FILED 8/4/2026
DOCUMENT NO. 04919-2026
FPSC - COMMISSION CLERK

Docket No. 20250032-EI -- Review of incentive mechanisms for the electric investor-owned utilities.

Issue 1: What action, if any, should the Commission take regarding asset optimization activities and revenue-sharing incentives?

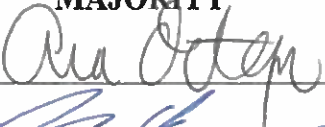

Recommendation: No further action is needed, and this docket should be closed as discussed in Issue 2. As required by the Order, staff established a docket to review allowable optimization activities and revenue-sharing incentives for all electric IOUs. Staff conducted a workshop and elicited post-workshop comments. Based upon review of the existing AOMs and comments received at and after the workshop, staff recommends there is no need at this time for the Commission to establish AOM standards for allowable activities or revenue sharing thresholds.
