CUSTOMER COMMENTS

I purchased solar 5 yrs. ago; my monthly electric Bill prior to installing solar was \$90.00 per month sometimes less. The majority of my Bill today is the meter reading fee and admin fees totaling 27.50; if additional energy is used my bill will reach 30-40.00; which is 90% admin fees. Any power given back to the grid is a fraction of what it is sold for. When I purchased my system it was to LOCK IN my montly payment And to ensure future energy costs would not increase! Solar will be a Scam, if savings are not realized as they were advertised when home owners made the investment.
