Florida Public Service Commission

Office of Public Council

As a customer of Florida City Gas i have no problem with a rate increase provided its used for public safety upgrades as specified in the proposal i received. The total funding said to be \$ 180. Million.

However id like to see that figure split evenly so that consumers and stock holders each end up paying exactly half for these upgrades.

I'm sick and tired of ALL PROFITS GO TO SHAREHOLDERS, WHILE ALL EXPENSES GO TO THE CUSTOMERS.

Shareholders should have their dividends reduced by \$ 90 million, and rate payers fund the other \$ 90 million. Any rate increase approval must be contingent on that.

Thank you
