P.O. Box 1439 Tampa, FL 33601-1439

#### **Independent Auditors' Report**

The Board of Directors Florida Power Corporation:

We have audited the balance sheets - regulatory basis of Florida Power Corporation (the "Company") as of December 31, 1997 and 1996, and the related statements of income - regulatory basis for the years ended December 31, 1997 and 1996 and retained earnings and cash flows - regulatory basis for the year ended December 31, 1997, included on pages 110 through 121 of the accompanying Federal Energy Regulatory Commission Form 1. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

These financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published Accounting Releases, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities and proprietary capital of Florida Power Corporation as of December 31, 1997 and 1996, and the results of its operations for the years then ended and the results of its cash flows for the year ended December 31, 1997, in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published Accounting Releases.

This report is intended solely for the information and use of the board of directors and management of Florida Power Corporation and for filing with the Federal Energy Regulatory Commission and should not be used for any other purpose. However, this report is a matter of public record and its distribution is not limited.

KPMG Peat Marnich UP

## INSTRUCTIONS FOR FILING THE FERC FORM NO. 1

#### GENERAL INFORMATION

Purpose

This form is a regulatory support requirement (18 CFR 141.1). It is designed to collect financial and operational information from major electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is also secondarily considered to be a nonconfidential public use form supporting a statistical publication (Financial Statistics of Selected Electric Utilities), published by the Energy Information Administration.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 CFR 101), must submit this form.

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- (1) One million megawatt hours of total annual sales,
- (2) 100 megawatt hours of annual sales for resale,
- (3) 500 megawatt hours of annual power exchanges delivered, or
- (4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

(a) Submit this form on electronic media consisting of two (2) duplicate data diskettes and an original and six (6) conformed paper copies, properly filed in and attested, to:

> Office of the Secretary Federal Energy Regulatory Commission 888 First Street, NE. Room 1A-21 Washington, DC 20426

Retain one copy of this report for your files.

Include with the original and each conformed paper copy of this form the subscription statement required by 18 C.F.R. 385.2011(c)(5). Paragraph (c)(5) of 18 C.F.R. 385.2011 requires each respondent submitting data electronically to file a subscription stating that the paper copies contain the same information as contained on the electronic media, that the signer knows the contents of the paper copies and electronic media, and that the contents as stated in the copies and on the electronic media are true to the best knowledge and belief of the signer.

(b) Submit immediately upon publication, four (4) copies of the latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Page 4, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant
Federal Energy Regulatory Commission
888 First Street, NE.
Room 1A-21
Washington, DC 20426

- (c) For the CPA certification, submit with the original submission, or within 30 days after the filing date for this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984):
  - (i) Attesting to the conformity, in all material aspects, of the below listed (schedules and) pages with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
  - (ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 CFR 41.10-41.12 for specific qualifications.)

- III. What and Where to Submit (Continued)
  - (c) Continued

| Schedules                      | Reference<br>Pages |  |
|--------------------------------|--------------------|--|
| Comparative Balance Sheet      | 110 - 113          |  |
| Statement of Income            | 114 - 117          |  |
| Statement of Retained Earnings | 118 - 119          |  |
| Statement of Cash Flows        | 120 - 121          |  |
| Notes to Financial Statements  | 122 - 123          |  |

When accompanying this form, insert the letter or report immediately following the cover sheet. When submitting after the filing date for this form, send the letter or report to the Office of the Secretary at the address indicated at III (a).

Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statements of for the year ended on which we have reported separately under date of we have also reviewed schedules of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirements free of charge from:

> Public Reference and Files Maintenance Branch Federal Energy Regulatory Commission 888 First Street, NE. Room 2A-1 ED-12.2 Washington, DC 20426 (202) 208-2474

IV. When to Submit:

Submit this report form on or before April 30th of the year following the year covered by this report.

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for this collection of information is estimated to average 1,217 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426 (Attention: Mr. Michael Miller, ED-12.3); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission).

#### GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 101) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2, 3, and 4.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below). The date of the resubmission must be reported in the header for all form pages, whether or not they are changed from the previous filing.
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses. ( ).
- VII. For any resubmissions, two (2) new data diskettes and an original and six (6) conformed paper copies of the entire form, as well as the appropriate number of copies of the subscription statement indicated at instruction III (a) must be filed. Resubmissions must be numbered sequentially both on the diskettes and on the cover page of the paper copies of the form. In addition, the cover page of each paper copy must indicate that the filing is a resubmission. Send the resubmissions to the address indicated at instruction III (a).
- VIII. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
  - IX. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.

#### DEFINITIONS

- I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

#### EXCERPTS FROM THE LAW

#### Federal Power Act, 16 U.S.C. 791a-825r)

- "Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to wit:
  ...(3) `corporation' means any corporation, joint-stock company, partnership, association, business trust,
  organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any
  of the foregoing. It shall not include `municipalities' as hereinafter defined;
  - (4) 'person' means an individual or a corporation;
- (5) `licensee' means any person, State, or municipality licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- (7) `municipality' means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the laws thereof to carry on the business of developing, transmitting, utilizing, or distributing power;...."
- (11) `project' means a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or forebay reservoirs directly connected therewith, the primary line or lines transmitting power therefrom to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, lands, or interest in lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;
- "Sec. 4. The Commission is hereby authorized and empowered -
- (a) To make investigations and to collect and record data concerning the utilization of the water resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites,...to the extent the Commission may deem necessary or useful for the purposes of this Act."
- "Sec. 304. (a) Every licensee and every public utility shall file with the Commission such annual and other periodic or special reports as the Commission may be rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies."
- "Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, amend, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the form or forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be filed...."

#### GENERAL PENALTIES

"Sec. 315. (a) Any licensee or public utility which willfully fails, within the time prescribed by the Commission, to comply with any order of the Commission, to file any report required under this Act or any rule or regulation of the Commission thereunder, to submit any information of document required by the Commission in the course of an investigation conducted under this Act,...shall forfeit to the United States an amount not exceeding \$1,000 to be fixed by the Commission after notice and opportunity for hearing...."

Name of Respondent FLORIDA POWER CORPORATION This Report Is:

(1) [x] An Original (Mo. Da Yr)

(2) [ ] A Resubmission 12/31/97 Dec. 31, 1997

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s), name of beneficiary or beneficiaries for whom trust was maintained, and purpose of the trust.

Pursuant to an agreement and plan of merger approved by the stockholders of Florida Power Corporation in March, 1982, Florida Progress Corporation is the owner of all of the outstanding common stock of Florida Power Corporation.

#### OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is \$50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person

who performs similar policymaking functions.

If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and the date the change in incumbency was made.

Date of Report (Mo.Da.Yr) 12/31/97 Year of Report Dec. 31, 1997

#### IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefor and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform system of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each

natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.

- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
- Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
  - 11. (Reserved.)
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instructions 1 to 11 above, such notes may be included on this page.

Name of Respondent This Report Is: Date of Report Year of Report FLORIDA POWER CORPORATION (1) [x] An Original (Mo, Da, Yr) (2) [ ] A Resubmission 12/31/97 Dec. 31, 1997

#### IMPORTANT CHANGES DURING THE YEAR (Continued)

CHANGES IN AND IMPORTANT ADDITIONS TO FRANCHISE RIGHTS:

In 1997, the city of Eustis executed a new, standard 30-year franchise agreement. The franchise fee rate is 6% of all residential, commercial, industrial, and municipal street lighting revenues.

