro forma condensed combined balance sheet and on January 1, 2022 in the case of the unaudited pro forma condensed combined statements of income for the nine months ended September 30, 2023 and for the year ended December 31, 2022. The unaudited pro forma condensed combined financial statements should be read in conjunction with the related notes, which are included herein, the financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, as filed February 22, 2023, and Quarterly Report on Form 10-Q for the nine months ended September 30, 2023, as filed November 2, 2023 and the financial statements and notes of FCG attached as Exhibits 99.1 and 99.2 in the Company's Current Report on Form 8-K filed by the Company on November 9, 2023.

The unaudited pro forma condensed combined financial statements are presented for illustrative purposes only and do not necessarily reflect what the combined financial condition and results of operations would have reflected had the Acquisition occurred on the dates indicated. They also may not be useful in predicting the future financial condition and results of the operations of the combined company. The actual financial position and results of operations may differ significantly from the pro forma amounts reflected herein due to a variety of factors.

The unaudited pro forma information and adjustments, including the preliminary allocation of purchase price, are based upon preliminary estimates of fair values of assets acquired and liabilities assumed, current available information and certain assumptions that we believe are reasonable in the circumstances, as described in the notes to the unaudited pro forma condensed combined financial statements. The actual adjustments to the Company's consolidated financial statements as of the closing date of the Acquisition will depend on a number of factors, including, among others, additional information available and the net assets of FCG on the closing date of the Acquisition. As a result, the actual adjustments will differ from the pro forma adjustments, and the differences may be material.

NOTE 1. BASIS OF PRESENTATION

The unaudited pro forma condensed combined financial statements included herein have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") and Article 11 of Regulation S-X, and have been derived from the following historical financial statements:

- the audited financial statements of Chesapeake Utilities as of and for the year ended December 31, 2022;
- the unaudited interim financial statements of Chesapeake Utilities as of and for the nine months ended September 30, 2023;
- the audited financial statements of FCG as of and for the year ended December 31, 2022; and
- the unaudited interim financial statements of FCG as of and for the nine months ended September 30, 2023.

On September 26, 2023, the Company entered into a stock purchase agreement (the "Purchase Agreement") with Florida Power & Light Company ("FPL"), to acquire all of the outstanding common shares of FCG, a wholly-owned subsidiary of FPL, for approximately $923.4 million in cash, subject to customary purchase price adjustments (the "Acquisition"). The Purchase Agreement is subject to the satisfaction of customary closing conditions and certain regulatory approvals in various jurisdictions, which have been received as of the date hereof. Subject to the satisfaction or waiver of the remaining conditions and the other terms and conditions of the Purchase Agreement, the Acquisition is expected to close in the fourth quarter of 2023.

The Acquisition has been accounted for in the unaudited pro forma condensed combined financial statements as an acquisition of all of the outstanding common shares of FCG using the acquisition method of accounting for business combinations. The assets acquired and liabilities assumed have been measured at estimated fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Company expects to make a 338(h)(10) tax election under the Internal Revenue Code, which recharacterizes the stock purchase as an asset purchase for federal tax purposes. The Company expects to receive a tax basis in the acquired assets equal to the purchase price, and depreciate such basis over a 15-year period.

The accompanying unaudited pro forma condensed combined financial statements are not necessarily indicative of the results that would have been achieved if the transactions reflected herein had been completed on the dates indicated or the results which may be obtained in the future. While the underlying pro forma adjustments are intended to provide a reasonable basis for presenting the significant financial effects directly attributable to the Acquisition, they are preliminary and are based on currently available financial information and certain estimates and assumptions which we believe to be reasonable. The actual adjustments to our consolidated financial statements will be determined as of and subsequent to the closing date. Therefore, it is expected that the actual adjustments will differ from the pro forma adjustments, and the differences may be material.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed in preparing the unaudited pro forma condensed combined financial statements are those used by Chesapeake Utilities as set forth in the audited historical financial statements and notes of the Company included in its Annual Report on Form 10-K for the year ended December 31, 2022, as filed February 22, 2023, and in the unaudited historical interim financial statements and notes of the Company included in its Quarterly Report on Form 10-Q for the nine months ended September 30, 2023. The unaudited pro forma condensed combined financial statements

reflect any adjustments known at this time to conform FCG's historical financial information to the Company's significant accounting policies based on the Company's review of FCG's summary of significant accounting policies, as disclosed in the FCG historical financial statements attached as Exhibits 99.1 and 99.2 to the Company's Current Report on Form 8-K filed on November 9, 2023 and preliminary discussions with FCG's management. Upon completion of a more comprehensive comparison and assessment, additional differences may be identified.

NOTE 3. PURCHASE PRICE AND PRELIMINARY PURCHASE PRICE ALLOCATION

The expected purchase price for the Acquisition is as follows:

(in thousands, except offer price)	
Total shares of Chesapeake Utilities common stock issued	3,746.8
Offer price of Chesapeake Utilities common stock on November 3, 2023	$ 92.71
Equity portion of purchase price	$330,000
Issuance of long-term debt	550,000
Short-term borrowings under the existing Revolver	43,400
Total purchase price	$923,400

Preliminary Purchase Price Allocation

Under the acquisition method of accounting, the identifiable assets acquired and liabilities assumed of FCG are recorded at fair value on the acquisition date and added to those of the Company. The pro forma adjustments included herein are preliminary and based on estimates of the fair value and useful lives of the assets acquired and liabilities assumed and have been prepared to illustrate the estimated effects of the acquisition between the Company and FCG. Significant portions of FCG's operations are subject to the rate regulation by the Florida Public Service Commission. The carrying values of the assets and liabilities subject to regulatory accounting under U.S. GAAP, including property, plant and equipment, are considered to approximate the fair values.

The final determination of the preliminary purchase price allocation will be based on the net assets acquired as of the acquisition date and will depend on a number of factors, which cannot be predicted with any certainty at this time. The preliminary purchase price allocation may change based on the receipt of more detailed information. Accordingly, this allocation is preliminary and subject to further adjustment as additional information becomes available and as additional analyses and final valuations are completed. There can be no assurance that these additional analyses and final valuations will not result in significant changes to the estimates of fair value set forth below.

The following table provides a summary of the preliminary allocation of the purchase price to the identifiable tangible and intangible assets acquired and liabilities assumed of FCG, based on FCG's balance sheet at September 30, 2023, with all excess value over consideration paid recorded as goodwill.

(in thousands)	
Total current assets	$ 22,689
Property, plant and equipment	492,391
Goodwill	467,689
Regulatory assets	3,636
Other deferred charges and other assets, including intangible assets	19,787
Total assets	1,006,192
Total current liabilities	30,334
Regulatory liabilities	52,117
Deferred credits and other liabilities	341
Total liabilities	82,792
Total purchase price	$ 923,400

NOTE 4. PRO FORMA ADJUSTMENTS AND ASSUMPTIONS

The following pro forma adjustments were based on the historical financial information and preliminary estimates and assumptions, both as described above and which are subject to change as additional information is obtained:

a Reflects property, plant and equipment with a net book value of $9.5 million related to software that is excluded from the Acquisition and being retained by FPL.

b Reflects a reduction in FCG's cash balance to the minimum cash amount of $2.0 million as defined in the Purchase Agreement.

c Reflects $0.2 million of affiliated accounts receivable at September 30, 2023 which is an asset excluded from the Acquisition and being retained by FPL.

d Represents the excess of the Company's purchase price of approximately $923.4 million over the estimated fair values of assets acquired and liabilities assumed.

e Reflects approximately $0.9 million of estimated working capital adjustments that in accordance with the Purchase Agreement are treated as an adjustment to the Acquisition purchase price.

f Reflects $43.8 million in right of use assets and lease liabilities associated with long-term transportation service agreements between FCG and PPC, a wholly owned subsidiary of the Company. Upon closing of the Acquisition, these agreements will be classified as affiliate transactions and the associated assets and liabilities will be eliminated in the Company's consolidated balance sheet.

g Reflects $4.9 million of prepaid pension expenses that are excluded from the Acquisition.

h Reflects FCG's $0.2 million unamortized loss on reacquired debt which is excluded from the Acquisition.

i Reflects the financing needs of the Acquisition and the associated transaction-related costs including: $550.0 million of new long-term debt, the issuance of 3.7 million shares of Chesapeake Utilities Corporation common stock, and $77.0 million of new short-term borrowings under the Company's Revolver.

j Represents approximately $10.7 million of fees associated with the issuance of 3.7 million shares of the Company's common stock to finance the Acquisition. The number of common shares assumed to be issued is estimated based on the Company's closing price of $92.71 on November 3, 2023, net of a 5.0% underwriting discount.

k Reflects the elimination of FCG's stockholder's equity.

l Represents $18.8 million of non-recurring direct incremental transaction-related expenses expected to be incurred and would reduce deferred income tax liabilities by $4.8 million, including but not limited to, legal, consulting, audit and financing fees. These expenses are reflected as an adjustment to retained earnings of $18.8 million, less income tax effects of $4.8 million on the unaudited pro forma condensed combined balance sheet at September 30, 2023.

m Represents approximately $4.1M of debt issuance costs that have been reflected as a reduction to the Company's issuance of long-term debt to finance the Acquisition. The Company expects to issue $550.0 million in new long-term notes at an interest rate of 6.54 percent.

n Reflects $156.3 million of affiliated debt of FCG that will be settled prior to the closing of the Acquisition.

o Reflects $3.3 million of affiliated accounts payable that will be settled prior to the closing of the Acquisition.

p As defined in the Purchase Agreement, the Company and FCG have elected to apply the provision of Section 338(h)(10) of the IRS Code, which recharacterizes the stock purchase as an asset purchase for federal tax purposes. The Company will receive a tax basis in the acquired assets equal to the purchase price and can depreciate the assets at their purchased value and record goodwill that will be amortized for tax purposes over the next 15 years. As a result, FCG's deferred tax balances will not transfer to the Company.

q Represents $0.9 million of interest expense associated with long-term transportation service agreements between FCG and PPC, a wholly owned subsidiary of the Company. Upon closing of the Acquisition, these agreements will be classified as affiliate transactions and the associated revenues and expenses will be eliminated in the Company's consolidated results.

r Represents $1.0 million of depreciation expense associated with long-term transportation service agreements between FCG and PPC, a wholly owned subsidiary of the Company. Upon closing of the Acquisition, these agreements will be classified as affiliate transactions and the associated revenues and expenses will be eliminated in the Company's consolidated results.

s Reflects $0.4 million of pension expenses related to benefit plan obligations that are excluded from the Acquisition.

t Reflects $0.7 million of depreciation expense related to software that is excluded from the Acquisition and being retained by FPL.

u Reflects $5.5 million of interest expense related to outstanding debt of FCG that will be settled prior to the closing of the Acquisition.

v Reflects a $27.0 million net increase to interest expense resulting from the Company's issuance of long-term debt to finance the Acquisition. The Company expects to issue $550.0 million in new long-term notes at an interest rate of 6.54 percent.

w Reflects a $3.6 million increase in interest expense resulting from incremental borrowings under the Company's Revolver at an interest rate of 6.17 percent. Such incremental borrowings will be used to finance the Acquisition and pay certain transaction-related expenses in connection with the closing of the Acquisition and related financing activities.

x Reflects the income tax effects of pro forma adjustments based on the Company's blended federal and state effective tax rate for the nine months ended September 30, 2023.

y Reflects the issuance of 3.7 million shares of the Company's common stock to finance the Acquisition. The number of common shares assumed to be issued is estimated based on the $92.71 closing price of the Company's common stock on November 3, 2023, net of a 5.0 percent underwriting discount.

z Represents $0.3 million of interest expense associated with long-term transportation service agreements between FCG and PPC, a wholly owned subsidiary of the Company. Upon closing of the Acquisition, these agreements will be classified as affiliate transactions and the associated revenues and expenses will be eliminated in the Company's consolidated results.

aa Represents $0.5 million of depreciation expense associated with long-term transportation service agreements between FCG and PPC, a wholly owned subsidiary of the Company. Upon closing of the Acquisition, these agreements will be classified as affiliate transactions and the associated revenues and expenses will be eliminated in the Company's consolidated results.

ab Reflects $1.0 million of pension expenses related to benefit plan obligations that are excluded from the Acquisition.

ac Reflects $0.8 million of depreciation expense related to software that is excluded from the Acquisition and being retained by FPL.

ad Reflects $6.2 million of interest expense related to outstanding debt of FCG that will be settled prior to the closing of the Acquisition.

ae Reflects a $36.0 million net increase to interest expense resulting from the Company's issuance of long-term debt to finance the Acquisition. The Company expects to issue $550.0 million in new long-term notes at an interest rate of 6.54 percent.

af Reflects a $5.2 million increase in interest expense resulting from incremental borrowings under the Company's Revolver at an interest rate of 6.17 percent. Such incremental borrowings will be used to finance the Acquisition and pay certain transaction-related expenses in connection with the closing of the Acquisition and related financing activities.

ag Reflects the income tax effects of pro forma adjustments based on the Company's blended federal and state effective tax rate for the year ended December 31, 2022.

ah Reflects the issuance of 3.7 million shares of the Company's common stock to finance the Acquisition. The number of common shares assumed to be issued is estimated based on the closing price of the Company's common stock of $92.71 on November 3, 2023, net of a 5.0 percent underwriting discount.

To	Chesapeake Utilities Corporation Accounting Policy File
From:	Dana Delano – Manager of Financial Policy
Date	November 30, 2023
Subject:	Accounting for the Acquisition of Florida City Gas
Business Unit:	Florida City Gas

Purpose:
To document the acquisition completed by Chesapeake Utilities Corporation ("CUC", the "Company" or "Management") of Florida City Gas ("FCG"), which was acquired from Florida Power & Light Company, (hereinafter referred to as "FPL" or "Seller") and the related accounting considerations and treatment resulting from that transaction.

Background:

- On November 30, 2023, CUC completed the acquisition of FCG, the natural gas utility operations of FPL (located in various counties in Florida including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River) for a base purchase price of $923.4 million plus an adjustment for working capital as defined in the acquisition agreement. On that date, consideration was transferred, control of the acquiree was obtained, assets were acquired and liabilities were assumed (i.e., legal risk and reward was assumed by CUC for items included in the acquisition).
- FCG is a regulated natural gas distribution utility (regulated by the Florida PSC) serving residential, commercial and industrial customers in Florida. The purchase agreement and other applicable relevant documents are attached for reference in the appendix section of this memo.
- The transaction primarily includes – land, fixed assets (mains, meters, regulators, service lines, equipment, furniture, vehicles, software, etc.), regulatory assets and liabilities, customer deposits, prepaid expenses, inventory and working capital balances.
- The transaction excludes – certain software being retained by the Seller, all deferred tax balances previously recognized by the Seller (except deferred tax balances that are included as part of existing regulatory assets or liabilities), and amounts related to prepaid pension assets. Additionally, all pre-existing inter-company assets and liabilities between the Seller and FCG were excluded from the transaction.
- The base purchase price of $923.4 million was allocated to the assets and liabilities purchased in accordance with the summarized fair value amounts listed below:

Asset or Liability Description	*Acquisition Date Fair Value (in thousands)*
Property, plant and equipment	*$453,845*
Goodwill	*461,193*
Regulatory assets	*3,381*
Other current assets	*22,356*
Other deferred charges and other assets	*18,309*
Regulatory liabilities	*(14,137)*
Other current liabilities	*(20,954)*
Other deferred credits and other liabilities	*(548)*
Total	***$923,445***

Key Accounting and Reporting Considerations:

- Determination of whether the acquisition qualifies as a "business combination."
- Recognition and measurement of assets acquired and liabilities assumed as part of the business combination.
- Accounting for acquisition costs related to the transaction.
- Determining the significance of the transaction and any related reporting considerations

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

Accounting Guidance Considered:

- FASB's ASC 805 – Business Combinations and relative sub-topics under ASC 805.
- FASB's ASC 820 – Fair Value Measurements
- FASB's ASC 980 – Regulated Operations
- FASB's ASC 350 – Intangibles-Goodwill and Other and relative sub-topics under ASC 350.
- Regulation S-X, Rule 3-05 and Rule 1-02(w)

Analysis:

While assessing the overall transaction, Management has specifically considered the issues outlined below to ensure appropriate accounting treatment.

1) ***Issue # 1: Determination of whether the acquisition qualifies as a "business combination."***

Response – Management referred to the guidance provided by the FASB within ASC 805-10-55-2 through 55-9 to support the acquisition being classified as a business combination by considering the following facts:

a) Identified assets and liabilities of FCG were acquired in accordance with the purchase agreement, and the ongoing operations were assumed by CUC (refer to the summarized purchase price allocation under the "Background" section above).

b) Cash consideration was transferred by CUC to FPL in accordance with the defined purchase price.

c) The retained employees of FCG have the necessary and required skills to conduct/operate the existing business and facilitate future growth. Given the combined extensive experience and expertise, the human capital is core to converting the inputs into meaningful and value-added outputs resulting in a return for CUC. In addition, CUC believes the integration of the acquired business will further augment its existing outputs in its Florida regulated operations.

d) Management believes the "inputs" and the "processes" mentioned in c) above act as an "integrated set of activities and assets" to generate "outputs."

e) Additionally, CUC considered the "substantially all" threshold in ASC 805-10-55-5A in determining that the purchase from the Seller represented the purchase of a business under US GAAP. Although the purchase of the physical assets of FCG (utility plant, vehicles, etc.) could all be considered to be "a group of similar identifiable assets," those do not represent substantially all of the fair value of the assets acquired. For example, the acquisition also included regulatory assets and liabilities, which are based upon the operations of the plant assets under an approved rate base. Furthermore, significant additional value existed through the acquisition of customers and gaining a new regulated utility to expand the Company's pre-existing presence in Florida. Additionally, the amount of goodwill that was recognized in connection with this acquisition helps to further evidence its anticipated strategic future benefits. For a more detailed discussion of the expected growth opportunities the transaction presents, refer to the "Goodwill" discussion of the recognition section of this memo below.

2) ***Issue # 2: Recognition and measurement of assets acquired and liabilities assumed as part of the business combination.***

Response – Management referred to the guidance provided in ASC 805 and ASC 980 to assess issue # 2, specifically:

a) ***Measurement period*** – the guidance provided by the FASB in ASC 805-25-13 through 25-14 indicates the measurement period related to the acquisition should be within twelve months

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

from the completion of the transaction and will be effective for CUC beginning on December 1, 2023 through November 30, 2024. The "preliminary" designation utilized at the acquisition date and at the period ending December 31, 2023, is primarily due to the uncertainty surrounding the provisions connected to the finalization of certain working capital balances.

b) ***Initial measurement, recognition and valuation of assets and liabilities assumed*** – CUC referenced the guidance in ASC 805-20-30 to determine the initial measurement associated with the acquired assets. The guidance indicates that values should be based on the fair-value at the acquisition date and should consider multiple elements involved as part of the transaction. CUC also examined the industry specific guidance in ASC 980 for Regulated Power and Utility entities when ensuring the appropriate accounting treatment for the assets acquired and the liabilities assumed:

i. ***PP&E $453.8M*** – In accordance with the guidance in ASC 805-20-30-1, CUC has measured the identifiable assets acquired from the Seller at their acquisition-date fair values. Since FCG is a regulated utility, the acquired utility plant assets are those assets which are included in rate base that FCG is permitted to earn a return on, and that are included in the rates charged to customers. The environment in which utilities operate as well as the impact of regulation has a significant effect on fair value. The guidance in ASC 820 requires the use of a market-participant approach in measuring fair value but the guidance does acknowledge that the use of an asset may be limited to restrictions which are placed upon it. Regulation is viewed as a restriction of the asset and its impact is deemed a key input in determining fair value. The guidance in ASC 820-10-35-10 provides factors an entity should consider in measuring the fair value of a non-financial asset including, whether it's highest and best use is physically possible, legally permissible and financially feasible. Based on publications put forth by Big Four accounting firms, utility plant asset valuation is based on the understanding that use of utility plant outside of regulation is neither legally permissible nor financially possible because of the public interest in the assets. CUC incorporated the impact of regulation in their valuation of the utility plant acquired coupled with the Company's expected rate of return. The assets were valued based upon an examination that took into consideration the nature and use of the assets coupled with the Company's earned return in accordance with approved rates that were in place at the time of the acquisition. CUC concluded that the carryover basis of the PP&E assets of FCG obtained from FPL accurately represented fair value at the acquisition date.

For depreciation purposes the useful lives of the acquired assets have been established on a basis consistent with those allowed for in accordance with FERC/PSC guidance.

ii. ***Goodwill $461.2M*** – CUC considered the guidance provided under ASC 805-30-30-1 through 30-7 when evaluating goodwill and assessed it to be approximately $465.6M upon the closing of the acquisition. Per the guidance in ASC 980-350-35-1, goodwill recognized in connection with the acquisition of a regulated utility is typically not eligible to be included in rate base. However, as appropriate, the Company will consider opportunities for recovery of the goodwill as integrates FCG into its existing Florida operations and considers the criteria for such recovery as defined by the Florida PSC. The goodwill recognized as a component of the acquisition of FCG reflects an amount that CUC paid in excess of the value of the return it can receive related to the acquired utility plant and other net assets included as part of the acquisition. The excess value is deemed to be derived from the strategic future benefits the acquisition presents to CUC. Specifically, the acquisition is expected to enable CUC to:

- Provide an enhanced platform for growth as well as scale and financial benefits
    1) Acquisition provides expansion opportunities into unserved and underserved communities throughout a widened service territory

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

2) Increased scale, increasing regulated utility customers and plant by 50% and 30%, respectively
3) Expected to support and extend CUC's long-term EPS guidance and provides approximately $500 million in investment opportunities over five years.

- Significantly Expands CUC's presence in Florida
  1) With the addition of FCG, CUC's natural gas presence in Florida includes an approved rate base of $941 million serving more than 211 thousand customers
  2) With the inclusion of FCG, CUC's consolidated operations in Florida are expected to contribute approximately 60% of operating income, utility net plant, and future capital investments

With respect to the subsequent measurement of goodwill we referenced the guidance in ASC 350-20-35-1 which states:

> *Goodwill shall not be amortized. Instead, goodwill shall be tested for impairment at a level of reporting referred to as a reporting unit. (Paragraphs 350-20-35-33 through 35-46 provide guidance on determining reporting units.)*

The goodwill resulting from the FCG acquisition will be tested as part of its appropriate reporting unit on an annual basis or more frequently if events and circumstances arise that would more likely than not reduce the fair value of the reporting unit below its carrying amount in adherence to the guidance in ASC 350-20.

iii. ***Regulatory Assets $3.4M*** – When determining the value associated with the regulatory assets acquired, the Company referenced the guidance outlined in ASC 820 relating to fair value. Per the guidance, an income approach is generally considered the most appropriate when determining fair value of regulatory assets and liabilities. This approach considers future discounted cash flows; however, it is usually assumed that there is minimal or no uncertainty about the timing or amount expected to be paid or received in connection with regulatory assets and liabilities. The Company determined that the amount and timing of the cash flows associated with the regulatory assets acquired contained little uncertainty, and that recovery was relatively assured as regulation attaches to these assets in substance (i.e., these assets would not exist absent the regulated environment that the utility operates). As such, the highest and best use considered for these assets was (consistent with the related PP&E) within the regulated environment, and the Company recognized the regulatory assets at their historical carryover basis as of the acquisition date. The significant components of the regulatory asset balance at the acquisition date primarily included amounts for recovery of conversion and piping costs, under recovered fuel costs, and storm recovery costs.

The regulatory assets and liabilities acquired in the acquisition will be accounted for in a manner consistent with the guidance provided in ASC 980. CUC will continue to evaluate the regulatory assets and liabilities relative to actions of the Florida PSC. Recoverability of regulatory assets will be evaluated at each reporting period and consider the impacts of any events or changes during the period.

iv. ***Other Current Assets $22.4M*** **–** When determining the value associated with other current assets acquired, the Company referenced the guidance outlined in ASC 820 relating to fair value. Other current assets acquired were mainly comprised of accounts receivable and inventory which were recognized at net realizable value which approximates fair value as of the acquisition date. The specific categories of these items, their respective balances at the acquisition date and a brief description of the valuation methodology are outlined below:

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

- Cash - $2.3 million – recognized at fair value based on amount transferred given the immediate liquidity and observable nature of current value
- Accounts receivable - $14.4 million – recognized at net realizable value which approximates fair value given expected short-term nature of realization
- Inventory - $1.6M – recognized at net realizable value which was assumed to approximate fair value given the short-term nature of the asset and its inclusion as a recoverable item as part of rate base
- Current regulatory assets - $2.9 million - recovery of these amounts which are due in the next twelve months is reasonably assured and therefore carryover basis approximates fair value
- Prepaid expenses - $0.7million – recognized at their carryover basis with consideration given to remaining term of the underlying arrangements
- Other current assets - $0.4million – consists entirely of the current portion of deferred expenses associated with FCG's most recent rate case. Carryover basis was assumed to approximate fair value given the short-term nature

v. ***Other Deferred Charges and Other Assets $18.3M*** – CUC considered guidance provided under ASC 820 relating to fair value when evaluating the other deferred charges and assets acquired. The majority of these assets consist of prepaid or deferred software costs which were recognized at net realizable value which approximates fair value as of the acquisition date, as well as a $4.5 million deferred tax asset (related to FCG's regulated liabilities discussed below). Additionally, CUC considered the existence of other common separately identifiable intangible assets such as customer lists and non-compete arrangements. Since, FCG is a regulated utility it is subject to the regulatory compact by which it agrees to rate regulation and accepts a "duty to serve" which includes agreement to serve all who seek service in its territories. As a result, a value would not be assigned to the customers acquired with the transaction due to the limitations of the regulated nature of the services being provided. Furthermore, as a result of regulation, there are restrictions regarding competition and a non-compete arrangement is not considered when a regulated utility is acquired by another regulated utility. CUC observed one prepaid balance (Starnik) included in the acquisition from the Seller that covered a 17 year period subsequent to the acquisition date. The annual expense related to this contract is included as a recoverable cost within rates, but the Company expects to utilize this contract only through July 2025. As a result, the fair value of the Starnik prepaid balance was determined using the monthly/annual expense under the contract based on the historical amortization schedule. The early termination of the Starnik contract which is currently being recovered in rates will be addressed in FCG's next rate case and adjusted accordingly.

vi. ***Regulatory Liabilities ($14.1M)*** – The regulatory liabilities acquired in the acquisition of FCG consisted primarily of tax related balances to be returned to ratepayers primarily as a result of pre-acquisition changes in tax legislation and excess plant removal costs. The Company determined that the amount and timing of the cash flows associated with the regulatory liabilities contained little uncertainty, and that payment was relatively assured as regulation attaches to these assets in substance (i.e., these liabilities would not exist absent the regulated environment that the utility operates). As such, the highest and best use considered for these liabilities was within the regulated environment, and the Company recognized the regulatory liabilities at their historical carryover basis as of the acquisition date.

vii. ***Other Current Liabilities ($21.0M)*** – When determining the value associated with other current liabilities acquired, the Company referenced the guidance outlined in ASC 820 relating to fair value. Other current liabilities acquired is mainly comprised of accounts payable, customer deposits, income taxes payable, and other accrued taxes

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

which were valued at their net realizable value which approximates fair value as of the acquisition date. The specific categories of these items, their respective balances at the acquisition date and a brief description of the valuation methodology are outlined below:

- Accounts payable - $8.5 million – recognized at net realizable value which approximates fair value due to the short-term nature of the liability
- Customer deposits - $5.3 million – represents cash amounts being held from customers, which was assumed to approximate fair value given that it is based in cash
- Regulatory liabilities - $2.9 million – represents amounts due to be returned to ratepayers over the next twelve months. Amount to be returned is reasonably assured and these were recognized at their carry over basis
- Other accrued expenses - $4.1 million – primarily consists of accrued construction costs which were recognized at the invoiced amount which approximates fair value given the short-term nature of the related expenditure

viii. ***Other Deferred Credits and Other Liabilities ($548K)*** – CUC considered guidance provided under ASC 820 relating to fair value when evaluating the other deferred credits and liabilities acquired. These liabilities primarily consist of injury and storm damage reserves. Given the immaterial amounts associated with these balances, CUC will not record a present value adjustment or factor in uncertainty risk. The carryover basis of these liabilities was utilized as a fair representation of their fair values as of the acquisition date.

3) Issue # 3 – Accounting for acquisition costs related to the transaction

Response – ASC 805 requires that all acquisition costs incurred in connection with a business combination (e.g., consulting, legal, etc.), other than costs that are eligible for capitalization under the applicable guidance for debt and equity issuances, must be expensed as incurred by the acquiring company. The components of acquisition related costs were as follows, including a description of the accounting treatment applied:

i. ***Overnight equity issuance costs ($13.1 million)*** – reflects direct costs attributable to the offering largely related to bank/underwriter fees, legal costs, and accounting services. These costs were deferred and charged against the gross proceeds of the offering in accordance with ASC 340-10-S99-1.

ii. ***Bridge Facility issuance costs ($4.6 million) –*** the Bridge facility was established late in the third quarter of 2023, and the terms of the facility indicated that, upon certain defined events (e.g., specific borrowing transactions, equity issuances, and/or the close of the acquisition without use of the facility), expiration of the facility would occur. The Company determined that such conditions had been satisfied as of the transaction close (i.e., Bridge facility expired), and as a result the deferred costs associated with the facility were expensed in the fourth quarter of 2023.

iii. ***Long-term Notes issuance costs ($2.9 million)*** –includes fees and commissions paid in connection with the issuance of debt, including investment banks, legal costs, accounting services, and regulators. In accordance with ASC 470 and 835, these costs will be amortized over the same period as the related debt discount and will be presented on the balance sheet as a direct deduction from the carrying value of the associated debt.

iv. ***Transaction advisory costs ($7.3 million)*** – consisting primarily of fees paid to Barclays for advisory services throughout the transaction, these items were expensed as incurred in accordance with ASC 805.

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

v. ***Other transaction expenses ($2.5 million)*** – consisting of legal and other costs, these items were expensed as incurred in accordance with ASC 805.

4) ***Issue #4 – Determining the significance of the transaction and any related reporting considerations***

Response – In connection with the September 2023 announcement of the planned acquisition of FCG, the Company analyzed the transaction under Regulation S-X Rules 3-05 and 1-02(w) to determine whether any of the significance thresholds would be met. In performing the defined tests (i.e., assets, investment, and income tests), the Company noted that more than one of the quantitative tests resulted in a significance threshold of greater than 40 percent (investment and assets tests) driven by the estimated purchase price of more than $900 million. As a result, the following financial reporting deliverables were required in connection with the transaction (and related debt and equity financings):

i. Current Report on Form 8-K: a current report was filed in connection with the announced acquisition (filed September 27, 2023) and the transaction close (filed December 1, 2023). These filings contained exhibits presenting other required information (as applicable) including the purchase agreement, press releases, and investor materials. ***Note: the Form 8-K to announce the acquisition close will be amended in early 2024 (within the allowable 75-day window) to provide the historical financial statements of FCG and a revised view of the required pro forma financial information (see ii. And iii. below). Preliminary pro forma financial information was included with the Company's equity offering, which took place before the close of the transaction (but also required historical and pro forma financial information due to the significance of the transaction);***

ii. FCG historical financial statements: audited statements for two most recent fiscal years (2022 and 2021); unaudited statements for latest current and prior year interim period available (YTD September 30, 2023 and 2022);

iii. Pro forma financial information: prepared in accordance with Regulation S-X (Article 11) for the most recently completed fiscal year (2022) and the latest interim period of the current year (YTD September 30, 2023);

iv. GAAP disclosure: as required under ASC 805, the Company's Annual Report on Form 10-K for the year ended December 31, 2023 will include the following:

1. Condensed pro forma financial information: required for both revenues and earnings as if the acquisition had occurred at the beginning of the comparable prior annual reporting period. ***Note: this information will leverage and maintain consistency with the Article 11 pro forma information described above.***

2. Other required disclosures: the preliminary purchase price allocation, description of the acquisition, related financings, etc., will be provided as applicable.

Acquisition control considerations:

The following information highlights some of the key control activities that were carried out during the diligence process and through the acquisition close date to ensure the Company had an adequate understanding of: (1) the assets and liabilities in scope as part of the transaction; (2) the historical results and significant drivers of those results; (3) the Seller's governance, processes, and control environment as it relates to the acquiree; and (4) significant and/or unusual items in scope with the acquisition. This does not reflect all diligence efforts that took place in connection with the acquisition, but rather focuses on the activities that were most impactful with regard to ensuring existence and completeness of the

500 Energy Lane
Dover, DE 19901
p 302.213.7364
www.chpk.com

opening balance sheet, valuation considerations, and subsequent accounting and measurement concerns:

- Reviewed and analyzed FCG's audited annual reports (FERC) from 2014-2022. The most recent four years were utilized to analyze trends and project balances at the close date.
- Reviewed the actual Earnings Surveillance Reports from 2020-2022, and the projected 2023 surveillance report. Details from the 2023 surveillance report were provided in due diligence and utilized to establish the Dec 2023 projected opening balance sheet values.
- Utilized and reviewed the 2022 rate case data and related documents:
  - All financials filed in the rate case including the filed 2023 projections
  - All testimony related to rate base and operating expenses
  - The staff's summary of the case and recommendations to the PSC
  - The final Order
- During the due diligence process, the Company:
  - Established designated leads to cover and provide accountability that ensured that key issues were identified and appropriately vetted:

BIS	Vikrant Gadgil
HR	William Hughston
Regulatory	Mike Cassel
Internal Audit	Joe Rusincovitch

www.chpk.com

- Utilized third-party assistance to cover off on integral documents related to the acquisition (various legal assistance), critical tax matters (E&Y), and other advisory services.
- Coordinated and participated in certain cutover procedures to ensure a clean cutoff at the acquisition closing date

Segment Reporting and Goodwill

- As of and subsequent to the transaction's close, the financial position and results of operations of FCG will be included within the Company's regulated energy segment.
    - The business unit will generate revenues and incur costs, distinct financial information will be available for FCG and the Company's CODM will analyze the results of the business unit alongside our legacy regulated businesses
    - The regulatory environment in which FCG operates in will also be considered. As a regulated business, FCG is required to conduct business in a more prescriptive way than our unregulated businesses. While differences exist in regulations between the FERC and the PSC's, the nature of regulation is primarily related to rates charged to customers and the services that are allowed to be provided.
- Given the significance of the FCG acquisition, coupled with the existing regulated presence in Florida, the Company will continue to consider how the acquisition will be managed in terms of the reporting unit structure (throughout the integration process). Once that determination has been finalized, the related goodwill will be tested in accordance with ASC 350-20-35-1 as noted above.

Conclusion:
As stated in "Analysis" section above coupled with the referenced documentation in the "Appendices" section, Management concludes that the acquisition is deemed to be a "Business Combination" and has been accounted for in accordance with the relevant guidance noted above.

2025 Team Incentive Plan
Chesapeake Utilities Corporation and all Business Units/Verticals

General Overview

Chesapeake Utilities Corporation (CUC or the Company) and all subsidiary Business Units (BU) provide an annual Team Incentive Plan (TIP) for non-officer, eligible employees. Under the TIP, eligible employees have the opportunity to earn an annual cash bonus/incentive. This incentive is not based on Company financial goals, but rather shared goals in the following categories: Safety, Team, Improve, Service and Grow. These operational and safety related Team Goals promote an enterprise wide team approach among all CUC businesses. Of course, the Company funding must be there for the TIP to be paid out.

The TIP provides for a potential annual payout, no later than the end of March of the following calendar year for eligible employees that have contributed to the success of the Company.

The TIP emphasizes actions that individual employees can take that help the entire team reach Companywide goals. The primary objectives of the TIP are as follows:

- Reward each employee's individual contribution to the overall Team performance results consistent with their eligibility.
- Create alignment and link performance metrics related to CUC's and BUs'/Vertical strategy, operational objectives and safety targets to individual compensation;
- Create a line of sight for each employee to clearly understand how their performance contributes to the overall success of the Company;
- Recognize and reward performance achievement of departmental / team goals and metrics.

