Re: Docket No. 20250122-WS – Application for staff-assisted rate case in Highlands County by Sun Communities Acquisitions, LLC d/b/a Buttonwood Bay Utilities.

Dear Mr. Teitzman:

On behalf of Buttonwood Bay Utilities (“Utility”), this letter is the response to Staff’s Seventh Data Request dated July 15, 2026.

1. The utility’s online site map shows several amenities identified by numbers. The Utility has not provided any billing data associated with the following numbered amenities.

- 3 - Comfort station in fishing pier & boat ramp area
- 5 - Craft room
- 7 - Dump station in the garden and fishing pier & boat ramp areas
- 8 - Fitness center located at the entrance directly off U.S. Highway 27
- 11 - Two libraries located in the recreation hall and golf cart parking area
- 17 - Three restrooms located in the entrance area, the patio area, and the golf cart parking area
- 21 - Tennis courts
- 23 - The wood shop and the Café on the Lake

Please provide the respective consumption data and meter sizes for the amenities listed above.

Response: See attached spreadsheet 2024 Buttonwood Bay Common Area Meters Consumption Report.

2. In response to staff’s inquiry, the utility responded by email with an attachment dated May 13, 2026. The attachment, “2024 RV side water usage” consists of total usage for each customer, the addresses, meter reads, and etc. for the customers of the RV park.

(a) Please indicate if the occupancy the sites identified as RV Sites are transient wherein the site is occupied for very brief periods of time by various customers.

Response: Yes. While the majority of the RV sites are occupied on an annual or seasonal (snowbird) basis, a portion of the sites are transient in nature, meaning they are occupied for brief periods by various customers who rotate through. Of the RV sites, approximately 58 are transient (short-stay) sites and approximately 105 are rolling annual sites. The remaining RV sites are occupied on an annual or seasonal basis, including the park model units, which are typically occupied by seasonal “snowbird” residents.

(b) If there are transient RV sites, please identify the address and account numbers from the “2024 RV side water usage”.

Response: Yes. There are approximately 58 transient RV sites. The addresses and account numbers of the transient RV sites, as identified from the “2024 RV side water usage,” are provided in the attached exhibit (“BUT – RV Site Classification”).

(c) Please identify the address and account numbers of the vacation rentals from the “2024 RV side water usage”.

Response: The following sites are vacation rentals, as identified from the “2024 RV side water usage” (also included in the attached exhibit): 34 Tarpon Drive (Acct. 2142-000464); 32 Tarpon Drive (Acct. 2142-000465); 18 Tarpon Drive (Acct. 2142-000472); 33 Tarpon Drive (Acct. 2142-000481); 7 Tarpon Drive (Acct. 2142-000494); 16 Mako Drive (Acct. 2142-000524); 6 Mako Drive (Acct. 2142-000529); 1 Mako Drive (Acct. 2142-000532); 21 Hammerhead Drive (Acct. 2142-000576); 36 Barracuda Drive (Acct. 2142-000631); 26 Barracuda Drive (Acct. 2142-000636); 27 Snook Drive (Acct. 2142-000682); 31 Barracuda Drive (Acct. 2142-000685); 33 Barracuda Drive (Acct. 2142-000717); 35 Barracuda Drive (Acct. 2142-000718); 51 Angelfish Drive (Acct. 2142-000830); 32 Kingfish Drive (Acct. 2142-000891); 3 Kingfish Drive (Acct. 2142-000905).

(d) Please explain why the utility identifies some of the RV sites as park models.

Response: Park models are units that look like small homes but are built on a recreational vehicle (RV) chassis and are classified as recreational vehicles under HUD. Accordingly, the Utility identifies these sites as park models. “Park model” is a term of art in the RV industry.

(e) Please describe the typical occupancy rate of a park model.

Response: Park model sites are typically occupied on a seasonal basis by “snowbird” residents, with a typical occupancy of approximately four to six months per year.

Sincerely,
/s/ Daniel J. McGinn