ACQUISITION OF OWNERSHIP IN OTHER COMPANIES

#### None

PURCHASE OR SALE OF AN OPERATING UNIT OR SYSTEM

Purchase of the Tiger Bay facility, a 220 MW cogeneration unit located in Polk County, Florida.

\$455,210,380 Purchase Price Plant Purchased 75,000,000 Regulatory Asset 372,700,000 Miscellaneous Payables, True-up, etc. 7,510,380

This transaction was approved by Federal Energy Regulatory Commission (FERC) order issued June 20, 1997, Docket No. EC97-16-000. Related journal entries were submitted to the FERC by letter dated September 18, 1997.

IMPORTANT LEASEHOLDS

#### None

IMPORTANT EXTENSION OR REDUCTION OF TRANSMISSION OR DISTRIBUTION SYSTEM

None other than the addition of normal transmission and distribution facilities to serve new customers.

OBLIGATIONS INCURRED AS A RESULT OF ISSUANCE OF SECURITIES OR ASSUMPTION OF LIABILITIEWS OR GUARANTEES

During 1997, Florida Power Corporation issued a total of \$4,013,200,000 of commercial paper, and redeemed a total of \$3,837,500,000. The average daily weighted interest rate during the period was 5.55%. company sold \$450 million of medium term notes in July 1997 for the termination of purchased power contracts associated with and the acquisition of the Tiger Bay cogeneration facility.

Authorization for items under note 6 was received from the Florida Public Service Commission under Order No. PSC 96-1521-FOF-EI.

Date of Report Year of Report Name of Respondent This Report Is: (Mo, Da, Yr) FLORIDA POWER CORPORATION (1) [x] An Original Dec. 31, 1997 12/31/97 (2) [ ] A Resubmission

#### IMPORTANT CHANGES DURING THE YEAR (Continued)

CHANGES IN ARTICLES OF INCORPORATION OR AMENDMENTS TO CHARTER

None

STATE THE ESTIMATED ANNUAL EFFECT AND NATURE OF ANY IMPORTANT WAGE SCALE CHANGES DURING THE YEAR

A new three year Agreement between FPC and the International Brotherhood of Electric Workers (IBEW) was ratified on May 12, 1997 (retroactive to December 12, 1996) by Union members. The total package, including wage and benefit changes, will increase 1.1% in Year 1, 1.5% in Year 2, and 1.5% in Year 3.

9. LEGAL PROCEEDINGS

See Item 3. Legal Proceedings in FPC's 1997 Form 10-K which is filed with this report.

< Page 112 Line 37 Column D >

The difference betweeen the Taxes Accrued amount on page 112, line 37 and taxes accrued on page 262-263, Col. (b) & (g) are for exclusions of Sales Taxes per instruction #1 on Page 262.

#### STATEMENT OF INCOME FOR THE YEAR

- 1. Report amounts for accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another Utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 02 thru 24 as appropriate. Include these amounts in columns (c) and (d) totals.
- Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.
- 3. Report data for lines 7,9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
- 4. Use pages 122-123 for important notes regarding the statement of income or any account thereof.
- 5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
- Give concise explanations concerning significant amounts of any refunds made or received duing the year.

#### STATEMENT OF INCOME FOR THE YEAR (Continued)

resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

- If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be included on pages 122-123.
- 8. Enter on pages 122-123 a concise explanation of only those changes in accounting methods made during the year

which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

Explain in a footnote if the previous year's figures are different from that reported in prior reports.

10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 23, and report the information in the blank space on pages 122-123 or in a footnote.

## Date of Report (Mo. Da. Yr) 12/31/97

Year of Report Dec. 31, 1997

## STATEMENT OF CASH FLOWS

- 1. If the notes to the cash flow statement in the respondents annual stockholders report are applicable to this statement, such notes should be included in pages 122-123. Information about noncash investing and financing activities should be provided on pages 122-123. Provide also on pages 122-123 a reconciliation between "Cash and Cash Equivalents at End of Year" with related amounts on the balance sheet.
- 2. Under "Other" specify significant amounts and group others.
- 3. Operating Activities Other: Include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on pages 122-123 the amount of interest paid ( net of amounts capitalized ) and income taxes paid.

| -    | End of Year" With related amounts on the patance sneet. Income taxes pard.     |                 |

## NOTES TO FINANCIAL STATEMENTS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
- For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and

plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be included herein.

#### NOTES TO FINANCIAL STATEMENTS (Continued)

FLORIDA PROGRESS CORPORATION AND FLORIDA POWER CORPORATION NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GENERAL - Florida Progress is an exempt holding company under the Public Utility Holding Company Act of 1935. Its largest subsidiary, representing 85% of total assets, is Florida Power Corporation, a public utility engaged in the generation, purchase, transmission, distribution and sale of electric energy primarily within Florida.

The consolidated financial statements include the financial results of Florida Progress and its majority-owned operations. All significant intercompany balances and transactions have been eliminated. Investments in 20%- to 50%-owned joint ventures are accounted for using the equity method.

Effective December 31, 1997, Florida Progress deconsolidated the financial statements of Mid-Continent. Florida Progress' investment in Mid-Continent will prospectively be accounted for under the cost method. The deconsolidation has not been reflected in the financial statements of prior periods.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. This could affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. These estimates involve judgments with respect to various items including various future economic factors which are difficult to predict and are beyond the control of Florida Progress. Therefore actual results could differ from these estimates.

REGULATION - Florida Power is regulated by the Florida Public Service Commission (FPSC) and the Federal Energy Regulatory Commission (FERC). The utility follows the accounting practices set forth in Financial Accounting Standard (FAS) No. 71, "Accounting for the Effects of Certain Types of Regulation." This standard allows utilities to capitalize or defer certain costs or revenues based on regulatory approval and management's ongoing assessment that it is probable these items will be recovered through the ratemaking process.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | =======        | ==== | =====       |

The utility expects to fully recover these assets and refund the liabilities through customer rates under current regulatory practice.

If Florida Power no longer applied FAS No. 71 due to competition, regulatory changes or other reasons, the utility would make certain adjustments. These adjustments could include the write-off of all or a portion of its regulatory assets and liabilities, the evaluation of utility plant, contracts and commitments and the recognition, if necessary, of any losses to reflect market conditions.

UTILITY PLANT - Utility plant is stated at the original cost of construction, which includes payroll and related costs such as taxes, pensions and other fringe benefits, general and administrative costs, and an allowance for funds used during construction. Substantially all of the utility plant is pledged as collateral for Florida Power's first mortgage bonds.

The allowance for funds used during construction represents the estimated cost of equity and debt for utility plant under construction. Florida Power is permitted to earn a return on these costs and recover them in the rates charged for utility services while the plant is in service. The average rate used in computing the allowance for funds was 7.8%.

UTILITY REVENUES, FUEL AND PURCHASED POWER EXPENSES - Revenues include amounts resulting from fuel, purchased power and energy conservation adjustment clauses, which are designed to permit full recovery of these costs. The adjustment factors are based on projected costs for a 6 or 12-month period. The cumulative difference between actual and billed costs is included on the balance sheet as a current regulatory asset or liability. Any difference is billed or refunded to customers during the

Dec. 31, 1997

#### NOTES TO FINANCIAL STATEMENTS (Continued)

subsequent period.