TIP Eligibility

All non-union, non-officer, active employees may be eligible for the TIP excluding those that are, seasonal employees, summer help, and interns. Commission-based employees are eligible for a TIP on their base salary. Employees covered by a Collective Bargaining Agreement will follow the provisions negotiated.

Employees accrue eligibility for the TIP bonus throughout the calendar year by actively working for the Company. Employees are eligible for the TIP bonus only for the amount of time during the applicable calendar year during which they are **actively** employed and must be employed by the Company on the day of the TIP is paid out.

Employees hired between January 1st and September 30th will begin to accrue eligibility for the TIP bonus on their first day of employment. New employees hired on or after October 1st of each year are not eligible for the TIP payout for that year.

Individual Performance

An employee's performance review and any progressive discipline may impact the TIP payout.

Employees who receive a PR score below 2.75 AND are on an active step of discipline at the time the TIP bonus is paid out MAY NOT receive a payout.

.

Retirees
Retirees, those age 55 with 5 or more years of service as of December 31st, are entitled to a prorata bonus for the time worked during the calendar year. For example, an employee who works six months in the applicable calendar year and then retires is eligible to receive 50% of their potential TIP bonus for those months they were actively employed, if they meet the applicable retirement criteria.

Extended Leave of Absence
If an employee does not work for some portion of the applicable calendar year due to any extended leave of absence during which they do not receive pay from the Company including, but not limited to, disability leave or workers compensation leave, their TIP payment will be pro-rated, based on the amount of time worked during the calendar year. An employee's use of accrued vacation and/or sick time will not be considered as an extended leave for purposes of TIP eligibility. If an employee is eligible for a TIP payment and is on an extended, unpaid leave of absence on the date the TIP bonus is paid out, they will receive the TIP bonus payment on the regular payout date.

Incentive Methodology
The TIP calculation excludes any bonus payments, overtime calculations or other compensation that was in addition to regular earnings or compensation. The TIP target percentage is applied to an employee's annual base salary that was in effect on December 31st of the applicable calendar year.

Performance Categories:
The TIP has the following distinct performance categories:

1. Safety	2. Team	3. Service	4. Improve	5. Grow

The following outlines the measurable categories and payout percentage levels for each category of the TIP.

1. **Safety**
   Companywide implementation of National Incident Management Systems (NIMS) training:
   - **ICS 100 (2-hour course):** Due by July 31
   - **ICS 700 (3.5-hour course):** Due by October 31
   - **Goal:** 80% participation from eligible full-time employees

   NIMS training hours will also count toward the TIP Grow Goal.

2. **Team**
   Chesapeake Speaks Gallup Employee Engagement Survey: One survey in March, goal of 90% participation.

   Gratitude Recognition Program: Goal of 20,000 employee recognitions in 2025.

3. **Service**
   Goal: Achieve at least 75% participation from eligible full-time employees.

   Employee Engagement:
   - Participate in at least one event per calendar year.
   - Additional participation is celebrated through recognition programs.

For additional information, review Chesapeake's Community Affairs Volunteer Program document.

4. **Improve**
   Goal: Further reduce phishing failure rate to less than 1.5%.

   Continued vigilance and reporting are essential to cybersecurity.

5. **Grow**
   Goal: 25,000 developmental hours completed Companywide in The Grove Learning Management System (LMS).

   Training hours must be related to skill, leadership or personal development (while still required, it excludes monthly safety meetings).

   Examples include all training courses listed in The Grove LMS, **Leadership Webinars, Engagement events, Employee Resource Groups virtual events, any Chesapeake Academy courses.**

   NIMS training under the Safety category will count toward this goal.

TIP Payout Opportunity

The table below outlines the TIP annual incentive pay opportunity targets. This table applies to CUC and all business units.

Goal	Measure:	Threshold 50%	Target 100%	Maximum 150%
SAFETY	NIMS Training Completion	**70%**	**80%**	**95%**
TEAM	% of Participation in Chesapeake Survey	**85%**	**90%**	**95%**
	# of Recognitions Delivered	**15,000**	**20,000**	**25,000**
SERVICE	% of Participation from all eligible full-time employees in the Community Volunteer Program	**50%**	**75%**	**90%**
IMPROVE	% Phishing Failure Rate	**< 5%**	**< 4%**	**< 1.5%**
GROW	# of Hours of Developmental Training in the Grove (excludes monthly safety meetings)	**20,000**	**25,000**	**30,000**

Exceptions, Modifications, TIP Suspension or Termination

Any exceptions to the above eligibility requirements must be approved by the Chief Human Resources Officer (CHRO) and/or CEO of Chesapeake Utilities.

In addition to our performance on the TIP goals, the funding of the bonus program is predicated on the overall financial performance of the Company. Our incentive plan is funded by achieving our Company's annual financial targets, which are approved by our Board of Directors each year.

The Company reserves the right to offer performance incentive plans other than the TIP, in an effort to recruit and reward top talent. All such incentive plans must have the CHRO's approval. Management reserves the right to reduce, suspend or eliminate the TIP plan for any reason.

For more information about the details of this plan, please contact a member of Human Resources.

BY E-PORTAL

Mr. Adam Teitzman, Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Re: Florida City Gas Tariff Per Rule 9.044(3), F.A.C.

Dear Mr. Teitzman:

Pursuant to Rule 25-9.044(3), Florida Administrative Code, Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas") provides the enclosed revised tariff to reflect that on December 1, 2023, Florida City Gas was acquired by and became a wholly-owned, direct subsidiary of Chesapeake Utilities Corporation ("Chesapeake").

Florida City Gas adopts, ratifies, and makes its own all rates, rules, classifications, and regulations on file with the Commission and effective at the time of the acquisition by Chesapeake. Florida City Gas submits the revised tariff and is requesting administrative approval of the revised tariff solely for purposes of reflecting the change in ownership. No changes to the rates, terms, or conditions of the Florida City Gas tariff that was previously on file with the Commission have been made. Updated tariff sheets reflecting changes for the recent clause proceedings will be submitted prior to the end of the year.

Enclosed is an index of the limited administrative changes necessary to reflect the change in ownership in the revised tariff (Attachment 1). Also enclosed are both legislative and proposed versions of the revised Florida City Gas tariff, Attachments 2 and 3 respectively.

Florida City Gas does not request that a formal docket be opened or that any action be taken by the Commission. However, to the extent the Commission deems it necessary to acknowledge the revised tariff, Florida City Gas respectfully requests that the Commission do so.

Thank you for your assistance in connection with this matter. Should you have any questions, please do not hesitate to contact the undersigned.

As always, thank you for your assistance in connection with this filing. If you have any questions whatsoever, please do not hesitate to let me know.

Sincerely,

Beth Keating

TECHNICAL TERMS AND ABBREVIATIONS

Alternate Fuel

A gas which provides an equivalent amount of energy computed on a "BTU" basis. It is not limited to any specified source of energy. Alternate fuel may include natural gas and, in the Company's opinion, any viable economic alternatives.

British Thermal Unit (BTU)

The quantity of heat required to raise the temperature of one pound of water one degree Fahrenheit at or near 39.2 degrees Fahrenheit.

Biogas

Combustible residues or gases from forest products manufacturing, waste, byproducts, or products from agricultural and orchard crops, waste or coproducts from livestock and poultry operations, waste or byproducts from food processing, urban wood waste, municipal solid waste, municipal liquid waste treatment operations, and landfill gas.

Commission or PSC

Unless otherwise indicated means the Florida Public Service Commission.

Company

Florida City Gas ("City Gas").

Customer

A person or entity who takes service from the Company under a Rate Schedule.

Essential Use

Consistent with "Priority 1 Use" as defined in Florida Gas Transmission's tariff.

Gas

Gas is any gas or mixture of gases suitable for domestic or industrial fuel and transmitted or distributed to the user through a piping system, including natural gas, manufactured gas, mixed gas, hydrogen gas, renewable natural gas, and liquefied petroleum gas distributed as a vapor with the admixture of air.

Manufactured Gas

Any gas artificially produced by any generating or processing equipment, exclusive of naturally occurring hydrocarbon gas.

Margin Revenue

Revenue derived from applying undiscounted rates from billing Customer Charges, Demand Charges and Distribution Charges to a Customer.

Mixed Gas

Any mixture of two or more gases of materially different physical character or chemical composition.

Natural Gas

Naturally occurring hydrocarbon gas mixture consisting primarily of methane, but commonly including varying amounts of other hydrocarbons occurring naturally underground and of a quality consistent with the specifications defined in Florida Gas Transmission's tariff.

Florida City Gas

(Continue)

Non-Residential Customers
Those Customers who are not Residential.

Renewable Natural Gas (RNG)
Biogas that has been conditioned and upgraded to a quality and standard such that it meets, in the sole view of the Company, the Company's gas quality and heat standards in effect and applicable at the time.

Residential Customers
All those Customers using gas service for domestic purposes, for use in single family dwellings, in separately metered housing units, or for use in commonly owned areas of condominium associations, cooperative apartments, and homeowner associations for non commercial uses.

Sales Service or Sales Customer
Customers receiving gas supply from the Company.

Therm
A unit of heating energy equivalent to one hundred thousand (100,000) British thermal units.

Transportation Service or Transportation Customer
Customers receiving gas supply from a Third Party Supplier.

1
Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11 Original Sheet No. 8

RULES AND REGULATIONS

1. GENERAL

These Rules and Regulations of the Company shall supplement the Rules and Regulations of the Florida Public Service Commission governing service by gas public utilities. Where contradiction is developed as between interpretation of the Company's Rules and Regulations and the Commission's Rules and Regulations, the latter shall be deemed to override the former.

The Company shall furnish service to applicants under the filed rates and in accordance with these Rules and Regulations.

2. DEPOSITS TO GUARANTEE PAYMENT OF BILLS

For an existing account or premise, the Company requires an initial deposit of two (2) times the actual average monthly bill calculated by adding the monthly charges from the 12-month period immediately before the date any change in the deposit is sought, dividing this total by 12, and multiplying the result by 2. If the account or premise has less than 12 months of actual charges, the deposit shall be calculated by adding the available monthly charges, dividing this total by the number of months available, and multiplying the result by 2. For a new service or premise request, the total deposit may not exceed two (2) months of projected charges, calculated by adding the 12months of projected charges, dividing this total by 12 and multiplying the result by 2. Once the new Customer has had continuous service for a 12-month period, the amount of the deposit shall be recalculated using actual data. Any difference between the projected and actual amounts must beresolved by the Customer paying any additional amount that may be billed by the utility or the utility returning any overcharge. Credit in lieu of a cash deposit may be deemed satisfactorily establishedif the applicant for service furnishes a satisfactory guarantor, an irrevocable letter of credit from abank, or a satisfactory surety bond to secure payment of bills.

Interest will be paid by the Company on Customer deposits at the rate of 2 percent per annum. The Company will pay interest on Non-Residential Customer deposits at the rate of 3 percent per annum in cases where the Customer has established a satisfactory payment record and has had continuous service for a period of 23 months as consistent with PSC Rule 25- 7.083(6). The Company has the option of refunding deposits after 23 months. The amount of such interest due any Customer shall be credited to the Customer's bill at least annually or upon termination of service, provided the account has been active for at least six months and the deposit has been held for at least that period.

The Company may charge, upon written notice of not less than 30 days, such notice being separate and apart from any bill for service, a new deposit where previously waived or returned, or an additional deposit, in order to secure payment of current bills.

When service is terminated, any balance of the amount deposited and interest accrued will be returned to the Customer; or the deposit may be returned at any time previous thereto at the option of the Company.

1
Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11 Original Sheet No. 9

RULES AND REGULATIONS (Continued)

2. DEPOSITS TO GUARANTEE PAYMENT OF BILLS (CONTINUED)

Residential deposits will be returned after the Customer has had continuous service for a period of 23 months and has not in the preceding 12 months made more than one late payment of a bill, paid with a check refused by a bank, been disconnected for non-payment, tampered with the gas meter, or used service in a fraudulent or unauthorized manner. In each case where a refund is made the amount of the deposit and interest will be applied against any amount owed by the Customer and the balance refunded. At the option of the Customer, the deposit will be refunded in full after payment of the final bill.

All Commission Rules and Regulations pertaining to Customer deposits (PSC Rule 25-7.083) are incorporated herein by reference and those Commission Rules govern in the event of conflict with Company Rules herein.

3. METERING

The Customer shall provide a suitable location satisfactory to the Company for its metering equipment.

This location shall be convenient and accessible at all times to the Company for its meter readers and other agents. This location shall conform with all local, State and Federal requirements.

The representatives of the Company shall be given access to the premises of the Customer at all reasonable times for obtaining meter readings, for shutting off the flow of gas for reasons herein prescribed, for inspection of piping and appliances, and for inspecting, removing, repairing, or protecting from abuse or fraud any of the property of the Company installed on the premises, and particularly for emergency purposes.

The Company in its sole discretion may install, at its expense, an Automatic Meter Reading ("AMR") device to monitor a Customer's gas consumption. However, when gas is to be delivered at a pressure in excess of the Company's standard gauge pressure or such equipment is required by the Rate Schedule under which the Customer will receive service, the Company shall determine any necessary equipment inclusive of compensating and AMR devices, including devices capable of providing daily readings, to be installed at the Customer's expense. If an AMR device is requested by the Customer, the AMR device and any necessary appurtenances shall be installed at the Customer's expense if the installation is deemed feasible by the Company. When such devices require attachment to telephone and/or electric utilities, the Customer shall provide and pay for suitable connections unless the Company elects to make such connections.

Customer shall not tamper with or remove meters or other equipment or permit access thereto, except by authorized employees or agents of Company.

All equipment furnished by the Company shall remain its property and may be replaced whenever deemed necessary by the Company or as required by the Commission and may be removed by the Company at any time after discontinuance of service. Payments made by the Customer shall not give the Customer ownership of the equipment.

1
Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11 Original Sheet No. 10

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

The Customer shall be liable to the Company for damage to or loss of meters, connections, or other Company property on their premises due to negligence or carelessness on the part of the Customer, members of their household, their agents, or employees

The gas supplied to any Customer shall be measured at the pressure existing at the meter. Gas supplied at other than the standard delivery pressure of the Company will be corrected to effect meter readings at the standard delivery pressure.

In the event of stoppage or failure of a meter to register the utility shall bill the Customer on an estimate of the gas used for a period not to exceed 12 months based on the Customer's past consumption.

In the case of unauthorized or fraudulent use, or meter tampering the utility shall bill the Customer on an estimate of the gas used, based on the Customer's past consumption or gas equipment at premised whichever is greater.

The Company will select the type and make of metering equipment and may, from time to time, change or alter such equipment. It shall be the obligation of the Company to supply meters that will accurately and adequately furnish records for billing purposes. Bills will be based upon registration of Company meters only.

With the exception of the following, the gas supplied to any Customer, under any of the Company's Rate Schedules, shall not be re-metered or sub-metered for sale either directly or indirectly. Under no conditions will service be rendered under any agreement whereby the Customer or their tenants resell the gas either within or without their premises, nor under conditionsby which gas is transmitted outside the premises under contract.

A. Residential Meter Reading

All Residential Customers shall be included in one of the Company's regularly scheduled meter reading cycles with each cycle being read every month through automated meter reading (AMR) devices. The AMR technology allows the Company to read meters remotely; however, if a read is not obtained the Customer's meter readings will be noted as estimated until the Company obtains an actual meter reading.

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

B. Meter Reading Estimates

Where the Company does not, for any reason, read the meter, the Company may estimate the amount of gas supplied based upon past usage, seasonal conditions, and other available information and submit a bill determined on that basis. Such a bill shall be marked as an estimated bill. Adjustment of Customer's estimated usage to actual usage shall be made when an actual reading is next obtained.

C. PSC Rule 25-7.071 Measuring Customer Service

PSC Rule 25-7.071 is included herein:

(1) All gas sold to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the utility, except where it is impractical to meter loads, such as street lighting, temporary or special installations, in which case the consumption may be calculated, or billed on a rate or as provided in the utility's filed tariff.

(2)(a) Individual gas metering by the utility shall be required for each separate occupancy unit of new commercial establishments, Residential buildings, condominiums, cooperatives, marinas, and trailer, mobile home and recreational vehicle parks for which construction is commenced after January 1, 1987. This requirement shall apply whether or not the facility is engaged in a time-sharing plan. Individual meters shall not, however, be required:

i. In those portions of a commercial establishment where the floor space dimensions or physical configuration of the units are subject to alteration, as evidenced by non-structural element partition walls, unless the utility determines that adequate provisions can be made to modify the metering to accurately reflect such alterations;

ii. For gas used in central heating, central water heating ventilating and air conditioning systems, or gas back up service to storage heating and cooling systems:

iii. For gas used in specialized-use housing accommodations such as hospitals, nursing homes, living facilities located on the same premises as, and operated in conjunction with, a nursing home or other health care facility providing at least the same level and types of services as a nursing home, convalescent homes, facilities certificated under Chapter 651, Florida Statutes, college dormitories, convents, sorority houses, fraternity houses, motels, hotels, andsimilar facilities. For separate, specially-designated areas for overnight occupancyat trailer, mobile home and recreation vehicle parks where permanent residency is not established and for marinas where living aboard is prohibited by ordinance, deed restriction, or other permanent means;

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

iv. In such multiple occupancy units which would require the provision of individual gas service above the second story, unless specifically requested.

(2)(b) For purposes of this Rule:

i. "Occupancy unit" means that portion of any commercial establishment, single and multi-unit Residential building, or trailer, mobile home or recreational vehicle park, or marina which is set apart from the rest of such facility by clearly determinable boundaries as described in the rental, lease or ownership agreement for such unit.

ii. "Time-sharing plan" means any arrangement, plan, scheme, or similar device, whether by membership, agreement, tenancy in common, sale, lease, deed, rental agreement, license, or right-to-use agreement or by any other means, whereby a purchaser, in exchange for consideration, receives a right to use accommodations or facilities, or both, for a specific period of time less than a full year during any given year, but not necessarily for consecutive years, and which extends for a period of more than three years.

iii. The construction of a new commercial establishment, Residential building, marina, or trailer, mobile home or recreational vehicle park shall be deemed to commence on the date when the building structure permit is issued.

iv. The individual metering requirement is waived for any time-sharing facility for which construction was commenced before January 1, 1987 in which separate occupancy units were not metered in accordance with subsection (2)(a).

(3) Where individual metering is not required under Subsection (2)(a)iii and master metering is used in lieu thereof, sub-metering may be used by the Customer of record/owner of such facility solely for the purpose of allocating the cost of the gas billed by the utility. The term "cost" as used herein represents only those charges specifically authorized by the gas utility's tariff including but not limited to the Customer, energy, purchased gas adjustment, and conservation charges made by the gas utility plus applicable taxes and fees to the Customer of record responsible for the master meter payments. The term cannot be construed to include late payment charges, returned checkcharges, the cost of the distribution system behind the master meter, the cost for billing, and other such costs.

4. PIPING AND APPLIANCES

The piping, fixtures, and appliances for which the Customer is responsible shall be maintained in conformity with all Local, State and Federal requirements.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11

First Revised Sheet No. 13
Cancels Original Sheet No. 13

RULES AND REGULATIONS (Continued)

3. GAS LEAKS

The Customer shall give immediate notice to the Company of leakage of gas. No deduction on account of leakage shall be required to be made from Customer's bills unless such leakage occurs as the result of fault or neglect of agents of the Company. In case of leakage or fire, the stopcock at the meter should be closed without delay and no light or flame used in the vicinity of the leak.

4. CONNECT CHARGE

A charge of $90.00 for Residential service or $150.00 for Non-Residential service will be made on the Customer's next bill when gas service is initiated, connected or turned-on. If service is performed, at Customer request, outside of normal business hours the charges shall be $110.00 for Residential service or $200.00 for Non-Residential service.

5. RECONNECTION CHARGE

A charge of $90.00 for Residential service or $105.00 for Non-Residential service will be made on the Customer's next bill when gas service is reconnected after disconnection for non-payment of bills. If service is performed, at Customer request, outside of normal business hours the charges shall be $105.00 for Residential service or $120.00 for Non-Residential service.

6. FAILED TRIP CHARGE

A charge of $20 for Residential and Non-Residential service will be made on the Customer's next bill when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative.

7. LATE PAYMENT CHARGE

A bill shall be considered past due upon the expiration of twenty (20) days from the date of mailing or other delivery thereof by Company. The balance of all past due charges for services rendered are subject to a Late Payment Charge of 1.5% or $5.00 whichever is greater, except that the Late Payment Charge applied to the accounts of federal, state, and local governmental entities, agencies and instrumentalities shall be at a rate no greater than allowed, and in a manner permitted by applicable law.

8. RETURNED CHECKS

The service charge for each returned check shall be determined in accordance with section 68.065, Florida Statutes. Payment of the full amount of the dishonored payment, plus a service charge of $25 if the face value does not exceed $50, $30 if the face value exceeds $50 but does not exceed $300, $40 if the face value exceeds $300, or 5 percent of the face amount of the dishonored instrument, whichever is greater.

RULES AND REGULATIONS (Continued)

11. OTHER CHARGES

The following charges relating to Customer accounts will apply:

Change of account	$20.00
Bill collection in lieu of disconnection	$25.00
(outside of normal business hours)	$32.00
Meter read outside normal schedule	$15.00
(outside of normal business hours)	$22.00

12. Temporary Disconnection of Service – Customer Request

A charge of $35.00 for Residential and Non-Residential service will be made on the Customer's next bill when the Customer requests a Temporary Disconnection of Service. If service is performed, at Customer request, outside of normal business hours the charges shall be $45.00 for Residential and Non-Residential service.

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER

The Company may temporarily shut off the supply of gas to the Customer's premises after reasonable notice for the purpose of making necessary repairs or adjustments to mains or supply pipes, and reserves the right to shut off the supply of gas without notice in case of emergency. In addition the PSC Rule 25-7.089, Refusal or Discontinuance of Service by Utility, as follows, shall apply:

(1) Until adequate facilities can be provided a utility may refuse to serve an applicant if, in the best judgment of the utility, it does not have adequate facilities or supply of gas to render the service applied for, or if the service is of a character that is likely to affect unfavorably service to other Customer.

(2) If the utility refuses service for any reason specified in this subsection, the utility shall notify the applicant for service as soon as practicable, pursuant to subsection (5), of the reason for refusal of service. If the utility will discontinue service, the utility shall notify the Customer at least 5 working days prior to discontinuance that service will cease unless the deficiency is corrected in compliance with the utility's regulations, resolved through mutual agreement, or successfully disputed by the Customer. The 5-day notice provision does not apply to paragraphs (h), (i) or (j). In all instances involving refusal or discontinuance of service the utility shall advise in its notice that persons dissatisfied with the utility's decision to refuse or discontinue service may register their complaint with the utility's Customer relations personnel and to the Florida Public Service Commission at 1-800-342-3552 which is a toll free number. As applicable, each utility may refuse or discontinue service under the following conditions:

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

(a) For non-compliance with or violation of any State or municipal law or regulation governing gas service.

(b) For failure or refusal of the Customer to correct any deficiencies or defects in his piping or appliances which are reported to him by the utility.

(c) For the use of gas for any other property or purpose than that described in the application.

(d) For failure or refusal to provide adequate space for the meter and service equipment of the utility.

(e) For failure or refusal to provide the utility with a deposit to insure payment of bills in accordance with the utility's regulations provided that written notice, separate and apart from any bill for service, be given the Customer.

(f) For neglect or refusal to provide reasonable access to the utility for the purpose of reading meters or inspection and maintenance of equipment owned by the utility provided that written notice, separate and apart from any bill for service, be given the Customer.

(g) For non-payment of bills or noncompliance with the utility's rules and regulations, and only after there has been a diligent attempt to have the Customer comply, including 5 working days' written notice to the Customer, such notice being separate and apart from any bill for service. For purposes of this subsection, "working day" means any day on which the utility's business office is open and the U.S. Mail is delivered. Upon request of the Customer, the utility shall give a copy of the notice of discontinuance to a designated third party in the service area of the utility. A utility shall not, however, refuse or discontinue service for non-payment of a dishonored check service charge imposed by the utility.

(h) Without notice in the event of a condition known to the utility to be hazardous.

(i) Without notice in the event of tampering with regulators, valves, meters or other facilities furnished and owned by the utility.

(j) Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the utility, before restoring service, may require the Customer to make at his own expense all changes in piping or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the deficiency in revenue resulting from such fraudulent use.

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

(3) Service shall be restored when cause for discontinuance has been satisfactorily adjusted.

(4) When service has been discontinued for proper cause, the utility may charge a reasonable fee to defray cost of restoring service provided such charge is set out in its approved tariff on file with the Commission.

(5) In case of refusal to establish service, or whenever service is discontinued, the utility shall notify the applicant or Customer in writing of the reason for such refusal or discontinuance.

(6) If the Company has reasonable evidence that there is or may be a danger from the Customer or any occupant and/or invitee of the Customer's Premises to Company personnel or agents who might be called to said Premises in the course of their duties with the Company, including but not limited to any direct or implied threats against the Company or its personnel or agents from said Customer or occupant and/or invitee.

(7) The following shall not constitute sufficient cause for refusal or discontinuance of service to an applicant or Customer.

(a) Delinquency in payment for service by a previous occupant of the premises unless the current applicant or Customer occupied the premises at the time the delinquency occurred and the previous Customer continues to occupy the premises and such previous Customer will receive benefit from such service.

(b) Failure to pay for appliances purchased from the utility.

(c) Failure to pay for a different type of utility service, such as electricity or water.

(d) Failure to pay for a different class of service.

(e) Failure to pay the bill of another Customer as guarantor thereof.

(f) Failure to pay a dishonored check service charge imposed by the utility.

(8) No utility shall discontinue service to any noncommercial Customer between 12:00 noon on a Friday and 8:00 a.m. the following Monday or between 12:00 noon on the day preceding a holiday and 8:00 a.m. the next working day unless such discontinuance is at the request of the Customer or is necessary in the interest of safety. Holiday as used in this subsection shall mean New Years Day, Memorial Day, July 4, Labor Day, Thanksgiving Day, and Christmas Day.

(9) Each utility shall submit, as a tariff item, a procedure for discontinuance of service when that service is medically essential.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11 Original Sheet No. 17

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

Failure of Company to exercise its rights to suspend, curtail or discontinue service, for any of the above reasons, shall not be deemed a waiver thereof.

When service has been discontinued for any of the reasons set forth in the Tariff, the Company shall not be required to restore service until the Customer has paid the applicable charges to the Company required for service restoration.

14. EXTENSION OF FACILITIES

A. Free Extensions of Mains and Services: The maximum capital investment required to be made by the Company for main and service facilities without cost to the Customer shall be defined as the Maximum Allowable Construction Cost ("MACC"). The MACC shall equal six times the annual Margin Revenues estimated to be derived from the facilities. However, Customers initially served under the Residential Standby Generator Service ("RSG") and Commercial Standby Generator Service ("CSG") Rate Schedules shall not be eligible for extension allowances, even if additional load is added at a later date, but such Customers may be eligible to receive refunds of amounts paid to the Company for extensions under B.(2) below.

B. Extensions of Mains and Services Above Free Limit: When the cost of the extension required to provide service is greater than the free limit specified above, the Company may require a non-interest bearing advance in Aid to Construction ("ATC") equal to the cost in excess of such free limit provided that:

(1) At the end of the first year following construction, the Company shall refund to the person paying the ATC or their assigns an amount equal to the excess, if any, of the MACC as recalculated using actual gas revenues, less the actual cost of gas, over the estimated MACC used to determine the amount of the ATC.

(2) For each additional Customer taking service at any point on the extension within a period of five (5) years from date of construction, the Company shall refund to the person paying the ATC or their assigns an amount by which the MACC for the new Customer exceeds the cost of connecting the Customer, provided that an additional main extension shall have not been necessary to serve the additional Customer.

(3) The aggregate refund to any Customer made through the provisions of (a) and (b) above shall at no time exceed the original ATC of such Customer.

(4) The extension shall at all times be the property of the Company and any un-refunded portion of the ATC at the end of five (5) years shall be credited to the plant account of the Company.

(5) The Company may require a commitment by a Customer to take or pay for a minimum volume of gas as deemed appropriate by the Company given the circumstances of facility cost and/or the service requirements of a particular Customer. In no instance will the minimum volume commitment be set at a level that exceeds the volume amount used to calculate the MACC for the Customer, nor will the volume commitment term exceed six (6) years.

RULES AND REGULATIONS (Continued)

14. EXTENSION OF FACILITIES (Continued)

C. Area Extension Program Charge: Notwithstanding the provisions of Sections A and B when facilities are to be extended to serve single or multiple delivery points in a discrete geographic area, the Company may require an Area Extension Program Charge ("AEP"). The Company, in its sole discretion, may require this chargewhen:

(1) The cost of the project facilities required to provide service through the area is greater than the aggregate MACC for the Customers to be served; and

(2) The Company reasonably forecasts Margin Revenues plus the AEP during the period ending ten years from when the mains required to serve the project facilities are placed in service (the Amortization Period), that are sufficient to recover the cost of the project facilities.

The AEP, which shall be stated on a per therm basis, shall apply with respect to all gas sold or transported to Company Customers located within the applicable discrete geographic area during the Amortization Period.

The AEP will be calculated by dividing (1) the amount of additional revenue required in excess of the Company's applicable tariff rates by (2) the volume of gas reasonably forecast to be sold or transported to Customers within the applicable discrete geographic area during the Amortization Period. The additional revenue required is that amount determined necessary to recover the excess cost of the facilities, including the Company's allowed cost of capital.

AEP collected shall be used specifically to amortize the cost of the project facilities within the applicable discrete geographic area that are in excess of the MACC. If the AEP collected is sufficient before the expiration of the Amortization Period to fully amortize the excess costs, including provision for the accumulated cost of capital, the AEP for that area shall terminate immediately, and the Company shall promptly credit the affected Customers for amounts over collected, if any.

Upon the earlier of (1) the third anniversary of the date when the project facilities are placed in service and (2) the date on which 80% of the originally forecast annual load is connected, the Company will reassess the amount of additional revenue required to recover the unamortized excess cost of the facilities and the calculation of the AEP. Further reassessments shall be performed by the Company following the fifth, seventh and ninth anniversary of the date when the project facilities were originally placed in service. The resulting adjustment of the AEP (whetherupward or downward) will be applied over the remainder of the Amortization Period.

RULES AND REGULATIONS (Continued)

14. EXTENSION OF FACILITIES (Continued)

The Company may enter into a guaranty agreement with the party or parties requesting the extension, whereby that party or parties agree to pay to the Company any unamortized balance remaining at the end of the Amortization Period. The Company's rights under the guaranty agreement will not be considered when calculating the AEP.

The length of the Amortization Period may be modified upon the specific approval of the Florida Public Service Commission.

D. General

The Company will own control and maintain all service pipes, regulators, vents, meters, meter connections, valves and other appurtenances from the main to the outlet side of the meter.

The extension of facilities provisions shall not require the Company to extend its mains across private property or in streets that are not at established grade; nor prohibit the Company from making extensions of mains of greater length than required herein.

15. TRANSPORTATION - SPECIAL CONDITIONS

A. A Transportation Service Agreement or other means of enrollment accepted by the Company is a condition precedent for Transportation Service under each applicable Rate Schedule, the initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

B. The usage charges in the Rate Schedules shall be based upon actual or estimated consumption as determined by the Company, not by Third Party Supplier deliveries.

C. Nominations and Transportation of Gas

The Customer's Third Party Supplier ("TPS") shall nominate on behalf of its Customers the total monthly requirements for that billing month. The TPS is responsible for making arrangements for transporting the gas from its source to the Company's interconnection with the delivering pipeline supplier. The gas transported under this Rate Schedule is not the property of the Company. However, the Company reserves the right to commingle such gas with other supplies. Moreover, the Company reserves the right to utilize Customer's gas, when necessary, in accordance with its Gas Curtailment Plan.

D. Indemnification

As between Company and Customer, the Customer or its Third Party Supplier warrants that it has clear title to any gas supplies delivered into the Company's system for redelivery to Customer and Customer shall be deemed to be in exclusive control and possession of gas prior to its delivery into the Company's system for redelivery to Customer. Customer agrees to indemnify, defend and hold harmless Company from any and all claims, suits or damage actions arising out of deliveries of gas on behalf of transporting Customer.

E. Gas Supply Obligation

In the event that Customer's Third Party Supplier fails to deliver gas on behalf of its Customers, the Company may, in its sole discretion, provide replacement gas supplies. The Company shall have no obligation to provide gas supplies to Customers that contract for gas supply from a TPS. In the event that a Customer seeks to purchase gas supplies from the Company, such sales may be made by the Company in its sole discretion under such terms and conditions as the Company may require.

F. Balancing Receipts and Deliveries

Third Party Suppliers will be billed for all their Customers' balancing and other transportation related charges, as set forth in the TPS Rate Schedule, determined by the Company to be billable to a TPS on behalf of their Customers. If there are any unpaid charges the TPS' Customers shall be individually responsible for any portion attributable to their individual action and/or for their prorata share as follows: The Company will first determine individual Customer charges, if any, and second prorate charges based on allocating the

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

F. Balancing Receipts and Deliveries (Continued)

amount of TPS gas received, if any, in the following priority; first to the GS classes being served under ADDQ in the order of increasing annual usage, then to NGV, followed by the remaining GS classes in the order of increasing annual usage, then by KDS and lastly to FGS Customers. Each Customer in a Rate Schedule that does not receive gas supply to meet the entire Rate Schedule requirements will receive a prorata charge based on their percentage of gas consumed, as estimated or measured on the meter reading date following the incurrence of imbalance charges, to the total of their Rate Schedule for the period that charges apply.

G. Transportation Interruption and Curtailment

Company shall have the right to reduce or completely curtail deliveries to Customer as follows:

(1) If, in Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

(2) In the event Company is notified by its delivering pipeline pursuant to the Federal Energy Regulatory Commission approved curtailment plans or provision of its tariff to interrupt or curtail deliveries for uses of the same type or category as Customer's use of gas hereunder; or

(3) When necessary to maintain the operational reliability of Company's system.

Company will endeavor to give as much notice as possible to Customer in the event of interruption or curtailment. Any gas taken in excess of the volume allocated to the Customer in an interruption or curtailment order shall be considered Unauthorized Gas Use

H. Facilities

Company shall not be obligated to, but may, at its sole discretion on a non-discriminatory basis, construct or acquire new facilities, or expand existing facilities, including facilities necessary to provide measurement of volumes and communication of deliveries, in order to perform service requested under each applicable Rate Schedule. If in Company's reasonable judgment it is necessary to construct or acquire new facilities, or to expand existing facilities, to enable Company to receive or deliver Customer's gas at the Points of Receipt and Delivery requested, and Company determines in its sole discretion to construct, acquire, or expand such facilities, thenCompany shall notify Customer of the estimated costs of such facilities, including electronic measurement equipment, shall, subject to the receipt and acceptance of any necessary regulatoryapproval, be constructed, acquired or expanded by Company in accordance with the terms of theexecuted Service Agreement.

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

H. Facilities (Continued)

Prior to the initial receipt of service hereunder, unless agreed otherwise, Customer shall reimburse Company in accordance with the terms of the Transportation Service Agreement, for the cost of any facilities which are constructed, acquired, or expanded by Company to receive or deliver Customer's gas.

All facilities required to provide service under each applicable Rate Schedule shall be designed, constructed, installed, operated, and owned by Company, unless otherwise agreed to by Company.

Company's execution of a Transportation Service Agreement under each applicable Rate Schedule may be conditioned on Customer's agreement to pay the total incremental cost of such facilities as specified herein and in the Service Agreement.

I. Designated Pools

This section designates the Pools that have been adopted for the Company's service territory in order to facilitate the operation of the Company's system.

Basic Pools result from the physical characteristics of the Company's system and the location of the delivery points of the interstate pipeline companies.

The Company's service territory is composed of two Primary Pools, each of which is composed of one or more Basic Pools:

(a) Brevard
(b) Miami-Dade

J. Allocation, Assignment, of Capacity and Supply Assets

This section sets forth the method and provisions by which the Company will allocate, on an equal access, nondiscriminatory basis, the Company's Interstate Pipeline Capacity to a Third Party Supplier based upon the Average Daily Delivery Quantity ("ADDQ") and Demand Charge Quantity ("DCQ") of the Transportation Customers served by the Third Party Shipper.

