Subject: Our electric bills are too high, and we're watching what you do next

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Mike La Rosa,

Like many Floridians, I am outraged by my monthly power bills. Energy bills that were already a burden have become a crisis — and the clean, low-cost alternatives that could fix this are being sidelined to protect utility profits and political favors.

The facts are simple: clean energy is now the most affordable and quickest to deploy. Solar, wind, and energy efficiency improvements lower costs, reduce pollution, and make the grid more resilient. Continued investment in fossil fuel infrastructure does the opposite, but ratepayers like me are being forced to fund it.

I am expecting you to:

- 1) Reject rate increases that prioritize FP&L and Duke Energy profits over customer reliability and affordability
- 2) Hold the PSC accountable first to the public interest — not utilities or data centers
- 3) Stop letting FP&L and Duke Energy rely so heavily on gas plants and hand us the bill when fuel prices spike
- 4) Set aggressive, binding targets for solar and energy efficiency measures that lower costs for Floridian families

None of this is experimental. None of this requires waiting. What it requires is leadership — and the political will to prioritize ratepayers over shareholders. Floridians like me are watching, and we expect you to act like you work for us.

Sincerely,

Ms. Jennifer Scott

I have solar and my bill was in the beginning \$28-35 a month. Then a spike up to \$130-150 a month. Called FPL they said there isn't enough sun. My panels are producing perfectly. March-May my bill was \$77 June \$138 July \$156. You can't tell me I'm not being punished for having solar panels.

Dear Commissioner Mike La Rosa,

Like many Floridians, I am outraged by my monthly power bills. Energy bills that were already a burden have become a crisis — and the clean, low-cost alternatives that could fix this are being sidelined to protect utility profits and political favors.

The facts are simple: clean energy is now the most affordable and quickest to deploy. Solar, wind, and energy efficiency improvements lower costs, reduce pollution, and make the grid more resilient. Continued investment in fossil fuel infrastructure does the opposite, but ratepayers like me are being forced to fund it.

I am expecting you to:

- 1) Reject rate increases that prioritize FP&L and Duke Energy profits over customer reliability and affordability
- 2) Hold the PSC accountable first to the public interest — not utilities or data centers
- 3) Stop letting FP&L and Duke Energy rely so heavily on gas plants and hand us the bill when fuel prices spike
- 4) Set aggressive, binding targets for solar and energy efficiency measures that lower costs for Floridian families

None of this is experimental. None of this requires waiting. What it requires is leadership — and the political will to prioritize ratepayers over shareholders. Floridians like me are watching, and we expect you to act like you work for us.

Sincerely,

Mr. Richard Acosta

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Mike La Rosa,

Like many Floridians, I am concerned about rises in monthly power bills. Energy bills that were already a burden have become a crisis for many — and the clean, low-cost energy sources that could fix this are not being implemented at sufficient level, partly because financial incentives are dated and favor older, less efficient, and more polluting alternatives.

The facts are simple: clean energy is now the most affordable and quickest to deploy. Solar, wind, and energy efficiency improvements lower costs, reduce pollution, and make the grid more resilient. Continued investment in fossil fuel infrastructure does the opposite, but ratepayers like me are being forced to fund it.

I am expecting you to:

- 1) Reject rate increases that prioritize FP&L and Duke Energy profits over customer reliability and affordability
- 2) Hold the PSC accountable first to the public interest — not utilities or data centers
- 3) Stop letting FP&L and Duke Energy rely so heavily on gas plants and hand us the bill when fuel prices spike
- 4) Set aggressive, binding targets for solar and energy efficiency measures that lower costs for Floridian families

None of this is experimental. None of this requires waiting. What it requires is leadership — and the political will to prioritize ratepayers over shareholders. Floridians like me are watching, and we expect you to act like you work for us.

Sincerely,
Mr. Pete Dudley

Subject: Our electric bills are too high, and we're watching what you do next

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Mike La Rosa,

Like many Floridians, I am outraged by my monthly power bills. Energy bills that were already a burden have become a crisis — and the clean, low-cost alternatives that could fix this are being sidelined to protect utility profits and political favors.

The facts are simple: clean energy is now the most affordable and quickest to deploy. Solar, wind, and energy efficiency improvements lower costs, reduce pollution, and make the grid more resilient. Continued investment in fossil fuel infrastructure does the opposite, but ratepayers like me are being forced to fund it.

I am expecting you to:

- 1) Reject rate increases that prioritize FP&L and Duke Energy profits over customer reliability and affordability
- 2) Hold the PSC accountable first to the public interest — not utilities or data centers
- 3) Stop letting FP&L and Duke Energy rely so heavily on gas plants and hand us the bill when fuel prices spike
- 4) Set aggressive, binding targets for solar and energy efficiency measures that lower costs for Floridian families

None of this is experimental. None of this requires waiting. What it requires is leadership — and the political will to prioritize ratepayers over shareholders. Floridians like me are watching, and we expect you to act like you work for us.

Sincerely,
Deanna Cosgrave

Subject: Excelerate 2026: Hotel block is live + Nashville highlights

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

OCTOBER 12-14, 2026 · NASHVILLE, TN

Where we're staying — and why you'll want to arrive early.

Excelerate 2026 is coming together beautifully, and we couldn't be more excited about where we're planting our flag: the **Kimpton Aertson Hotel** in Nashville's Midtown. This isn't your average conference hotel. It's the kind of place that makes you want to check in a day early and check out a day late.

Ranked in the **Top 10 Hotels in Nashville** by Condé Nast Traveler's Reader's Choice Awards (2024 & 2025) and recognized among the **Best Hotels in the USA**, the Aertson sits in the heart of Midtown — steps from Vanderbilt University, a short walk to Music Row, and just a neighborhood away from the honky tonks of Lower Broadway.

HOTEL HIGHLIGHTS

Rooftop pool & skyline views

Unwind on the 8th-floor rooftop pool overlooking Vanderbilt University and the Nashville skyline. Cocktails, cabanas, and a breeze off Midtown. Not a bad way to decompress after a full day of sessions.

Complimentary morning coffee & nightly wine hour

Kimpton's signature perks are built in: complimentary coffee and tea every morning to fuel your conference day, plus a hosted wine hour every evening to wind it down right.

Woodhouse Spa

Steps from the hotel, the Woodhouse Spa offers everything from four-handed massages to volcanic stone treatments. Consider it your reward for conquering the ROI working session.

Henley Restaurant & Rabbit Hole Bar

Named one of Nashville's best bars by Thrillist and a top brunch spot by NASHTODAY, the hotel's own Henley is a destination in itself. Tennessee whiskey, handcrafted cocktails, and inventive American brasserie fare — right downstairs.

The neighborhood

Music Row is 0.4 miles away. Vanderbilt is across the street. The Bluebird Café, Hattie B's Hot Chicken, and the honky tonks of Lower Broadway are all within easy reach. Complimentary cruiser bikes are available at the hotel if you want to explore like a local.

ROOM BLOCK

We have secured a room block at the Kimpton Aertson at a preferred rate for Excelerate 2026 attendees. Rooms are available now — click below to reserve yours.

We recommend booking early. The block will fill up.
