Subject: Opposition to Florida City Gas Rate Increase

Docket No. 20260026

Dear Florida City Gas Customer Service / Management,

I am writing to express my strong opposition to the recent increase in natural gas rates and my concern about the financial burden it places on customers, particularly senior citizens and those living on fixed or limited incomes.

Natural gas is an essential utility, and customers have little choice but to continue paying higher rates regardless of their financial circumstances. For seniors and families already facing rising costs

for food, insurance, medications, housing, and other necessities, additional increases in utility costs can create a significant hardship.

I respectfully ask Florida City Gas to reconsider this rate increase and recognize the impact it will have on customers who are already struggling to manage their household expenses. There should be greater consideration for senior citizens, retirees, and families living on fixed or limited incomes.

I understand that operating and maintaining a utility system involves significant costs. However, those costs should be balanced against the financial impact on the customers who depend on this essential service.

I urge Florida City Gas to carefully reconsider the increase and explore ways to control costs while keeping natural gas service affordable and accessible for its customers.

Thank you for considering my concerns. I respectfully request a written response explaining the basis for this rate increase and what measures Florida City Gas is considering to minimize its impact on customers.

Thank you for your consideration

Sincerely,

Alex Beceiro