The portion of the Company's Interstate Pipeline Capacity not associated with premises served by Third Party Supplier will remain with the Company. The Company will hold the capacity required to service its Customers on a Design Day plus a reserve margin not to be less than 5%. The Company will post on the Electronic Bulletin Board ("EBB") each allocation of the Company's Interstate Pipeline Capacity to a Third Party Supplier for viewing only by such Third Party Shipper. Until the Company has sufficient Interstate Pipeline Capacity to satisfy 100% of its Sales and Essential Use Customers throughput the Company may opt to not release capacity to Third Party Suppliers. Once adequate capacity is obtained to meet the Sales and Essential Use Customers' needs, capacity releases will be prioritized based upon Customer groups. The Company will first release Interstate Pipeline Capacity to service Cycle Read Customers (ADDQ) based upon Third Party Supplier market share.

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

The remaining Interstate Capacity will then be released to service Daily Read Customers (DCQ) that are identified as Essential Use based upon Third Party Supplier market share. Any remaining Interstate Pipeline Capacity will then be released to service Daily Read Customers that are not identified as Essential Use based upon Third Party Supplier market share.

Each month the Company will calculate market share for each Third Party Supplier based upon the sum of the ADDQ and DCQ of premises served by each Third Party Supplier. Each month the Company will make capacity allocations to each Third Party Supplier based upon theirmarket share as calculated on the twentieth (20^{th}) calendar day of the preceding month. The Company will post on the EBB on the twentieth (20^{th}) calendar day of the preceding month, the total Interstate Pipeline Capacity that a Third Party Supplier is allocated for viewing only by suchThird Party Shipper.

The rate for Interstate Pipeline Capacity will be the maximum rate stated in the applicable FERC Gas Tariff; provided, however, that if the proper regulatory approvals have been received, the rate for an assigned service will not exceed the rate charged to the Company as of the date of the assignment. Assignments will have a term of one calendar month and will be made and become effective on the first day of such month.

The Company will, when possible, provide firm gas delivery service to Sales Customers who were Transportation Customers. However, if sufficient interstate pipeline capacity is not available, those Customers may not receive firm gas delivery service.

All capacity charges associated with release of Interstate Capacity to Third Party Suppliers will be billed directly to the Third Party Supplier by the pipeline company.

K. Recall of Released Capacity

The Company, at its sole discretion, has the right to recall Interstate Pipeline Capacity from Third Party Suppliers if:

(a) A determination by the Company, in a Force Majeure event to recall capacity in order to maintain the operational integrity of the system;
(b) A Third Party Supplier's failure to meet the security requirements of this Tariff or meet its responsibilities as a replacement shipper on the Pipeline;
(c) A filing of bankruptcy by aThird Party Supplier;
(d) A Third Party Supplier fails to meet system delivery requirements;
(e) An order of the State or Federal Commissions where recall would be necessary to comply with Commission orders;
(f) The Company, for any reason, determines that recall is necessary to maintain the operational integrity of the system

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

L. Disposition of Recalled Capacity

Capacity recalled to the above section, shall be re-released as follows:

In the case of Interstate Pipeline Capacity is recalled, the Company will re-release the recalled Interstate Pipeline Capacity to all Third Party Suppliers promptly.

M. Limitations on Released Capacity

The Interstate Pipeline Capacity being released to Third Party Suppliers under the provisions of this tariff was obtained for the purpose of making gas available to Customers in Florida. It is being released to Third Party Suppliers for the same purpose. Accordingly, in additionto any other limitations on the released capacity that may apply, and as a condition for receiving the released capacity, Third Party Suppliers must comply with the following limitations on the use ofreleased capacity.

Any agreement to trade, assign, sell, or otherwise re-release the released capacity shall include the right of FCG to recall the capacity under Section K.

In the event that a Third Party Shipper sells, trades, or otherwise transfers all or part of the Third Party Supplier's Customer base to another Third Party Supplier, it shall also release to the other Third Party Supplier an equal percentage of its released Interstate Pipeline Capacity;

Any agreement to trade, assign, sell, or otherwise re-release the released Interstate Pipeline Capacity shall include the right of Third Party Supplier to recall the capacity if the capacityis necessary to provide service to the Third Party Suppliers' Customers.

16. FORCE MAJEURE

Neither Company, Third Party Supplier, or Customer shall be liable for damages to the other for any act, omission, or circumstance occasioned by or in consequence of any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, unforeseeable or unusual weather conditions, washouts, arrests and restraints of rulers and people, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, , or software, line freezups, temporary failure of gas supply, temporary failure of firm transportation arrangements or curtailments, the binding order of any court or governmental authority which has been resisted in good faith by reasonable legal means, acts of third parties, and any other cause, whether of the kind herein enumerated or otherwise, not within the control of the party claiming suspension and which by the exercise of reasonable diligence such party is unable to prevent or overcome.

Such causes or contingencies affecting the performance by the Company, Third Party Supplier or Customer, however, shall not relieve it of liability in the event of its concurrent negligence, nor shall such causes or contingencies affecting performance relieve either party from its obligations to make payments of amounts then due hereunder in respect of gas theretofore delivered.

RULES AND REGULATIONS (Continued)

17. GAS CURTAILMENT PLAN

During periods of supply shortages, operational constraints or Force Majeure events the Company may implement the terms of its Gas Curtailment Plan. The purpose of this plan is to preserve the ability to continue to provide essential gas services to the broadest base of Customers given limited gas supply and/or delivery capacity. Any Unauthorized Gas Use will be governed by the terms stated in the Unauthorized Gas Use section of this tariff. If a Customer notifies the Company that they have a medical necessity requiring gas use the Company will endeavor to provide adequate notice of any curtailments.

18. UNAUTHORIZED GAS USE

Unauthorized Gas Use includes, but is not limited to, any volume of gas taken by Customer in excess of its Demand Charge Quantity requirement as set forth in its Service Agreement with Company or the quantity of gas allowed by the Company on any day as a result of a curtailment or interruption notice issued by the Company in accordance with its tariff and/or by the Florida Public Service Commission of the State of Florida or any other governmental agency having jurisdiction. A "day" shall be a period of twenty-four (24) consecutive hours, beginning as near as practical to 8 a.m., or as otherwise agreed upon by Customer and Company.

The Company reserves the right to physically curtail the gas service to any Customer if, in the Company's sole judgement, such action is necessary to protect the operation of its system.

If a Customer uses gas after having been notified that gas is not available or, if applicable, uses gas in excess of the Demand Charge Quantity or requirements as established in the Service Agreement, then Unauthorized Gas Use charges shall apply to those amounts. Furthermore, if a Third Party Supplier (TPS) fails to deliver gas in the quantities and or imbalance ranges specified in the TPS Rate Schedule, then Unauthorized Gas Use charges shall apply to the TPS.

All Unauthorized Gas Use charges shall be billed at the higher of $2.50 per therm or a rate equal to ten times the highest price, for each day, for gas delivered to Florida Gas Transmission at St. Helena Parish, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. However, this rate shall not be lower than the maximum penalty charge for unauthorized daily overruns as provided for in the Federal Energy Regulatory Commission approved gas tariffs of the interstate pipelines which deliver gas into Florida. This charge is in addition to all applicable taxes, charges and assessments of the applicable Rate Schedule.

Nothing herein shall be construed to prevent the Company from taking all lawful steps to stop the unauthorized use of gas by Customer, including disconnecting Customers service. Such payment for unauthorized use of gas shall not be deemed as giving Customer or TPS any rights to use such gas.

RULES AND REGULATIONS (Continued)

19. EQUIPMENT FINANCING

If the Company agrees to provide the necessary gas conversion, compression, or RNG equipment to be owned and maintained by the Customer, an agreement as to terms and conditions governing recovery of the costs for such equipment from the Customer may be entered into and the initial contract term of gas service shall at a minimum be the same as the period of recovery stated in the agreement. Further, the rates established in the monthly rate section may beadjusted to provide for recovery by the Company of the costs incurred, including carrying cost atthe Company's overall cost of capital, in providing such equipment. At such time when the Company has recovered its costs of providing such equipment the ongoing gas deliveries shall bebilled at rates stated in the Customers applicable Rate Schedule.

20. TAXES AND OTHER ADJUSTMENTS

There will be added to all bills rendered all applicable local utility and franchise taxes, State sales taxes and gross receipts tax presently assessed by governmental authority, as well as any future changes or new assessments by any governmental authority subsequent to the date of any Rate Schedule. All such assessments as described above shall be shown on Customer bills.

21. BUDGET BILLING PLAN

Available to any Residential Customer as defined under the Technical Terms and Abbreviations of this tariff. A Customer may elect to enroll in the Company's Budget Billing Plan to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a Customer must be a year-round Customer and have no balance owing when beginning the plan. Following a Customer's request to participate in the Budget Billing Plan the Company shall have 45 days in which to determine the Customer's eligibility and process an enrollment to initiate billing under the plan.

If a Customer requests the Budget Billing Plan, the initial budgeted payment amount will be based on the average of the previous 12 months usage normalized for weather applied to the then current or Company projected billing rates, and shall include any regulatory fees or taxes applicable to the Customer. If the Customer has not received Gas Service from the Company for the preceding 12 months, the Company will use the best information available to calculate the initial monthly payment amount. The total deferred debit or credit balance will be shown on the Customer's bill.

The Company reviews all budget payments and resets them annually on or about August of each year. On such recalculation, one-twelfth of any debit or credit deferred balance will be added to the following year's recalculated budgeted monthly payment amount. However, a Customer may request a payment of a credit balance in which case the recalculated amount will be adjusted to reflect the removal of the credit balance. In addition, the Company also performs a semi-annual review and may adjust the budget payment if it varies by more than $5.00 or 10% whichever is less.

RULES AND REGULATIONS (Continued)

The Company may also recalculate the payment quarterly if it determines that changes in Customer equipment or billing rates warrant. However, the Company may only begin charging such recalculated quarterly amounts on the Customer's next successive bill if the recalculated budgeted payment amount varies by 35% or more from the budgeted payment amount then in effect. Any balances outstanding at the time of a non-annual recalculation shall be included in such recalculation with the objective of achieving a net zero balance at the end of the program year.

A Customer's participation in the Budget Billing Plan will be continuous unless the Customer requests that participation in the plan be discontinued, or gas service has been terminated at the premise, or the Customer is delinquent in paying the budgeted payment amount, which may result in shut-off for non-payment and/or removal from the program. If a Customer no longer participates in the plan, the Customer shall pay any deferred debit balances with their next regular monthly bill, with any deferred credit balance being used to reduce the amount due from the next regular monthly bill. Upon termination from the plan, for any reason, any billed outstanding balance not paid by the next due date shall be considered past due and late payment fees shall apply. In addition, prior to plan termination, late payment fees shall apply to past due Budget Billing Plan payment amounts.

22. LIMITS OF COMPANY RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premise resulting from the Customer's installation of the gas pipe, fittings, appliances, storage tanks, compressors, and apparatus of any type of others on the Customer's premises. The Company will not be responsible for the use, care or handling of gas delivered to the Customer after it passes from the Company's lines on the Customer's side of the point of delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the sources, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to the Customer or their vehicle.

Whenever the Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render the Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service or excuse the Customer from continuing to fulfill its obligations to the Company.

In no event shall the Company be under any obligation to inspect the gas piping or appliances of a Customer. Where the Company has reason to believe the flues, gas piping or appliances do not comply with recognized requirements or code, the Company may refuse to supply gas to the Customer. However, the Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other government requirement is applicable.

No Customer or other person shall, unless authorized by the Company, operate, change or tamper with any of the Company's facilities.

RULES AND REGULATIONS (Continued)

23. LIMITATION OF DAMAGES

The Customer shall not be entitled to recover from the Company any consequential, indirect, incidental or special damages, such as loss of use of any property, vehicle, or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, diminution in value of real property, or expenses to restore operation, or loss of goods or products.

The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss, damage or injury to person or property, in any manner directly or indirectly connected with or growing out of the transmission and/or use of gas by the Customer at or on the Customer's side of the point of delivery or out of the Customer's negligent acts or omissions.

24. ACCESS TO PREMISES

The Customer shall grant to the Company without cost to the Company, all rights, easements, permits and privileges which in the Company's opinion are necessary for the rendering of service. The Customer will furnish to the Company, without charge, an acceptable location for the Company's meter and shall give Company employees and representatives access to the Customer's premise so that the Company may operate, inspect and maintain its facilities. Failure to grant access could result in disconnection of service.

25. Excess Flow Valves

Existing single family residential regardless of size, as well as multi-family residences and commercial Customers not using in excess of one-thousand (1,000) standard cubic feet per hour (SCFH) per service, may request the Company to install an excess flow valve (EFV) or equivalent equipment, which appropriate equivalent will be determined in the Company's sole discretion, for the purpose of interrupting the flow of gas. The Customer shall reimburse the Company for the cost associate with installing an EFV (or equivalent equipment) when such installation is performed at the request of the Customer.

RESIDENTIAL SERVICE – 1 (RS-1)

APPLICABILITY

Service is available to Residential Customers using between 0 and 99 therms per year as determined by the Company.

CHARACTER OF SERVICE

A firm delivery service of gas delivered by the Company with a heating value on the order of 1,100 British Thermal Units per cubicfoot.

*MONTHLY RATE

Customer Charge	$18.00
Distribution Charge, per therm	$0.67667
Commodity Charge	Per Rider "A"

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

1. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

2. Each year the Company shall re-determine each Customer's eligibility based on their annual usage. If reclassification to another schedule is appropriate such reclassification shall be prospective only and shall not be retroactive.

GENERAL SERVICE - 120K (GS-120K)

APPLICABILITY

Service is available to Non-Residential Customers using between 120,000 and 1,249,999 therms per year as determined by the Company.

CHARACTER OF SERVICE

A firm delivery service of gas, including RNG delivered into the Company's system by any customer, delivered by the Company or Customers' Third Party Supplier ("TPS") with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$375.00	$375.00
Demand Charge, per DCQ	$0.719	$0.719
Distribution Charge, per therm	$0.28336	$0.28336
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS. Only Non-Residential Customers are eligible to receive gas supply from a TPS.

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ)

The DCQ to be used in setting the Customer's Billing DCQ will be determined by the Customer's maximum daily requirements in terms of therm units per day based on readings taken from an Automatic Meter Reading (AMR) device installed at the premise. The DCQ used in setting the Billing DCQ shall be those from the Customer's daily metered therm consumption recorded for a period of up to three (3) years ending each March 31st. If historical consumption information of at least twelve (12) months is not available, then the Billing DCQ level shall be based upon the rating and expected usage of the Customer's gas equipment as determined by the Company.

The Billing DCQ will be determined annually by the Company based on the DCQ history, as determined above. The Customer's Billing DCQ shall be adjusted to reflect the maximum recorded DCQ. Adjustments will be made in April except the Company shall not increase such a Customer's Billing DCQ unless the Customer has had at least three (3) occurrences of DCQ's in excess of their current Billing DCQ.

GENERAL SERVICE - 120K (GS -120K)
(Continued)

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ): (continued)

At any time a Customer may request an adjustment to its Billing DCQ. If the Customer is able to demonstrate an ongoing change in its maximum daily therm requirements then the Company may at its discretion adjust Customers Billing DCQ prospectively. However, the initial Billing DCQ shall be established for all Customers with active service at the effective date of this tariff based on the highest daily actual therm consumption recorded at Customer's premises over the thirty-six month historic period ending March 31st of each year.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge and Demand Charge. In addition, a minimum annual charge shall be assessed by applying the Distribution Charge hereunder to the difference between the annual minimum qualifying therms specified in this Rate Schedule and the annual usage of the Customer.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

TERM OF CONTRACT

The initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

SPECIAL CONDITIONS OF SERVICE

1. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

2. Each year the Company shall re-determine each Customer's eligibility based on their annual usage. If reclassification to another schedule is appropriate such reclassification shall be prospective only and shall not be retroactive.

3. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for all Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

SPECIAL CONDITIONS, APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

1. See the Rules and Regulations for Transportation - Special Conditions for terms related to Customers taking Gas Supply from a TPS.

GENERAL SERVICE - 1,250K (GS-1,250K)

APPLICABILITY

Service is available to Non-Residential Customers using between 1,250,000 and 10,999,999 therms per year as determined by the Company.

CHARACTER OF SERVICE

A firm delivery service of gas, including RNG delivered into the Company's system by any customer, delivered by the Company or Customers' Third Party Supplier ("TPS") with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$625.00	$625.00
Demand Charge, per DCQ	$0.719	$0.719
Distribution Charge, per therm	$0.14073	$0.14073
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS. Only Non-Residential Customers are eligible to receive gas supply from a TPS.

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ)

The DCQ to be used in setting the Customer's Billing DCQ will be determined by the Customer's maximum daily requirements in terms of therm units per day based on readings taken from an Automatic Meter Reading (AMR) device installed at the premise. GENERAL SERVICE – 25M (GS - 25M)

APPLICABILITY

Service is available to Non-Residential Customers using 25,000,000 or more therms per year as determined by the Company.

CHARACTER OF SERVICE

A firm delivery service of gas, including RNG delivered into the Company's system by any customer, delivered by the Company or Customers' Third Party Supplier ("TPS") with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$2,500.00	$2,500.00
Demand Charge, per DCQ	$0.719	$0.719
Distribution Charge, per therm	$0.05160	$0.05160
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS. Only Non-Residential Customers are eligible to receive gas supply from a TPS.

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ)

The DCQ to be used in setting the Customer's Billing DCQ will be determined by the Customer's maximum daily requirements in terms of therm units per day based on readings taken from an Automatic Meter Reading (AMR) device installed at the premise. The DCQ used in setting the Billing DCQ shall be those from the Customer's daily metered therm consumption recorded for a period of up to three (3) years ending each March 31st. If historical consumption information of at least twelve (12) months is not available, then the Billing DCQ level shall be based upon the rating and expected usage of the Customer's gas equipment as determined by the Company.

The Billing DCQ will be determined annually by the Company based on the DCQ history, as determined above. The Customer's Billing DCQ shall be adjusted to reflect the maximum recorded DCQ. Adjustments will be made in April except the Company shall not increase such a Customer's Billing DCQ unless the Customer has had at least three (3) occurrences of DCQ's in excess of their current Billing DCQ.

GENERAL SERVICE - 25M (GS – 25M)
(Continued)

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ) (continued)

At any time a Customer may request an adjustment to its Billing DCQ. If the Customer is able to demonstrate an ongoing change in its maximum daily therm requirements then the Company may at its discretion adjust Customers Billing DCQ prospectively. However, the initial Billing DCQ shall be established for all Customers with active service at the effective date of this tariff based on the highest daily actual therm consumption recorded at Customer's premises over the thirty-six month historic period ending March 31st of each year.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge and Demand Charge. In addition, a minimum annual charge shall be assessed by applying the Distribution Charge hereunder to the difference between the annual minimum qualifying therms specified in this Rate Schedule and the annual usage of the Customer.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof bythe Company.

TERM OF CONTRACT

The initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

SPECIAL CONDITIONS OF SERVICE

1. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

2. Each year the Company shall re-determine each Customer's eligibility based on their annual usage. If reclassification to another schedule is appropriate such reclassification shall be prospective only and shall not be retroactive.

3. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for all Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

SPECIAL CONDITIONS, APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

See the Rules and Regulations for Transportation - Special Conditions for terms related to Customers taking Gas Supply from a TPS.

GAS LIGHTING SERVICE (GL)

AVAILABILITY

See "Limitations of Service" below.

APPLICABILITY

Firm gas service for continuous street or outdoor lighting devices installed upstream of the Customer's meter.

LIMITATIONS OF SERVICE

This Rate Schedule is closed and is restricted to Customers who were served prior to March 17, 1975.

*MONTHLY RATE

Distribution Charge	$10.69 per lamp
	($0.59363 per therm X 18 therms)

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. For the purpose of applying Riders or other billing adjustments usage of eighteen therms per lamp per month will be assumed.

MINIMUM BILL

The minimum monthly bill shall be the Monthly Rate.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

RESIDENTIAL STANDBY GENERATOR SERVICE (RSG)

APPLICABILITY

Service is available to Residential Customers whose only gas usage is for a standby electric generator.

CHARACTER OF SERVICE

A firm delivery service of gas delivered by the Company with a heating value on the order of 1,100 British Thermal Units per cubicfoot.

*MONTHLY RATE

Customer Charge:	$25.00	
Distribution Charge:	0 - 14 therms	$0.00000 per therm
	More than 14 therms	$0.57421 per therm

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

1. Subject to special condition 3 below, a customer receiving service under this schedule shall remain obligated to remain on this schedule for 12 months. This 12-month requirement shall be renewed at the end of each 12-month term unless the customer terminates the service in writing within 30 days before the end of the term.

2. If the customer terminates the service before the 12-month term ends, the Customer will be billed the minimum bill for the remaining months of the service.

3. If the customer installs an additional gas appliance at the premise at which service is provided, then the customer will be transferred to the applicable rate schedule based on total therms.

4. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

COMMERCIAL STANDBY GENERATOR SERVICE (CSG)

APPLICABILITY

Service is available to Non-residential Customers whose only gas usage is for a standby electric generator with annual consumption of less than 120,000 therms.

CHARACTER OF SERVICE

A firm delivery service of gas delivered by the Company with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

Customer Charge:	$36.00	
Distribution Charge:	0 - 26 therms	$0.00000 per therm
	More than 26 therms	$0.57949 per therm

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

1. Subject to special condition 3 below, a Customer receiving service under this schedule shall remain obligated to remain on this schedule for 12 months. This 12-month requirement shall be renewed at the end of each 12-month term unless the Customer terminates the service in writing within 30 days before the end of the term.

2. If the Customer terminates the service before the 12-month term ends, the Customer will be billed the minimum bill for the remaining months of the service.

3. If the Customer installs an additional gas appliance at the premise at which service is provided, then the Customer will be transferred to the applicable rate schedule based on total therms.

4. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

NATURAL GAS VEHICLE SERVICE-I (NGV-I)
(CLOSED SCHEDULE)

APPLICABILITY

For gas delivered to any Customer through a separate meter for the purpose of compression and delivery into motor vehicle fuel tanks or other transportation containers. NGV-I is only available to those Customers who are presently receiving this service as of August 13, 2013. Customers seeking such service after this date shall take service under the NGV-II terms of this Tariff.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$31.00	$31.00
Distribution Charge, per therm	$0.23232	$0.23232
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged for commodity according to any agreement between the Customer and the TPS.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge. In addition, a minimum annual charge, if applicable, shall be assessed by applying the applicable rates and adjustments hereunder to the difference between the minimum therms, if any, established per the Customer's Agreement and the Customers annual usage.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS

Service under this Rate Schedule shall be subject to the general Rules and Regulations of the Company as they may be in effect from time to time, and as filed with the regulatory authorities.

SPECIAL CONDITIONS APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

1. See the Rules and Regulations for Transportation - Special Conditions for terms related to Customers taking Gas Supply from a TPS.

2. Automatic Meter Reading (AMR) equipment is required for transportation Customers served under this Rate Schedule using over 120,000 therms per year. See the Rules and Regulations for Metering for terms and conditions related to Amr's.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11

Second Revised Sheet No. 50
Cancels First Revised Sheet No. 49

NATURAL GAS VEHICLE SERVICE-II (NGV-II)

APPLICABILITY

For gas delivered to any Customer, including RNG delivered into the Company's system by any customer, for the purpose of compression and delivery into motor vehicle fuel tanks or other transportation containers after August 13, 2013.

MONTHLY RATE

Service is available under any General Service (GS) Rate Schedule (GS-1 through GS - 1250k) based on the Customer's therms per year as determined by the Company.

The charges, terms and conditions as provided under the applicable GS Rate Schedule shall apply, including all applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company, notwithstanding the Special Conditions sections below.

MONTHLY FACILITIES CHARGE WHEN COMPANY PROVIDES EQUIPMENT NECESSARY FOR NGV-II SERVICE

The Monthly Facilities Charge, if applicable, shall be equal to 1.6% multiplied by the Company's Gross Investment in facilities, as determined by the Company required to serve the Customer. As used here, Gross Investment means the total installed cost of the facilities as determined by the Company, which may include but are not limited to dryers, compressors, storage vessels, controls, piping, metering, dispensers, and any other related appurtenances including the necessary redundancy to provide for reliable service, before any adjustment for accumulated depreciation, a contribution in aid of construction, etc. The 1.6% factor is subject to adjustment if the Customer makes a contribution in aid of construction. The adjusted factor will be as stated in the Company's standard agreement for service provided under this Rate Schedule. If the service is provided under a standard agreement to more than one Customer, the charges applicable to each Customer shall be as stated in the agreement with the individual Customer. The standard agreement may also require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee, such as a bond or letter of credit, and/or other provisions as determined appropriate by the Company.

1) COMPANY PROVIDED FACILITIES ON CUSTOMER PREMISES

If Company provides and maintains the necessary facilities for compression and dispensing of such gas for delivery to vehicles on the Customer's property, the following additional charge shall apply:

NATURAL GAS VEHICLE SERVICE-II (NGV-II)
(Continued)

1) COMPANY PROVIDED FACILITIES ON CUSTOMER PREMISE (Continued)

Monthly Facilities Charge

The provision and maintenance of the facilities does not include the physical dispensing of compressed gas into vehicles, or the provision of electricity required to operate the facility. The physical dispensing of compressed gas into vehicles, the collection and remittance of any federal or state or local tax imposed on compressed gas dispensed for use as motor fuel, and the payment for electricity used to operate the facility shall be the responsibility of the Customer. A Company-provided facility could be a residential fueling station.

2) LIMITED ACCESS FACILITIES LOCATED ON COMPANY PREMISES

The Company may, under agreement with one or more Customers, provide and maintain, on the Company's premises, the necessary facilities for compression and dispensing of gas into motor vehicles. The Customer may elect to receive distribution service and purchase gas under any of the GS schedules, provided that the Customer would otherwise meet the requirement to be served under the provision of the rate schedule elected.

In addition to the distribution and gas charges as provided under the rate schedule elected by the Customer, the following charges shall apply:

a) Monthly Facilities Charge

The Monthly Facilities Charge, if applicable, shall be equal to 1.6% multiplied by the Company's Gross Investment in facilities, as determined by the Company required to serve the Customer. As used here, Gross Investment means the total installed cost of the facilities as determined by the Company, which may include but are not limited to dryers, compressors, storage vessels, controls, piping, metering, dispensers, and any other related appurtenances including the necessary redundancy to provide for reliable service and land and land rights, before any adjustment for accumulated depreciation, a contribution in aid of construction, etc. The 1.6% factor is subject to adjustment if the Customer makes a contribution in aid of construction. The adjusted factor will be as stated in the Company's standard agreement for service provided under this Rate Schedule. If the service is provided under a standard agreement to more than one Customer, the charges applicable to each Customer shall be as stated in the agreement with the individual Customer. The standard agreement may also require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee, such as a bond or letter of credit, and/or other provisions as determined appropriate by the Company.

b) Compressed Gas Dispensing Fee

The monthly dispensing fee shall recover all costs related to dispensing and be provided in the standard agreement.

NATURAL GAS VEHICLE SERVICE-II (NGV-II)
(Continued)

2) LIMITED ACCESS FACILITIES LOCATED ON COMPANY PREMISES (Continued)

c) Tax

The Company shall collect from the Customer and remit to the applicable authority any motor fuel tax on compressed gas.

Any service provided from a facility located on the Company's premises shall be provided at the time and under the terms and conditions as determined by the Company and specified in the agreement(s) with the Customer(s). The standard agreement may require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee (such as a bond) and/or other provisions as determined appropriate by the Company.

3) PUBLICLY ACCESSIBLE FACILITIES LOCATED ON COMPANY PREMISES

If the Company offers service to Customer from facilities located on the Company's premises only the following charges shall apply:

Distribution and Dispensing: $0.50 /Therm

Gas Cost: No lower than the monthly PGA

Taxes: Applicable motor fuel or other taxes applicable to compressed gas dispensed for motor fuel

The total charge, consisting of the Distribution and Dispensing charge, the Gas Cost, and Taxes, shall be as determined by the Company. However, the Gas Cost component of the charge shall not be less than the Purchased Gas Adjustment (PGA) and other adjustments, charges and/or credits determined to be applicable. In addition, the gas commodity component (total charge less the Distribution and Dispensing charge and applicable taxes) will be accounted for as recovery of gas cost in the annual PGA docket. Other Riders of this Tariff will not be credited for such service.

Any service provided from a facility located on the Company's premises shall be provided at the time and under the terms and conditions as determined by the Company.

MINIMUM BILL

The minimum monthly bill shall be the minimum bill as provided for in the GS Rate Schedule applicable to the Customer plus any additional Monthly Facilities Charge except for option 3.

NATURAL GAS VEHICLE SERVICE-II (NGV-II)
(Continued)

3) PUBLICLY ACCESSIBLE FACILITIES LOCATED ON COMPANY PREMISES (Continued)

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company and are subject to late payment charges.

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the general Rules and Regulations of the Company as they may be in effect from time to time, and as filed with the regulatory authorities.

2. A separate meter or sub-meter may be requested by the Customer or required by the Company; in which case the Customer will pay the cost of the meter and installation which shall remain the property of the Company.

3. The collection and remittance of any federal or state or local tax specifically imposed on compressed gas dispensed for motor fuel shall be the responsibility of the Customer or Retailer, unless otherwise provide for in a Customer's agreement.

4. The terms and conditions applicable to sub-metering and allocation of cost included elsewhere in this Tariff are not applicable to Compressed Natural Gas used for motor fuel.

5. NGV service is not available for resale by residential customers.

6. The Company shall not be responsible in any manner for the use, care or handling of gas once it is delivered to a natural gas vehicle.

7. If the Company, by itself or in partnership with another entity, responds to a competitive situation of a government agency or commercial customer and has volumes greater than 250,000 therms per year, the Company has the option to provide NGV service, equipment, facilities, and distribution at rates and charges set on an individual Customer basis via a special contract as long as the rate is above incremental cost with a reasonable return. At the Company's discretion it may recover the difference between the otherwise applicable tariff rate and the approved contract rate under this rate provision through Rider "C", Competitive Rate Adjustment ("CRA").

8. If a Customer is phasing in the use of compressed gas as motor fuel and is acquiring and placing into service vehicles fueled by compressed gas over a period of years, the Monthly Facilities Charge may be phased–in over the term of agreement. However, the net present value of the revenue from the phased-in charges, discounted at the Company's authorized rate of return, shall be set equal to the net present value of the revenue that would be generated over the term of the contract if the Monthly Facilities Charge was not phased-in. Any such phase-in shall be provided in the agreement for service.

CONTRACT DEMAND SERVICE (KDS)

OBJECTIVE

The objective of this Rate Schedule is to enable the Company to attach incremental load to its system by providing the Company with the flexibility to negotiate individual service agreements with Customers taking into account competitive and economic market conditions and system growth opportunities.

APPLICABILITY

Sales or Transportation service is available under this Rate Schedule to any non-Residential Customer, or customer receiving service under Rate Schedule RNGS, bringing a minimum new incremental demand of 250,000 additional therms per year to the Company's system at one location.

Terms of service including operating conditions and, if applicable, a capital repayment mechanism acceptable to Company, which may include, but shall not be limited to, a minimum monthly or annual bill, will be set forth in individual service agreements between the Company and the Customer. Absent a service agreement with Company under this Rate Schedule, Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule, and Customer may elect to receive service under other applicable Rate Schedules.

GAS SUPPLY OBLIGATION

The Company shall have no obligation to provide gas supplies to Transportation Customers under this Rate Schedule.

MONTHLY RATE

1. The Distribution Charge shall be an amount negotiated between Company and Customer, but the rate shall not be set lower than the incremental cost the Company incurs to serve the Customer. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes. The charge shall include any capital recovery mechanism. The charge shall be determined by the Company based on Company's evaluation of competitive and overall economic market conditions and the opportunity for the Company to expand its system into areas not served with gas. Such evaluation may include, but is not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's alternate fuel or energy source; the nature of the Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.); and the opportunity to extend gas service to areas not supplied with gas. With respect to existing Customers, an additional load of at least 250,000 therms must be added, and the negotiated KDS rate will only apply to the additional load added to the Company's system.

CONTRACT DEMAND SERVICE (KDS)
(Continued)

MONTHLY RATE (Continued)

2. The Commodity Charge, if taking supply from the Company, shall be the rate per therm for gas used computed to be the incremental cost of purchasing or producing gas.

INTERRUPTION AND CURTAILMENT

In addition to the interruption and curtailment terms in the Rules and Regulations or the Company's Curtailment Plan the Company shall have the right to reduce or to completely curtail deliveries to Customer pursuant to this Rate Schedule:

1. If in the Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

2. in the event Company is notified by its supplier or pipeline transporter to interrupt or curtail deliveries to Customer, or deliveries of gas for uses of the same type or category as Customer's use of gas hereunder; or

3. when necessary to maintain the operational reliability of Company's system.

CONFIDENTIALITY

The Company and Customer each regard the terms and conditions of the negotiated service agreement as confidential, proprietary business information.

The Company and Customer will utilize all reasonable and available measures to guard the confidentiality of said information, subject to the requirements of courts and agencies having jurisdiction hereof.

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the tariff, except to the extent modified under this Rate Schedule and / or in a service agreement.

2. Term of Agreement: If the provision of service hereunder requires the installation of gas equipment at Customer's facility, Company and Customer may enter into an agreement as to the terms and conditions regarding the reimbursement of costs relating to such equipment. The initial term of the service agreement shall, at a minimum, be equal to the period of cost reimbursement. The rates established in the Monthly Rates section may be adjusted to provide for such cost reimbursement to the Company including carrying costs.

CONTRACT DEMAND SERVICE (KDS)
(Continued)

SPECIAL CONDITIONS (Continued)

3. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for Customers served under this Rate Schedule, see the Rules and Regulations for Metering for terms and conditions related to AMR's.

4. When entering into a service agreement with a Customer under this Rate Schedule, Company will take reasonable steps to mitigate the potential of any revenue shortfalls between the revenues received under a service agreement and the total cost and expenses relating to the associated capital investment made by the Company, including minimum annual requirements.

LOAD ENHANCEMENT SERVICE (LES)

OBJECTIVE

The objective of this Rate Schedule is to enable the Company to retain or obtain significant load on its system by providing the Company with the flexibility to negotiate individual service agreements with non-Residential Customers taking into account competitive and economic market conditions and overall system benefits.

APPLICABILITY

This sales or transportation service is available at the Company's sole discretion to Customer's which meet the applicability standards, including (1) an existing commercial customer receiving service under contract or any new or existing customer that would otherwise qualify for service under Rate Schedules KDS, TSS, OSS, GS-120K, GS-1,250K, GS-11M or GS-25M; (2) the Customer must provide the Company verifiable documentation of either a viable alternative fuel or of a Customer's opportunity to economically bypass the Company's system; (3) the Company must demonstrate that the Customer served under this Rate Schedule will not cause any additional cost to the Company's other rate classes, including, at a minimum, that the rate shall not be set lower than the incremental cost plus some additional amount as reasonable return on investment and; (4) the Customer and the Company must enter into a service agreement under this Rate Schedule. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes.

SERVICE AGREEMENT OBLIGATIONS

Terms of service including operating conditions and, if applicable, a capital repayment mechanism acceptable to Company, which may include, but shall not be limited to, a minimum monthly or annual bill, will be set forth in individual service agreements between the Company and the Customer. Absent a service agreement with Company under this Rate Schedule, Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule, and Customer may request service under other applicable Rate Schedules.

Any service agreement under LES shall be subject to approval by the Florida Public Service Commission (FPSC) before any contract rate is implemented and the agreement can be executed by the parties.

GAS SUPPLY OBLIGATION

The Company shall have no obligation to provide gas supplies to Transportation Customers under this Rate Schedule.