In December 1997, Florida Power ended the three-year test period for residential revenue decoupling which was ordered by the FPSC and began in January 1995. Decoupling eliminates the direct link between kilowatt-hour sales and revenues. A nonfuel revenue target is determined by multiplying a revenue per customer amount by the total number of residential customers. Differences between target revenues and actual revenues are included as a regulatory asset or liability on the balance sheet. The regulatory asset at December 31, 1997 will be collected from customers beginning April 1998 through the energy conservation cost recovery clause as directed by the FPSC decoupling order.

Florida Power accrues the nonfuel portion of base revenues for services rendered but unbilled.

The cost of nuclear fuel is amortized to expense based on the quantity of heat produced for the generation of electric energy in relation to the quantity of heat expected to be produced over the life of the nuclear fuel core.

INCOME TAXES - Deferred income taxes are provided on all significant temporary differences between the financial and tax basis of assets and liabilities using presently enacted tax rates in accordance with FAS No. 109, "Accounting for Income Taxes."

Deferred investment tax credits, subject to regulatory accounting practices, are amortized to income over the lives of the related properties.

DEPRECIATION AND MAINTENANCE - Florida Power provides for depreciation of the cost of properties over their estimated useful lives primarily on a straight-line basis. Florida Power's annual provision for depreciation, including a provision for nuclear plant decommissioning costs and fossil plant dismantlement costs, expressed as a percentage of the average balances of depreciable utility plant, was 4.8% for 1997, 4.9% for 1996 and 5% for 1995.

# NOTES TO FINANCIAL STATEMENTS (Continued)

The Financial Accounting Standards Board ("FASB") is in the process of modifying its project addressing the accounting for obligations related to the decommissioning of nuclear power plants.

The fossil plant dismantlement accrual has been suspended for a period of four years, beginning July 1, 1997. (See Note 9 contained herein.)

Florida Power charges maintenance expense with the cost of repairs and minor renewals of property. The plant accounts are charged with the cost of renewals and replacements of property units. Accumulated depreciation is charged with the cost, less the net salvage, of property units retired.

Florida Power accrues a reserve for maintenance and refueling expenses anticipated to be incurred during scheduled nuclear plant outages.

INSURANCE PREMIUMS, POLICY ACQUISITION COSTS AND BENEFIT RESERVES - Accounting policies governing the recognition of income and expense for the life insurance subsidiary were in effect until December 31, 1997.

Due to the deconsolidation of the financial results of Mid-Continent in the Florida Progress' consolidated financial statements, accounting policies relating to the balance sheet were in effect only for amounts presented in the 1996 Florida Progress Consolidated Balance Sheet.

Life insurance premiums are recognized as revenues over the premium-paying periods of the policies.

Florida Progress defers recoverable costs in its insurance operations that directly relate to the production of new business. These costs are amortized over the expected premium-paying period. Benefit reserves are established out of each premium payment to provide for the present value of future insurance policy benefits. Florida Progress reviews the adequacy and recoverability of the deferred acquisition costs and the benefit reserves based on a gross premium reserve analysis of the in-force business.

Significant assumptions used in this analysis include estimates of future premium increases, mortality rates, withdrawal rates, expense rates, and investment yield. The assumptions are based on Florida Progress' actual experience adjusted for the effect of future actions affecting the in-force business. Although these assumptions are Florida Progress' best estimate of the future experience, actual results may vary in either direction and could significantly impact income in the period of change.

Date of Report | Year of Report (Mo, Da, Yr) 12/31/97

Dec. 31, 1997

### NOTES TO FINANCIAL STATEMENTS (Continued)

ACCOUNTING FOR CERTAIN INVESTMENTS - Florida Progress considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Florida Progress' investments in debt and equity securities are classified and accounted for as follows:

Type of Security

Accounting Treatment

------

Debt securities held to maturity Amortized cost

Trading securities

Fair market value with unrealized gains and losses included in earnings

Securities available for sale Fair market value with unrealized gains and losses, net of taxes, reported separately in shareholders' equity

See Note 2 for securities held to maturity or available for sale. Florida Progress had no investments in assets classified as trading securities at December 31, 1996 and only held securities classified as available for sale at December 31, 1997. A decline in the market value of any security available-for-sale or held-to-maturity that falls below cost results in a reduction in carrying amount to fair value if the decline is not considered temporary. The impairment is charged to earnings and a new cost basis for the security is established. Premiums and discounts are amortized or accreted over the life of the related held-to-maturity security as an adjustment to yield using the effective interest method. Dividend and interest income are recognized when earned.

ACCOUNTING FOR LONG-LIVED ASSETS - Long-lived assets and certain identifiable intangibles subject to the provisions of FAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, " are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. FAS No. 121 also amends FAS No. 71, "Accounting for the Effects of Certain Types of Regulation," to require that regulatory assets, which include certain deferred charges, be charged to earnings if such assets are no longer considered probable of recovery. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceed the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

NOTES TO FINANCIAL STATEMENTS (Continued)

STOCK-BASED COMPENSATION - Under its Long-Term Incentive Plan ("LTIP"), Florida Progress grants selected executives performance shares, which upon achievement of performance criteria for a three-year performance cycle can result in the award of shares of common stock of Florida Progress or cash if certain stock ownership requirements are met. Florida Progress accounts for its LTIP in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," as allowed under FAS No. 123, "Accounting for Stock-Based Compensation."

ENVIRONMENTAL - Florida Progress adopted the American Institute of Certified Public Accountants Statement of Position ("SOP") 96-1, "Environmental Remediation Liabilities" on January 1, 1997. The SOP requires, among other things, environmental remediation liabilities to be accrued when the criteria of FAS No. 5, "Accounting for Contingencies, " have been met. The SOP also provides guidance with respect to the measurement of remediation liabilities. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such accounting is consistent with Florida Progress' current method of accounting for environmental remediation costs and, therefore, adoption of this new statement did not have a material impact on Florida Progress' financial position, results of operations or liquidity.

NEW ACCOUNTING STANDARDS - In June 1996, the FASB issued FAS No. 125, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." FAS No. 125 provides accounting and reporting standards effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after December 31, 1996 and is to be applied prospectively. There was no material effect on net income as a result of adopting this standard.

In February 1997, the FASB issued FAS No. 128, "Earnings per Share," ("EPS"). It replaces the standards for computing EPS under APB Opinion No. 15, "Earnings per Share," and makes the computations comparable to international EPS standards. Florida Progress adopted this statement for financial statements issued for the period ended December 31, 1997. Adoption of this statement did not have an impact on earnings per share, therefore no restatement was necessary for prior periods.

Also in February 1997, the FASB issued FAS No. 129, "Disclosure of Information about Capital Structure, " which designates certain disclosure requirements for public and nonpublic entities. Florida Progress adopted this statement for financial statements issued for the

NOTES TO FINANCIAL STATEMENTS (Continued)

period ended December 31, 1997. As Florida Progress already disclosed the information required by FAS No. 129, adoption of this statement did not have any effect on the financial disclosures of Florida Progress.

