This involves docket # 20260098

As a home owner in the Grenelefe resort i do not feel that the burden of a broken down water plant owned by someone who ignored the conditions should fall on my shoulder. Each of those new homes who intend to use this plant should be required to pay the \$15,000 fee to help share the cost of repair. Since i am required to repair and upkeep this plant does this mean i am part owner? Please consider what consequences these decisions have on people who had no idea of the situation. You are going to make many families suffer.