LOAD ENHANCEMENT SERVICE (LES)
(Continued)

MONTHLY RATE

1. The Distribution Charge shall be an amount negotiated between Company and Customer, but the rate shall not be set lower than the incremental cost plus some additional amount as a reasonable return on investment the Company incurs to serve the Customer. The distribution charge also shall include any capital recovery mechanism. The distribution charge shall be determined by the Company based on Company's evaluation of competitive and overall economic market conditions and the opportunity for the Company to expand its system into areas not served with gas as applicable. Such evaluation may include, but is not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's alternate fuel or energy source; the nature of the Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.); and the opportunity to extend gas service to areas not supplied with gas. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes.

2. The Commodity Charge shall be the rate per therm for gas used computed to be the incremental cost of purchasing or producing gas, if taking supply from the Company.

3. The Company may permit the Customer to combine the accounting for the gas load delivered to multiple meters serving the same premise for this service.

INTERRUPTION AND CURTAILMENT

In addition to the interruption and curtailment terms in the Rules and Regulations or the Company's Curtailment Plan, the Company shall have the right to curtail deliveries to Customer pursuant to this Rate Schedule:

1. If in the Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

2. in the event Company is notified by its supplier or pipeline transporter to interrupt or curtail deliveries to Customer, or deliveries of gas for uses of the same type or category as Customer's use of gas hereunder; or

3. when necessary to maintain the operational reliability of Company's system.

CONFIDENTIALITY

The Company and Customer each regard the terms and conditions of the negotiated service agreement as confidential, proprietary business information.

The Company and Customer will utilize all reasonable and available measures to guard the confidentiality of said information, subject to the requirements of courts and agencies having jurisdiction hereof.

LOAD ENHANCEMENT SERVICE (LES)
(Continued)

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the tariff, except to the extent modified under this Rate Schedule and / or in a service agreement but such modification or exemption shall not apply to the minimum perquisite requirements set forth in the Applicability section of this Rate Schedule.

2. Term of Agreement: If the provision of service hereunder requires the installation of gas equipment at Customer's facility, Company and Customer may enter into an agreement as to the terms and conditions regarding the reimbursement of costs relating to such equipment. The initial term of the service agreement shall, at a minimum, be equal to the period of cost reimbursement. The rates established in the Monthly Rates section may be adjusted to provide for such cost reimbursement to the Company including carrying costs.

3. No later than 180 days prior to the expiration of this special contract, a Customer served under an LES contract may request a new contract under the terms and conditions of this tariff provision. If an agreement is not reached by the end of the term, the agreement will convert to the applicable General Services tariff (based on volume) until a new contract has been approved by the FPSC and executed by the parties.

4. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

5. When entering into a service agreement with a Customer under this Rate Schedule, Company will take reasonable steps to mitigate the potential of any revenue shortfalls between the revenues received under a service agreement and the total cost and expenses relating to the associated capital investment made by the Company, including minimum annual requirement.

6. The difference between the otherwise applicable tariff rate and the approved contract rate under this Rate Schedule may be subject to recovery through Rider "C", Competitive Rate Adjustment ("CRA").

THIRD PARTY SUPPLIER (TPS)

APPLICABILITY

The provisions of this Rate Schedule shall apply to brokers, marketers, Customers intending to act as their own gas supplier, and other third party suppliers (collectively "Third Party Suppliers" or "TPS") of natural gas that wish to either act as agents for Transportation Customers or deliver natural gas supplies to Company's City Gate for Transportation Customers. Third Party Suppliers wishing to sell and/or deliver gas on the Company's system will be required to sign a Service Agreement in which they will agree to be bound by the terms and conditions of the Company's Tariff.

TERM OF CONTRACT

The term of the contract shall be at least three (3) years and from month to month thereafter unless terminated on thirty (30) days written notice.

TERMS OF PAYMENT

The TPS agrees to pay for all balancing and other transportation related charges determined by the Company to be billable to a TPS on behalf of their Customers as provided for in this tariff. All charges due from a TPS under this Rate Schedule shall be paid in full within 20 days of the billing date. The TPS and the Company will resolve any disputed amounts. Adjustments, if any, will be reflected on future billings.

CREDITWORTHINESS

Company shall not be required to permit any TPS who fails to meet Company's standards for creditworthiness to sell or deliver gas on its system. Company may require that TPS provide the following information:

1. Current financial statements (to include a balance sheet, income statement, and statement of cash flow), annual reports, 10-K reports or other filings with regulatory agencies, a list of all corporate affiliates, parent companies and subsidiaries and any reports from credit agencies which are available. If audited financial statements are not available, then TPS also should provide an attestation by its chief financial officer that the information shown in the un-audited statements submitted is true, correct and a fair representation of TPS's financial condition.

2. A bank reference and at least three trade references.

3. A written attestation from TPS that it is not operating under any chapter of the bankruptcy laws and is not subject to liquidation or debt reduction procedures under state laws, such as an assignment for the benefit of creditors, or any informal creditor's committee agreement. An exception can be made for a TPS who is a debtor in possession operating under Chapter XI of the Federal Bankruptcy Act but only with adequate assurances that any charges from the Company will be paid promptly as a cost of administration.

THIRD PARTY SUPPLIER (TPS)
(Continued)

CREDITWORTHINESS (Continued)

4. A written attestation from TPS that it is not subject to the uncertainty of pending litigation or regulatory proceedings in state or federal courts which could cause a substantial deterioration in its financial condition or a condition of insolvency.

5. A written attestation from TPS that no significant collection lawsuits or judgments are outstanding which would seriously reflect upon the TPS's ability to remain solvent.

To remain in good standing, no uncontested delinquent balances should be outstanding for natural gas sales, storage, Transportation Services, or imbalances previously billed by Company, and TPS must have paid its account according to the established terms, and not made deductions or withheld payment for claims not authorized by contract.

TPS shall furnish Company at least annually, and at such other time as is requested by Company, updated credit information for the purpose of enabling Company to perform an updated credit appraisal. In addition, Company reserves the right to request such information at any time if Company is not reasonably satisfied with TPS's creditworthiness or ability to pay based on information available to Company at that time.

Company shall not be required to permit and shall have the ability to suspend any TPS who is or has become insolvent, fails to demonstrate creditworthiness, fails to timely provide information to Company as requested, or fails to demonstrate ongoing creditworthiness as a result of credit information obtained; provided, however, TPS may continue to sell / deliver gas on the Company's system if TPS elects one of the following options:

(A) Payment in advance for up to three (3) months service as determined by the Company.

(B) A standby irrevocable letter of credit in form and substance satisfactory to Company in a face amount up to three (3) months service. The letter of credit must be drawn upon a bank acceptable to Company.

(C) A guaranty in form and substance satisfactory to Company, executed by a person that Company deems creditworthy, of TPS's performance of its obligations to Company.

(D) Such other form of security as TPS may agree to provide and as may be acceptable to Company.

THIRD PARTY SUPPLIER
(TPS)
(Continued)

CREDITWORTHINESS (Continued)

In the event TPS fails to meet the terms of this Creditworthiness section, Company may, without waiving any rights or remedies it may have, and subject to any necessary authorizations, suspend TPS until such time as they are deemed compliant by the Company.

The insolvency of a TPS shall be evidenced by the filing by TPS, or any parent entity thereof, of a voluntary petition in bankruptcy or the entry of a decree or order by a court having jurisdiction adjudging the TPS, or any parent entity thereof, bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of the TPS, or any Parent entity thereof, under the Federal Bankruptcy Act or any other applicable federal or state law, or appointing a receiver, liquidator, assignee, trustee, sequestrator, (or similar official) of the TPS or any parent entity thereof or of any substantial part of its property, or the ordering of the winding-up or liquidation of its affairs.

MONTHLY RATE

Customer Charge	$400.00
Charge for each Transportation Customer served by the TPS	$6.21

DETERMINATION OF THE AVERAGE DAILY DELIVERY QUANTITY ("ADDQ")

The ADDQ for each Customer without an AMR device will be calculated by the Company by dividing the Customer's usage for each of the most recent twelve (12) billing months by the total number of days in each billing month. Company may adjust Customer's ADDQ at any time, due to changes in Customer's equipment or pattern of usage. For new Customers, the initial ADDQ will be estimated by Company, based upon the rating of the Customer's gas equipment and expected utilization of the equipment. The TPS will be obligated to deliver the aggregate ADDQ each day for Customers it serves.

The Company will notify TPS of its aggregate ADDQ obligation for each day of the next succeeding month on the Company's EBB, or other means as determined by the Company. If TPS does not agree with Company's determination of TPS's aggregate ADDQ, it must notify the Company in writing within two business days no later than 5:00 p.m. Eastern Standard Time. Company and TPS will reconcile any differences no later than 5:00 p.m. Eastern Standard Time on the twentieth (20th) of the month.

THIRD PARTY SUPPLIER (TPS)
(Continued)

NOMINATIONS FOR SERVICE

The TPS daily nominations shall consist of the ADDQ amount as provided by the Company, if applicable, plus an amount to meet their non-ADDQ Customers daily requirements. The TPS shall use its best efforts to match their daily nominations to ADDQ and non-ADDQ requirements for the Customers it serves. Failure to provide nominations may result in suspension of service to Customers of the offending TPS. In addition, TPS must identify interstate pipeline contract(s) on which deliveries will be made to the Company's distribution system on the Company's EBB conforming with NAESB cycles. Failure to comply with the Company's nominating procedures may result in curtailment of third party gas deliveries or additional monthly cash-outs. Company reserves the right to require daily balancing, and shall have the right to curtail service to ensure deliveries on a uniform basis and to correct any imbalances.

Company shall be entitled to retain at no cost to Company a percentage of the quantity of gas delivered by or for the account of Customer at each Receipt Point for transportation to Customer, as gas which shall be deemed to be an allowance for transportation shrinkage in the performance of service under each applicable Rate Schedule. Such percentage shall not be higher than 1.5% without prior approval of the Florida Public Service Commission. The Companyshall have the right to adjust the percentage from time to time to reflect the actual operating experience of the Company and/or any change in the methodology used by Company to calculatethe amount of gas deemed as transportation shrinkage. Upon request, Company shall furnish toCustomer information to support any such adjustment to such percentage.

In making Nominations the TPS shall provide the following:

(1) The pipeline company and the pipeline transportation contract identifiers under which gas deliveries will be made to the Company's distribution system.

(2) The daily quantity of gas, expressed in MMBTU (Dekatherms), to be tendered at each receipt point, however the Company reserves the right to specify at which pipeline receipt point a TPS will deliver gas as a percentage of the TPS total monthly deliveries.

(3) The estimated term of thenomination.

(4) The name, address, and telephone number of a contact person that is available to receive communication from Company at any and all times and upon whose written and oral communications Company may exclusively rely.

THIRD PARTY SUPPLIER (TPS)
(Continued)

NOMINATIONS FOR SERVICE (Continued)

(5) Any additional information as may be required by the Company in order to perform its functions as a Delivery Point Operator on the pipeline transportation system.

If Customer's TPS fails to comply with provisions 1 through 5 above, Company may not schedule the commencement of service or change a prior nomination.

DAILY NOMINATION PENALTIES

The TPS shall deliver, or cause to be delivered, to the Company at the point(s) of receipt and receive, or cause to be received, from Company at the point(s) of delivery, on a uniform daily basis, that quantity of natural gas that has been Nominated for Service.

Except for conditions of Force Majeure or per prior agreement with the Company to modify nominations, on any day that the sum of the actual daily quantity of natural gas received by Company ("Actual Receipts") varies from the sum of daily quantities Nominated for Service during such day for transportation at the points of receipt (Scheduled Volumes) by more than ten percent of the Nominated Receipts, the Company may impose a penalty equal to Unauthorized Gas Use charge times the variance in excess of ten percent of the Nominated Receipts unless in its opinion the system or Customers receiving PGA service were not harmed as a result of the imbalance. The Company reserves the right to limit this imbalance to five percent upon twenty four hours notice to the TPS representatives.

These charges are in addition to monthly cash-outs and any other imbalance charges and convey no rights to any quantities of gas to the TPS or its Customers. In the event of non-payment, these charges shall not be assessed to the TPS Customers by the Company. In addition, the Company shall not be required to continue to perform service for TPS Customers if their TPS fails to deliver adequate gas supplies per their daily nominations. The Company reserves the right to discontinue receipts from a TPS until the penalty is paid in full.

PIPELINE IMBALANCES AND CHARGES

Company and TPS recognize that Company may be subjected to imbalance charges from its interstate pipeline suppliers as a result of TPS's failure to deliver confirmed quantities of gas. In the event that Company is assessed penalties as a result of TPS's actions or omissions, TPS shall reimburse Company for such penalties as may be attributable to TPS's actions or omissions. The Company reserves the right to commingle and charge TPSs on a prorated basis, as determined by the Company, any pipeline charges related to transportation that are not readily identifiable to a specific TPS.

THIRD PARTY SUPPLIER (TPS)
(Continued)

INDEMNIFICATION

As between the Company and TPS, TPS warrants that it has clear title to any gas delivered into the Company's system, and TPS shall be deemed to be in exclusive control and possession of gas prior to its delivery into the Company's system for redelivery to Customer. TPS agrees to indemnify, defend and hold harmless Company from any and all claims, suits or damage actions arising out of deliveries on behalf of a transporting Customer.

ALLOCATION OF SUPPLIES

Gas received by the Company from the TPS shall be allocated first to the GS classes being served under ADDQ in the order of increasing annual usage, then to NGV followed by the remaining GS classes in the order of increasing annual usage, then by KDS and lastly to FGS Customers.

DAILY AND MONTHLY CONTRACT BALANCING

Third Party Suppliers will be billed for all their Customers' balancing charges as follows:

a) Daily Imbalance Charge

The Company shall, within the existing limitations of its system, provide for balancing between gas requirements and actual gas deliveries, net of an adjustment for Company Use and Unaccounted for Gas, received by the Company for the account of the Customers served by the TPS that day. The Company shall not be obligated to provide gas service during an hourly, daily or monthly period in excess of the levels specified in the Rate Schedules under which Customers of the TPS are served.

The Company reserves the right to require daily balancing on any other day in which the Company, in the exercise of its reasonable judgment, determines that such balancing is necessary for operational reasons. The Company will provide the TPS in all instances with at least twenty-four (24) hours advance notice that daily balancing will be imposed.

In the event that daily balancing is imposed in accordance with this section, TPS shall be assessed the following charges for daily imbalances:

	Imbalance *	Charge **
	0% to 5%	$0.00 per therm
	5.1% to 10%	$0.10 per therm
Underdeliveries	> 10%	$0.50 per therm
Overdeliveries	> 10%	$0.10 per therm

THIRD PARTY SUPPLIER (TPS)
(Continued)

DAILY AND MONTHLY CONTRACT BALANCING (Continued)

a) Daily Imbalance Charge (Continued)

*The Company reserves the right to limit daily imbalances to plus or minus 5% of the actual quantity received. If the Company limits daily imbalances to plus or minus 5%, all underdeliveries in excess of 5% shall be considered Unauthorized Gas Use and shall be subject to the Unauthorized Gas Use charges.

**The Company may suspend overdelivery charges if it determines such overdeliveries would be beneficial to the systems operation.

All TPSs will automatically be placed in a non-discriminatory daily balancing pool. The Company will aggregate the deliveries and receipts of gas of all TPS Customers participating in the pool for the purpose of determining whether imbalance charges will apply. In the event that charges are nonetheless assessed to certain TPSs, such charges will be no greater than the charges that otherwise would have been assessed if the Company did not have a daily balancing pool. TPSs trading imbalances will nonetheless have to set their own prices or methods by which over or under balances will be traded among individual TPSs.

b) Monthly Imbalance Cash-Out Charge

At the conclusion of every month, the Company will cash out imbalances between TPS's deliveries and their Customers consumption made up of actual and or estimated volumes as follows:

Imbalance Level	Underdeliveries (1) Factor	Overdeliveries (2) Factor
0 to 5%	1.00	1.00
5.1% to 20%	1.10	0.90
> 20%	1.20	0.80

The Company reserves the right to gross up Customer's total consumption for fuel loss at a rate not to exceed 1.5%.

(1) For underdeliveries the amount due to the Company shall be the Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor and the applicable price per therm. The price per therm shall be the higher of the total GS-25k Sales Service rate or the monthly average spot price of gas delivered to Florida Gas Transmission at St. Helena Parish, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Company will file to change its tariff and may, at its discretion, select a representative price in the interim period, subject to FPSC approval.

THIRD PARTY SUPPLIER (TPS)
(Continued)

DAILY AND MONTHLY CONTRACT BALANCING (Continued)

b) Monthly Imbalance Cash-Out Charge (Continued)

(2) For overdeliveries the amount payable by the Company shall be the Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor and the applicable price per therm. The price per therm shall be the Company's lowest supplier commodity rate applicable to the billing month in which the Customer over tendered gas to the Company, or the monthly average spot price for gas delivered to Florida Gas Transmission at Tivoli, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Company will file to change its tariff and may, at its discretion, select a representative price in the interim period, subject to FPSC approval.

The offering of gas service above the 5% allowed imbalance for the month is at the sole discretion of the Company. If it determines that it cannot continue to provide such service or that it must limit such service, it will notify TPSs served under this Rate Schedule. The use of service above the level allowed by the Company after notification shall constitute Unauthorized Gas Use and shall be subject to the Unauthorized Gas Use charges specified in the Rules and Regulations section of this tariff.

CAPACITY ASSIGNMENT

TPSs will be required to obtain firm interstate pipeline capacity into the Company's distribution system at points designated by the Company at a quantity equivalent to their Customers' aggregate ADDQ. TPSs that do not demonstrate sufficient interstate firm capacity will be required to accept assignment of such capacity from the Company to the extent that it's available, and consistent with the capacity assignment process outlined in the Rules and Regulations Section 15 (Transportation – Special Conditions) section of the tariff.

Refer to Rules and Regulations Section 15 (Transportation – Special Conditions) for the terms associated with the Capacity Assignment process for TPSs.

TREATMENT OF REVENUE

All revenue produced under this Rate Schedule derived from any balancing charges or other revenue related to the recovery of gas costs, exclusive of applicable taxes and assessments, shall be credited to the Purchased Gas Adjustment Clause.

STANDARDS OF CONDUCT

In addition to the above terms and conditions, TPS' must agree to comply with any standards of conduct or other requirements set forth by the Florida Public Service Commission.

TRANSPORTATION SUPPLY SERVICE (TSS)

APPLICABILITY

Service is available to a TPS who signs a service agreement with the Company.

CHARACTER OF SERVICE

At the Company's discretion gas will be made available for this service only to the extent that such gas supplies can be incrementally purchased providing that Company facilities are suitable and gas supplies can be secured for this service. The Company reserves the right to interrupt this service upon two (2) hours notice at its sole discretion.

*CHARGES

1. An Annual Service Charge of $500 shall be assessed upon the initial request for this service. This charge will be reassessed for subsequent requests made after June 30 of any year.

2. A Daily Usage Charge of $50.00 shall be assessed for each day this service is utilized.

3. The Commodity rate per therm for gas used shall be computed to be the higher of a) the PGA or b) the incremental cost of purchasing or producing said gas plus $0.0750 per therm.

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company.

TERMS OF PAYMENT

Bills are due upon receipt by the TPS and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS

1. Gas Supply: gas purchased for sale under this Rate Schedule shall not be included as part of the gas costs that are recoverable through the PGA Charge.

2. Balancing: gas supplied under this rate schedule shall be deemed a gas delivery by the TPS for purposes of applying the Daily and Monthly Contract Balancing terms of the TPS Rate Schedule.

TRANSPORTATION SUPPLY SERVICE (TSS)
(Continued)

SPECIAL CONDITIONS (Continued)

3. Rules and Regulations: service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the tariff, except to the extent modified under this Rate Schedule and / or in a service agreement.

Florida City Gas
FPSC Natural Gas Tariff — First Revised Sheet No. 70
Volume No. 11 — Cancels Original Sheet No. 70

OFF-SYSTEM SALES SERVICE (OSS)

AVAILABILITY

Throughout the service areas of Company, and of any interstate or intrastate gas pipeline serving the Company (collectively, the "Pipelines")

APPLICABILITY

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

CHARGES

Customer Charge	None
Transaction Charge	$100.00 per transaction
Commodity Charge	As set forth below

For all Scheduled Quantities (as such term is defined in Special Condition 4 below), the Commodity Charge per therm shall be established by agreement between Company and Customer prior to each transaction pursuant to this Rate Schedule.

The Commodity Charge for service pursuant to this Rate Schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to service Customer: the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Companymay from time to time increase or reduce the Commodity Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have not an obligation to do so.

The Commodity Charge per therm shall include, at a minimum, the cost per therm of the Gas delivered to Customer pursuant to this Rate Schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation and all applicable taxes. Company's Purchase Gas Cost Recovery Adjustment Clause, Energy Conservation Cost Recovery Clause and Competitive Rate Adjustment Clause shall not apply to purchases of Gas made by Customer Pursuant to this Rate Schedule.

OFF-SYSTEM SALES SERVICE (OSS)
(Continued)

SPECIAL CONDITIONS

1. Neither Customer nor Company shall have any obligation to other for any specific minimum quantity of Gas or pipeline capacity on any day or during any month, and deliveries pursuant to this Rate Schedule shall be subject to curtailment or interruption at any time in the sole discretion of Company.

2. Disposition of Net Revenues and Transaction Charges. For purposes of this paragraph "net revenues" shall equal the difference between the Commodity Charge and the cost of gas delivered to Customer inclusive of all taxes and adjustments. Fifty percent (50%) of all net revenues shall be retained by Company. The remaining fifty percent (50%) of such net revenues (and all Transaction Charges) shall be used to reduce Company's cost of gas recovered through the Purchased Gas Cost Recovery Adjustment Clause.

3. Interruption and Curtailment. Company may notify Customer at any time to reduce or cease using gas. Company will endeavor to give as much notice as possible to Customer. Any gas taken in excess of the volume allocated to Customer in an interruption or curtailment order shall be considered Unauthorized Gas Use. Company may bill and Customer shall pay for such unauthorized use per the charges in the Rules and Regulations - Unauthorized Gas Use section.

4. For each day on which Customer desires to receive service pursuant to this Rate Schedule, Customer shall provide a nomination to Company specifying the quantity of Gas it desires to receive at the specified point of delivery pursuant to this Agreement. Following receipt of a timely and complete nomination from Customer, Company will confirm the quantities of Gas to be made available for delivery to Customer at such point of delivery. Quantities confirmed by Company for delivery shall be "Scheduled Quantities".

5. The point of delivery for all gas sold pursuant to this Rate Schedule shall be the delivery point of the delivering Pipeline specified by Customer.

6. Except as modified by the provisions set forth above, service under this Rate Schedule shall be subject to the Rules and Regulations set forth in this tariff.

Economic Development Gas Service (EDGS)

AVAILABILITY

Service under this Schedule is available, in conjunction with other applicable Commercial or Industrial rate schedule, to any qualifying person that meets the eligibility requirements.

APPLICABILITY

To receive service under this Rate Schedule, the Customer's written application to the Company shall include sufficient information to permit the Company to determine the Customer's eligibility.

Eligibility Requirements: A qualifying person must intend to become a new Customer with the intent to utilize gas to provide significant economic development or environmental benefits within the State of Florida or in a manner that increases system utilization; be an existing Customer that materially expands its use of gas, that provides significant environmental or economic development benefits within the State, or that increases system utilization; or be a new or existing Customer that meets other criteria as determined appropriate by the Florida Public Service Commission.

Significant Economic Benefit: Customers must intend to: create new jobs or avoid potential job reductions in the State; be identified as a prospect by applicable state, county or municipal economic development entity; or otherwise provide material benefits in the areas' economic development.

Significant Environmental Benefit: Customers must intend to: install or modernize equipment that uses energy more efficiently; reduce carbon emissions; achieve goals under a State or Federal Energy Plan or Policy as may be established from time to time; or otherwise intend to provide measureable benefits to improve Florida's environment.

Qualifying Volumes: To be eligible for service under this rate schedule a new Customer must contract to purchase and/or transport at least 1,000 Dth annually. An existing Customer must contract to purchase and/or transport of at least 1,000 Dth of additional gas annually. The increase in the volume of gas purchased or transported shall result from an in increase in business activity and not merely from the resumption of normal operations following a period of abnormal operating conditions. If in the Company's sole judgement an abnormal period has occurred as a result of a strike, equipment failure, or any other abnormal condition during the twelve (12) month period prior to the date of the application by the Customer for service under this rate schedule, the Company shall adjust the Customer's consumption to eliminate any abnormal conditions. The Company, through use of historical data shall determine the base annual consumption for existing Customers. Volumes in excess of the base annual consumption shall be used to evaluate the eligibility of the Customer to receive service under this rate schedule. Loads which are or have been served by the Company during all or part of the twelve (12) month period prior to service under this Rate Schedule, and which are relocated to another metering point within the Company's service area, shall not qualify for this Rate Schedule.

Economic Development Gas Service (EDGS)
(Continued)

The existing facilities of the Company must be adequate in the sole judgment of the Company to supply the new or expanded gas requirements. If construction of new or expanded local facilities by the Company is required, the Customer may be required to make a Contribution in Aid of Construction for the installed cost of such facilities. The Company will evaluate the Customer's request for service and determine the necessity of a Contribution in Aid of Construction for facilities based on the Extension of Facilities provisions in the Company's filed tariff.

The Customer must execute a contract for service under this tariff for a minimum of 10 years.

All other terms and conditions of the companion rate schedule under which service would otherwise be provided shall apply to service provided under this rate schedule.

The Company shall review the Customer's consumption each year to determine whether the Customer has fulfilled the usage requirement to be eligible for service under this rate schedule. If, on an annual basis, the Customer fails to fulfill the usage requirement for service under this tariff future service may be provided under the applicable rate schedule that would otherwise apply.

CUSTOMER CHARGE

A full monthly Customer charge per meter as provided under applicable companion tariff is payable regardless of the usage of gas.

MONTHLY RATE

The non-gas charges that would be billed in accordance with the applicable rate schedule that would otherwise apply to the qualifying volumes if service was not providing under this rate schedule shall be multiplied by the following Adjustment Factors to determine the monthly bill related to the qualifying volumes. For a new Customer the factor will be applied to the charges for the total volume delivered. For an existing Customer, the factor will be applied to the charges applicable to the volume in excess of the base annual volumes. For monthly billing purposes, 1/12th of the base annual volume shall be deducted from actual measured consumption to determine the volume eligible for the discounted factor. The factor will not be applied to the monthly Customer charge.

Contract Year	Billing Months	Adjustment Factor	Discount from Companion Rate Schedule
1	1st through 12th	60%	40%
2	13th through 24th	70%	30%
3	25th through 36th	80%	20%
4	37th through 48th	90%	10%
	Beyond the 48th Month	100%	0%

Economic Development Gas Service (EDGS)
(Continued)

If the volume of gas purchased or transported in a contract year is less than the volume specified in the contract, the difference in the actual volume and the volume specified in the contract shall be deemed a volume deficiency. For any volume deficiency, the Customer shall be billed an amount equal to the non-gas volumetric charge that would have been billed for the delivery of the volume equal to the deficiency. The bill shall be computed in accordance with the applicable rate schedule that would otherwise apply subject to the discount provided under this rate schedule.

PAYMENT TERMS

All bills for service are due upon presentation. The stated net amount shown on the bill shall apply if payment is received on or before the date as specified on the bill. Payments received after that date shall be assessed late payment charges as defined in Section 7 on Sheet No. 13 of the Company's tariff.

BILLING ADJUSTMENTS

Bills for gas service hereunder shall be subject to adjustment for the applicable taxes, fees, and the cost of purchased gas in accordance with Purchased Gas Adjustment (PGA), and shall be subject to other adjustments, charges and/or credits as determined to be applicable to the applicable rate schedule under which the Customer would otherwise be served. The adjustment factor provided under this rate schedule will not be applied to the PGA and other adjustments factors.

RENEWABLE NATURAL GAS SERVICE (RNGS)

AVAILABILITY:

Throughout the service areas of the Company.

CHARACTER OF SERVICE:

Service provided by the Company for the purpose of conditioning and upgrading Customer's biogas to Renewable Natural Gas ("RNG") such that the RNG can be utilized onsite by Customer and/or to be delivered into Company's distribution system for transportation and delivery.

APPLICABILITY:

Service under this Rate Schedule ("RNG Service") is available to eligible Customers that produce biogas to be utilized as RNG onsite by the Customer or delivered into the Company's distribution system for transportation and delivery pursuant to Rate Schedules GS-1, GS-6K, GS-25K, GS-120K, GS-1250K, GS-11M, GS-25M, KDS or NGV-II to a compressed natural gas station or other point of delivery on the Company's system. Service under this Rate Schedule is contingent upon the Company and the Customer entering a mutually satisfactory RNG Service Agreement; provided, however, that in no event shall the service provided to the Customer under this Rate Schedule cause any additional cost to the Company's other rate classes.

RNG SERVICE AGREEMENT:

The terms of service, including design, location, quantity, gas quality specification, operation of facilities and the Monthly Service Charge, will be set forth in a mutually satisfactory agreement between the Company and the Customer ("RNG Service Agreement"). The RNG Service Agreement may require commitment(s) by the Customer to purchase RNG Service for a minimum period of time, to take or pay for a minimum amount of RNG Service, to make a contribution in aid of construction, to furnish a guarantee, such as a surety bond, letter of credit or other means of establishing credit, and/or to comply with other provisions as determined appropriate by the Company. Absent an RNG Service Agreement with the Company under this Rate Schedule, the Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule.

MONTHLY SERVICES CHARGE:

The Monthly Service Charge shall be an amount negotiated between the Company and the Customer, but in no event shall Monthly Service Charge cause any additional cost to the Company's other rate classes. The Monthly Charge shall be set in a manner to allow the Company to recover the total installed cost of the facilities required to provide RNG Service plus the carrying costs at the Company's overall cost of capital, which facilities

RENEWABLE NATURAL GAS SERVICE (RNGS)
(Continue)

may include, but are not limited to, blowers, chillers, condensate removal equipment, compressors, heat exchangers, driers, digesters, gas constituent removal equipment, quality monitoring equipment, storage vessels, controls, piping, metering, propane injection, and any other related appurtenances including any redundancy necessary to provide reliable RNG Service.

DELIVERY CHARGE:

In addition to the Monthly Service Charge, the Company will also collect the applicable tariff rate for any volume of RNG that is delivered, into the Company's distribution system for transportation and delivery on behalf of the Customer at the Customer's request. In the event service is provided under Rate Schedule KDS, the delivery charge shall be an amount negotiated between the Company and Customer, but the rate shall not be set lower than the incremental cost the Company incurs to redeliver Customer's gas back to the Customer.

ELECTRIC AND FUEL REIMBURSEMENT CHARGE:

The Company's provision of RNG Service does not include the provision of electricity, natural gas, or any other fuels required to operate the RNG facilities or to be added to the RNG produced by the Customer. The Customer shall reimburse Company for all such electricity and other fuel expenses incurred by Company to provide RNG Service to Customer under this Rate Schedule.

SPECIAL CONDITIONS:

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the Company's tariff, except to the extent modified under this Rate Schedule and / or in an RNG Service Agreement.

2. All Customer RNG that is delivered into Company's distribution system for transportation and delivery must (i) meet the gas quality standards defined in Florida Gas Transmission's tariff in effect and applicable at the time the RNG Service Agreement entered and (ii) have an acceptable heat content such that the RNG delivered into the Company's distribution system does not, as determined in the sole discretion of the Company, impact the Company's ability to deliver Gas on the order of 1,100 British Thermal Units per cubic foot.

3. Each year the Company shall re-determine the Rate Schedule applicable to the transportation and delivery of the Customer RNG based on the Customer's annual usage. If the Company determines that the Customer should be reclassified to a different Rate Schedule for the transportation and delivery of RNG, such reclassification shall be prospective only.

RENEWABLE NATURAL GAS SERVICE (RNGS)
(Continue)

4. A Gas Chromatograph and Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

OWNERSHIP OF RNG COMMODITY:

Unless otherwise agreed to between a Customer and the Company, ownership of the RNG commodity will remain with the Customer through all phases of any services the Company provides unless Company and Customer enter into a RNG commodity purchase agreement.

Florida City Gas
FPSC Natural Gas Tariff — Fifth Revised Sheet No. 75
Volume No. 11 — Cancels Fourth Revised Sheet No. 75

RIDER "A"

Purchased Gas Adjustment ("PGA")

Applicable to all Customers taking Sales Service from the Company under all GS, GL, RSG, CSG and NGV Rate Schedules. The PGA Charge, as defined herein, is designed to recover the cost tothe Company of purchased gas or fuel used as a substitute for or supplemental to purchased gas including the cost of storing or transporting said gases or fuel, the cost of financial instruments employed to stabilize gas costs, other charges or credits as may result from the operation of other tariff provisions, and taxes and assessments in connection with the purchase and sale ofgas.

A. The rate per therm for gas supplied in any billing period shall be adjusted by the Company's expected weighted average cost of gas (WACOG), and other adjustments as specified and approved by the Florida Public Service Commission. The WACOG may not exceed the Commission approved purchased gas cost recovery factor based on estimated gas purchases for the twelve-month period ending December 31st, in accordance with the methodology adopted by the Commission. The factor determined as set forth above shall be multiplied by 1.00503 for regulatory fees, and rounded to the nearest $0.00001 per therm, to be applied to the total number of therms consumed by the Customer during the billing period.

B. The PGA cap recovery factor approved by the Commission for the billing months of January 2023 through December 2023 is $1.71261per therm.

C. If re-projected gas cost expenses for the remaining period exceed projected recoveries by at least 10% for the twelve-month period, a midcourse correction may formally be requested by the Company. For changes in market conditions and costs, the Company, upon one day's notice to the Commission, shall have the option of flexing downward (reducing the WACOG) or upward (increasing the WACOG) to the extent that the increase does not exceed the authorized cap. The current month WACOG may be adjusted for prior months' differences between projected and actual costs of gas purchased, but may not exceed the approved cap for the period.

D. Any overrecovery or underrecovery of purchased gas costs by the Company as a result of adjustments made pursuant to the above shall be "trued-up" (refunded to Customer or collected by Company) with interest, during succeeding billing periods as an adjustment to the WACOG, in accordance with the methodology adopted by the Commission, or as such methodology may beamended from time to time by further order of the Commission.

Florida City Gas
FPSC Natural Gas Tariff

Fifth Revised Sheet No. 76
Cancels Fourth Revised Sheet No. 76

RIDER "B"

Energy Conservation Cost Recovery Adjustment("ECCR")

Applicable to all Customers served under the Rate Schedules shown in the table below except for those Customers receiving a discount under the AFD Rider.

The Distribution Charge for the applicable Rate Schedules shall be increased or decreased for the ECCR Rider to reflect the recovery of conservation related expenditures by the Company. The ECCR factor shall be multiplied by the tax factor of 1.00503 and rounded to the nearest $0.00001 per therm. The Company shall record both projected and actual expenses and revenues associated with the implementation of the Company's Energy Conservation Plan as authorized by the Commission. The procedure for review, approval, recovery, and recording of such costs and revenues is set forth in PSC Rule 25-17.015.

The cost recovery factors including tax multiplier for the twelve-month period from January 1, 2023 through December 31, 2023 are:

RS -1, RSG	$0.25615 per therm
RS -100	$0.16795 per therm
RS - 600	$0.09486 per therm
GS – 1, CSG	$0.05986 per therm
GS – 6K	$0.04463 per therm
GS – 25K	$0.04452 per therm
GS – 120K	$0.02987 per therm
GS – 1250K	$0.01939 per therm
GS – 11M – GS – 25M	$0.00000 per therm
Gas Lighting Customers	$0.07066 per therm

RIDER "C"

Competitive Rate Adjustment ("CRA")

Applicable to all Customers except those taking service under Rate Schedules KDS, TSS, OSS, LES or under the NGV special contract rate.

The Distribution Charge for gas sold or transported after June 30, 1991, to Customers to whom this charge applies, is subject to adjustment in accordance with the following provisions, for prior shortfalls or surpluses.

A. For the purposes of this clause, the following definitions shall apply:

(1) "Actual revenue" means Company's actual Margin Revenue derived from service provided on the LES Rate Schedule during a determination period.

(2) "Base revenue" means the Margin Revenue which Company would have derived had all gas sold on the LES Rate Schedule during a determination period, been sold under Rate Schedules GS-120K, GS-1,250K, GC-11M and GS-25M.

