CUSTOMER COMMENTS

I oppose this rate increase. As a millennial, its a ^{miracle} ~~miracle~~ my husband and I were fortunate enough to save money to buy a house in this market, ^{the highest} ~~at our~~ home prices in 40 years. When we bought our home, we utilized the gas lines instead of converting to electric to save money. With this proposed rate increase, we may as well have gone electric. Being a home owning family with two small children in this economy is death by a thousand cuts between inflation, inability to afford daycare therefore down to a single stream of income. Please reconsider this decision if only for families to be able to better afford

Any email or other correspondence sent to a Florida Public Service Commissioner, or any other public official and/or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law.

This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or any member of the media.

I implore you - between tax, insurance, electric and utilities, it drains our ability for us to save for our two children's futures, let alone retirement someday.

Growers.
