CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This appears to be example of confuse and take advantage of the public with obfuscations. Every community effected should be permitted to receive an easy-to-understand documentation. The PSC docket details are impossible. Ever since Florida City gas was purchased consumers have harassed with changes to hardware that cost private individuals money and destruction to property. Please send me an easy to understand of why billing increases are necessary.

Thank you,
Lawrence W. Robison