(3) "Surplus" means the amount, if any, by which Company's actual revenue exceeds its base revenue for a determination period.

(4) "Shortfall" means the amount, if any by which Company's base revenue exceeds its actual revenue for a determination period.

B. The existence of a shortfall or surplus shall be determined by comparing Company's actual revenue with its base revenue. This determination shall be made each year for the actual twelve months ending September 30th ("determination period").

C. A surplus refund or shortfall recovery shall be implemented during an "adjustment period" beginning January 1st by reducing or increasing the Distribution Charge per therm charge prescribed in each applicable Rate Schedule of this tariff by an adjustment factor computed as follows and multiplied by the tax factor of 1.00503 and rounded to the nearest $0.00001 per therm.

In the event of a surplus, subtract the amount derived from dividing the Surplus Refund due to Customers by the projected therm sales for these Customers.

In the event of a shortfall, add the amount derived from dividing the Shortfall Recovery by the projected therm sales for these Customers.

Any variation between the actual surplus refund to Customers and the amount calculated pursuant to the preceding paragraph, or between the actual shortfall recovery and the amount which Company elected to recover in an adjustment period, shall be "trued-up" during the succeeding adjustment period pursuant to methodology approved by the Commission.

D. Company may defer all or any portion of a shortfall recovery to a subsequent adjustment period or portion thereof.

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM

Applicable to all Customers served under the Rate Schedules shown in the table below except for those Customers receiving a discount under the AFD Rider.

Through its SAFE Program, the Company has identified the potential replacement projects focusing initially on area of limited access/pipe overbuilds, and risk assessment for Rear Lot Mains and Services considering:

i. The pipe material;
ii. Leak incident rates;
iii. Age of pipeline;
iv. Pressure under which the pipeline is operating.

The Eligible Infrastructure Replacement includes the following:

Company investment in mains and service lines, as replacements for existing Rear Lot Facilities, and regulatory station and other distribution system components, the installation of which is required as a consequence of the replacement of the aforesaid facilities that:

i. do not increase revenues by directly connecting new Customers to the plant asset;

ii. are in service and used and useful in providing utility service; and

iii. that were not included in the Company's rate base for purposes of determining the Company's base rates in its most recent general base rate proceeding.

The Company is recovering its revenue requirement on the actual investment amounts. The revenue requirements are inclusive of:

1. Return on investment as calculated using the following:

   a.) Equity balance from the most recent year-end surveillance report and the ROE and equity ratio cap from the most recent rate case:

   b.) Debt and customer deposit components from the Company's most recent year-end surveillance report; and

   c.) Accumulated deferred income tax balance from the Company's most recent year-end surveillance report as adjusted, if applicable, consistent with the normalization rules of the Internal Revenue Code.

2. Depreciation expense (calculated using the currently approved depreciation rates);

3. Customer and general public notification expenses associated with the SAFE Program incurred for:

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

i. all Customers regarding the implementation of the SAFE Program and the approved surcharge factors;

ii. the immediately affected Customers where the eligible infrastructure is being replaced; and

iii. the general public through publications (newspapers) covering the geographic areas of the eligible infrastructure replacement activities;

4. Ad valorem taxes; and

5. Federal and state income taxes.

The Company is utilizing a surcharge mechanism in order to recover the costs associated with the SAFE Program. The Company has developed the revenue requirement for the SAFE Program using the same methodology approved in its most recent rate case. The SAFE revenue requirement will be allocated to each Customer class (Rate Schedule) using allocation factors established by the Florida Public Service Commission for the SAFE Program. The per Customer SAFE surcharge is calculated by dividing the revenue requirement allocated to each Customer class by the number of Customers in the class.

The cost recovery factors including tax multiplier for the twelve-month period from January 1, 2023 through December 31, 2023 are:

Rate Class	Rates Per Customer
Rate Schedule RS-1	$0.44
Rate Schedule RS-100	$0.44
Rate Schedule RS-600	$0.44
Rate Schedule GS-1	$0.44
Rate Schedule GS-6K	$0.98
Rate Schedule GS-25K	$0.98
Rate Schedule GS-120K	$0.98
Rate Schedule GS-1,250K	$0.98
Rate Schedule GS-11M	$0.98
Rate Schedule GS-25M	$0.98
Rate Schedule GL	$0.44

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

Procedure for Establishing SAFE Revenue Requirements

The SAFE Revenue Requirements and any changes thereto shall be calculated and implemented in accordance with the provisions contained in this Rider. SAFE Revenues shall be subject to refund based upon a finding and order of the Commission to the extent provided in this Rider.

The Company shall calculate its SAFE Revenue Requirements annually in the manner prescribed by this Rider and shall file the appropriate petitions with the Commission seeking to establish or change the SAFE Revenue Requirements and Surcharge. The annual filings shall include the following:

1. An annual final true-up filing showing the actual Eligible Replacement costs and actual SAFE Revenues for the most recent 12-month historical period from January 1through December 31 that ends prior to the annual petition filing. As part of this filing,the Company shall include a summary comparison of the actual Eligible Replacementcosts and SAFE Revenues to the estimated total Eligible Replacement costs and SAFE Revenues previously reported for the same period covered by the filing in paragraph (2) of this section. The filing shall also include the final over- or under- recovery of total SAFE Revenue Requirements, with interest, for the final true-up period.

2. An annual estimated/actual true-up filing showing seven months actual and five months projected Eligible Replacement costs and any SAFE Revenues collected orprojected to be collected during the estimated/actual true-up period. The filing shall also include the estimated/actual over- or under-recovery of total Eligible Replacement costs, with interest, for the estimated/actual true-up period.

3. An annual projection filing showing 12 months projected SAFE Revenue Requirements for the period beginning January 1 following the annual filinghearing.

4. An annual petition setting forth proposed SAFE Revenue Requirements and Surcharges to be effective for the 12-month period beginning January 1 following the annual hearing. Such proposed SAFE Revenue Requirements and Surcharges shall take into account the data filed pursuant to paragraphs (1), (2), and (3) of this section.

The Company shall establish separate accounts or subaccounts for each Eligible Replacement for purposes of recording the costs incurred for each project. The Company shall also establish a separate account or subaccount for any revenues derived from SAFE Surcharges.

Cancels Third Revised Sheet No. 81

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

Calculation of the SAFE Revenue Requirements and SAFE Surcharges

In determining the SAFE Revenue Requirements, the Commission shall consider only (a) the net original cost of Eligible Replacements (i.e., the original cost); (b) the applicable depreciation rates as determined and approved by the Commission based on the Company's most recent depreciation study; (c) the accumulated depreciation associated with the Eligible Replacements; (d) the current state and federal income and ad valorem taxes; and (e) the Company's weighted average cost of capital as calculated on Tariff Sheet No. 78.

The SAFE Revenue Requirements shall be calculated as follows:

Line	Description	Value	Source
1	Revenue Expansion Factor	1.36420	As calculated in most recent base rate proceeding, using current tax rates
2	Ad Valorem Tax Rate	%	Effective Property Tax Rate for most recent 12 Months ended December 31
3	Mains	$	Eligible Replacement Mains
4	Services	$	Eligible Replacement Services
5	Regulators	$	Eligible Replacement Regulators
6	Other	$	Eligible Replacement Other
7	Gross Plant	$	L3+L4+L5+L6
8	Accumulated Depreciation	$	Previous Period Balance +L13
9	Construction Work In Progress	$	Non-interest Bearing
10	Net Book Value	$	L7-L8+L9
11	Average Net Book Value	$	(L10 + Balance From Previous Period)/2
12	Return on Average Net Book Value	$	L 11 X Company's calculated weighted average cost of capital
13	Depreciation Expense	$	Lines 3,4,5 & 6 X applicable approved Depreciation Rates
14	Property Tax	$	(L7-L8) X L 2
15	Customer and general public notification and other applicable expense	$	O&M expense incurred as a result of eligible plant replacement
16	SAFE Revenue Requirement	$	(L12+L13+L14+L15) X L 1

TECHNICAL TERMS AND ABBREVIATIONS

Alternate Fuel

A gas which provides an equivalent amount of energy computed on a "BTU" basis. It is not limited to any specified source of energy. Alternate fuel may include natural gas and, in the Company's opinion, any viable economic alternatives.

British Thermal Unit (BTU)

The quantity of heat required to raise the temperature of one pound of water one degree Fahrenheit at or near 39.2 degrees Fahrenheit.

Biogas

Combustible residues or gases from forest products manufacturing, waste, byproducts, or products from agricultural and orchard crops, waste or coproducts from livestock and poultry operations, waste or byproducts from food processing, urban wood waste, municipal solid waste, municipal liquid waste treatment operations, and landfill gas.

Commission or PSC

Unless otherwise indicated means the Florida Public Service Commission.

Company

Florida City Gas ("City Gas").

Customer

A person or entity who takes service from the Company under a Rate Schedule.

Essential Use

Consistent with "Priority 1 Use" as defined in Florida Gas Transmission's tariff.

Gas

Gas is any gas or mixture of gases suitable for domestic or industrial fuel and transmitted or distributed to the user through a piping system, including natural gas, manufactured gas, mixed gas, hydrogen gas, renewable natural gas, and liquefied petroleum gas distributed as a vapor with the admixture of air.

Manufactured Gas

Any gas artificially produced by any generating or processing equipment, exclusive of naturally occurring hydrocarbon gas.

Margin Revenue

Revenue derived from applying undiscounted rates from billing Customer Charges, Demand Charges and Distribution Charges to a Customer.

Mixed Gas

Any mixture of two or more gases of materially different physical character or chemical composition.

Natural Gas

Naturally occurring hydrocarbon gas mixture consisting primarily of methane, but commonly including varying amounts of other hydrocarbons occurring naturally underground and of a quality consistent with the specifications defined in Florida Gas Transmission's tariff.

January ~~5, 2021 General Manager,~~ Florida City Gas

(Continue)

Non-Residential Customers
Those Customers who are not Residential.

Renewable Natural Gas (RNG)
Biogas that has been conditioned and upgraded to a quality and standard such that it meets, in the sole view of the Company, the Company's gas quality and heat standards in effect and applicable at the time.

Residential Customers
All those Customers using gas service for domestic purposes, for use in single family dwellings, in separately metered housing units, or for use in commonly owned areas of condominium associations, cooperative apartments, and homeowner associations for non commercial uses.

Sales Service or Sales Customer
Customers receiving gas supply from the Company.

Therm
A unit of heating energy equivalent to one hundred thousand (100,000) British thermal units.

Transportation Service or Transportation Customer
Customers receiving gas supply from a Third Party Supplier.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 110 Original Sheet No. 8

RULES AND REGULATIONS

1. GENERAL

These Rules and Regulations of the Company shall supplement the Rules and Regulations of the Florida Public Service Commission governing service by gas public utilities. Where contradiction is developed as between interpretation of the Company's Rules and Regulations and the Commission's Rules and Regulations, the latter shall be deemed to override the former.

The Company shall furnish service to applicants under the filed rates and in accordance with these Rules and Regulations.

2. DEPOSITS TO GUARANTEE PAYMENT OF BILLS

For an existing account or premise, the Company requires an initial deposit of two (2) times the actual average monthly bill calculated by adding the monthly charges from the 12-month period immediately before the date any change in the deposit is sought, dividing this total by 12, and multiplying the result by 2. If the account or premise has less than 12 months of actual charges, the deposit shall be calculated by adding the available monthly charges, dividing this total by the number of months available, and multiplying the result by 2. For a new service or premise request, the total deposit may not exceed two (2) months of projected charges, calculated by adding the 12months of projected charges, dividing this total by 12 and multiplying the result by 2. Once the new Customer has had continuous service for a 12-month period, the amount of the deposit shall be recalculated using actual data. Any difference between the projected and actual amounts must beresolved by the Customer paying any additional amount that may be billed by the utility or the utility returning any overcharge. Credit in lieu of a cash deposit may be deemed satisfactorily establishedif the applicant for service furnishes a satisfactory guarantor, an irrevocable letter of credit from abank, or a satisfactory surety bond to secure payment of bills.

Interest will be paid by the Company on Customer deposits at the rate of 2 percent per annum. The Company will pay interest on Non-Residential Customer deposits at the rate of 3 percent per annum in cases where the Customer has established a satisfactory payment record and has had continuous service for a period of 23 months as consistent with PSC Rule 25- 7.083(6). The Company has the option of refunding deposits after 23 months. The amount of such interest due any Customer shall be credited to the Customer's bill at least annually or upon termination of service, provided the account has been active for at least six months and the deposit has been held for at least thatperiod.

The Company may charge, upon written notice of not less than 30 days, such notice being separate and apart from any bill for service, a new deposit where previously waived or returned, or an additional deposit, in order to secure payment of current bills.

When service is terminated, any balance of the amount deposited and interest accrued will be returned to the Customer; or the deposit may be returned at any time previous thereto at the option of the Company.

RULES AND REGULATIONS (Continued)

2. DEPOSITS TO GUARANTEE PAYMENT OF BILLS (CONTINUED)

Residential deposits will be returned after the Customer has had continuous service for a period of 23 months and has not in the preceding 12 months made more than one late payment of a bill, paid with a check refused by a bank, been disconnected for non-payment, tampered with the gas meter, or used service in a fraudulent or unauthorized manner. In each case where a refund is made the amount of the deposit and interest will be applied against any amount owed by the Customer and the balance refunded. At the option of the Customer, the deposit will be refunded in full after payment of the final bill.

All Commission Rules and Regulations pertaining to Customer deposits (PSC Rule 25-7.083) are incorporated herein by reference and those Commission Rules govern in the event of conflict with Company Rules herein.

3. METERING

The Customer shall provide a suitable location satisfactory to the Company for its metering equipment.

This location shall be convenient and accessible at all times to the Company for its meter readers and other agents. This location shall conform with all local, State and Federal requirements.

The representatives of the Company shall be given access to the premises of the Customer at all reasonable times for obtaining meter readings, for shutting off the flow of gas for reasons herein prescribed, for inspection of piping and appliances, and for inspecting, removing, repairing, or protecting from abuse or fraud any of the property of the Company installed on the premises, and particularly for emergency purposes.

The Company in its sole discretion may install, at its expense, an Automatic Meter Reading ("AMR") device to monitor a Customer's gas consumption. However, when gas is to be delivered at a pressure in excess of the Company's standard gauge pressure or such equipment is required by the Rate Schedule under which the Customer will receive service, the Company shall determine any necessary equipment inclusive of compensating and AMR devices, including devices capable of providing daily readings, to be installed at the Customer's expense. If an AMR device is requested by the Customer, the AMR device and any necessary appurtenances shall be installed at the Customer's expense if the installation is deemed feasible by the Company. When such devices require attachment to telephone and/or electric utilities, the Customer shall provide and pay for suitable connections unless the Company elects to make such connections.

Customer shall not tamper with or remove meters or other equipment or permit access thereto, except by authorized employees or agents of Company.

All equipment furnished by the Company shall remain its property and may be replaced whenever deemed necessary by the Company or as required by the Commission and may be removed by the Company at any time after discontinuance of service. Payments made by the Customer shall not give the Customer ownership of the equipment.

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

The Customer shall be liable to the Company for damage to or loss of meters, connections, or other Company property on their premises due to negligence or carelessness on the part of the Customer, members of their household, their agents, or employees

The gas supplied to any Customer shall be measured at the pressure existing at the meter. Gas supplied at other than the standard delivery pressure of the Company will be corrected to effect meter readings at the standard delivery pressure.

In the event of stoppage or failure of a meter to register the utility shall bill the Customer on an estimate of the gas used for a period not to exceed 12 months based on the Customer's past consumption.

In the case of unauthorized or fraudulent use, or meter tampering the utility shall bill the Customer on an estimate of the gas used, based on the Customer's past consumption or gas equipment at premised whichever is greater.

The Company will select the type and make of metering equipment and may, from time to time, change or alter such equipment. It shall be the obligation of the Company to supply meters that will accurately and adequately furnish records for billing purposes. Bills will be based upon registration of Company meters only.

With the exception of the following, the gas supplied to any Customer, under any of the Company's Rate Schedules, shall not be re-metered or sub-metered for sale either directly or indirectly. Under no conditions will service be rendered under any agreement whereby the Customer or their tenants resell the gas either within or without their premises, nor under conditionsby which gas is transmitted outside the premises under contract.

A. Residential Meter Reading

All Residential Customers shall be included in one of the Company's regularly scheduled meter reading cycles with each cycle being read every month through automated meter reading (AMR) devices. The AMR technology allows the Company to read meters remotely; however, if a read is not obtained the Customer's meter readings will be noted as estimated until the Company obtains an actual meter reading.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 110 Original Sheet No. 11

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

B. Meter Reading Estimates

Where the Company does not, for any reason, read the meter, the Company may estimate the amount of gas supplied based upon past usage, seasonal conditions, and other available information and submit a bill determined on that basis. Such a bill shall be marked as an estimated bill. Adjustment of Customer's estimated usage to actual usage shall be made when an actual reading is next obtained.

C. PSC Rule 25-7.071 Measuring Customer Service

PSC Rule 25-7.071 is included herein:

(1) All gas sold to Customers shall be measured by commercially acceptable measuring devices owned and maintained by the utility, except where it is impractical to meter loads, such as street lighting, temporary or special installations, in which case the consumption may be calculated, or billed on a rate or as provided in the utility's filed tariff.

(2)(a) Individual gas metering by the utility shall be required for each separate occupancy unit of new commercial establishments, Residential buildings, condominiums, cooperatives, marinas, and trailer, mobile home and recreational vehicle parks for which construction is commenced after January 1, 1987. This requirement shall apply whether or not the facility is engaged in a time-sharing plan. Individual meters shall not, however, be required:

i. In those portions of a commercial establishment where the floor space dimensions or physical configuration of the units are subject to alteration, as evidenced by non-structural element partition walls, unless the utility determines that adequate provisions can be made to modify the metering to accurately reflect such alterations;

ii. For gas used in central heating, central water heating ventilating and air conditioning systems, or gas back up service to storage heating and cooling systems:

iii. For gas used in specialized-use housing accommodations such as hospitals, nursing homes, living facilities located on the same premises as, and operated in conjunction with, a nursing home or other health care facility providing at least the same level and types of services as a nursing home, convalescent homes, facilities certificated under Chapter 651, Florida Statutes, college dormitories, convents, sorority houses, fraternity houses, motels, hotels, and similar facilities. For separate, specially-designated areas for overnight occupancy at trailer, mobile home and recreation vehicle parks where permanent residency is not established and for marinas where living aboard is prohibited by ordinance, deed restriction, or other permanent means;

RULES AND REGULATIONS (Continued)

3. METERING (Continued)

iv. In such multiple occupancy units which would require the provision of individual gas service above the second story, unless specifically requested.

(2)(b) For purposes of this Rule:

i. "Occupancy unit" means that portion of any commercial establishment, single and multi-unit Residential building, or trailer, mobile home or recreational vehicle park, or marina which is set apart from the rest of such facility by clearly determinable boundaries as described in the rental, lease or ownership agreement for such unit.

ii. "Time-sharing plan" means any arrangement, plan, scheme, or similar device, whether by membership, agreement, tenancy in common, sale, lease, deed, rental agreement, license, or right-to-use agreement or by any other means, whereby a purchaser, in exchange for consideration, receives a right to use accommodations or facilities, or both, for a specific period of time less than a full year during any given year, but not necessarily for consecutive years, and which extends for a period of more than three years.

iii. The construction of a new commercial establishment, Residential building, marina, or trailer, mobile home or recreational vehicle park shall be deemed to commence on the date when the building structure permit is issued.

iv. The individual metering requirement is waived for any time-sharing facility for which construction was commenced before January 1, 1987 in which separate occupancy units were not metered in accordance with subsection (2)(a).

(3) Where individual metering is not required under Subsection (2)(a)iii and master metering is used in lieu thereof, sub-metering may be used by the Customer of record/owner of such facility solely for the purpose of allocating the cost of the gas billed by the utility. The term "cost" as used herein represents only those charges specifically authorized by the gas utility's tariff including but not limited to the Customer, energy, purchased gas adjustment, and conservation charges made by the gas utility plus applicable taxes and fees to the Customer of record responsible for the master meter payments. The term cannot be construed to include late payment charges, returned checkcharges, the cost of the distribution system behind the master meter, the cost for billing, and other such costs.

4. PIPING AND APPLIANCES

The piping, fixtures, and appliances for which the Customer is responsible shall be maintained in conformity with all Local, State and Federal requirements.

Florida City Gas
FPSC Natural Gas Tariff

11~~0~~

First Revised Sheet No. 13
Cancels Original Sheet No. 13

RULES AND REGULATIONS (Continued)

3. GAS LEAKS

The Customer shall give immediate notice to the Company of leakage of gas. No deduction on account of leakage shall be required to be made from Customer's bills unless such leakage occurs as the result of fault or neglect of agents of the Company. In case of leakage or fire, the stopcock at the meter should be closed without delay and no light or flame used in the vicinity of the leak.

4. CONNECT CHARGE

A charge of $90.00 for Residential service or $150.00 for Non-Residential service will be made on the Customer's next bill when gas service is initiated, connected or turned-on. If service is performed, at Customer request, outside of normal business hours the charges shall be $110.00 for Residential service or $200.00 for Non-Residential service.

5. RECONNECTION CHARGE

A charge of $90.00 for Residential service or $105.00 for Non-Residential service will be made on the Customer's next bill when gas service is reconnected after disconnection for non-payment of bills. If service is performed, at Customer request, outside of normal business hours the charges shall be $105.00 for Residential service or $120.00 for Non-Residential service.

6. FAILED TRIP CHARGE

A charge of $20 for Residential and Non-Residential service will be made on the Customer's next bill when the Customer fails to keep a scheduled appointment with the Company's employee, agent or representative.

7. LATE PAYMENT CHARGE

A bill shall be considered past due upon the expiration of twenty (20) days from the date of mailing or other delivery thereof by Company. The balance of all past due charges for services rendered are subject to a Late Payment Charge of 1.5% or $5.00 whichever is greater, except that the Late Payment Charge applied to the accounts of federal, state, and local governmental entities, agencies and instrumentalities shall be at a rate no greater than allowed, and in a manner permitted by applicable law.

8. RETURNED CHECKS

The service charge for each returned check shall be determined in accordance with section 68.065, Florida Statutes. Payment of the full amount of the dishonored payment, plus a service charge of $25 if the face value does not exceed $50, $30 if the face value exceeds $50 but does not exceed $300, $40 if the face value exceeds $300, or 5 percent of the face amount of the dishonored instrument, whichever is greater.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11~~0~~ Original Sheet No. 14

RULES AND REGULATIONS (Continued)

11. OTHER CHARGES

The following charges relating to Customer accounts will apply:

Change of account	$20.00
Bill collection in lieu of disconnection	$25.00
(outside of normal business hours)	$32.00
Meter read outside normal schedule	$15.00
(outside of normal business hours)	$22.00

12. Temporary Disconnection of Service – Customer Request

A charge of $35.00 for Residential and Non-Residential service will be made on the Customer's next bill when the Customer requests a Temporary Disconnection of Service. If service is performed, at Customer request, outside of normal business hours the charges shall be $45.00 for Residential and Non-Residential service.

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER

The Company may temporarily shut off the supply of gas to the Customer's premises after reasonable notice for the purpose of making necessary repairs or adjustments to mains or supply pipes, and reserves the right to shut off the supply of gas without notice in case of emergency. In addition the PSC Rule 25-7.089, Refusal or Discontinuance of Service by Utility, as follows, shall apply:

(1) Until adequate facilities can be provided a utility may refuse to serve an applicant if, in the best judgment of the utility, it does not have adequate facilities or supply of gas to render the service applied for, or if the service is of a character that is likely to affect unfavorably service to other Customer.

(2) If the utility refuses service for any reason specified in this subsection, the utility shall notify the applicant for service as soon as practicable, pursuant to subsection (5), of the reason for refusal of service. If the utility will discontinue service, the utility shall notify the Customer at least 5 working days prior to discontinuance that service will cease unless the deficiency is corrected in compliance with the utility's regulations, resolved through mutual agreement, or successfully disputed by the Customer. The 5-day notice provision does not apply to paragraphs (h), (i) or (j). In all instances involving refusal or discontinuance of service the utility shall advise in its notice that persons dissatisfied with the utility's decision to refuse or discontinue service may register their complaint with the utility's Customer relations personnel and to the Florida Public Service Commission at 1-800-342-3552 which is a toll free number. As applicable, each utility may refuse or discontinue service under the following conditions:

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

(a) For non-compliance with or violation of any State or municipal law or regulation governing gas service.

(b) For failure or refusal of the Customer to correct any deficiencies or defects in his piping or appliances which are reported to him by the utility.

(c) For the use of gas for any other property or purpose than that described in the application.

(d) For failure or refusal to provide adequate space for the meter and service equipment of the utility.

(e) For failure or refusal to provide the utility with a deposit to insure payment of bills in accordance with the utility's regulations provided that written notice, separate and apart from any bill for service, be given the Customer.

(f) For neglect or refusal to provide reasonable access to the utility for the purpose of reading meters or inspection and maintenance of equipment owned by the utility provided that written notice, separate and apart from any bill for service, be given the Customer.

(g) For non-payment of bills or noncompliance with the utility's rules and regulations, and only after there has been a diligent attempt to have the Customer comply, including 5 working days' written notice to the Customer, such notice being separate and apart from any bill for service. For purposes of this subsection, "working day" means any day on which the utility's business office is open and the U.S. Mail is delivered. Upon request of the Customer, the utility shall give a copy of the notice of discontinuance to a designated third party in the service area of the utility. A utility shall not, however, refuse or discontinue service for non-payment of a dishonored check service charge imposed by the utility.

(h) Without notice in the event of a condition known to the utility to be hazardous.

(i) Without notice in the event of tampering with regulators, valves, meters or other facilities furnished and owned by the utility.

(j) Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the utility, before restoring service, may require the Customer to make at his own expense all changes in piping or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the deficiency in revenue resulting from such fraudulent use.

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

(3) Service shall be restored when cause for discontinuance has been satisfactorily adjusted.

(4) When service has been discontinued for proper cause, the utility may charge a reasonable fee to defray cost of restoring service provided such charge is set out in its approved tariff on file with the Commission.

(5) In case of refusal to establish service, or whenever service is discontinued, the utility shall notify the applicant or Customer in writing of the reason for such refusal or discontinuance.

(6) If the Company has reasonable evidence that there is or may be a danger from the Customer or any occupant and/or invitee of the Customer's Premises to Company personnel or agents who might be called to said Premises in the course of their duties with the Company, including but not limited to any direct or implied threats against the Company or its personnel or agents from said Customer or occupant and/or invitee.

(7) The following shall not constitute sufficient cause for refusal or discontinuance of service to an applicant or Customer.

(a) Delinquency in payment for service by a previous occupant of the premises unless the current applicant or Customer occupied the premises at the time the delinquency occurred and the previous Customer continues to occupy the premises and such previous Customer will receive benefit from such service.

(b) Failure to pay for appliances purchased from the utility.

(c) Failure to pay for a different type of utility service, such as electricity or water.

(d) Failure to pay for a different class of service.

(e) Failure to pay the bill of another Customer as guarantor thereof.

(f) Failure to pay a dishonored check service charge imposed by the utility.

(8) No utility shall discontinue service to any noncommercial Customer between 12:00 noon on a Friday and 8:00 a.m. the following Monday or between 12:00 noon on the day preceding a holiday and 8:00 a.m. the next working day unless such discontinuance is at the request of the Customer or is necessary in the interest of safety. Holiday as used in this subsection shall mean New Years Day, Memorial Day, July 4, Labor Day, Thanksgiving Day, and Christmas Day.

(9) Each utility shall submit, as a tariff item, a procedure for discontinuance of service when that service is medically essential.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11 Original Sheet No. 17

Issued by: Jeffrey Sylvester, Chief Operating Officer ~~Carolyn~~

Effective: ~~August 14, 2018~~

RULES AND REGULATIONS (Continued)

13. RIGHT TO SUSPEND OR DISCONTINUE SERVICE TO A CUSTOMER (Continued)

Failure of Company to exercise its rights to suspend, curtail or discontinue service, for any of the above reasons, shall not be deemed a waiver thereof.

When service has been discontinued for any of the reasons set forth in the Tariff, the Company shall not be required to restore service until the Customer has paid the applicable charges to the Company required for service restoration.

14. EXTENSION OF FACILITIES

A. Free Extensions of Mains and Services: The maximum capital investment required to be made by the Company for main and service facilities without cost to the Customer shall be defined as the Maximum Allowable Construction Cost ("MACC"). The MACC shall equal six times the annual Margin Revenues estimated to be derived from the facilities. However, Customers initially served under the Residential Standby Generator Service ("RSG") and Commercial Standby Generator Service ("CSG") Rate Schedules shall not be eligible for extension allowances, even if additional load is added at a later date, but such Customers may be eligible to receive refunds of amounts paid to the Company for extensions under B.(2) below.

B. Extensions of Mains and Services Above Free Limit: When the cost of the extension required to provide service is greater than the free limit specified above, the Company may require a non-interest bearing advance in Aid to Construction ("ATC") equal to the cost in excess of such free limit provided that:

(1) At the end of the first year following construction, the Company shall refund to the person paying the ATC or their assigns an amount equal to the excess, if any, of the MACC as recalculated using actual gas revenues, less the actual cost of gas, over the estimated MACC used to determine the amount of the ATC.

(2) For each additional Customer taking service at any point on the extension within a period of five (5) years from date of construction, the Company shall refund to the person paying the ATC or their assigns an amount by which the MACC for the new Customer exceeds the cost of connecting the Customer, provided that an additional main extension shall have not been necessary to serve the additional Customer.

(3) The aggregate refund to any Customer made through the provisions of (a) and (b) above shall at no time exceed the original ATC of such Customer.

(4) The extension shall at all times be the property of the Company and any un-refunded portion of the ATC at the end of five (5) years shall be credited to the plant account of the Company.

(5) The Company may require a commitment by a Customer to take or pay for a minimum volume of gas as deemed appropriate by the Company given the circumstances of facility cost and/or the service requirements of a particular Customer. In no instance will the minimum volume commitment be set at a level that exceeds the volume amount used to calculate the MACC for the Customer, nor will the volume commitment term exceed six (6) years.

RULES AND REGULATIONS (Continued)

14. EXTENSION OF FACILITIES (Continued)

C. Area Extension Program Charge: Notwithstanding the provisions of Sections A and B when facilities are to be extended to serve single or multiple delivery points in a discrete geographic area, the Company may require an Area Extension Program Charge ("AEP"). The Company, in its sole discretion, may require this chargewhen:

(1) The cost of the project facilities required to provide service through the area is greater than the aggregate MACC for the Customers to be served; and

(2) The Company reasonably forecasts Margin Revenues plus the AEP during the period ending ten years from when the mains required to serve the project facilities are placed in service (the Amortization Period), that are sufficient to recover the cost of the project facilities.

The AEP, which shall be stated on a per therm basis, shall apply with respect to all gas sold or transported to Company Customers located within the applicable discrete geographic area during the Amortization Period.

The AEP will be calculated by dividing (1) the amount of additional revenue required in excess of the Company's applicable tariff rates by (2) the volume of gas reasonably forecast to be sold or transported to Customers within the applicable discrete geographic area during the Amortization Period. The additional revenue required is that amount determined necessary to recover the excess cost of the facilities, including the Company's allowed cost of capital.

AEP collected shall be used specifically to amortize the cost of the project facilities within the applicable discrete geographic area that are in excess of the MACC. If the AEP collected is sufficient before the expiration of the Amortization Period to fully amortize the excess costs, including provision for the accumulated cost of capital, the AEP for that area shall terminate immediately, and the Company shall promptly credit the affected Customers for amounts over collected, if any.

Upon the earlier of (1) the third anniversary of the date when the project facilities are placed in service and (2) the date on which 80% of the originally forecast annual load is connected, the Company will reassess the amount of additional revenue required to recover the unamortized excess cost of the facilities and the calculation of the AEP. Further reassessments shall be performed by the Company following the fifth, seventh and ninth anniversary of the date when the project facilities were originally placed in service. The resulting adjustment of the AEP (whetherupward or downward) will be applied over the remainder of the Amortization Period.

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 1~~0~~ Original Sheet No. 19

RULES AND REGULATIONS (Continued)

14. EXTENSION OF FACILITIES (Continued)

The Company may enter into a guaranty agreement with the party or parties requesting the extension, whereby that party or parties agree to pay to the Company any unamortized balance remaining at the end of the Amortization Period. The Company's rights under the guaranty agreement will not be considered when calculating the AEP.

The length of the Amortization Period may be modified upon the specific approval of the Florida Public Service Commission.

D. General

The Company will own control and maintain all service pipes, regulators, vents, meters, meter connections, valves and other appurtenances from the main to the outlet side of the meter.

The extension of facilities provisions shall not require the Company to extend its mains across private property or in streets that are not at established grade; nor prohibit the Company from making extensions of mains of greater length than required herein.

15. TRANSPORTATION - SPECIAL CONDITIONS

A. A Transportation Service Agreement or other means of enrollment accepted by the Company is a condition precedent for Transportation Service under each applicable Rate Schedule, the initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

B. The usage charges in the Rate Schedules shall be based upon actual or estimated consumption as determined by the Company, not by Third Party Supplier deliveries.

C. Nominations and Transportation of Gas

The Customer's Third Party Supplier ("TPS") shall nominate on behalf of its Customers the total monthly requirements for that billing month. The TPS is responsible for making arrangements for transporting the gas from its source to the Company's interconnection with the delivering pipeline supplier. The gas transported under this Rate Schedule is not the property of the Company. However, the Company reserves the right to commingle such gas with other supplies. Moreover, the Company reserves the right to utilize Customer's gas, when necessary, in accordance with its Gas Curtailment Plan.

D. Indemnification

As between Company and Customer, the Customer or its Third Party Supplier warrants that it has clear title to any gas supplies delivered into the Company's system for redelivery to Customer and Customer shall be deemed to be in exclusive control and possession of gas prior to its delivery into the Company's system for redelivery to Customer. Customer agrees to indemnify, defend and hold harmless Company from any and all claims, suits or damage actions arising out of deliveries of gas on behalf of transporting Customer.

E. Gas Supply Obligation

In the event that Customer's Third Party Supplier fails to deliver gas on behalf of its Customers, the Company may, in its sole discretion, provide replacement gas supplies. The Company shall have no obligation to provide gas supplies to Customers that contract for gas supply from a TPS. In the event that a Customer seeks to purchase gas supplies from the Company, such sales may be made by the Company in its sole discretion under such terms and conditions as the Company may require.

F. Balancing Receipts and Deliveries

Third Party Suppliers will be billed for all their Customers' balancing and other transportation related charges, as set forth in the TPS Rate Schedule, determined by the Company to be billable to a TPS on behalf of their Customers. If there are any unpaid charges the TPS' Customers shall be individually responsible for any portion attributable to their individual action and/or for their prorata share as follows: The Company will first determine individual Customer charges, if any, and second prorate charges based on allocating the

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

F. Balancing Receipts and Deliveries (Continued)

amount of TPS gas received, if any, in the following priority; first to the GS classes being served under ADDQ in the order of increasing annual usage, then to NGV, followed by the remaining GS classes in the order of increasing annual usage, then by KDS and lastly to FGS Customers. Each Customer in a Rate Schedule that does not receive gas supply to meet the entire Rate Schedule requirements will receive a prorata charge based on their percentage of gas consumed, as estimated or measured on the meter reading date following the incurrence of imbalance charges, to the total of their Rate Schedule for the period that charges apply.

G. Transportation Interruption and Curtailment

Company shall have the right to reduce or completely curtail deliveries to Customer as follows:

(1) If, in Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

(2) In the event Company is notified by its delivering pipeline pursuant to the Federal Energy Regulatory Commission approved curtailment plans or provision of its tariff to interrupt or curtail deliveries for uses of the same type or category as Customer's use of gas hereunder; or

(3) When necessary to maintain the operational reliability of Company's system.