In June 1997, the FASB issued FAS No. 130, "Reporting Comprehensive Income" which establishes standards for reporting comprehensive income. The standard defines comprehensive income as all changes in equity of an enterprise during a period except those resulting from shareholder transactions. All components of comprehensive income are required to be reported in a financial statement that is displayed with equal prominence as existing financial statements. Florida Progress will be required to adopt this statement January 1, 1998. As the standard addresses reporting and presentation issues only, there will be no impact on earnings from the adoption of this standard.

Also in June 1997, the FASB issued FAS No. 131, "Disclosures about Segments of an Enterprise and Related Information" which establishes standards for additional disclosure about operating segments for interim and annual financial statements. The standard requires financial and descriptive information be disclosed for segments meeting certain materiality criteria whose operating results are reviewed for decisions on resource allocation and for which discrete financial information is available. It also establishes standards for related disclosures about products and services, geographic areas, and major customers. Florida Progress will be required to adopt this statement for financial statements for the fiscal year ending December 31, 1998 and for interim periods thereafter. As the standard addresses reporting and disclosure issues only, there will be no impact on earnings from the adoption of this standard.

In January 1998, the FASB issued FAS No. 132, "Employers' Disclosures about Pensions and Other Post-retirement Benefits" which revises current note disclosure requirements for employers' pensions and other retiree benefits. Florida Progress will be required to adopt this statement for financial statements for the year ending December 31, 1998. The standard addresses reporting and disclosure issues only, and there will be no impact on earnings from the adoption of this standard.

# NOTE 2 FINANCIAL INSTRUMENTS

Estimated fair value amounts have been determined by Florida Progress using available market information and discounted cash-flow analysis. Judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates may be different than the amounts that Florida Progress could realize in a current market exchange.

## NOTES TO FINANCIAL STATEMENTS (Continued)

Florida Progress' exposure to market risk for changes in interest rates relates primarily to Florida Progress' marketable securities and long-term debt obligations.

At December 31, 1997, Florida Power held a single forward treasury lock agreement to effectively fix the treasury rate component of an anticipated issuance of \$150 million of medium-term notes in February 1998. The financial impact of this contract, which will result in either a cash payment or receipt, will be deferred and recognized as an adjustment to interest expense over the life of the new notes. Florida Progress had no derivative financial instruments outstanding at December 31, 1996.

At December 31, 1997 and 1996, Florida Progress had the following financial instruments with estimated fair values and carrying amounts:

|                                            |                                                                                                                                                                                                                                                               | 19                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 997                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 199                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 6 NOTES TO FINANCIAL STATEMENTS

(Continued)

# NOTE 4 NUCLEAR OPERATIONS

Florida Power's Crystal River nuclear plant began an extended outage in September 1996, which caused Florida Power to incur \$100 million in additional operation and maintenance expenses in 1997. The plant was placed on the NRC's "Watch List" in January 1997, as a plant whose operations will be closely monitored until Florida Power demonstrates a period of improved performance. In January 1998, the NRC granted Florida Power permission to restart the plant. (See Note 9 contained herein.)

JOINTLY OWNED PLANT - The following information relates to Florida Power's 90.4% proportionate share of the nuclear plant at December 31, 1997 and 1996:

| (In millions)                                                                                                                        | 1997                                      | 1996                                      |  |
|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|-------------------------------------------|--|
| Utility plant in service Construction work in progress Unamortized nuclear fuel Accumulated depreciation Accumulated decommissioning | \$673.8<br>49.3<br>66.5<br>341.0<br>223.7 | \$643.6<br>14.8<br>59.9<br>309.5<br>193.3 |  |

Net capital additions/(retirements) for Florida Power were \$64.7 million in 1997 and \$(16.5) million in 1996. Depreciation expense, exclusive of nuclear decommissioning, was \$29 million in 1997 and \$28.3 million in 1996. Each co-owner provides for its own financing. Florida Power's share of the asset balances and operating costs is included in the appropriate consolidated financial statements. Amounts exclude any allocation of costs related to common facilities.

DECOMMISSIONING COSTS - Florida Power's nuclear plant depreciation expenses include a provision for future decommissioning costs, which are recoverable through rates charged to customers. Florida Power is placing amounts collected in an externally managed trust fund. The recovery from customers, plus income earned on the trust fund, is intended to be sufficient to cover Florida Power's share of the future dismantlement, removal and land restoration costs. Florida Power has a license to operate the nuclear unit through December 3, 2016, and contemplates decommissioning beginning at that time.

In November 1995, the FPSC approved a new site-specific study that estimated total future decommissioning costs at approximately \$2 billion, which corresponds to \$453.8 million in 1997 dollars. Florida Power's share of the retail portion of annual decommissioning expense is \$20.5 million. Florida Power's annual expense for the wholesale portion is \$1.2 million.

NOTES TO FINANCIAL STATEMENTS (Continued)

FUEL DISPOSAL COSTS - Florida Power has entered into a contract with the U.S. Department of Energy (DOE) for the transportation and disposal of spent nuclear fuel. Disposal costs for nuclear fuel consumed are being collected from customers through the fuel adjustment clause at a rate of \$.001 per net nuclear kilowatt-hour sold and are paid to the DOE quarterly. Florida Power currently is storing spent nuclear fuel on-site and has sufficient storage capacity in place for fuel consumed through the year 2010.

## NOTE 5 PREFERRED AND PREFERENCE STOCK AND SHAREHOLDER RIGHTS

The authorized capital stock of Florida Progress includes 10 million shares of preferred stock, without par value, including 2 million shares designated as Series A Junior Participating Preferred Stock. No shares of Florida Progress' preferred stock are issued and outstanding. However, under the Florida Progress Shareholder Rights Agreement, each share of common stock has associated with it approximately two-thirds of one right to purchase one one-hundredth of a share of Series A Junior Participating Preferred Stock, subject to adjustment, which is exercisable in the event of certain attempted business combinations. If exercised, the rights would cause substantial dilution of ownership, thus adversely affecting any attempt to acquire Florida Progress on terms not approved by Florida Progress' Board of Directors. The rights have no voting or dividend rights and expire in December 2001, unless redeemed earlier by Florida Progress.

The authorized capital stock of Florida Power includes three classes of preferred stock: 4 million shares of Cumulative Preferred Stock, \$100 par value; 5 million shares of Cumulative Preferred Stock, without par value; and 1 million shares of Preference Stock, \$100 par value. No shares of Florida Power's Cumulative Preferred Stock, without par value, or Preference Stock are issued and outstanding. A total of 334,967 shares, of the 335,000 authorized, of Cumulative Preferred Stock, \$100 par value, were issued and outstanding at December 31, 1997 and 1996.

Florida Power redeemed 1,050,000 shares of its Cumulative Preferred Stock in 1996 and 50,000 shares in 1995.

Dec. 31, 1997

NOTES TO FINANCIAL STATEMENTS (Continued)

Florida Progress' consolidated subsidiaries have lines of credit totaling \$900 million, which are used to support commercial paper. The lines of credit were not drawn on as of December 31, 1997. Interest rate options under the line of credit arrangements vary from subprime or money market rates to the prime rate. Banks providing lines of credit are compensated through fees. Commitment fees on lines of credit vary between .06 and .10 of 1%.

