Comment: To Whom It May Concern,

A 24% rate increase is absurd! This is highway robbery! This is what happens when the government allows monopolies to run our utility companies, no competition gets you ridiculous requests for absurd increases! What you'll hear from the other side is, they need the money for increases in operational costs, infrastructure upgrades, and so on! I say, why reward a company who mismanaged their profits? Why should their mishandling of their company fall on the backs of their customers to the tune of 24%? As the founder of two companies, and in the business world for more than forty-five years, a successful company prepares for the very things this company is begging for like a beggar jn the street!! Management DIDN'T prepare!! The reason is, because they didn't have to!! As a utility all they have to do is put on their best puppy dog faces, cry a little, add a little doom and gloom, hold their hands out, and eventually YOU the courts give them what DOESN'T belong to you!!! OUR HARD EARNED MONEY!! As they skip off merrily to the bank laughing all the way, to squander again!! If I, as a business man came to you crying, saying my company needs money to expand, pay for increased costs, and upgrade my infrastructure, would you hold public hearings, and in the end give me money anyway?? Maybe, just maybe if you treated them the same way you would treat me, they would run their company properly!!! Just a thought!! I wouldn't give them a dime!!!

Thank You for Listening