Company will endeavor to give as much notice as possible to Customer in the event of interruption or curtailment. Any gas taken in excess of the volume allocated to the Customer in an interruption or curtailment order shall be considered Unauthorized Gas Use

H. Facilities

Company shall not be obligated to, but may, at its sole discretion on a non-discriminatory basis, construct or acquire new facilities, or expand existing facilities, including facilities necessary to provide measurement of volumes and communication of deliveries, in order to perform service requested under each applicable Rate Schedule. If in Company's reasonable judgment it is necessary to construct or acquire new facilities, or to expand existing facilities, to enable Company to receive or deliver Customer's gas at the Points of Receipt and Delivery requested, and Company determines in its sole discretion to construct, acquire, or expand such facilities, thenCompany shall notify Customer of the estimated costs of such facilities, including electronic measurement equipment, shall, subject to the receipt and acceptance of any necessary regulatoryapproval, be constructed, acquired or expanded by Company in accordance with the terms of theexecuted Service Agreement.

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

H. Facilities (Continued)

Prior to the initial receipt of service hereunder, unless agreed otherwise, Customer shall reimburse Company in accordance with the terms of the Transportation Service Agreement, for the cost of any facilities which are constructed, acquired, or expanded by Company to receive or deliver Customer's gas.

All facilities required to provide service under each applicable Rate Schedule shall be designed, constructed, installed, operated, and owned by Company, unless otherwise agreed to by Company.

Company's execution of a Transportation Service Agreement under each applicable Rate Schedule may be conditioned on Customer's agreement to pay the total incremental cost of such facilities as specified herein and in the Service Agreement.

I. Designated Pools

This section designates the Pools that have been adopted for the Company's service territory in order to facilitate the operation of the Company's system.

Basic Pools result from the physical characteristics of the Company's system and the location of the delivery points of the interstate pipeline companies.

The Company's service territory is composed of two Primary Pools, each of which is composed of one or more Basic Pools:

(a) Brevard
(b) Miami-Dade

J. Allocation, Assignment, of Capacity and Supply Assets

This section sets forth the method and provisions by which the Company will allocate, on an equal access, nondiscriminatory basis, the Company's Interstate Pipeline Capacity to a Third Party Supplier based upon the Average Daily Delivery Quantity ("ADDQ") and Demand Charge Quantity ("DCQ") of the Transportation Customers served by the Third Party Shipper.

The portion of the Company's Interstate Pipeline Capacity not associated with premises served by Third Party Supplier will remain with the Company. The Company will hold the capacity required to service its Customers on a Design Day plus a reserve margin not to be less than 5%. The Company will post on the Electronic Bulletin Board ("EBB") each allocation of the Company's Interstate Pipeline Capacity to a Third Party Supplier for viewing only by such Third Party Shipper. Until the Company has sufficient Interstate Pipeline Capacity to satisfy 100% of its Sales and Essential Use Customers throughput the Company may opt to not release capacity to Third Party Suppliers. Once adequate capacity is obtained to meet the Sales and Essential Use Customers' needs, capacity releases will be prioritized based upon Customer groups. The Company will first release Interstate Pipeline Capacity to service Cycle Read Customers (ADDQ) based upon Third Party Supplier market share.

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

The remaining Interstate Capacity will then be released to service Daily Read Customers (DCQ) that are identified as Essential Use based upon Third Party Supplier market share. Any remaining Interstate Pipeline Capacity will then be released to service Daily Read Customers that are not identified as Essential Use based upon Third Party Supplier market share.

Each month the Company will calculate market share for each Third Party Supplier based upon the sum of the ADDQ and DCQ of premises served by each Third Party Supplier. Each month the Company will make capacity allocations to each Third Party Supplier based upon theirmarket share as calculated on the twentieth (20^{th}) calendar day of the preceding month. The Company will post on the EBB on the twentieth (20^{th}) calendar day of the preceding month, the total Interstate Pipeline Capacity that a Third Party Supplier is allocated for viewing only by suchThird Party Shipper.

The rate for Interstate Pipeline Capacity will be the maximum rate stated in the applicable FERC Gas Tariff; provided, however, that if the proper regulatory approvals have been received, the rate for an assigned service will not exceed the rate charged to the Company as of the date of the assignment. Assignments will have a term of one calendar month and will be made and become effective on the first day of such month.

The Company will, when possible, provide firm gas delivery service to Sales Customers who were Transportation Customers. However, if sufficient interstate pipeline capacity is not available, those Customers may not receive firm gas delivery service.

All capacity charges associated with release of Interstate Capacity to Third Party Suppliers will be billed directly to the Third Party Supplier by the pipeline company.

K. Recall of Released Capacity

The Company, at its sole discretion, has the right to recall Interstate Pipeline Capacity from Third Party Suppliers if:

(a) A determination by the Company, in a Force Majeure event to recall capacity in order to maintain the operational integrity of the system;
(b) A Third Party Supplier's failure to meet the security requirements of this Tariff or meet its responsibilities as a replacement shipper on the Pipeline;
(c) A filing of bankruptcy by aThird Party Supplier;
(d) A Third Party Supplier fails to meet system delivery requirements;
(e) An order of the State or Federal Commissions where recall would be necessary to comply with Commission orders;
(f) The Company, for any reason, determines that recall is necessary to maintain the operational integrity of the system

RULES AND REGULATIONS (Continued)

15. TRANSPORTATION - SPECIAL CONDITIONS (Continued)

L. Disposition of Recalled Capacity

Capacity recalled to the above section, shall be re-released as follows:

In the case of Interstate Pipeline Capacity is recalled, the Company will re-release the recalled Interstate Pipeline Capacity to all Third Party Suppliers promptly.

M. Limitations on Released Capacity

The Interstate Pipeline Capacity being released to Third Party Suppliers under the provisions of this tariff was obtained for the purpose of making gas available to Customers in Florida. It is being released to Third Party Suppliers for the same purpose. Accordingly, in additionto any other limitations on the released capacity that may apply, and as a condition for receiving the released capacity, Third Party Suppliers must comply with the following limitations on the use ofreleased capacity.

Any agreement to trade, assign, sell, or otherwise re-release the released capacity shall include the right of FCG to recall the capacity under Section K.

In the event that a Third Party Shipper sells, trades, or otherwise transfers all or part of the Third Party Supplier's Customer base to another Third Party Supplier, it shall also release to the other Third Party Supplier an equal percentage of its released Interstate Pipeline Capacity;

Any agreement to trade, assign, sell, or otherwise re-release the released Interstate Pipeline Capacity shall include the right of Third Party Supplier to recall the capacity if the capacityis necessary to provide service to the Third Party Suppliers' Customers.

16. FORCE MAJEURE

Neither Company, Third Party Supplier, or Customer shall be liable for damages to the other for any act, omission, or circumstance occasioned by or in consequence of any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, unforeseeable or unusual weather conditions, washouts, arrests and restraints of rulers and people, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, , or software, line freezups, temporary failure of gas supply, temporary failure of firm transportation arrangements or curtailments, the binding order of any court or governmental authority which has been resisted in good faith by reasonable legal means, acts of third parties, and any other cause, whether of the kind herein enumerated or otherwise, not within the control of the party claiming suspension and which by the exercise of reasonable diligence such party is unable to prevent or overcome.

Such causes or contingencies affecting the performance by the Company, Third Party Supplier or Customer, however, shall not relieve it of liability in the event of its concurrent negligence, nor shall such causes or contingencies affecting performance relieve either party from its obligations to make payments of amounts then due hereunder in respect of gas theretofore delivered.

RULES AND REGULATIONS (Continued)

17. GAS CURTAILMENT PLAN

During periods of supply shortages, operational constraints or Force Majeure events the Company may implement the terms of its Gas Curtailment Plan. The purpose of this plan is to preserve the ability to continue to provide essential gas services to the broadest base of Customers given limited gas supply and/or delivery capacity. Any Unauthorized Gas Use will be governed by the terms stated in the Unauthorized Gas Use section of this tariff. If a Customer notifies the Company that they have a medical necessity requiring gas use the Company will endeavor to provide adequate notice of any curtailments.

18. UNAUTHORIZED GAS USE

Unauthorized Gas Use includes, but is not limited to, any volume of gas taken by Customer in excess of its Demand Charge Quantity requirement as set forth in its Service Agreement with Company or the quantity of gas allowed by the Company on any day as a result of a curtailment or interruption notice issued by the Company in accordance with its tariff and/or by the Florida Public Service Commission of the State of Florida or any other governmental agency having jurisdiction. A "day" shall be a period of twenty-four (24) consecutive hours, beginning as near as practical to 8 a.m., or as otherwise agreed upon by Customer and Company.

The Company reserves the right to physically curtail the gas service to any Customer if, in the Company's sole judgement, such action is necessary to protect the operation of its system.

If a Customer uses gas after having been notified that gas is not available or, if applicable, uses gas in excess of the Demand Charge Quantity or requirements as established in the Service Agreement, then Unauthorized Gas Use charges shall apply to those amounts. Furthermore, if a Third Party Supplier (TPS) fails to deliver gas in the quantities and or imbalance ranges specified in the TPS Rate Schedule, then Unauthorized Gas Use charges shall apply to the TPS.

All Unauthorized Gas Use charges shall be billed at the higher of $2.50 per therm or a rate equal to ten times the highest price, for each day, for gas delivered to Florida Gas Transmission at St. Helena Parish, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. However, this rate shall not be lower than the maximum penalty charge for unauthorized daily overruns as provided for in the Federal Energy Regulatory Commission approved gas tariffs of the interstate pipelines which deliver gas into Florida. This charge is in addition to all applicable taxes, charges and assessments of the applicable Rate Schedule.

Nothing herein shall be construed to prevent the Company from taking all lawful steps to stop the unauthorized use of gas by Customer, including disconnecting Customers service. Such payment for unauthorized use of gas shall not be deemed as giving Customer or TPS any rights to use such gas.

Florida City Gas
FPSC Natural Gas Tariff — First Revised Sheet No. 26
Volume No. 11~~0~~ — Cancels Original Sheet No. 26

RULES AND REGULATIONS (Continued)

19. EQUIPMENT FINANCING

If the Company agrees to provide the necessary gas conversion, compression, or RNG equipment to be owned and maintained by the Customer, an agreement as to terms and conditions governing recovery of the costs for such equipment from the Customer may be entered into and the initial contract term of gas service shall at a minimum be the same as the period of recovery stated in the agreement. Further, the rates established in the monthly rate section may beadjusted to provide for recovery by the Company of the costs incurred, including carrying cost atthe Company's overall cost of capital, in providing such equipment. At such time when the Company has recovered its costs of providing such equipment the ongoing gas deliveries shall bebilled at rates stated in the Customers applicable Rate Schedule.

20. TAXES AND OTHER ADJUSTMENTS

There will be added to all bills rendered all applicable local utility and franchise taxes, State sales taxes and gross receipts tax presently assessed by governmental authority, as well as any future changes or new assessments by any governmental authority subsequent to the date of any Rate Schedule. All such assessments as described above shall be shown on Customer bills.

21. BUDGET BILLING PLAN

Available to any Residential Customer as defined under the Technical Terms and Abbreviations of this tariff. A Customer may elect to enroll in the Company's Budget Billing Plan to help stabilize their monthly payments. To qualify for the Budget Billing Plan, a Customer must be a year-round Customer and have no balance owing when beginning the plan. Following a Customer's request to participate in the Budget Billing Plan the Company shall have 45 days in which to determine the Customer's eligibility and process an enrollment to initiate billing under the plan.

If a Customer requests the Budget Billing Plan, the initial budgeted payment amount will be based on the average of the previous 12 months usage normalized for weather applied to the then current or Company projected billing rates, and shall include any regulatory fees or taxes applicable to the Customer. If the Customer has not received Gas Service from the Company for the preceding 12 months, the Company will use the best information available to calculate the initial monthly payment amount. The total deferred debit or credit balance will be shown on the Customer's bill.

The Company reviews all budget payments and resets them annually on or about August of each year. On such recalculation, one-twelfth of any debit or credit deferred balance will be added to the following year's recalculated budgeted monthly payment amount. However, a Customer may request a payment of a credit balance in which case the recalculated amount will be adjusted to reflect the removal of the credit balance. In addition, the Company also performs a semi-annual review and may adjust the budget payment if it varies by more than $5.00 or 10% whichever is less.

RULES AND REGULATIONS (Continued)

The Company may also recalculate the payment quarterly if it determines that changes in Customer equipment or billing rates warrant. However, the Company may only begin charging such recalculated quarterly amounts on the Customer's next successive bill if the recalculated budgeted payment amount varies by 35% or more from the budgeted payment amount then in effect. Any balances outstanding at the time of a non-annual recalculation shall be included in such recalculation with the objective of achieving a net zero balance at the end of the program year.

A Customer's participation in the Budget Billing Plan will be continuous unless the Customer requests that participation in the plan be discontinued, or gas service has been terminated at the premise, or the Customer is delinquent in paying the budgeted payment amount, which may result in shut-off for non-payment and/or removal from the program. If a Customer no longer participates in the plan, the Customer shall pay any deferred debit balances with their next regular monthly bill, with any deferred credit balance being used to reduce the amount due from the next regular monthly bill. Upon termination from the plan, for any reason, any billed outstanding balance not paid by the next due date shall be considered past due and late payment fees shall apply. In addition, prior to plan termination, late payment fees shall apply to past due Budget Billing Plan payment amounts.

22. LIMITS OF COMPANY RESPONSIBILITIES

The Company shall not be liable for any property damage, fatality, or personal injury sustained on the Customer's premise resulting from the Customer's installation of the gas pipe, fittings, appliances, storage tanks, compressors, and apparatus of any type of others on the Customer's premises. The Company will not be responsible for the use, care or handling of gas delivered to the Customer after it passes from the Company's lines on the Customer's side of the point of delivery. The Company shall not be liable to the Customer for naturally occurring or other impurities, regardless of the sources, such as water, sand, black powder, sulfur, butane, or other chemicals or compounds in the Gas delivered to the Customer or their vehicle.

Whenever the Company deems an emergency or system operating condition warrants interruption, curtailment or other limitation of the Gas Service being rendered, such interruption, curtailment or other limitation shall not constitute a breach of contract and shall not render the Company liable for damages suffered as a result of such interruption, curtailment or other limitation of Gas Service or excuse the Customer from continuing to fulfill its obligations to the Company.

In no event shall the Company be under any obligation to inspect the gas piping or appliances of a Customer. Where the Company has reason to believe the flues, gas piping or appliances do not comply with recognized requirements or code, the Company may refuse to supply gas to the Customer. However, the Company shall have no responsibility whatsoever for determining whether any local code or ordinance or any other government requirement is applicable.

No Customer or other person shall, unless authorized by the Company, operate, change or tamper with any of the Company's facilities.

RULES AND REGULATIONS (Continued)

23. LIMITATION OF DAMAGES

The Customer shall not be entitled to recover from the Company any consequential, indirect, incidental or special damages, such as loss of use of any property, vehicle, or equipment, loss of profits or income, loss of production, rental expenses for replacement property or equipment, diminution in value of real property, or expenses to restore operation, or loss of goods or products.

The Customer shall indemnify, hold harmless, and defend the Company from and against any and all liability, proceedings, suits, cost or expense for loss, damage or injury to person or property, in any manner directly or indirectly connected with or growing out of the transmission and/or use of gas by the Customer at or on the Customer's side of the point of delivery or out of the Customer's negligent acts or omissions.

24. ACCESS TO PREMISES

The Customer shall grant to the Company without cost to the Company, all rights, easements, permits and privileges which in the Company's opinion are necessary for the rendering of service. The Customer will furnish to the Company, without charge, an acceptable location for the Company's meter and shall give Company employees and representatives access to the Customer's premise so that the Company may operate, inspect and maintain its facilities. Failure to grant access could result in disconnection of service.

25. Excess Flow Valves

Existing single family residential regardless of size, as well as multi-family residences and commercial Customers not using in excess of one-thousand (1,000) standard cubic feet per hour (SCFH) per service, may request the Company to install an excess flow valve (EFV) or equivalent equipment, which appropriate equivalent will be determined in the Company's sole discretion, for the purpose of interrupting the flow of gas. The Customer shall reimburse the Company for the cost associate with installing an EFV (or equivalent equipment) when such installation is performed at the request of the Customer.

GENERAL SERVICE - 120K (GS-120K)

APPLICABILITY

Service is available to Non-Residential Customers using between 120,000 and 1,249,999 therms per year as determined by the Company.

CHARACTER OF SERVICE

A firm delivery service of gas, including RNG delivered into the Company's system by any customer, delivered by the Company or Customers' Third Party Supplier ("TPS") with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$375.00	$375.00
Demand Charge, per DCQ	$0.719	$0.719
Distribution Charge, per therm	$0.28336	$0.28336
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS. Only Non-Residential Customers are eligible to receive gas supply from a TPS.

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ)

The DCQ to be used in setting the Customer's Billing DCQ will be determined by the Customer's maximum daily requirements in terms of therm units per day based on readings taken from an Automatic Meter Reading (AMR) device installed at the premise. The DCQ used in setting the Billing DCQ shall be those from the Customer's daily metered therm consumption recorded for a period of up to three (3) years ending each March 31st. If historical consumption information of at least twelve (12) months is not available, then the Billing DCQ level shall be based upon the rating and expected usage of the Customer's gas equipment as determined by the Company.

The Billing DCQ will be determined annually by the Company based on the DCQ history, as determined above. The Customer's Billing DCQ shall be adjusted to reflect the maximum recorded DCQ. Adjustments will be made in April except the Company shall not increase such a Customer's Billing DCQ unless the Customer has had at least three (3) occurrences of DCQ's in excess of their current Billing DCQ.

GENERAL SERVICE - 120K (GS -120K)
(Continued)

DETERMINATION OF THE DEMAND CHARGE QUANTITY (DCQ): (continued)

At any time a Customer may request an adjustment to its Billing DCQ. If the Customer is able to demonstrate an ongoing change in its maximum daily therm requirements then the Company may at its discretion adjust Customers Billing DCQ prospectively. However, the initial Billing DCQ shall be established for all Customers with active service at the effective date of this tariff based on the highest daily actual therm consumption recorded at Customer's premises over the thirty-six month historic period ending March 31st of each year.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge and Demand Charge. In addition, a minimum annual charge shall be assessed by applying the Distribution Charge hereunder to the difference between the annual minimum qualifying therms specified in this Rate Schedule and the annual usage of the Customer.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

TERM OF CONTRACT

The initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

SPECIAL CONDITIONS OF SERVICE

1. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

2. Each year the Company shall re-determine each Customer's eligibility based on their annual usage. If reclassification to another schedule is appropriate such reclassification shall be prospective only and shall not be retroactive.

3. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for all Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

SPECIAL CONDITIONS, APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof bythe Company.

TERM OF CONTRACT

The initial term of which shall be no less than one (1) year and year to year thereafter until terminated by ninety (90) days written notice by either party.

SPECIAL CONDITIONS OF SERVICE

1. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

2. Each year the Company shall re-determine each Customer's eligibility based on their annual usage. If reclassification to another schedule is appropriate such reclassification shall be prospective only and shall not be retroactive.

3. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for all Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

SPECIAL CONDITIONS, APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

See the Rules and Regulations for Transportation - Special Conditions for terms related to Customers taking Gas Supply from a TPS.

GAS LIGHTING SERVICE (GL)

AVAILABILITY

See "Limitations of Service" below.

APPLICABILITY

Firm gas service for continuous street or outdoor lighting devices installed upstream of the Customer's meter.

LIMITATIONS OF SERVICE

This Rate Schedule is closed and is restricted to Customers who were served prior to March 17, 1975.

*MONTHLY RATE

Distribution Charge	$10.69 per lamp
	($0.59363 per therm X 18 therms)

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. For the purpose of applying Riders or other billing adjustments usage of eighteen therms per lamp per month will be assumed.

MINIMUM BILL

The minimum monthly bill shall be the Monthly Rate.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

RESIDENTIAL STANDBY GENERATOR SERVICE (RSG)

APPLICABILITY

Service is available to Residential Customers whose only gas usage is for a standby electric generator.

CHARACTER OF SERVICE

A firm delivery service of gas delivered by the Company with a heating value on the order of 1,100 British Thermal Units per cubicfoot.

*MONTHLY RATE

Customer Charge:	$25.00	
Distribution Charge:	0 - 14 therms	$0.00000 per therm
	More than 14 therms	$0.57421 per therm

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

1. Subject to special condition 3 below, a customer receiving service under this schedule shall remain obligated to remain on this schedule for 12 months. This 12-month requirement shall be renewed at the end of each 12-month term unless the customer terminates the service in writing within 30 days before the end of the term.

2. If the customer terminates the service before the 12-month term ends, the Customer will be billed the minimum bill for the remaining months of the service.

3. If the customer installs an additional gas appliance at the premise at which service is provided, then the customer will be transferred to the applicable rate schedule based on total therms.

4. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

COMMERCIAL STANDBY GENERATOR SERVICE (CSG)

APPLICABILITY

Service is available to Non-residential Customers whose only gas usage is for a standby electric generator with annual consumption of less than 120,000 therms.

CHARACTER OF SERVICE

A firm delivery service of gas delivered by the Company with a heating value on the order of 1,100 British Thermal Units per cubic foot.

*MONTHLY RATE

Customer Charge:	$36.00	
Distribution Charge:	0 - 26 therms	$0.00000 per therm
	More than 26 therms	$0.57949 per therm

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A customer that receives gas supply from a TPS will be charged by the TPS for commodity according to any agreement between the Customer and the TPS.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS OF SERVICE

1. Subject to special condition 3 below, a Customer receiving service under this schedule shall remain obligated to remain on this schedule for 12 months. This 12-month requirement shall be renewed at the end of each 12-month term unless the Customer terminates the service in writing within 30 days before the end of the term.

2. If the Customer terminates the service before the 12-month term ends, the Customer will be billed the minimum bill for the remaining months of the service.

3. If the Customer installs an additional gas appliance at the premise at which service is provided, then the Customer will be transferred to the applicable rate schedule based on total therms.

4. Application of this rate is subject to the general Rules and Regulations of the Company as they may be in effect from time to time and as filed with the regulatory authorities.

NATURAL GAS VEHICLE SERVICE-I (NGV-I)
(CLOSED SCHEDULE)

APPLICABILITY

For gas delivered to any Customer through a separate meter for the purpose of compression and delivery into motor vehicle fuel tanks or other transportation containers. NGV-I is only available to those Customers who are presently receiving this service as of August 13, 2013. Customers seeking such service after this date shall take service under the NGV-II terms of this Tariff.

*MONTHLY RATE

	Gas Supply from PGA	Gas Supply from TPS
Customer Charge	$31.00	$31.00
Distribution Charge, per therm	$0.23232	$0.23232
Commodity Charge	Per Rider "A"	Per TPS Agreement

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company. A Customer that receives gas supply from a TPS will be charged for commodity according to any agreement between the Customer and the TPS.

MINIMUM BILL

The minimum monthly bill shall be the Customer Charge. In addition, a minimum annual charge, if applicable, shall be assessed by applying the applicable rates and adjustments hereunder to the difference between the minimum therms, if any, established per the Customer's Agreement and the Customers annual usage.

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS

Service under this Rate Schedule shall be subject to the general Rules and Regulations of the Company as they may be in effect from time to time, and as filed with the regulatory authorities.

SPECIAL CONDITIONS APPLICABLE TO CUSTOMERS RECEIVING GAS SUPPLY FROM THIRD PARTY SUPPLIERS (TPS)

1. See the Rules and Regulations for Transportation - Special Conditions for terms related to Customers taking Gas Supply from a TPS.

2. Automatic Meter Reading (AMR) equipment is required for transportation Customers served under this Rate Schedule using over 120,000 therms per year. See the Rules and Regulations for Metering for terms and conditions related to Amr's.

NATURAL GAS VEHICLE SERVICE-II (NGV-II)

APPLICABILITY

For gas delivered to any Customer, including RNG delivered into the Company's system by any customer, for the purpose of compression and delivery into motor vehicle fuel tanks or other transportation containers after August 13, 2013.

MONTHLY RATE

Service is available under any General Service (GS) Rate Schedule (GS-1 through GS - 1250k) based on the Customer's therms per year as determined by the Company.

The charges, terms and conditions as provided under the applicable GS Rate Schedule shall apply, including all applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company, notwithstanding the Special Conditions sections below.

MONTHLY FACILITIES CHARGE WHEN COMPANY PROVIDES EQUIPMENT NECESSARY FOR NGV-II SERVICE

The Monthly Facilities Charge, if applicable, shall be equal to 1.6% multiplied by the Company's Gross Investment in facilities, as determined by the Company required to serve the Customer. As used here, Gross Investment means the total installed cost of the facilities as determined by the Company, which may include but are not limited to dryers, compressors, storage vessels, controls, piping, metering, dispensers, and any other related appurtenances including the necessary redundancy to provide for reliable service, before any adjustment for accumulated depreciation, a contribution in aid of construction, etc. The 1.6% factor is subject to adjustment if the Customer makes a contribution in aid of construction. The adjusted factor will be as stated in the Company's standard agreement for service provided under this Rate Schedule. If the service is provided under a standard agreement to more than one Customer, the charges applicable to each Customer shall be as stated in the agreement with the individual Customer. The standard agreement may also require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee, such as a bond or letter of credit, and/or other provisions as determined appropriate by the Company.

1) COMPANY PROVIDED FACILITIES ON CUSTOMER PREMISES

If Company provides and maintains the necessary facilities for compression and dispensing of such gas for delivery to vehicles on the Customer's property, the following additional charge shall apply:

NATURAL GAS VEHICLE SERVICE-II (NGV-II)
(Continued)

1) COMPANY PROVIDED FACILITIES ON CUSTOMER PREMISE (Continued)

Monthly Facilities Charge

The provision and maintenance of the facilities does not include the physical dispensing of compressed gas into vehicles, or the provision of electricity required to operate the facility. The physical dispensing of compressed gas into vehicles, the collection and remittance of any federal or state or local tax imposed on compressed gas dispensed for use as motor fuel, and the payment for electricity used to operate the facility shall be the responsibility of the Customer. A Company-provided facility could be a residential fueling station.

2) LIMITED ACCESS FACILITIES LOCATED ON COMPANY PREMISES

The Company may, under agreement with one or more Customers, provide and maintain, on the Company's premises, the necessary facilities for compression and dispensing of gas into motor vehicles. The Customer may elect to receive distribution service and purchase gas under any of the GS schedules, provided that the Customer would otherwise meet the requirement to be served under the provision of the rate schedule elected.

In addition to the distribution and gas charges as provided under the rate schedule elected by the Customer, the following charges shall apply:

a) Monthly Facilities Charge

The Monthly Facilities Charge, if applicable, shall be equal to 1.6% multiplied by the Company's Gross Investment in facilities, as determined by the Company required to serve the Customer. As used here, Gross Investment means the total installed cost of the facilities as determined by the Company, which may include but are not limited to dryers, compressors, storage vessels, controls, piping, metering, dispensers, and any other related appurtenances including the necessary redundancy to provide for reliable service and land and land rights, before any adjustment for accumulated depreciation, a contribution in aid of construction, etc. The 1.6% factor is subject to adjustment if the Customer makes a contribution in aid of construction. The adjusted factor will be as stated in the Company's standard agreement for service provided under this Rate Schedule. If the service is provided under a standard agreement to more than one Customer, the charges applicable to each Customer shall be as stated in the agreement with the individual Customer. The standard agreement may also require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee, such as a bond or letter of credit, and/or other provisions as determined appropriate by the Company.

b) Compressed Gas Dispensing Fee

The monthly dispensing fee shall recover all costs related to dispensing and be provided in the standard agreement.

1
Florida City Gas

Volume No. 11~~0~~ — Cancels Original Sheet No. 52

NATURAL GAS VEHICLE SERVICE-II (NGV-II)
(Continued)

2) LIMITED ACCESS FACILITIES LOCATED ON COMPANY PREMISES (Continued)

c) Tax

The Company shall collect from the Customer and remit to the applicable authority any motor fuel tax on compressed gas.

Any service provided from a facility located on the Company's premises shall be provided at the time and under the terms and conditions as determined by the Company and specified in the agreement(s) with the Customer(s). The standard agreement may require a commitment to purchase service for a minimum period of time, take or pay for a minimum amount of service, a contribution in aid of construction, a guarantee (such as a bond) and/or other provisions as determined appropriate by the Company.

3) PUBLICLY ACCESSIBLE FACILITIES LOCATED ON COMPANY PREMISES

If the Company offers service to Customer from facilities located on the Company's premises only the following charges shall apply:

Distribution and Dispensing: $0.50 /Therm

Gas Cost: No lower than the monthly PGA

Taxes: Applicable motor fuel or other taxes applicable to compressed gas dispensed for motor fuel

The total charge, consisting of the Distribution and Dispensing charge, the Gas Cost, and Taxes, shall be as determined by the Company. However, the Gas Cost component of the charge shall not be less than the Purchased Gas Adjustment (PGA) and other adjustments, charges and/or credits determined to be applicable. In addition, the gas commodity component (total charge less the Distribution and Dispensing charge and applicable taxes) will be accounted for as recovery of gas cost in the annual PGA docket. Other Riders of this Tariff will not be credited for such service.

Any service provided from a facility located on the Company's premises shall be provided at the time and under the terms and conditions as determined by the Company.

MINIMUM BILL

The minimum monthly bill shall be the minimum bill as provided for in the GS Rate Schedule applicable to the Customer plus any additional Monthly Facilities Charge except for option 3.

3) PUBLICLY ACCESSIBLE FACILITIES LOCATED ON COMPANY PREMISES (Continued)

TERMS OF PAYMENT

Bills are due upon receipt by the Customer and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company and are subject to late payment charges.

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the general Rules and Regulations of the Company as they may be in effect from time to time, and as filed with the regulatory authorities.

2. A separate meter or sub-meter may be requested by the Customer or required by the Company; in which case the Customer will pay the cost of the meter and installation which shall remain the property of the Company.

3. The collection and remittance of any federal or state or local tax specifically imposed on compressed gas dispensed for motor fuel shall be the responsibility of the Customer or Retailer, unless otherwise provide for in a Customer's agreement.

4. The terms and conditions applicable to sub-metering and allocation of cost included elsewhere in this Tariff are not applicable to Compressed Natural Gas used for motor fuel.

5. NGV service is not available for resale by residential customers.

6. The Company shall not be responsible in any manner for the use, care or handling of gas once it is delivered to a natural gas vehicle.

7. If the Company, by itself or in partnership with another entity, responds to a competitive situation of a government agency or commercial customer and has volumes greater than 250,000 therms per year, the Company has the option to provide NGV service, equipment, facilities, and distribution at rates and charges set on an individual Customer basis via a special contract as long as the rate is above incremental cost with a reasonable return. At the Company's discretion it may recover the difference between the otherwise applicable tariff rate and the approved contract rate under this rate provision through Rider "C", Competitive Rate Adjustment ("CRA").

8. If a Customer is phasing in the use of compressed gas as motor fuel and is acquiring and placing into service vehicles fueled by compressed gas over a period of years, the Monthly Facilities Charge may be phased–in over the term of agreement. However, the net present value of the revenue from the phased-in charges, discounted at the Company's authorized rate of return, shall be set equal to the net present value of the revenue that would be generated over the term of the contract if the Monthly Facilities Charge was not phased-in. Any such phase-in shall be provided in the agreement for service.

CONTRACT DEMAND SERVICE (KDS)

OBJECTIVE

The objective of this Rate Schedule is to enable the Company to attach incremental load to its system by providing the Company with the flexibility to negotiate individual service agreements with Customers taking into account competitive and economic market conditions and system growth opportunities.

APPLICABILITY

Sales or Transportation service is available under this Rate Schedule to any non-Residential Customer, or customer receiving service under Rate Schedule RNGS, bringing a minimum new incremental demand of 250,000 additional therms per year to the Company's system at one location.

Terms of service including operating conditions and, if applicable, a capital repayment mechanism acceptable to Company, which may include, but shall not be limited to, a minimum monthly or annual bill, will be set forth in individual service agreements between the Company and the Customer. Absent a service agreement with Company under this Rate Schedule, Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule, and Customer may elect to receive service under other applicable Rate Schedules.

GAS SUPPLY OBLIGATION

The Company shall have no obligation to provide gas supplies to Transportation Customers under this Rate Schedule.

MONTHLY RATE

1. The Distribution Charge shall be an amount negotiated between Company and Customer, but the rate shall not be set lower than the incremental cost the Company incurs to serve the Customer. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes. The charge shall include any capital recovery mechanism. The charge shall be determined by the Company based on Company's evaluation of competitive and overall economic market conditions and the opportunity for the Company to expand its system into areas not served with gas. Such evaluation may include, but is not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's alternate fuel or energy source; the nature of the Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.); and the opportunity to extend gas service to areas not supplied with gas. With respect to existing Customers, an additional load of at least 250,000 therms must be added, and the negotiated KDS rate will only apply to the additional load added to the Company's system.

CONTRACT DEMAND SERVICE (KDS)
(Continued)

MONTHLY RATE (Continued)

2. The Commodity Charge, if taking supply from the Company, shall be the rate per therm for gas used computed to be the incremental cost of purchasing or producing gas.

INTERRUPTION AND CURTAILMENT

In addition to the interruption and curtailment terms in the Rules and Regulations or the Company's Curtailment Plan the Company shall have the right to reduce or to completely curtail deliveries to Customer pursuant to this Rate Schedule:

1. If in the Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

2. in the event Company is notified by its supplier or pipeline transporter to interrupt or curtail deliveries to Customer, or deliveries of gas for uses of the same type or category as Customer's use of gas hereunder; or

3. when necessary to maintain the operational reliability of Company's system.

CONFIDENTIALITY

The Company and Customer each regard the terms and conditions of the negotiated service agreement as confidential, proprietary business information.

The Company and Customer will utilize all reasonable and available measures to guard the confidentiality of said information, subject to the requirements of courts and agencies having jurisdiction hereof.

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the tariff, except to the extent modified under this Rate Schedule and / or in a service agreement.

2. Term of Agreement: If the provision of service hereunder requires the installation of gas equipment at Customer's facility, Company and Customer may enter into an agreement as to the terms and conditions regarding the reimbursement of costs relating to such equipment. The initial term of the service agreement shall, at a minimum, be equal to the period of cost reimbursement. The rates established in the Monthly Rates section may be adjusted to provide for such cost reimbursement to the Company including carrying costs.

LOAD ENHANCEMENT SERVICE (LES)

OBJECTIVE

The objective of this Rate Schedule is to enable the Company to retain or obtain significant load on its system by providing the Company with the flexibility to negotiate individual service agreements with non-Residential Customers taking into account competitive and economic market conditions and overall system benefits.

APPLICABILITY

This sales or transportation service is available at the Company's sole discretion to Customer's which meet the applicability standards, including (1) an existing commercial customer receiving service under contract or any new or existing customer that would otherwise qualify for service under Rate Schedules KDS, TSS, OSS, GS-120K, GS-1,250K, GS-11M or GS-25M; (2) the Customer must provide the Company verifiable documentation of either a viable alternative fuel or of a Customer's opportunity to economically bypass the Company's system; (3) the Company must demonstrate that the Customer served under this Rate Schedule will not cause any additional cost to the Company's other rate classes, including, at a minimum, that the rate shall not be set lower than the incremental cost plus some additional amount as reasonable return on investment and; (4) the Customer and the Company must enter into a service agreement under this Rate Schedule. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes.

SERVICE AGREEMENT OBLIGATIONS

Terms of service including operating conditions and, if applicable, a capital repayment mechanism acceptable to Company, which may include, but shall not be limited to, a minimum monthly or annual bill, will be set forth in individual service agreements between the Company and the Customer. Absent a service agreement with Company under this Rate Schedule, Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule, and Customer may request service under other applicable Rate Schedules.

Any service agreement under LES shall be subject to approval by the Florida Public Service Commission (FPSC) before any contract rate is implemented and the agreement can be executed by the parties.

GAS SUPPLY OBLIGATION

The Company shall have no obligation to provide gas supplies to Transportation Customers under this Rate Schedule.