The lines of credit consist of four revolving bank credit facilities, two each for Florida Power and Progress Capital Holdings, Inc. The Florida Power facilities consist of \$300 million with a 364-day term and \$200 million with a five-year term. The Progress Capital facilities consist of \$100 million with a 364-day term and \$300 million with a five-year term. In 1997, both 364-day facilities were extended to November 1998. In addition, both five-year facilities were extended to November 2002. Based on the duration of the underlying backup credit facilities, \$500 million of outstanding commercial paper at December 31, 1997, and \$369.4 million of outstanding commercial paper at December 31, 1996, are classified as long-term debt. Additionally, as of December 31, 1997 Florida Power and Progress Capital Holdings had \$179.8 million and \$35.0 million, respectively of outstanding commercial paper classified as short-term debt.

Florida Power has a public medium-term note program providing for the issuance of either fixed or floating interest rate notes. These notes have maturities ranging from nine months to 30 years. A balance of \$400 million is available for issuance.

Florida Power has registered \$370 million of first mortgage bonds which are unissued and available for issuance.

Progress Capital has a private medium-term note program providing for the issuance of either fixed or floating interest rate notes, with maturities ranging from nine months to 30 years. A balance of \$87 million is available for issuance under this program.

The combined aggregate maturities of long-term debt for 1998 through 2002 are \$15.2 million, \$143.6 million, \$77.6 million, \$183.0 million and \$632.2 million, respectively. In addition, about 12% of Florida Power's outstanding first mortgage bonds have an annual 1% sinking fund

## NOTES TO FINANCIAL STATEMENTS (Continued)

requirement. These requirements, which total \$1 million annually for 1998 through 2002, are expected to be satisfied with property additions.

Florida Progress has unconditionally guaranteed the payment of Progress Capital's debt as defined in an amended and restated support agreement.

# RETIREMENT BENEFIT PLANS

Pension Benefits - Florida Progress and certain of its subsidiaries have a noncontributory defined benefit pension plan covering most employees. The benefits are based on length of service, compensation and Social Security benefits. The participating companies make annual contributions to the plan based on an actuarial determination and consideration of tax regulations and funding requirements under federal law. Based on actuarial calculations and the funded status of the pension plan, Florida Progress was not required to contribute to the plan for 1997, 1996 or 1995.

Shown below are the components of the net pension expense calculations for those years:

| (In millions)                                                                           | 1997                               | 1996                              | 1995                               |
|-----------------------------------------------------------------------------------------|------------------------------------|-----------------------------------|------------------------------------|
| Service cost Interest cost Actual earnings on plan assets Net amortization and deferral | \$ 15.3<br>33.4<br>(131.6)<br>64.0 | \$ 16.2<br>31.3<br>(88.0)<br>29.5 | \$ 13.4<br>30.1<br>(124.4)<br>77.7 |
| Net pension benefit recognized                                                          | \$ (18.9)                          | \$(11.0)                          | \$(3.2)                            |

Florida Power's share of the plan's pension benefits for 1997, 1996 and 1995 was \$(18.4) million, \$(10.3) million and \$(3.0) million, respectively.

The following weighted average actuarial assumptions at January 1 were used in the calculation of pension expense:

| and I be a tenut of the           | 1997  | 1996  | 1995  |

| Plan assets in excess of projected benefit obligation                                                                                                        | \$268.8                            | \$203.0                          |
| Consisting of the following components: Unrecognized transition asset Unrecognized prior service cost Unrecognized net actuarial gains Prepaid pension costs | \$ 25.5<br>(14.7)<br>236.7<br>21.3 | \$ 30.4<br>(6.3)<br>176.4<br>2.5 |
|                                                                                                                                                              | \$268.8                            | \$203.0                          |

Due to changes in interest rates, Florida Progress used a discount rate of 7.25% to calculate the pension plan's 1997 year-end funded status. The change in the discount rate from 7.5% at December 31, 1996, to 7.25% at December 31, 1997, increased the projected benefit obligation by \$17.4 million and is expected to increase the annual pension costs by \$1.8 million, beginning in 1998.

In 1997 the Board of Directors approved a restructuring of the Plan effective January 1, 1998. The existing plan will be split into two separate plans, one covering eligible bargaining unit employees and the other covering all other eligible employees. Plan assets will be allocated to each plan in accordance with applicable law. The restructuring is expected to have a minimal effect on funded status and periodic pension costs

OTHER POST-RETIREMENT BENEFITS - Florida Progress and some of its subsidiaries provide certain health care and life insurance benefits for retired employees. Employees become eligible for these benefits when they reach retirement age while working for Florida Progress.

Date of Report Year of Report

Dec. 31, 1997

# NOTES TO FINANCIAL STATEMENTS (Continued)

The transition obligation is being accrued through 2012.A one-percentage point increase in the assumed health care cost trend rate for each future year would have increased the 1997 current service and interest cost by approximately \$.8 million and the accumulated post-retirement benefit obligation as of December 31, 1997, by about \$9.6 million. The change in the discount rate from 7.5% at December 31, 1996, to 7.25% at December 31, 1997, increased the projected benefit obligation by \$4.4 million and is expected to increase annual post-retirement benefit costs by \$.3 million, beginning in 1998.

Due to different retail and wholesale regulatory rate requirements, Florida Power began making quarterly contributions in 1995 to an irrevocable external trust fund for wholesale ratemaking, while continuing to accrue postretirement benefit costs to an unfunded reserve for retail ratemaking. Florida Power contributed approximately \$1.3 million in both 1997 and 1996, to the trust fund.

## NOTE 8 BUSINESS SEGMENTS

Florida Progress' principal business segments are utility and diversified operations. The utility is engaged in the generation, purchase, transmission, distribution and sale of electric energy. Electric Fuels Corporation's (Electric Fuels) operations include energy and related services, inland marine transportation and rail services. Other diversified operations include ownership of a life insurance subsidiary.

Florida Progress' business segment information for 1997, 1996 and 1995 is summarized below. No single customer accounted for 10% or more of unaffiliated revenues.

to close and dispose of its unprofitable coal operations and recorded a provision for loss of \$40.9 million, as shown above.

NOTE 9 RATES

Florida Power's retail rates are set by the FPSC. Florida Power's last general rate case was approved in 1992 and allowed a 12% regulatory return on equity with an allowed range between 11% and 13%.

EXTENDED NUCLEAR OUTAGE - In June 1997, a settlement agreement between Florida Power and all parties who intervened in Florida Power's request to collect replacement fuel and purchased power costs resulting from the extended outage of its nuclear plant was approved by the FPSC. The plant has been off-line since September 1996 to address certain design issues related to its safety systems.

Florida Power incurred \$174 million in total system replacement power costs through the end of 1997. In accordance with the settlement agreement, Florida Power recorded a charge of approximately \$73 million for retail replacement power costs incurred that will not be recovered through its fuel adjustment clause. Of the remaining \$101 million, Florida Power will recover approximately \$38 million through its fuel adjustment clause. The remaining \$63 million of replacement power costs was recorded as a regulatory asset and is being amortized for a period of up to four years. The amortization of the regulatory asset is being recovered by the suspension of fossil plant dismantlement accruals during the amortization period. Actual replacement power costs incurred prior to the nuclear unit's return to service in excess of the \$174 million, will be expensed as incurred.

