RE: 20260096-TX – Application for certificate to provide local telecommunications service by LTE Wireless Inc.

On June 29, 2026, LTE Wireless Inc. (LTE Wireless) filed an application with the Florida Public Service Commission requesting a certificate to provide local telecommunications service. Staff identified incorrect or incomplete responses in the application. On July 14, 2026, through both certified mail and email, staff reached out to LTE Wireless with an opportunity to amend the deficiencies. Document No. 04806-2026 shows the certified letter sent to the company, the receipt that the certified letter was received, and the related email correspondence.

Section 2.07(C)(5)(e) of the Commission's Administrative Procedures Manual states:

IDM and GCL may deny an application to provide pay telephone service, or obtain a certificate of authority to provide local service if staff finds the application is incomplete or inaccurate, subject to the following conditions:

- (1) Staff shall send a certified letter to the applicant requesting completion and/or correction of the application.
- (2) The applicant does not respond within 15 days.

The docket shall be closed upon issuance of an administrative order.

Pursuant to the Commission's Administrative Procedures Manual, LTE Wireless was provided the required 15-day response period to amend its incorrect or incomplete application responses. The company did not correct the deficiencies within the required time frame. Accordingly, IDM and GCL jointly submit this memorandum denying the application and request that the docket be administratively closed.