LOAD ENHANCEMENT SERVICE (LES)
(Continued)

MONTHLY RATE

1. The Distribution Charge shall be an amount negotiated between Company and Customer, but the rate shall not be set lower than the incremental cost plus some additional amount as a reasonable return on investment the Company incurs to serve the Customer. The distribution charge also shall include any capital recovery mechanism. The distribution charge shall be determined by the Company based on Company's evaluation of competitive and overall economic market conditions and the opportunity for the Company to expand its system into areas not served with gas as applicable. Such evaluation may include, but is not necessarily limited to: the cost of gas which is available to serve Customer; the delivered price and availability of Customer's alternate fuel or energy source; the nature of the Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.); and the opportunity to extend gas service to areas not supplied with gas. As used herein incremental cost shall include operations and maintenance, the depreciation expense for facilities used to provide service to the Customer, the return on the facilities computed at the rate of return approved in the Company's most recent rate case, and associated taxes.

2. The Commodity Charge shall be the rate per therm for gas used computed to be the incremental cost of purchasing or producing gas, if taking supply from the Company.

3. The Company may permit the Customer to combine the accounting for the gas load delivered to multiple meters serving the same premise for this service.

INTERRUPTION AND CURTAILMENT

In addition to the interruption and curtailment terms in the Rules and Regulations or the Company's Curtailment Plan, the Company shall have the right to curtail deliveries to Customer pursuant to this Rate Schedule:

1. If in the Company's opinion, Customer will overrun the volume of gas to which it is entitled from its supplier (or overrun the volume of gas being delivered to Company for Customer's account); or

2. in the event Company is notified by its supplier or pipeline transporter to interrupt or curtail deliveries to Customer, or deliveries of gas for uses of the same type or category as Customer's use of gas hereunder; or

3. when necessary to maintain the operational reliability of Company's system.

CONFIDENTIALITY

The Company and Customer each regard the terms and conditions of the negotiated service agreement as confidential, proprietary business information.

The Company and Customer will utilize all reasonable and available measures to guard the confidentiality of said information, subject to the requirements of courts and agencies having jurisdiction hereof.

LOAD ENHANCEMENT SERVICE (LES)
(Continued)

SPECIAL CONDITIONS

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the tariff, except to the extent modified under this Rate Schedule and / or in a service agreement but such modification or exemption shall not apply to the minimum perquisite requirements set forth in the Applicability section of this Rate Schedule.

2. Term of Agreement: If the provision of service hereunder requires the installation of gas equipment at Customer's facility, Company and Customer may enter into an agreement as to the terms and conditions regarding the reimbursement of costs relating to such equipment. The initial term of the service agreement shall, at a minimum, be equal to the period of cost reimbursement. The rates established in the Monthly Rates section may be adjusted to provide for such cost reimbursement to the Company including carrying costs.

3. No later than 180 days prior to the expiration of this special contract, a Customer served under an LES contract may request a new contract under the terms and conditions of this tariff provision. If an agreement is not reached by the end of the term, the agreement will convert to the applicable General Services tariff (based on volume) until a new contract has been approved by the FPSC and executed by the parties.

4. Automatic Meter Reading (AMR) equipment capable of providing daily readings is required for Customers served under this Rate Schedule. See the Rules and Regulations for Metering for terms and conditions related to AMR's.

5. When entering into a service agreement with a Customer under this Rate Schedule, Company will take reasonable steps to mitigate the potential of any revenue shortfalls between the revenues received under a service agreement and the total cost and expenses relating to the associated capital investment made by the Company, including minimum annual requirement.

6. The difference between the otherwise applicable tariff rate and the approved contract rate under this Rate Schedule may be subject to recovery through Rider "C", Competitive Rate Adjustment ("CRA").

THIRD PARTY SUPPLIER (TPS)

APPLICABILITY

The provisions of this Rate Schedule shall apply to brokers, marketers, Customers intending to act as their own gas supplier, and other third party suppliers (collectively "Third Party Suppliers" or "TPS") of natural gas that wish to either act as agents for Transportation Customers or deliver natural gas supplies to Company's City Gate for Transportation Customers. Third Party Suppliers wishing to sell and/or deliver gas on the Company's system will be required to sign a Service Agreement in which they will agree to be bound by the terms and conditions of the Company's Tariff.

TERM OF CONTRACT

The term of the contract shall be at least three (3) years and from month to month thereafter unless terminated on thirty (30) days written notice.

TERMS OF PAYMENT

The TPS agrees to pay for all balancing and other transportation related charges determined by the Company to be billable to a TPS on behalf of their Customers as provided for in this tariff. All charges due from a TPS under this Rate Schedule shall be paid in full within 20 days of the billing date. The TPS and the Company will resolve any disputed amounts. Adjustments, if any, will be reflected on future billings.

CREDITWORTHINESS

Company shall not be required to permit any TPS who fails to meet Company's standards for creditworthiness to sell or deliver gas on its system. Company may require that TPS provide the following information:

1. Current financial statements (to include a balance sheet, income statement, and statement of cash flow), annual reports, 10-K reports or other filings with regulatory agencies, a list of all corporate affiliates, parent companies and subsidiaries and any reports from credit agencies which are available. If audited financial statements are not available, then TPS also should provide an attestation by its chief financial officer that the information shown in the un-audited statements submitted is true, correct and a fair representation of TPS's financial condition.

2. A bank reference and at least three trade references.

3. A written attestation from TPS that it is not operating under any chapter of the bankruptcy laws and is not subject to liquidation or debt reduction procedures under state laws, such as an assignment for the benefit of creditors, or any informal creditor's committee agreement. An exception can be made for a TPS who is a debtor in possession operating under Chapter XI of the Federal Bankruptcy Act but only with adequate assurances that any charges from the Company will be paid promptly as a cost of administration.

THIRD PARTY SUPPLIER (TPS)
(Continued)

CREDITWORTHINESS (Continued)

4. A written attestation from TPS that it is not subject to the uncertainty of pending litigation or regulatory proceedings in state or federal courts which could cause a substantial deterioration in its financial condition or a condition of insolvency.

5. A written attestation from TPS that no significant collection lawsuits or judgments are outstanding which would seriously reflect upon the TPS's ability to remain solvent.

To remain in good standing, no uncontested delinquent balances should be outstanding for natural gas sales, storage, Transportation Services, or imbalances previously billed by Company, and TPS must have paid its account according to the established terms, and not made deductions or withheld payment for claims not authorized by contract.

TPS shall furnish Company at least annually, and at such other time as is requested by Company, updated credit information for the purpose of enabling Company to perform an updated credit appraisal. In addition, Company reserves the right to request such information at any time if Company is not reasonably satisfied with TPS's creditworthiness or ability to pay based on information available to Company at that time.

Company shall not be required to permit and shall have the ability to suspend any TPS who is or has become insolvent, fails to demonstrate creditworthiness, fails to timely provide information to Company as requested, or fails to demonstrate ongoing creditworthiness as a result of credit information obtained; provided, however, TPS may continue to sell / deliver gas on the Company's system if TPS elects one of the following options:

(A) Payment in advance for up to three (3) months service as determined by the Company.

(B) A standby irrevocable letter of credit in form and substance satisfactory to Company in a face amount up to three (3) months service. The letter of credit must be drawn upon a bank acceptable to Company.

(C) A guaranty in form and substance satisfactory to Company, executed by a person that Company deems creditworthy, of TPS's performance of its obligations to Company.

(D) Such other form of security as TPS may agree to provide and as may be acceptable to Company.

First Revised Sheet No. 62
Cancels Original Sheet No. 62

THIRD PARTY SUPPLIER
(TPS)
(Continued)

CREDITWORTHINESS (Continued)

In the event TPS fails to meet the terms of this Creditworthiness section, Company may, without waiving any rights or remedies it may have, and subject to any necessary authorizations, suspend TPS until such time as they are deemed compliant by the Company.

The insolvency of a TPS shall be evidenced by the filing by TPS, or any parent entity thereof, of a voluntary petition in bankruptcy or the entry of a decree or order by a court having jurisdiction adjudging the TPS, or any parent entity thereof, bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of the TPS, or any Parent entity thereof, under the Federal Bankruptcy Act or any other applicable federal or state law, or appointing a receiver, liquidator, assignee, trustee, sequestrator, (or similar official) of the TPS or any parent entity thereof or of any substantial part of its property, or the ordering of the winding-up or liquidation of its affairs.

MONTHLY RATE

Customer Charge	$400.00
Charge for each Transportation Customer served by the TPS	$6.21

DETERMINATION OF THE AVERAGE DAILY DELIVERY QUANTITY ("ADDQ")

The ADDQ for each Customer without an AMR device will be calculated by the Company by dividing the Customer's usage for each of the most recent twelve (12) billing months by the total number of days in each billing month. Company may adjust Customer's ADDQ at any time, due to changes in Customer's equipment or pattern of usage. For new Customers, the initial ADDQ will be estimated by Company, based upon the rating of the Customer's gas equipment and expected utilization of the equipment. The TPS will be obligated to deliver the aggregate ADDQ each day for Customers it serves.

The Company will notify TPS of its aggregate ADDQ obligation for each day of the next succeeding month on the Company's EBB, or other means as determined by the Company. If TPS does not agree with Company's determination of TPS's aggregate ADDQ, it must notify the Company in writing within two business days no later than 5:00 p.m. Eastern Standard Time. Company and TPS will reconcile any differences no later than 5:00 p.m. Eastern Standard Time on the twentieth (20th) of the month.

THIRD PARTY SUPPLIER (TPS)
(Continued)

NOMINATIONS FOR SERVICE

The TPS daily nominations shall consist of the ADDQ amount as provided by the Company, if applicable, plus an amount to meet their non-ADDQ Customers daily requirements. The TPS shall use its best efforts to match their daily nominations to ADDQ and non-ADDQ requirements for the Customers it serves. Failure to provide nominations may result in suspension of service to Customers of the offending TPS. In addition, TPS must identify interstate pipeline contract(s) on which deliveries will be made to the Company's distribution system on the Company's EBB conforming with NAESB cycles. Failure to comply with the Company's nominating procedures may result in curtailment of third party gas deliveries or additional monthly cash-outs. Company reserves the right to require daily balancing, and shall have the right to curtail service to ensure deliveries on a uniform basis and to correct any imbalances.

Company shall be entitled to retain at no cost to Company a percentage of the quantity of gas delivered by or for the account of Customer at each Receipt Point for transportation to Customer, as gas which shall be deemed to be an allowance for transportation shrinkage in the performance of service under each applicable Rate Schedule. Such percentage shall not be higher than 1.5% without prior approval of the Florida Public Service Commission. The Companyshall have the right to adjust the percentage from time to time to reflect the actual operating experience of the Company and/or any change in the methodology used by Company to calculatethe amount of gas deemed as transportation shrinkage. Upon request, Company shall furnish toCustomer information to support any such adjustment to such percentage.

In making Nominations the TPS shall provide the following:

(1) The pipeline company and the pipeline transportation contract identifiers under which gas deliveries will be made to the Company's distribution system.

(2) The daily quantity of gas, expressed in MMBTU (Dekatherms), to be tendered at each receipt point, however the Company reserves the right to specify at which pipeline receipt point a TPS will deliver gas as a percentage of the TPS total monthly deliveries.

(3) The estimated term of thenomination.

(4) The name, address, and telephone number of a contact person that is available to receive communication from Company at any and all times and upon whose written and oral communications Company may exclusively rely.

THIRD PARTY SUPPLIER (TPS)
(Continued)

NOMINATIONS FOR SERVICE (Continued)

(5) Any additional information as may be required by the Company in order to perform its functions as a Delivery Point Operator on the pipeline transportation system.

If Customer's TPS fails to comply with provisions 1 through 5 above, Company may not schedule the commencement of service or change a prior nomination.

DAILY NOMINATION PENALTIES

The TPS shall deliver, or cause to be delivered, to the Company at the point(s) of receipt and receive, or cause to be received, from Company at the point(s) of delivery, on a uniform daily basis, that quantity of natural gas that has been Nominated for Service.

Except for conditions of Force Majeure or per prior agreement with the Company to modify nominations, on any day that the sum of the actual daily quantity of natural gas received by Company ("Actual Receipts") varies from the sum of daily quantities Nominated for Service during such day for transportation at the points of receipt (Scheduled Volumes) by more than ten percent of the Nominated Receipts, the Company may impose a penalty equal to Unauthorized Gas Use charge times the variance in excess of ten percent of the Nominated Receipts unless in its opinion the system or Customers receiving PGA service were not harmed as a result of the imbalance. The Company reserves the right to limit this imbalance to five percent upon twenty four hours notice to the TPS representatives.

These charges are in addition to monthly cash-outs and any other imbalance charges and convey no rights to any quantities of gas to the TPS or its Customers. In the event of non-payment, these charges shall not be assessed to the TPS Customers by the Company. In addition, the Company shall not be required to continue to perform service for TPS Customers if their TPS fails to deliver adequate gas supplies per their daily nominations. The Company reserves the right to discontinue receipts from a TPS until the penalty is paid in full.

PIPELINE IMBALANCES AND CHARGES

Company and TPS recognize that Company may be subjected to imbalance charges from its interstate pipeline suppliers as a result of TPS's failure to deliver confirmed quantities of gas. In the event that Company is assessed penalties as a result of TPS's actions or omissions, TPS shall reimburse Company for such penalties as may be attributable to TPS's actions or omissions. The Company reserves the right to commingle and charge TPSs on a prorated basis, as determined by the Company, any pipeline charges related to transportation that are not readily identifiable to a specific TPS.

THIRD PARTY SUPPLIER (TPS)
(Continued)

INDEMNIFICATION

As between the Company and TPS, TPS warrants that it has clear title to any gas delivered into the Company's system, and TPS shall be deemed to be in exclusive control and possession of gas prior to its delivery into the Company's system for redelivery to Customer. TPS agrees to indemnify, defend and hold harmless Company from any and all claims, suits or damage actions arising out of deliveries on behalf of a transporting Customer.

ALLOCATION OF SUPPLIES

Gas received by the Company from the TPS shall be allocated first to the GS classes being served under ADDQ in the order of increasing annual usage, then to NGV followed by the remaining GS classes in the order of increasing annual usage, then by KDS and lastly to FGS Customers.

DAILY AND MONTHLY CONTRACT BALANCING

Third Party Suppliers will be billed for all their Customers' balancing charges as follows:

a) Daily Imbalance Charge

The Company shall, within the existing limitations of its system, provide for balancing between gas requirements and actual gas deliveries, net of an adjustment for Company Use and Unaccounted for Gas, received by the Company for the account of the Customers served by the TPS that day. The Company shall not be obligated to provide gas service during an hourly, daily or monthly period in excess of the levels specified in the Rate Schedules under which Customers of the TPS are served.

The Company reserves the right to require daily balancing on any other day in which the Company, in the exercise of its reasonable judgment, determines that such balancing is necessary for operational reasons. The Company will provide the TPS in all instances with at least twenty-four (24) hours advance notice that daily balancing will be imposed.

In the event that daily balancing is imposed in accordance with this section, TPS shall be assessed the following charges for daily imbalances:

	Imbalance *	Charge **
	0% to 5%	$0.00 per therm
	5.1% to 10%	$0.10 per therm
Underdeliveries	> 10%	$0.50 per therm
Overdeliveries	> 10%	$0.10 per therm

Florida City Gas
FPSC Natural Gas Tariff
Volume No. 11~~0~~ Original Sheet No. 66

THIRD PARTY SUPPLIER (TPS)
(Continued)

DAILY AND MONTHLY CONTRACT BALANCING (Continued)

a) Daily Imbalance Charge (Continued)

*The Company reserves the right to limit daily imbalances to plus or minus 5% of the actual quantity received. If the Company limits daily imbalances to plus or minus 5%, all underdeliveries in excess of 5% shall be considered Unauthorized Gas Use and shall be subject to the Unauthorized Gas Use charges.

**The Company may suspend overdelivery charges if it determines such overdeliveries would be beneficial to the systems operation.

All TPSs will automatically be placed in a non-discriminatory daily balancing pool. The Company will aggregate the deliveries and receipts of gas of all TPS Customers participating in the pool for the purpose of determining whether imbalance charges will apply. In the event that charges are nonetheless assessed to certain TPSs, such charges will be no greater than the charges that otherwise would have been assessed if the Company did not have a daily balancing pool. TPSs trading imbalances will nonetheless have to set their own prices or methods by which over or under balances will be traded among individual TPSs.

b) Monthly Imbalance Cash-Out Charge

At the conclusion of every month, the Company will cash out imbalances between TPS's deliveries and their Customers consumption made up of actual and or estimated volumes as follows:

Imbalance Level	Underdeliveries (1) Factor	Overdeliveries (2) Factor
0 to 5%	1.00	1.00
5.1% to 20%	1.10	0.90
> 20%	1.20	0.80

The Company reserves the right to gross up Customer's total consumption for fuel loss at a rate not to exceed 1.5%.

(1) For underdeliveries the amount due to the Company shall be the Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor and the applicable price per therm. The price per therm shall be the higher of the total GS-25k Sales Service rate or the monthly average spot price of gas delivered to Florida Gas Transmission at St. Helena Parish, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Company will file to change its tariff and may, at its discretion, select a representative price in the interim period, subject to FPSC approval.

THIRD PARTY SUPPLIER (TPS)
(Continued)

DAILY AND MONTHLY CONTRACT BALANCING (Continued)

b) Monthly Imbalance Cash-Out Charge (Continued)

(2) For overdeliveries the amount payable by the Company shall be the Imbalance Quantity multiplied by the product of the corresponding Imbalance Level Factor and the applicable price per therm. The price per therm shall be the Company's lowest supplier commodity rate applicable to the billing month in which the Customer over tendered gas to the Company, or the monthly average spot price for gas delivered to Florida Gas Transmission at Tivoli, as reported in Platts Gas Daily plus Florida Gas Transmission Company's transportation cost and fuel, if applicable. In the event that this price is no longer available or the basis upon which such price is reported or calculated in such publication changes substantively, Company will file to change its tariff and may, at its discretion, select a representative price in the interim period, subject to FPSC approval.

The offering of gas service above the 5% allowed imbalance for the month is at the sole discretion of the Company. If it determines that it cannot continue to provide such service or that it must limit such service, it will notify TPSs served under this Rate Schedule. The use of service above the level allowed by the Company after notification shall constitute Unauthorized Gas Use and shall be subject to the Unauthorized Gas Use charges specified in the Rules and Regulations section of this tariff.

CAPACITY ASSIGNMENT

TPSs will be required to obtain firm interstate pipeline capacity into the Company's distribution system at points designated by the Company at a quantity equivalent to their Customers' aggregate ADDQ. TPSs that do not demonstrate sufficient interstate firm capacity will be required to accept assignment of such capacity from the Company to the extent that it's available, and consistent with the capacity assignment process outlined in the Rules and Regulations Section 15 (Transportation – Special Conditions) section of the tariff.

Refer to Rules and Regulations Section 15 (Transportation – Special Conditions) for the terms associated with the Capacity Assignment process for TPSs.

TREATMENT OF REVENUE

All revenue produced under this Rate Schedule derived from any balancing charges or other revenue related to the recovery of gas costs, exclusive of applicable taxes and assessments, shall be credited to the Purchased Gas Adjustment Clause.

STANDARDS OF CONDUCT

In addition to the above terms and conditions, TPS' must agree to comply with any standards of conduct or other requirements set forth by the Florida Public Service Commission.

TRANSPORTATION SUPPLY SERVICE (TSS)

APPLICABILITY

Service is available to a TPS who signs a service agreement with the Company.

CHARACTER OF SERVICE

At the Company's discretion gas will be made available for this service only to the extent that such gas supplies can be incrementally purchased providing that Company facilities are suitable and gas supplies can be secured for this service. The Company reserves the right to interrupt this service upon two (2) hours notice at its sole discretion.

*CHARGES

1. An Annual Service Charge of $500 shall be assessed upon the initial request for this service. This charge will be reassessed for subsequent requests made after June 30 of any year.

2. A Daily Usage Charge of $50.00 shall be assessed for each day this service is utilized.

3. The Commodity rate per therm for gas used shall be computed to be the higher of a) the PGA or b) the incremental cost of purchasing or producing said gas plus $0.0750 per therm.

*The charges set forth in this Rate Schedule will be adjusted for all other applicable Riders of this Tariff and any additional taxes, assessments or similar charges that are lawfully imposed by the Company.

TERMS OF PAYMENT

Bills are due upon receipt by the TPS and become delinquent if unpaid after expiration of twenty days from date of mailing or other delivery thereof by the Company.

SPECIAL CONDITIONS

1. Gas Supply: gas purchased for sale under this Rate Schedule shall not be included as part of the gas costs that are recoverable through the PGA Charge.

2. Balancing: gas supplied under this rate schedule shall be deemed a gas delivery by the TPS for purposes of applying the Daily and Monthly Contract Balancing terms of the TPS Rate Schedule.

OFF-SYSTEM SALES SERVICE (OSS)

AVAILABILITY

Throughout the service areas of Company, and of any interstate or intrastate gas pipeline serving the Company (collectively, the "Pipelines")

APPLICABILITY

Interruptible Gas delivered by Company through the facilities of a Pipeline, using Company's transportation capacity rights on such Pipeline, to any person not connected to Company's distribution system.

CHARGES

Customer Charge	None
Transaction Charge	$100.00 per transaction
Commodity Charge	As set forth below

For all Scheduled Quantities (as such term is defined in Special Condition 4 below), the Commodity Charge per therm shall be established by agreement between Company and Customer prior to each transaction pursuant to this Rate Schedule.

The Commodity Charge for service pursuant to this Rate Schedule shall be determined by Company based upon Company's evaluation of competitive conditions. Such conditions may include, but are not necessarily limited to: the cost of gas which is available to service Customer: the delivered price and availability of Customer's designated alternate fuel; and the nature of Customer's operations (such as load factor, fuel efficiency, alternate fuel capacity, etc.). Companymay from time to time increase or reduce the Commodity Charge as it deems necessary or appropriate to meet competition or remain competitive, but shall have not an obligation to do so.

The Commodity Charge per therm shall include, at a minimum, the cost per therm of the Gas delivered to Customer pursuant to this Rate Schedule, including all variable costs incurred by Company for (or in connection with) Pipeline transportation and all applicable taxes. Company's Purchase Gas Cost Recovery Adjustment Clause, Energy Conservation Cost Recovery Clause and Competitive Rate Adjustment Clause shall not apply to purchases of Gas made by Customer Pursuant to this Rate Schedule.

OFF-SYSTEM SALES SERVICE (OSS)
(Continued)

SPECIAL CONDITIONS

1. Neither Customer nor Company shall have any obligation to other for any specific minimum quantity of Gas or pipeline capacity on any day or during any month, and deliveries pursuant to this Rate Schedule shall be subject to curtailment or interruption at any time in the sole discretion of Company.

2. Disposition of Net Revenues and Transaction Charges. For purposes of this paragraph "net revenues" shall equal the difference between the Commodity Charge and the cost of gas delivered to Customer inclusive of all taxes and adjustments. Fifty percent (50%) of all net revenues shall be retained by Company. The remaining fifty percent (50%) of such net revenues (and all Transaction Charges) shall be used to reduce Company's cost of gas recovered through the Purchased Gas Cost Recovery Adjustment Clause.

3. Interruption and Curtailment. Company may notify Customer at any time to reduce or cease using gas. Company will endeavor to give as much notice as possible to Customer. Any gas taken in excess of the volume allocated to Customer in an interruption or curtailment order shall be considered Unauthorized Gas Use. Company may bill and Customer shall pay for such unauthorized use per the charges in the Rules and Regulations - Unauthorized Gas Use section.

4. For each day on which Customer desires to receive service pursuant to this Rate Schedule, Customer shall provide a nomination to Company specifying the quantity of Gas it desires to receive at the specified point of delivery pursuant to this Agreement. Following receipt of a timely and complete nomination from Customer, Company will confirm the quantities of Gas to be made available for delivery to Customer at such point of delivery. Quantities confirmed by Company for delivery shall be "Scheduled Quantities".

5. The point of delivery for all gas sold pursuant to this Rate Schedule shall be the delivery point of the delivering Pipeline specified by Customer.

6. Except as modified by the provisions set forth above, service under this Rate Schedule shall be subject to the Rules and Regulations set forth in this tariff.

Economic Development Gas Service (EDGS)

AVAILABILITY

Service under this Schedule is available, in conjunction with other applicable Commercial or Industrial rate schedule, to any qualifying person that meets the eligibility requirements.

APPLICABILITY

To receive service under this Rate Schedule, the Customer's written application to the Company shall include sufficient information to permit the Company to determine the Customer's eligibility.

Eligibility Requirements: A qualifying person must intend to become a new Customer with the intent to utilize gas to provide significant economic development or environmental benefits within the State of Florida or in a manner that increases system utilization; be an existing Customer that materially expands its use of gas, that provides significant environmental or economic development benefits within the State, or that increases system utilization; or be a new or existing Customer that meets other criteria as determined appropriate by the Florida Public Service Commission.

Significant Economic Benefit: Customers must intend to: create new jobs or avoid potential job reductions in the State; be identified as a prospect by applicable state, county or municipal economic development entity; or otherwise provide material benefits in the areas' economic development.

Significant Environmental Benefit: Customers must intend to: install or modernize equipment that uses energy more efficiently; reduce carbon emissions; achieve goals under a State or Federal Energy Plan or Policy as may be established from time to time; or otherwise intend to provide measureable benefits to improve Florida's environment.

Qualifying Volumes: To be eligible for service under this rate schedule a new Customer must contract to purchase and/or transport at least 1,000 Dth annually. An existing Customer must contract to purchase and/or transport of at least 1,000 Dth of additional gas annually. The increase in the volume of gas purchased or transported shall result from an in increase in business activity and not merely from the resumption of normal operations following a period of abnormal operating conditions. If in the Company's sole judgement an abnormal period has occurred as a result of a strike, equipment failure, or any other abnormal condition during the twelve (12) month period prior to the date of the application by the Customer for service under this rate schedule, the Company shall adjust the Customer's consumption to eliminate any abnormal conditions. The Company, through use of historical data shall determine the base annual consumption for existing Customers. Volumes in excess of the base annual consumption shall be used to evaluate the eligibility of the Customer to receive service under this rate schedule. Loads which are or have been served by the Company during all or part of the twelve (12) month period prior to service under this Rate Schedule, and which are relocated to another metering point within the Company's service area, shall not qualify for this Rate Schedule.

Economic Development Gas Service (EDGS)
(Continued)

The existing facilities of the Company must be adequate in the sole judgment of the Company to supply the new or expanded gas requirements. If construction of new or expanded local facilities by the Company is required, the Customer may be required to make a Contribution in Aid of Construction for the installed cost of such facilities. The Company will evaluate the Customer's request for service and determine the necessity of a Contribution in Aid of Construction for facilities based on the Extension of Facilities provisions in the Company's filed tariff.

The Customer must execute a contract for service under this tariff for a minimum of 10 years.

All other terms and conditions of the companion rate schedule under which service would otherwise be provided shall apply to service provided under this rate schedule.

The Company shall review the Customer's consumption each year to determine whether the Customer has fulfilled the usage requirement to be eligible for service under this rate schedule. If, on an annual basis, the Customer fails to fulfill the usage requirement for service under this tariff future service may be provided under the applicable rate schedule that would otherwise apply.

CUSTOMER CHARGE

A full monthly Customer charge per meter as provided under applicable companion tariff is payable regardless of the usage of gas.

MONTHLY RATE

The non-gas charges that would be billed in accordance with the applicable rate schedule that would otherwise apply to the qualifying volumes if service was not providing under this rate schedule shall be multiplied by the following Adjustment Factors to determine the monthly bill related to the qualifying volumes. For a new Customer the factor will be applied to the charges for the total volume delivered. For an existing Customer, the factor will be applied to the charges applicable to the volume in excess of the base annual volumes. For monthly billing purposes, 1/12th of the base annual volume shall be deducted from actual measured consumption to determine the volume eligible for the discounted factor. The factor will not be applied to the monthly Customer charge.

Contract Year	Billing Months	Adjustment Factor	Discount from Companion Rate Schedule
1	1st through 12th	60%	40%
2	13th through 24th	70%	30%
3	25th through 36th	80%	20%
4	37th through 48th	90%	10%
	Beyond the 48th Month	100%	0%

Economic Development Gas Service (EDGS)
(Continued)

If the volume of gas purchased or transported in a contract year is less than the volume specified in the contract, the difference in the actual volume and the volume specified in the contract shall be deemed a volume deficiency. For any volume deficiency, the Customer shall be billed an amount equal to the non-gas volumetric charge that would have been billed for the delivery of the volume equal to the deficiency. The bill shall be computed in accordance with the applicable rate schedule that would otherwise apply subject to the discount provided under this rate schedule.

PAYMENT TERMS

All bills for service are due upon presentation. The stated net amount shown on the bill shall apply if payment is received on or before the date as specified on the bill. Payments received after that date shall be assessed late payment charges as defined in Section 7 on Sheet No. 13 of the Company's tariff.

BILLING ADJUSTMENTS

Bills for gas service hereunder shall be subject to adjustment for the applicable taxes, fees, and the cost of purchased gas in accordance with Purchased Gas Adjustment (PGA), and shall be subject to other adjustments, charges and/or credits as determined to be applicable to the applicable rate schedule under which the Customer would otherwise be served. The adjustment factor provided under this rate schedule will not be applied to the PGA and other adjustments factors.

RENEWABLE NATURAL GAS SERVICE (RNGS)

AVAILABILITY:

Throughout the service areas of the Company.

CHARACTER OF SERVICE:

Service provided by the Company for the purpose of conditioning and upgrading Customer's biogas to Renewable Natural Gas ("RNG") such that the RNG can be utilized onsite by Customer and/or to be delivered into Company's distribution system for transportation and delivery.

APPLICABILITY:

Service under this Rate Schedule ("RNG Service") is available to eligible Customers that produce biogas to be utilized as RNG onsite by the Customer or delivered into the Company's distribution system for transportation and delivery pursuant to Rate Schedules GS-1, GS-6K, GS-25K, GS-120K, GS-1250K, GS-11M, GS-25M, KDS or NGV-II to a compressed natural gas station or other point of delivery on the Company's system. Service under this Rate Schedule is contingent upon the Company and the Customer entering a mutually satisfactory RNG Service Agreement; provided, however, that in no event shall the service provided to the Customer under this Rate Schedule cause any additional cost to the Company's other rate classes.

RNG SERVICE AGREEMENT:

The terms of service, including design, location, quantity, gas quality specification, operation of facilities and the Monthly Service Charge, will be set forth in a mutually satisfactory agreement between the Company and the Customer ("RNG Service Agreement"). The RNG Service Agreement may require commitment(s) by the Customer to purchase RNG Service for a minimum period of time, to take or pay for a minimum amount of RNG Service, to make a contribution in aid of construction, to furnish a guarantee, such as a surety bond, letter of credit or other means of establishing credit, and/or to comply with other provisions as determined appropriate by the Company. Absent an RNG Service Agreement with the Company under this Rate Schedule, the Company has no obligation to provide, and the Customer shall have no right to receive, service under this Rate Schedule.

MONTHLY SERVICES CHARGE:

The Monthly Service Charge shall be an amount negotiated between the Company and the Customer, but in no event shall Monthly Service Charge cause any additional cost to the Company's other rate classes. The Monthly Charge shall be set in a manner to allow the Company to recover the total installed cost of the facilities required to provide RNG Service plus the carrying costs at the Company's overall cost of capital, which facilities

RENEWABLE NATURAL GAS SERVICE (RNGS)
(Continue)

may include, but are not limited to, blowers, chillers, condensate removal equipment, compressors, heat exchangers, driers, digesters, gas constituent removal equipment, quality monitoring equipment, storage vessels, controls, piping, metering, propane injection, and any other related appurtenances including any redundancy necessary to provide reliable RNG Service.

DELIVERY CHARGE:

In addition to the Monthly Service Charge, the Company will also collect the applicable tariff rate for any volume of RNG that is delivered, into the Company's distribution system for transportation and delivery on behalf of the Customer at the Customer's request. In the event service is provided under Rate Schedule KDS, the delivery charge shall be an amount negotiated between the Company and Customer, but the rate shall not be set lower than the incremental cost the Company incurs to redeliver Customer's gas back to the Customer.

ELECTRIC AND FUEL REIMBURSEMENT CHARGE:

The Company's provision of RNG Service does not include the provision of electricity, natural gas, or any other fuels required to operate the RNG facilities or to be added to the RNG produced by the Customer. The Customer shall reimburse Company for all such electricity and other fuel expenses incurred by Company to provide RNG Service to Customer under this Rate Schedule.

SPECIAL CONDITIONS:

1. Service under this Rate Schedule shall be subject to the Rules and Regulations set forth in the Company's tariff, except to the extent modified under this Rate Schedule and / or in an RNG Service Agreement.

2. All Customer RNG that is delivered into Company's distribution system for transportation and delivery must (i) meet the gas quality standards defined in Florida Gas Transmission's tariff in effect and applicable at the time the RNG Service Agreement entered and (ii) have an acceptable heat content such that the RNG delivered into the Company's distribution system does not, as determined in the sole discretion of the Company, impact the Company's ability to deliver Gas on the order of 1,100 British Thermal Units per cubic foot.

3. Each year the Company shall re-determine the Rate Schedule applicable to the transportation and delivery of the Customer RNG based on the Customer's annual usage. If the Company determines that the Customer should be reclassified to a different Rate Schedule for the transportation and delivery of RNG, such reclassification shall be prospective only.

RIDER "A"

Purchased Gas Adjustment ("PGA")

Applicable to all Customers taking Sales Service from the Company under all GS, GL, RSG, CSG and NGV Rate Schedules. The PGA Charge, as defined herein, is designed to recover the cost tothe Company of purchased gas or fuel used as a substitute for or supplemental to purchased gas including the cost of storing or transporting said gases or fuel, the cost of financial instruments employed to stabilize gas costs, other charges or credits as may result from the operation of other tariff provisions, and taxes and assessments in connection with the purchase and sale ofgas.

A. The rate per therm for gas supplied in any billing period shall be adjusted by the Company's expected weighted average cost of gas (WACOG), and other adjustments as specified and approved by the Florida Public Service Commission. The WACOG may not exceed the Commission approved purchased gas cost recovery factor based on estimated gas purchases for the twelve-month period ending December 31st, in accordance with the methodology adopted by the Commission. The factor determined as set forth above shall be multiplied by 1.00503 for regulatory fees, and rounded to the nearest $0.00001 per therm, to be applied to the total number of therms consumed by the Customer during the billing period.

B. The PGA cap recovery factor approved by the Commission for the billing months of January 2023 through December 2023 is $1.71261per therm.

C. If re-projected gas cost expenses for the remaining period exceed projected recoveries by at least 10% for the twelve-month period, a midcourse correction may formally be requested by the Company. For changes in market conditions and costs, the Company, upon one day's notice to the Commission, shall have the option of flexing downward (reducing the WACOG) or upward (increasing the WACOG) to the extent that the increase does not exceed the authorized cap. The current month WACOG may be adjusted for prior months' differences between projected and actual costs of gas purchased, but may not exceed the approved cap for the period.

D. Any overrecovery or underrecovery of purchased gas costs by the Company as a result of adjustments made pursuant to the above shall be "trued-up" (refunded to Customer or collected by Company) with interest, during succeeding billing periods as an adjustment to the WACOG, in accordance with the methodology adopted by the Commission, or as such methodology may beamended from time to time by further order of the Commission.

Energy Conservation Cost Recovery Adjustment("ECCR")

Applicable to all Customers served under the Rate Schedules shown in the table below except for those Customers receiving a discount under the AFD Rider.

The Distribution Charge for the applicable Rate Schedules shall be increased or decreased for the ECCR Rider to reflect the recovery of conservation related expenditures by the Company. The ECCR factor shall be multiplied by the tax factor of 1.00503 and rounded to the nearest $0.00001 per therm. The Company shall record both projected and actual expenses and revenues associated with the implementation of the Company's Energy Conservation Plan as authorized by the Commission. The procedure for review, approval, recovery, and recording of such costs and revenues is set forth in PSC Rule 25-17.015.