The parties to the settlement agreement have agreed not to seek or support any increase or reduction in Florida Power's base rates or the authorized range of its return on equity during the four-year amortization period. The settlement agreement also provided that for purposes of monitoring Florida Power's future earnings, the FPSC will exclude the nuclear outage costs when assessing Florida Power's regulatory return on equity. The agreement resolves all present and future disputed issues between the parties regarding the extended outage of the nuclear plant.

TIGER BAY BUY-OUT - In 1997, Florida Power bought out the Tiger Bay purchased power contracts for \$370 million and acquired the cogeneration facility for \$75 million, for a total of \$445 million. Of the \$370 million of contract termination costs, \$350 million was recorded as a regulatory asset and the remaining \$20 million was written off. Florida Power recorded \$75 million as electric plant.

## NOTES TO FINANCIAL STATEMENTS (Continued)

The regulatory asset is being recovered pursuant to a stipulation agreement between Florida Power and several intervening parties which was approved by the FPSC in June 1997. The amortization of the regulatory asset is calculated using revenues collected under the fuel adjustment clause as if the purchase power agreements related to the facility were still in effect, less the actual fuel costs and the related debt interest expense. This will continue until the regulatory asset is fully amortized. Florida Power has the option to accelerate the amortization.

# NOTE 10 DISCONTINUED OPERATIONS

On November 21, 1996, The Florida Progress Board of Directors declared a spin-off distribution to common shareholders of record on December 5, 1996, of the common shares of Echelon, which comprised Florida Progress' lending, leasing and real estate operations. Common shares were distributed on the basis of one share of Echelon common stock for every 15 shares of Florida Progress common stock.

In connection with the spin-off in 1996, Florida Progress has presented Echelon as a discontinued operation in the accompanying Consolidated Statements of Income. As of the date of the spin-off, the net assets of Echelon were \$194.5 million. This amount has been charged against Florida Progress' retained earnings in the accompanying December 31, 1996 Consolidated Balance Sheet to reflect the distribution of Echelon common shares on December 18, 1996.

A summary of net assets distributed is as follows:

## (In millions)

| Cash and equivalents             | \$ 53.8  |
|----------------------------------|----------|
| Assets held for sale             | 26.8     |
| Leases and loans receivable, net | 272.0    |
| Property and equipment, net      | 126.0    |
| Other assets                     | 39.9     |
| Total assets                     | 518.5    |
| Total liabilities                | (324.0)  |
| Net assets distributed           | \$ 194.5 |

Summarized income statement information relating to Echelon's results of operations (as reported in discontinued operations) is as follows:

Fiscal year 1996 includes results of operations through December 18, 1996. Results of operations include allocated interest expense of \$8.7 million and \$11.7 million for 1996 and 1995 respectively.

## NOTE 11 COMMITMENTS AND CONTINGENCIES

FUEL, COAL AND PURCHASED POWER COMMITMENTS - Florida Power has entered into various long-term contracts to provide the fossil and nuclear fuel requirements of its generating plants and to reserve pipeline capacity for natural gas. In most cases, such contracts contain provisions for price escalation, minimum purchase levels and other financial commitments. Estimated annual payments, based on current market prices, for Florida Power's firm commitments for fuel purchases and transportation costs, excluding delivered coal and purchased power, are \$40 million, \$46 million, \$47 million, \$47 million and \$48 million for 1998 through 2002, respectively, and \$464 million in total thereafter. Additional commitments will be required in the future to supply Florida Power's fuel needs.

Electric Fuels has entered into several contracts with outside parties for the purchase of coal. Electric Fuels also has entered into several operating leases, and rental or royalty agreements, relating to transportation equipment and coal procurement and processing. The annual obligations under these contracts and leases, including transportation costs, are \$163.1 million, \$82.0 million, \$50.2 million, \$45.7 million and \$32.2 million for 1998 through 2002, respectively, and \$64.1 million in total thereafter. The total cost incurred for these commitments was \$219.6 million in 1997, \$221.4 million in 1996 and \$235.2 million in 1995.

Florida Power has long-term contracts for about 460 megawatts of purchased power with other utilities, including a contract with The Southern Company for approximately 400 megawatts of purchased power annually through 2010. This represents 4.5% of Florida Power's total

This Report Is:

Dec. 31, 1997

## NOTES TO FINANCIAL STATEMENTS (Continued)

current installed system capacity. Florida Power has an option to lower these Southern purchases to approximately 200 megawatts annually with a three-year notice. The purchased power from Southern is supplied by generating units with a capacity of approximately 3,500 megawatts and is guaranteed by Southern's entire system, totaling more than 30,000 megawatts.

As of December 31, 1997, Florida Power had entered into purchased power contracts with certain QFs for 946 megawatts of capacity with expiration dates ranging from 2002 to 2025. The purchased power contracts provide for capacity and energy payments. Energy payments are based on the actual power taken under these contracts. Capacity payments are subject to the QFs meeting certain contract performance obligations. In most cases, these contracts account for 100% of the generating capacity of each of the facilities. Of the 946 megawatts under contract, approximately 830 megawatts currently are available to Florida Power. All commitments have been approved by the FPSC. Florida Power does not plan to increase the level of purchased power currently under contract.

The FPSC allows the capacity payments to be recovered through a capacity cost recovery clause, which is similar to, and works in conjunction with, energy payments recovered through the fuel adjustment clause.

Through the buy-out of the Tiger Bay purchased power contracts for \$370 million, Florida Power reduced its long-term purchased power commitments by 20 percent. Florida Power recorded \$350 million of the contract termination costs as a regulatory asset and wrote off \$20 million of the contract termination costs in 1997. (See Note 9 contained herein.)

Florida Power incurred purchased power capacity costs totaling \$292.3 million in 1997, \$284 million in 1996 and \$260.1 million in 1995. The following table shows minimum expected future capacity payments for purchased power commitments. Because the purchased power commitments have relatively long durations, the total present value of these payments using a 10% discount rate also is presented. These amounts assume that all units are brought into service as contracted and meet contract performance requirements:

| Total                     |         | \$492                  | \$6,912                        | \$7,404              |
| Total net present value   | ======= | ========               |                                | \$2,573              |

The purchased power contracts with QFs employ separate pricing methodologies for capacity payments and energy payments. Florida Power has interpreted the pricing provision in these contracts to allow it to pay an as-available energy price rather than a higher firm energy price when the avoided unit upon which the applicable contract is based would not have been operated.

Four QFs filed suit against Florida Power over the contract payment terms. Florida Power entered into settlement agreements with three of the four QFs. Two of those agreements have been approved by the FPSC and the litigation has been dismissed. In September 1997, the FPSC reversed its original decision and voted to deny Florida Power's request to approve the third settlement agreement. As a result of the FPSC denial, the settlement expired by its own terms in October 1997. In December 1997, the state court action with the third cogenerator was set for trial in late 1998. Florida Power's dispute with the fourth cogenerator has been set for trial in federal court for late 1998, but no trial date has been set for a parallel contract dispute in state court. Management does not expect that the results of these legal actions will have a material impact on Florida Power's financial position, operations or liquidity.

MID-CONTINENT LIFE INSURANCE COMPANY (MID-CONTINENT) - A series of events in 1997 have significantly jeopardized Mid-Continent's ability to implement a plan to eliminate a projected reserve deficiency resulting in the impairment of Florida Progress' investment in Mid-Continent, its wholly owned life insurance subsidiary.

On April 14, 1997, the Commissioner received legal approval to temporarily seize control of the operations of Mid-Continent, and in May 1997, the Oklahoma County District Court granted the Insurance Commissioner's application to place Mid-Continent into receivership.

This Report Is: (1) [x] An Original (2) [ ] A Resubmission

Date of Report Year of Report (Mo, Da, Yr) 12/31/97

Dec. 31, 1997

NOTES TO FINANCIAL STATEMENTS (Continued)

The Insurance Commissioner had alleged that Mid-Continent's reserves were understated by more than \$125 million, thus causing Mid-Continent to be statutorily impaired. The Insurance Commissioner further alleged that Mid-Continent had violated Oklahoma law relating to deceptive trade practices in connection with the sale of its "Extra Life" insurance policies and was not entitled to raise premiums, a key element to Mid-Continent's plan to address the projected reserve deficiency. While sustaining the receivership, the court also ruled that premiums could be raised. Both sides have appealed the decision to the Oklahoma Supreme Court. In December 1997, the Insurance Commissioner filed a lawsuit against Florida Progress and certain directors and officers making a number of allegations and seeking access to Florida Progress' assets to satisfy policyholder and creditor claims. Florida Progress believes that the Commissioner's lawsuit is without merit and intends to vigorously defend itself and the other defendants against these charges. The ultimate outcome of the matter cannot presently be determined. Accordingly, Florida Progress has made no provision for any loss.

Another element of Mid-Continent's plan to eliminate the projected reserve deficiency was to offer a new life insurance product. However, as a result of the Commissioner's actions, which resulted in Mid-Continent being placed in receivership, agents were reluctant to sell the new policy. This also prompted insurance commissioners in several states to enter cease and desist orders prohibiting Mid-Continent from writing new policies.

As a result of the Oklahoma Commissioner's efforts to block Mid-Continent from raising insurance premiums, his failure to offer any formal plan to eliminate the projected reserve deficiency, the legal proceedings, and the cease and desist orders, Florida Progress now believes the full amount of its \$86.9 million investment in Mid-Continent at December 31, 1997 is impaired. Therefore, Florida Progress recorded a provision for loss on investment of \$86.9 million in 1997. In addition, tax benefits of approximately \$11 million related to the excess of the tax basis over the book value in the investment in Mid-Continent as of December 31, 1997, were not recorded because of uncertainties associated with the timing of a tax deduction. Florida Progress also recorded an accrual at December 31, 1997 for legal fees associated with defending its position in current Mid-Continent legal proceedings.

Mid-Continent's financial statements have been deconsolidated effective December 31, 1997. The investment will prospectively be accounted for under the cost method.

#### NOTES TO FINANCIAL STATEMENTS (Continued)

ADVANCED SEPARATION TECHNOLOGIES - Florida Progress sold its 80% interest in Advanced Separation Technologies to Calgon in December 1996 for \$56 million in cash. Calgon filed a lawsuit in January 1998 alleging misstatement of AST's 1996 revenues, assets and liabilities, seeking damages and granting Calgon the right to rescind the sale. The lawsuit also accuses Florida Progress of failing to disclose flaws in AST's manufacturing process and a lack of quality control. No projection of an outcome or estimate of a potential liability, if any, can be determined at the date of issuance of these financial statements. Florida Progress intends to vigorously defend itself against this lawsuit.

CONSTRUCTION PROGRAM - Substantial commitments have been made in connection with Florida Progress' construction program. In 1998, Florida Power has projected construction expenditures of \$294 million, primarily for electric plant and nuclear fuel. Electric Fuels has projected capital additions of \$125 million in 1998, primarily for barges and towboats.

OFF-BALANCE SHEET RISK - Several of Florida Progress' subsidiaries are general partners in unconsolidated partnerships and joint ventures. Florida Progress or subsidiaries have agreed to support certain loan agreements of the partnerships and joint ventures. These credit risks are not material to the financial statements and Florida Progress considers these credit risks to be minimal, based upon the asset values supporting the partnership liabilities.

INSURANCE - Florida Progress and its subsidiaries utilize various risk management techniques to protect assets from risk of loss, including the purchase of insurance. Risk avoidance, risk transfer and self-insurance techniques are utilized depending on Florida Progress' ability to assume risk, the relative cost and availability of methods for transferring risk to third parties, and the requirements of applicable regulatory bodies.

Florida Power self-insures its transmission and distribution lines against loss due to storm damage and other natural disasters. Pursuant to a regulatory order, Florida Power is accruing \$6 million annually to a storm damage reserve and may defer any losses in excess of the

Under the provisions of the Price Anderson Act, which limits liability for accidents at nuclear power plants, Florida Power, as an owner of a nuclear plant, can be assessed for a portion of any third-party liability claims arising from an accident at any commercial nuclear power plant in the United States. If total third-party claims relating to a single nuclear incident exceed \$200 million (the amount of currently available commercial liability insurance), Florida Power

This Report Is: (1) [x] An Original

Dec. 31, 1997

#### NOTES TO FINANCIAL STATEMENTS (Continued)

could be assessed up to \$79.3 million per incident, with a maximum assessment of \$10 million per year.

Florida Power is a member of the Nuclear Electric Insurance, Ltd. ("NEIL"), an industry mutual insurer, which provides business interruption and extra expense coverage in the event of a major accidental outage at a covered nuclear power plant. Florida Power is subject to a retroactive premium assessment by NEIL under this policy in the event loss experience exceeds NEIL's available surplus. Florida Power's present maximum share of any such retroactive assessment is \$2.7 million per policy year.

Florida Power also maintains nuclear property damage insurance and decontamination and decommissioning liability insurance totaling \$2.1 billion. The first layer of \$500 million is purchased in the commercial insurance market with the remaining excess coverage purchased from NEIL. Florida Power is self-insured for any losses that are in excess of this coverage. Under the terms of the NEIL policy, Florida Power could be assessed up to a maximum of \$9.5 million in any policy year if losses in excess of NEIL's available surplus are incurred.

Florida Power has never been assessed under these nuclear indemnities or insurance policies.

CONTAMINATED SITE CLEANUP - Florida Progress is subject to regulation with respect to the environmental impact of its operations. Florida Progress' disposal of hazardous waste through third-party vendors can result in costs to clean up facilities found to be contaminated. Federal and state statutes authorize governmental agencies to compel responsible parties to pay for cleanup of these hazardous waste sites.

Florida Power and former subsidiaries of Florida Progress, whose properties were sold in prior years, have been identified by the EPA as PRPs at certain sites, including a coal gasification plant site in Sanford, Florida ("Sanford site") that Florida Power previously owned and operated. There are five parties, including Florida Power, that have been identified as PRPs at the Sanford site. Liability for the cleanup costs of these sites is joint and several.

Negotiations are underway with the EPA to define the extent of contamination that may be attributable to Florida Power's previous operation at the site. The discussions and resolution of liability for cleanup costs could cause Florida Power to increase its estimate of its liability for cleanup costs. Although estimates of any additional costs are not currently available, the outcome is not expected to have a material effect on Florida Progress' financial position, results of operations or liquidity.

Dec. 31, 1997

#### NOTES TO FINANCIAL STATEMENTS (Continued)

In addition to these designated sites, there are other sites where affiliates may be responsible for additional environmental cleanup.