The cost recovery factors including tax multiplier for the twelve-month period from January 1, 2023 through December 31, 2023 are:

RS -1, RSG	$0.25615 per therm
RS -100	$0.16795 per therm
RS - 600	$0.09486 per therm
GS – 1, CSG	$0.05986 per therm
GS – 6K	$0.04463 per therm
GS – 25K	$0.04452 per therm
GS – 120K	$0.02987 per therm
GS – 1250K	$0.01939 per therm

RIDER "C"

Competitive Rate Adjustment ("CRA")

Applicable to all Customers except those taking service under Rate Schedules KDS, TSS, OSS, LES or under the NGV special contract rate.

The Distribution Charge for gas sold or transported after June 30, 1991, to Customers to whom this charge applies, is subject to adjustment in accordance with the following provisions, for prior shortfalls or surpluses.

A. For the purposes of this clause, the following definitions shall apply:

(1) "Actual revenue" means Company's actual Margin Revenue derived from service provided on the LES Rate Schedule during a determination period.

(2) "Base revenue" means the Margin Revenue which Company would have derived had all gas sold on the LES Rate Schedule during a determination period, been sold under Rate Schedules GS-120K, GS-1,250K, GC-11M and GS-25M.

(3) "Surplus" means the amount, if any, by which Company's actual revenue exceeds its base revenue for a determination period.

(4) "Shortfall" means the amount, if any by which Company's base revenue exceeds its actual revenue for a determination period.

B. The existence of a shortfall or surplus shall be determined by comparing Company's actual revenue with its base revenue. This determination shall be made each year for the actual twelve months ending September 30th ("determination period").

C. A surplus refund or shortfall recovery shall be implemented during an "adjustment period" beginning January 1st by reducing or increasing the Distribution Charge per therm charge prescribed in each applicable Rate Schedule of this tariff by an adjustment factor computed as follows and multiplied by the tax factor of 1.00503 and rounded to the nearest $0.00001 per therm.

In the event of a surplus, subtract the amount derived from dividing the Surplus Refund due to Customers by the projected therm sales for these Customers.

In the event of a shortfall, add the amount derived from dividing the Shortfall Recovery by the projected therm sales for these Customers.

Any variation between the actual surplus refund to Customers and the amount calculated pursuant to the preceding paragraph, or between the actual shortfall recovery and the amount which Company elected to recover in an adjustment period, shall be "trued-up" during the succeeding adjustment period pursuant to methodology approved by the Commission.

D. Company may defer all or any portion of a shortfall recovery to a subsequent adjustment period or portion thereof.

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM

Applicable to all Customers served under the Rate Schedules shown in the table below except for those Customers receiving a discount under the AFD Rider.

Through its SAFE Program, the Company has identified the potential replacement projects focusing initially on area of limited access/pipe overbuilds, and risk assessment for Rear Lot Mains and Services considering:

i. The pipe material;
ii. Leak incident rates;
iii. Age of pipeline;
iv. Pressure under which the pipeline is operating.

The Eligible Infrastructure Replacement includes the following:

Company investment in mains and service lines, as replacements for existing Rear Lot Facilities, and regulatory station and other distribution system components, the installation of which is required as a consequence of the replacement of the aforesaid facilities that:

i. do not increase revenues by directly connecting new Customers to the plant asset;

ii. are in service and used and useful in providing utility service; and

iii. that were not included in the Company's rate base for purposes of determining the Company's base rates in its most recent general base rate proceeding.

The Company is recovering its revenue requirement on the actual investment amounts. The revenue requirements are inclusive of:

1. Return on investment as calculated using the following:

   a.) Equity balance from the most recent year-end surveillance report and the ROE and equity ratio cap from the most recent rate case:

   b.) Debt and customer deposit components from the Company's most recent year-end surveillance report; and

   c.) Accumulated deferred income tax balance from the Company's most recent year-end surveillance report as adjusted, if applicable, consistent with the normalization rules of the Internal Revenue Code.

2. Depreciation expense (calculated using the currently approved depreciation rates);

3. Customer and general public notification expenses associated with the SAFE Program incurred for:

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

i. all Customers regarding the implementation of the SAFE Program and the approved surcharge factors;

ii. the immediately affected Customers where the eligible infrastructure is being replaced; and

iii. the general public through publications (newspapers) covering the geographic areas of the eligible infrastructure replacement activities;

4. Ad valorem taxes; and

5. Federal and state income taxes.

The Company is utilizing a surcharge mechanism in order to recover the costs associated with the SAFE Program. The Company has developed the revenue requirement for the SAFE Program using the same methodology approved in its most recent rate case. The SAFE revenue requirement will be allocated to each Customer class (Rate Schedule) using allocation factors established by the Florida Public Service Commission for the SAFE Program. The per Customer SAFE surcharge is calculated by dividing the revenue requirement allocated to each Customer class by the number of Customers in the class.

The cost recovery factors including tax multiplier for the twelve-month period from January 1, 2023 through December 31, 2023 are:

Rate Class	Rates Per Customer
Rate Schedule RS-1	$0.44
Rate Schedule RS-100	$0.44
Rate Schedule RS-600	$0.44
Rate Schedule GS-1	$0.44
Rate Schedule GS-6K	$0.98
Rate Schedule GS-25K	$0.98
Rate Schedule GS-120K	$0.98
Rate Schedule GS-1,250K	$0.98
Rate Schedule GS-11M	$0.98
Rate Schedule GS-25M	$0.98
Rate Schedule GL	$0.44

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

Procedure for Establishing SAFE Revenue Requirements

The SAFE Revenue Requirements and any changes thereto shall be calculated and implemented in accordance with the provisions contained in this Rider. SAFE Revenues shall be subject to refund based upon a finding and order of the Commission to the extent provided in this Rider.

The Company shall calculate its SAFE Revenue Requirements annually in the manner prescribed by this Rider and shall file the appropriate petitions with the Commission seeking to establish or change the SAFE Revenue Requirements and Surcharge. The annual filings shall include the following:

1. An annual final true-up filing showing the actual Eligible Replacement costs and actual SAFE Revenues for the most recent 12-month historical period from January 1through December 31 that ends prior to the annual petition filing. As part of this filing,the Company shall include a summary comparison of the actual Eligible Replacementcosts and SAFE Revenues to the estimated total Eligible Replacement costs and SAFE Revenues previously reported for the same period covered by the filing in paragraph (2) of this section. The filing shall also include the final over- or under- recovery of total SAFE Revenue Requirements, with interest, for the final true-up period.

2. An annual estimated/actual true-up filing showing seven months actual and five months projected Eligible Replacement costs and any SAFE Revenues collected orprojected to be collected during the estimated/actual true-up period. The filing shall also include the estimated/actual over- or under-recovery of total Eligible Replacement costs, with interest, for the estimated/actual true-up period.

3. An annual projection filing showing 12 months projected SAFE Revenue Requirements for the period beginning January 1 following the annual filinghearing.

4. An annual petition setting forth proposed SAFE Revenue Requirements and Surcharges to be effective for the 12-month period beginning January 1 following the annual hearing. Such proposed SAFE Revenue Requirements and Surcharges shall take into account the data filed pursuant to paragraphs (1), (2), and (3) of this section.

The Company shall establish separate accounts or subaccounts for each Eligible Replacement for purposes of recording the costs incurred for each project. The Company shall also establish a separate account or subaccount for any revenues derived from SAFE Surcharges.

RIDER "D"

SAFETY, ACCESS AND FACILITY ENHANCEMENT (SAFE) PROGRAM
(Continued)

Calculation of the SAFE Revenue Requirements and SAFE Surcharges

In determining the SAFE Revenue Requirements, the Commission shall consider only (a) the net original cost of Eligible Replacements (i.e., the original cost); (b) the applicable depreciation rates as determined and approved by the Commission based on the Company's most recent depreciation study; (c) the accumulated depreciation associated with the Eligible Replacements; (d) the current state and federal income and ad valorem taxes; and (e) the Company's weighted average cost of capital as calculated on Tariff Sheet No. 78.

The SAFE Revenue Requirements shall be calculated as follows:

Line	Description	Value	Source
1	Revenue Expansion Factor	1.36420	As calculated in most recent base rate proceeding, using current tax rates
2	Ad Valorem Tax Rate	%	Effective Property Tax Rate for most recent 12 Months ended December 31
3	Mains	$	Eligible Replacement Mains
4	Services	$	Eligible Replacement Services
5	Regulators	$	Eligible Replacement Regulators
6	Other	$	Eligible Replacement Other
7	Gross Plant	$	L3+L4+L5+L6
8	Accumulated Depreciation	$	Previous Period Balance +L13
9	Construction Work In Progress	$	Non-interest Bearing
10	Net Book Value	$	L7-L8+L9
11	Average Net Book Value	$	(L10 + Balance From Previous Period)/2
12	Return on Average Net Book Value	$	L 11 X Company's calculated weighted average cost of capital
13	Depreciation Expense	$	Lines 3,4,5 & 6 X applicable approved Depreciation Rates
14	Property Tax	$	(L7-L8) X L 2
15	Customer and general public notification and other applicable expense	$	O&M expense incurred as a result of eligible plant replacement
16	SAFE Revenue Requirement	$	(L12+L13+L14+L15) X L 1

Re: Notice of Change in Ownership of Florida City Gas Per Rule 25-9.044(3), F.A.C.

Dear Mr. Teitzman:

On December 1, 2023, all of the outstanding common shares of Pivotal Utility Holdings, Inc. were acquired by Chesapeake Utilities Corporation. As a result of this transaction, Florida City Gas became a wholly-owned, direct subsidiary of Chesapeake Utilities Corporation ("Chesapeake").

Florida City Gas will continue to provide safe and reliable natural gas service to customers located throughout its service territory consistent with that provided before the change in ownership. Florida City Gas will continue to operate and provide utility service using the name "Florida City Gas."

Florida City Gas, under its new ownership, hereby adopts, ratifies, and makes its own all rates, rules, classifications, and regulations on file with the Commission and effective at the time of the acquisition by Chesapeake. Within thirty (30) days of this notice, Florida City Gas will issue and file revised tariff sheets, as appropriate, to reflect the change in ownership. Likewise, the Company will promptly update all contact information with the Commission.

In filing this notice, Florida City Gas does not request that a formal docket be opened or that any action be taken by the Commission. However, to the extent the Commission deems it necessary to acknowledge the change in ownership, Florida City Gas respectfully requests that the Commission do so.

As always, thank you for your assistance in connection with this filing. If you have any questions whatsoever, please do not hesitate to let me know.

Sincerely,

Beth Keating

BY E-PORTAL

Mr. Adam Teitzman, Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

(Undocketed): Response to December 6, 2023 Letter of Office of Public Counsel Regarding Test Year(s)

Dear Mr. Teitzman:

On behalf of Florida Public Utilities Company ("FPUC") and Florida City Gas ("FCG")(jointly herein, "Companies"), please accept this letter as the Companies' joint response to the Office of Public Counsel's ("OPC") letter of December 6, 2023 ("Letter"), to the Florida Public Service Commission ("Commission") regarding the recent base rate cases of each.[1]

The Commission should take no action on OPC's Letter. OPC's suggestion that the December closing of the transaction by which Chesapeake Utilities Corporation ("Chesapeake") acquired FCG is a "material change in test year facts" and could result in "immediate synergies" - in the month of December – finds no support in the actual facts around the transaction. OPC's suggested remedy of reopening either or both base rate cases[2], based upon the closing date is non-sensical in terms of the timing in question, and is barred by the doctrine of administrative finality, at least as it pertains to Florida Public Utilities Company.[3]

FPUC's petition for rate relief and seeking consolidation of its natural gas business units was filed May 24, 2022. The hearing was conducted October 25-26, 2022. The Commission approved 2023 as the appropriate test year on January 24, 2023[4], although the final order reflecting

[1] *See* Docket No. 20220067-GU, Petition for rate increase by Florida Public Utilities Company, Florida Division of Chesapeake Utilities Corporation, Florida Public Utilities Company - Fort Meade, and Florida Public Utilities Company - Indiantown Division; and Docket No. 20220069-GU, Petition for rate increase by Florida City Gas.
[2] The Companies acknowledge that Docket No. 20220069-GU, which pertains to FCG's rate case remains open pending appeal. The record for that proceeding is nonetheless closed and a Final Order based upon that record was issued six months ago on June 9, 2023.
[3] Peoples Gas System v. Mason, 187 So. 2d 335 (Fla. 1966).
[4] Document No. 00460-2023.

that decision was not issued until March 15, 2023, given the Commission's two-part decision process utilized for rate cases.

Similarly, FCG's petition seeking rate relief was filed May 31, 2022. The hearing regarding FCG's request was conducted on December 12-13, 2022. The Commission determined that 2023 was the appropriate test year for setting FCG's rates on February 28, 2023[5], although its final order reflecting the decision was not issued until June 9, 2023, due to the two-part decision process. In each case, it has been 12 months, or more, since the administrative hearing was conducted. The mere suggestion that there could be an impact on the projected test year due to the closing of a parent-level, stock transaction in the final month of the year provides no substantive basis for the Commission to move forward. Moverover, any action to reopen either record would likely create greater upward pressure on rates charged to customers (due in no small part to increased rate case expense) than could be offset by any "immediate synergies" found in the month of December.

The Companies welcome OPC's affirmative statement that it is not alleging that either FPUC or FCG misled or made misrepresentations to the Commission. Nonetheless, to put a finer point on it, the Companies find it important to note that while witnesses for each Company confirmed that they were unaware of any definitive merger or acquisition pending in the test year, each Company's witnesses provided context for their responses to OPC that is not reflected in the Letter.

For instance, at the FPUC hearing, FPUC witness Galtman was asked specifically whether there were any mergers or acquisitions being modeled in the test year that would impact the operations or costs allocated to FPUC. (Docket No. 20220067-GU, TR Vol 1, p. 183). Witness Galtman was clear that there were no costs included in FPUC's MFRs reflecting any anticipated merger or acquisition. He went on to emphasize that the Company's parent, Chesapeake, has a fiduciary duty to consider acquisition opportunities, whether within or outside of Florida. (TR 183). Witness Galtman was then asked whether he was aware of "anything the Commission should be aware of that would affect the expenses that they are approving in this case in terms of mergers and acquisitions." In response, Witness Galtman confirmed there was not. (TR 184). The statement by Witness Galtman was true then and remains true today. The announced acquisition of FCG has no impact on the expenses reflected by FPUC in its projected test year.

Similarly, FCG Witness Fuentes testified that, "It would be inappropriate to incorporate the impacts of a future acquisition in this base rate proceeding where it is entirely unknown and pure speculation. . . ." (Docket No. 20220069-GU, TR Vol. 4, pg. 822). In response to cross-examination by OPC, Witness Fuentes again emphasized that, "[i]t's inappropriate to incorporate any impacts of a future acquisition in this base rate proceeding when it's entirely unknown what that may be, and to include it in rates would be inappropriate." (TR Vol. 5, pg. 944). As it stands today, that is still the case.

[5] Document No. 02423-2023.

While the fact of the acquisition by Chesapeake of FCG is now known, the transition is still in the early phases. Certainly, there is an expectation that there will be benefits associated with the transaction, as well as costs, but it will take time to make those assessments. In the interim, Chesapeake will operate FPUC and FCG as separate companies with separate rates, which, for the time being, are "fair and reasonable." The Commission will also have the opportunity to monitor whether those rates continue to be "fair and reasonable" through regular surveillance filings.

Furthermore, as it pertains FPUC's rate case, OPC has identified no mistake, misrepresentation, or fraud, nor has it indicated a matter of great public interest that would provide the basis for an exception to the doctrine of administrative finality.[6] FPUC is not a party to the acquisition referenced in OPC's Letter. Instead, as set forth in Chesapeake's Rule 25-9.044, Florida Administrative Code, compliance letter of December 8, 2023, the outstanding common shares of Pivotal Utility Holdings, Inc. were acquired by Chesapeake Utilities Corporation ("Chesapeake"), whereupon Florida City Gas became a wholly-owned, direct subsidiary of Chesapeake. Thus, any suggestion that the FPUC rate case should be reopened is utterly unwarranted.

Finally, as it pertains to the prior cases referenced by OPC, both are clearly distinguishable and certainly do not equate to "established policy."[7] In the 2008 rate case for FPUC, Docket No. 20080366-GU, an announcement was made, and filed in the docket, regarding Chesapeake's anticipated acquisition of FPUC very early in the proposed test year and before the Commission took any action on Commission staff's proposed agency action recommendation regarding the case. No testimony had been filed; no hearing had been conducted.

Moreover, the potential that the acquisition could have a material impact on the acquired utility was set forth in the acquisition announcement itself. FPUC, which, at the time, operated a stand-alone natural gas utility company in Florida, as well as a very small electric utility, was being acquired by the much larger Chesapeake Utilities Corporation. The transactional announcement was clear that, over time, the parent company intended to merge the operations of Chesapeake's existing Florida operating division into the FPUC subsidiary.[8] FPUC was a small, inefficient Florida corporation with no parent company being acquired by a much larger corporation. In contrast, FCG is being acquired by one large company from another large parent company. Thus, one can expect the transitional impact to be less dramatic and to occur outside the projected test year.

As for the Florida Power Corporation ("FPC") case referenced, that too is easily distinguishable. In that case, the acquisition of FPC by Caroline Power & Light, although a factor, was not the key driver for the Commission's investigation of FPC's earnings. Instead, the fact that FPC would have already been in an overearnings posture but for its accelerated amortization of its Tiger Bay Regulatory Asset was the primary impetus. When coupled with the Energy 2020 Study

---

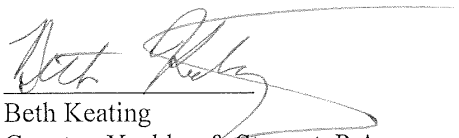
[6] *See* Sunshine Utilities v. Florida Public Service Commission, 577 So. 2d 663, 666 (Fla. 1st DCA 1991).
[7] OPC Letter at pg. 5.
[8] It is perhaps worth noting that the merger of the division into FPUC did not actually occur until FPUC's most recent rate case, Docket 20220067, some 13 years later.

Committee's proposal to deregulate the wholesale market and to cap retail rates during a transition period, as well as industry discussions regarding the potential establishment of GridFlorida, a regional transmission organization (RTO),) and the acquisition, the Commission determined that it was "necessary to initiate a base rate proceeding to address the level of FPC's earnings and to assure appropriate retail rates are implemented on a going forward basis so that appropriate benefits of the formation of the RTO and any future restructuring of the electric market are captured for the retail ratepayer." Order No. PSC-01-1348-PCO-EI, issued June 20, 2001, in Docket No. 000824-EI, at page 2.

For the above reasons, the Companies respectfully suggest that there is no sound basis or rationale by which either FCG's or FPUC's rate cases and test years should be revisited. Reopening either rate case based on the acquisition by one utility's parent of another utility in the final month of the test year would accomplish little more than a "make work" exercise that would generate additional, unnecessary costs to be born ultimately by ratepayers. As it stands, the Commission has the ability to monitor each Company's earnings, including review of surveillance reports, and can make its own determination as to whether review of either Company's rates is necessary based upon actual data presented by the Companies going-forward. Any review of synergies and savings, as well as any associated costs, would more appropriately be conducted in the next base rate proceeding for FCG, which will allow synergies and savings to materialize following integration and an adequate transition period.

As always, thank you for your assistance in connection with this filing. If you have any questions whatsoever, please do not hesitate to let me know.

Sincerely,



Beth Keating

Docket No.: 20230000

Re: Request to Consider the Representativeness of the Test Years in Both the Florida Public Utilities Company and Florida City Gas's Most Recent Base Rate Proceedings in Light of the Recently Closed Acquisition by Chesapeake Utilities Corporation, the Parent Company of Florida Public Utilities Company, of Florida City Gas.

Dear Mr. Teitzman,

The Office of Public Counsel (OPC) respectfully requests that the Florida Public Service Commission (Commission) consider reopening the docket of Florida Public Utilities Company's (FPUC) natural gas division's most recent base rate case[1] in order to determine whether those base rates, as well as the recently-determined rates in the still-open Florida City Gas (FCG) base rate docket,[2] took any potential merger/acquisition synergies into consideration. In light of the recent announcement that Chesapeake Utilities Corporation (Chesapeake), FPUC's parent company, has

[1] PSC Docket No. 2022-0067-GU.
[2] PSC Docket No. 2022-0069-GU.

acquired FCG during the period upon which rates were based, OPC is concerned that the rates may no longer be fair, just and reasonable, and that it may be appropriate for the Commission to investigate further pursuant to section 366.06(2), Florida Statutes.

As the Commission is aware, both FPUC and FCG filed petitions for rate increases in 2022. In each case, 2023 was used as the representative test year upon which base rates were set. While the docket for FPUC's base rate proceeding is now closed, the docket for FCG's base rate proceeding remains open pending appeal.

FPUC filed its petition for a rate increase on May 24, 2022.[3] OPC intervened on May 26, 2022.[4] OPC, the Florida Industrial Power Users Group (FIPUG), and Commission Staff engaged in the discovery process and OPC and Commission Staff filed testimony. The Commission held a hearing on October 25-26, 2022. At the hearing, OPC inquired about whether any merger/acquisition activities were under consideration that would affect the level of expenses in the test year, which FPUC answered in the negative.[5]

FCG filed its petition for a rate increase on May 31, 2022.[6] OPC intervened on June 2, 2022.[7] OPC, FIPUG, and Commission Staff engaged in the discovery process and filed testimony. The Commission held a hearing on December 12-13, 2022. OPC inquired into the effect that a merger or acquisition could have on the test year, and FCG provided rebuttal testimony stating that FCG did not forecast any activity associated with a future potential merger or sale in its 2023 test year.[8]

[3] Document No. 03099-2022.
[4] Document No. 03183-2022.
[5] Document No. 10579-2022, pp. 183-84.
[6] Document No. 03276-2022.
[7] Document No. 03356-2022.
[8] Document No. 0058-2023, p. 822.

In both cases, Issue 1 required the Commission to determine if the projected test period of the twelve months ending December 31, 2023 was appropriate.[9] The Commission approved a 2023 test period in both cases. The Commission established rates for FPUC in Order No. PSC-2023-0130-FOF–GU, issued March 15, 2023.[10] The Commission established rates for FCG in Order No. PSC-2023-0177-FOF–GU, issued June 9, 2023.[11]

To be clear, OPC is not alleging that either FPUC or FCG misled or made misrepresentations to the Commission in any way when they presented their respective cases in 2022. This letter is merely identifying the evidence that the Commission relied on related to potential merger activities and their relation to the test years. Subsequent to both of those proceedings, Chesapeake announced, on September 26, 2023, that it entered into a definitive agreement to acquire FCG and that it expected the acquisition to occur (close) by the end of the fourth quarter of 2023. (See Exhibit A – Chesapeake Press Release dated September 26, 2023). On December 1, 2023, Chesapeake announced that it completed its acquisition of FCG. (See Exhibit B – Chesapeake Press Release dated December 1, 2023). This acquisition may represent a material change in test year facts and may result in immediate synergies achieved by either or both companies. Such synergies could be realized through common control of each company and service agreements, regardless of the timing of a consolidation – if ever – of the operating companies. This material change in facts may impact the test year upon which the Commission

[9] PSC Order No. PSC-2022-0355-PHO-GU, p. 9; PSC Order No. PSC-2022-0413-PHO-GU, pp. 13-14.
[10] The Commission filed an amendatory order, PSC-2023-0130A-FOF-GU, on April 6, 2023, to correct a scrivener's error.
[11] The Commission filed a final order clarifying Order PSC-2023-0177-FOF-GU and denying OPC's motion for reconsideration on October 2, 2023.

relied in setting base rates for both companies has the potential to cause those base rates to no longer comply with the statutory requirements.

In the somewhat analogous circumstances in 2008, FPUC filed a petition for a rate increase with the Commission in Docket No. 080366-GU. The projected test year utilized for setting rates for that proceeding was 2009. During the pendency of the rate proceeding, the Commission became aware of the announcement of a merger of FPUC with Chesapeake. The Commission stated at that time that "[s]uch merger could make the rates we are proposing in this Order to be inappropriate."[12] The Commission then provided a framework for how to address this contingency as follows:

> To allow for this contingency, this docket shall remain open, and in the event the merger is consummated, the following conditions shall apply:
>
> 1. a new docket will be opened;
>
> 2. the Company shall file MFRs and testimony (reflecting at a minimum, the effect of the merger, the synergies of the merger, and the change in capital structure), within 180 days from the date the merger is consummated, based on a 2011 test year; and
>
> 3. the increased revenues granted by this Order shall be held subject to refund from the date that the merger is consummated.[13]

Although that matter was later resolved through a settlement of the parties and the fact of the merger had become known prior to hearing, in an electric case the Commission has also previously initiated a docket to explore, in part, the effects that an acquisition could have on a

[12] PSC Order No. PSC-09-0375-PA-GU, p. 3.
[13] *Id.* at p. 40.

company's earnings.[14] In the event that the Commission investigates this matter further pursuant to section 366.06(2), Florida Statutes, OPC respectfully requests that the Commission consider whether, under its established policy set out in the 2008 case or under other principles of fairness, it would be appropriate to utilize a similar framework with both FPUC and FCG in order to ensure that the rates that FPUC and FCG customers are currently paying are based on more representative test year information and are adjusted for any immediate synergies, if any, that may affect the 2023 test years utilized by both companies in their 2022 base rate proceedings.

Thank you for your attention to this matter.

Sincerely,

Walt Trierweiler

Chesapeake Utilities Corporation to Acquire Florida City Gas

Transformative acquisition more than doubles operations in high-growth Florida service areas

Positions CPK to execute on additional growth opportunities in regulated and unregulated businesses

Supports long-term earnings and dividend growth; increases capital investment plan; financing plan maintains strong balance sheet

DOVER, Del. – Chesapeake Utilities Corporation (NYSE: CPK) ("Chesapeake Utilities" or "the Company") today announced it has entered into a definitive agreement to acquire Florida City Gas ("FCG") from NextEra Energy, Inc. (NYSE: NEE) for $923 million in cash. Upon closing of the transaction, which is expected to occur by the end of the fourth quarter of 2023, FCG will become a wholly owned subsidiary of Chesapeake Utilities. The Company has increased its capital investment plan and extended its earnings guidance through 2028 to reflect the increased scale and investment opportunities related to the transaction, with an implied earnings per share growth rate of approximately 8% through 2028.

FCG serves approximately 120,000 residential and commercial natural gas customers across eight counties in Florida, including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River. Its natural gas system includes approximately 3,800 miles of distribution main and 80 miles of transmission pipe.

"This acquisition will more than double our natural gas business in Florida, one of the fastest growing states in the nation. For several years, gas distribution customer growth in Florida has significantly exceeded national averages. Demand for natural gas continues to increase as Florida consumers seek reliable, domestic and affordable energy for their homes and businesses," said Jeff Householder, chairman, president and chief executive officer of Chesapeake Utilities. "We have generated meaningful earnings growth by acquiring businesses in states where we already operate and subsequently developing and executing additional growth opportunities. We see similar opportunities with FCG, and believe we are well positioned to capture additional growth including gas distribution expansion to serve new residential development, as well as infrastructure investments across our other platforms, such as gas transmission. We expect these opportunities, which are a large driver of our increased capital investment plan, to enable us to continue to pursue long-term upper quartile earnings growth."

"Chesapeake Utilities has a proven track record of deploying its regulatory, operations, supply and business development expertise to drive transformative growth in Florida, as exemplified by our acquisition of Florida Public Utilities in 2009. We are taking the same disciplined approach with this transaction, which is directly aligned with our strategic and financial acquisition criteria, and we anticipate a similar success story with FCG," said Beth Cooper, executive vice president, chief financial officer, treasurer and assistant corporate secretary of Chesapeake Utilities. "We intend to finance the transaction through a combination of long-term debt and equity, ensuring we maintain a strong balance sheet while supporting our long-term earnings and dividend growth."

Strategic Rationale: Acquisition of operations in high growth Florida service areas provides enhanced platform for growth, as well as scale and financial benefits

- **Expands platform in Florida:** Post-acquisition, Chesapeake Utilities' footprint will expand significantly in Florida. The Company's Florida portfolio following the acquisition is expected to comprise approximately 60% of its total utility net plant and operating income, versus 45% for the standalone business at the end of 2022. This acquisition provides expansion opportunities into unserved and underserved communities throughout a widened service territory. Additionally, the transaction introduces growth opportunities across the Company's portfolio, from organic growth of the regulated LDC assets to new opportunities for the Company's natural

gas pipeline and virtual pipeline businesses to other sustainable investments such as renewable natural gas, alternative fueling stations and fleet conversions.

- **Enhanced scale and efficiency:** As a result of this transaction, the Company's regulated utility customers and net plant will increase by 50% and 30%, respectively, which will bring enhanced scale and efficiency benefits. This acquisition is expected to benefit from Chesapeake Utilities' core experience and expertise in all facets of natural gas operations, regulatory, supply, business development and project execution. The Company's expertise in navigating Florida's regulatory and political environment as well as expected efficiencies related to the complementary nature of the combined operations will allow the Company to optimize this transaction, further supporting our earnings and dividend growth.
- **Financial benefits:** The transaction supports and extends the Company's long-term EPS guidance and provides approximately $500 million in investment opportunities associated with FCG over the next five years. The financing plan includes a balanced mix of equity and long-term debt, which supports long-term dividend growth and maintains the Company's strong balance sheet.

Transaction Significantly Expands Chesapeake Utilities' Presence in Florida

Chesapeake Utilities has had a natural gas distribution presence in Florida for 40 years, significantly building on that initial presence to include multiple business entities across the energy value chain. The acquisition more than doubles the Company's Florida natural gas operations, expanding Chesapeake Utilities' service territory coverage to include five additional counties in Florida and increasing the Company's presence in five of the top 10 most populous counties in the state.

- With the addition of FCG, Chesapeake Utilities' overall natural gas distribution presence in Florida will include an approved regulated rate base of $941 million, serving more than 211,000 customers through nearly 7,000 miles of natural gas distribution company pipeline.
- After transaction close, the Company's consolidated Florida operations are expected to contribute approximately 60% of Chesapeake Utilities' operating income, total utility net plant and future capital investment plan (5 years).
- The transaction is projected to increase Chesapeake Utilities' regulated natural gas utility customers and net plant by 50% and 30%, respectively, with the regulated business mix reaching 87% (up from 81%).

Guidance Update

As a result of the increased scale and investment opportunities related to the transaction, Chesapeake Utilities is expected to exceed its current capital expenditure guidance ($900 million to $1.1 billion for the five years ended 2025) two years early. The Company is excited

to introduce its new guidance: capital expenditure guidance in the range of $1.5 billion to $1.8 billion for the five years ended 2028 and EPS in the range of $7.75 to $8.00 per share for 2028, implying an EPS growth rate of approximately 8% from the current 2025 EPS guidance range, or since 2018, an 8.5% growth rate.

Financing

Chesapeake Utilities plans to finance the transaction with a balanced mix of equity and long-term debt to maintain its strong balance sheet, and has also obtained committed financing from Barclays to fund the purchase price.

Timing and Approvals

The transaction is expected to close by the end of the fourth quarter of 2023, subject to expiration of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, securing financing orders from the Delaware and Maryland Public Service Commissions and other customary closing conditions.

Advisors

Barclays is serving as exclusive financial advisor to Chesapeake Utilities. Shearman & Sterling and Baker Hostetler are serving as legal advisors to Chesapeake Utilities.

Conference Call and Webcast

Chesapeake Utilities Corporation (NYSE: CPK) will host a conference call on Wednesday, September 27, 2023, at 8:30 a.m. ET to discuss details of the FCG acquisition.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform

Act of 1995. One can typically identify forward-looking statements by the use of forward-looking words, such as “project,” “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “continue,” “potential,” “forecast” or other similar words, or future or conditional verbs such as “may,” “will,” “should,” “would” or “could.” These include statements regarding the benefits of the proposed acquisition and associated growth opportunities, anticipated future operating and financial performance and results, including estimates of earnings growth, EPS and EPS growth rate and capital expenditures, dividend growth, financing plans, the expected timing of the closing of the proposed acquisition, among others. These statements are based on our current intentions, plans, expectations, assumptions and beliefs. Forward-looking statements speak only as of the date they are made or as of the date indicated. These statements are subject to many risks and uncertainties, including, but not limited to: the occurrence of any event, change or other circumstance that could give rise to the right of either or both parties to terminate the acquisition agreement; the failure to obtain applicable regulatory approval, including financing orders, in a timely manner or otherwise; the risk that the acquisition may not close in the anticipated timeframe or at all due to one or more of the other closing conditions to the transaction not being satisfied or waived; the risk that there may be unexpected costs, charges or expenses resulting from the proposed acquisition; risks related to the ability of the Company to successfully integrate the business and achieve the expected operating efficiencies within the expected timeframes or at all and the possibility that such integration may be more difficult, time consuming or costly than expected; risks that the proposed transaction disrupts the Company’s current plans and operations; risks related to disruption of each company’s management’s time and attention from ongoing business operations due to the proposed transaction; continued availability of capital and financing; the risk that any announcements relating to the proposed transaction could have adverse effects on the market price of the Company’s common stock or credit ratings; the risk that the proposed transaction and its announcement could have an adverse effect on the ability of the Company and FCG to continue to hire, train and retain appropriately qualified personnel, to retain customers and to maintain relationships with each of their respective business partners, suppliers and customers; risks related to unpredictable and severe or catastrophic events on their impact on the each company’s business, financial condition and results of operations; and other business effects, including the effects of industry, market, economic, political or regulatory conditions. Additional risk factors that may cause actual results or events to differ materially from those expressed in the forward-looking statements are described under “Safe Harbor for Forward-Looking Statements” and Item 1A, “Risk Factors” in our Annual Report on Form 10-K and in other reports that we have or may file with the Securities and Exchange Commission.

In light of these risks, uncertainties, and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a

different time than we have described. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. You are cautioned not to place undue reliance on any forward-looking statements.

This press release is for informational purposes only and not intended to and does not constitute an offer to sell securities. No offer of securities shall be made except in accordance with applicable law.

Exhibit B

December 1, 2023

Chesapeake Utilities Corporation Completes Acquisition of Florida City Gas

Transformative transaction more than doubles operations in high-growth Florida; expands regulated utility business mix and aligns with long-term earnings and dividend growth targets.

Dover, Delaware – Chesapeake Utilities Corporation (NYSE: CPK) today announced the completion of the acquisition of Florida City Gas (FCG), which is now a wholly-owned subsidiary of the Company. This transaction represents an expansion of Chesapeake Utilities' footprint in the dynamic and high-growth market of Florida, encompassing five of the top 10 most populous counties. By more than doubling Chesapeake Utilities' customer base and natural gas infrastructure in the state, the Company is positioned for substantial future growth.

"We are pleased to formally welcome Florida City Gas and excited about the opportunities we can pursue given our combined capabilities," said Jeff Householder, chairman, president and chief executive officer. "The integration of our businesses creates a compelling foundation: one focused on driving sustainable earnings growth consistent with our long-term track record. Together, we'll strengthen our Florida presence, leveraging our core competencies and building upon our strong community and regulatory relationships, while continuing to meet the growing demand for natural gas."

As previously announced, Chesapeake Utilities' capital expenditure guidance is projected to be $1.5 billion to $1.8 billion for the five-year period ending 2028, an increase of 65% over its previous plan. Approximately 60% of the Company's upcoming five-year capital investment plan will be allocated to Florida, including investments related to pipeline replacement programs, expansions to support customer growth and increased transmission capabilities to reach new developments and support increased demand.

With this transaction, Chesapeake Utilities' regulated operations are projected to represent approximately 87% of its business mix.

"We are excited about the long-term value creation anticipated from the FCG acquisition. Leveraging Chesapeake Utilities' proven track record and disciplined approach, we aim to replicate the success of past acquisitions, like Florida Public Utilities," said Beth Cooper, executive vice president, chief financial officer, treasurer and assistant corporate secretary. "We've successfully implemented the permanent financing plan for this transaction, maintaining a strong balance sheet. Well positioned for 2025 goals, we'll drive earnings growth through strategic investments, regulatory initiatives and a continued focus on efficiencies."

The Company will provide more detail on its acquisition integration plan as part of its Fourth Quarter and Full Year 2023 Earnings communications in February 2024.