Florida Progress believes that its subsidiaries will not be required to pay a disproportionate share of the costs for cleanup of any of these sites. Florida Progress' best estimates indicate that its proportionate share of liability for cleaning up all sites ranges from \$2.5 million to \$7.5 million. It has reserved \$4.7 million against these potential costs.

AGE DISCRIMINATION SUIT - Florida Power and Florida Progress have been served with an age discrimination lawsuit involving 116 former Florida Power employees and one current employee. While no dollar amount was requested in the lawsuit, each plaintiff seeks back pay, reinstatement or front pay through their projected dates of normal retirement, costs and attorneys' fees. In October 1996, the court approved an agreement between parties to provisionally certify this case as a class action suit under the Age Discrimination in Employment Act. Estimates of the potential liability associated with this lawsuit, if any, remain pending until the final decision on whether to certify the case as a class action suit has been made. A decision regarding the class action status is expected in 1998.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 1  |

#### ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106)

- Report below the original cost of electric plant in service according to the prescribed accounts.
- 2. In addition to Account 101, Electric Plant in Service (Classified), this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Electric Plant Unclassified; and Account 106, Completed Construction Not Classified-Electric.
- Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
- 4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
  - 5. Classify Account 106 according to prescribed ac-

counts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column(d) reversals of tentative distributions of prior year of unclassified retirements. Show in a footnote the account distributions of these tentative classifications in columns (c) and (d), including the

### ELECTRIC PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column(f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in col-

umn (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

# CONSTRUCTION WORK IN PROGRESS--ELECTRIC (Account 107)

 Report below descriptions and balances at end of year of projects in process of construction (107).

2. Show items relating to "research, development, and demonstration" projects last, under a caption Research,

Development, and Demonstration ( see Account 107 of the Uniform System of Accounts).

Minor projects (5% of the Balance End of the Year for Account 107 or \$100,000, whichever is less) may be grouped.

Date of Report (Mo. Da. Yr) 12/31/97

Year of Report Dec. 31, 1997

### CONSTRUCTION OVERHEADS-ELECTRIC

- 1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 218 furnish information concerning construction overheads.
- 3. A respondent should not report "none" to the page if no overhead apportionments are made, but rather should exp-

lain on page 218 the accounting procedures, employed and the amounts of engineering, supervision and administrative costs, etc. which are directly charged to construction.

4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

| 46         | TOTAL                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | \$56,283,05                                    |

## GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

- 1. For each construction overhead explain: (a) the nature and extent of work, etc. the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Electric Plant Instructions 3(17) of the U.S. of A.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

#### \* ENGINEERING AND SUPERVISION

THE EXPENDITURES REPORTED UNDER THE ABOVE CAPTION INCLUDE PAYROLL, AUTO, EXPENSE ACCOUNTS AND MISCELLANEOUS EXPENSES OF EMPLOYEES ENGAGED ON SPECIFIC PROJECTS, AND ARE CHARGED DIRECTLY TO THE WORK ORDERS INVOLVED, EXCEPT OVERHEAD AND UNDERGROUND DISTRIBUTION LINES. COSTS FOR OVERHEAD AND UNDERGROUND LINES ARE CHARGED DIRECTLY TO A SEPARATE WORK ORDER FOR EACH IN CONSTRUCTION WORK IN PROGRESS, ACCOUNT 107, AND ALLOCATED MONTHLY TO OPEN CONSTRUCTION WORK ORDERS. THE ALLOCATION TO OPEN PROJECTS IS DETERMINED BY THE PERCENTAGE OF DISTRIBUTION, ENGINEERING AND SUPERVISION MONTHLY CHARGES TO THE RELATED CONSTRUCTION WORK IN PROGRESS MONTHLY DIRECT CHARGES.

AMOUNT CAPITALIZED: \$19,448,267

## COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

| Line<br>No. | Title (a)                                        | A     | mount (b)   | Capitalization<br>Ratio(Percent)<br>(c) |   | Cost Rate<br>Percentage<br>(d) |
|-------------|--------------------------------------------------|-------|-------------|-----------------------------------------|---|--------------------------------|
| (1)         | Average Short-Term Debt                          | S     | \$37,745    |                                         |   |                                |
| (2)         | Short-Term Interest                              | 19    |             |                                         | s | 5.99%                          |
| (3)         | Long-Term Debt                                   | D     | \$1,292,668 | 41.02%                                  | d | 7.20%                          |
| (4)         | Preferred Stock                                  | P     | \$33,497    | 1.06%                                   | p | 4.60%                          |
| (5)         | Common Equity                                    | C     | \$1,825,548 | 57.92%                                  | С | 12.00%                         |
| (6)         | Total Capitalization                             | 10273 | \$3,151,713 | 100%                                    |   |                                |
| (7)         | Average Construction<br>Work in Progress Balance | u     | \$255,401   |                                         |   |                                |

- 2. Gross Rate for Borrowed Funds  $s(\frac{S}{u}) + d(\frac{D}{D+P+C})(1-\frac{S}{u})$  3.46%
- 3. Rate for Other Funds  $[1 \frac{S}{W}][p(\frac{P}{D+P+C}) + c(\frac{C}{D+P+C})]$  5.83%
- 4. Weighted Average Rate Actually Used for the Year:
  - a. Rate for Borrowed Funds 3.46%
  - b. Rate for Other Funds 4.35%

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE (continued)

#### GENERAL ADMINISTRATIVE CAPITALIZED

General Administrative capitalized represents the incremental salaries and expenses of General Office Employees whose duties are directly attributable to construction. The costs are charged directly to separate work orders, construction work in progress, account 107, and allocated monthly to open construction work orders. The allocation to open projects is determined by the percentage of general administrative capitalized monthly charges to the monthly construction work in progress charges.

Amount Capitalized: \$1,661,174

## ENGINEERING SERVICES

Includes amounts paid to other companies, firms, or individuals for specialized engineering services and assistance, which are charged directly to related construction work orders.

Amount Capitalized: \$6,128,440

## ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION

The AFUDC rate approved by the Florida public Service Commission at the end of 1997 was 7.81%. Rate order 16371 allowed simple compounding of AFUDC effective January 1, 1986. The monthly compound factor is computed using the following formula:

## (1+R/12)12-1=R=ANNUAL AFUDC RATE

The monthly rate (annual rate /12) is applied to the beginning month's balance plus one half of the prior month's charges - Adjusted for AFUDC and contract retainage. The compounding of AFUDC is computed by multiplying the monthly AFUDC balance by the monthly compound factor. Work orders requiring less than one year to complete and the estimated work order cost is less than .5% of the gross investment of Electric Plant (Account 101) and Completed Construction (Account 106), and blankets are not subject to AFUDC. The in-service date is assumed to be the 15th day of the month for those projects less than \$20,000,000. Projects greater than \$20,000,000 use the actual in-service date.

AFUDC, calculated on nuclear fuel in process balances, is computed using the annual rate divided by twelve. Nuclear fuel is considered in-service when received on site.

Amount Capitalized: \$3,909,991

Page 218-A

#### ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

- Explain in a footnote any important adjustments during year.
- 2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for electric plant in service, pages 204-207, column (d), excluding retirements of non-depreciable property.
- 3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service.
- If the respondent has a significant amount of plant retired at year end which has not been recorded and / or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
- Show separately interest credits under a sinking fund or similar method of depreciation accounting.
